**Ignition!** - John Drury Clark 2018-05-23

This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as "a good book on rocket stuff...that's a really fun one" by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades.

The Hydrogen Sonata - Iain M. Banks 2012-10-09

The New York Times bestselling Culture novel... The Scavenger species are circling. It is, truly, provably, the End Days for the Gzilt civilization. An ancient people, organized on military principles and yet almost perversely peaceful, the Gzilt helped set up the Culture ten thousand years earlier and were very nearly one of its founding societies, deciding not to join only at the last moment. Now they've made the collective decision to follow the well-trodden path of millions of other civilizations; they are going to Sublime, elevating themselves to a new and almost infinitely more rich and complex existence. Amid preparations though, the Regimental High Command is destroyed. Lieutenant Commander (reserve) Vyr Cossont appears to have been involved, and she is now

wanted - dead, not alive. Aided only by an ancient, reconditioned android and a suspicious Culture avatar, Cossont must complete her last mission given to her by the High Command. She must find the oldest person in the Culture, a man over nine thousand years old, who might have some idea what really happened all that time ago. It seems that the final days of the Gzilt civilization are likely to prove its most perilous.

*Crossing the Mangrove* - Maryse Conde 2011-03-02

In this beautifully crafted, Rashomon-like novel, Maryse Conde has  
written a gripping story imbued with all the nuances and traditions of  
Caribbean culture. Francis Sancher--a handsome outsider, loved by some  
and reviled by others--is found dead, face down in the mud on a path  
outside Riviere au Sel, a small village in Guadeloupe. None of the  
villagers are particularly surprised, since Sancher, a secretive and  
melancholy man, had often predicted an unnatural death for himself. As  
the villagers come to pay their respects they each--either in a speech to  
the mourners, or in an internal monologue--reveal another piece of the  
mystery behind Sancher's life and death. Like pieces of an elaborate  
puzzle, their memories interlock to create a rich and intriguing portrait  
of a man and a community. In the lush and vivid prose for which she has  
become famous, Conde has constructed a Guadeloupean wake for  
Francis Sancher. Retaining the full color and vibrance of Conde's  
hometown, *Crossing the Mangrove* pays homage to Guadeloupe in both  
subject and structure.

*Surface Detail* - Iain M. Banks 2010-10-28

It begins in the realm of the Real, where matter still matters. It begins  
with a murder. And it will not end until the Culture has gone to war with  
death itself. Lededje Y'breq is one of the Intagliated, her marked body  
bearing witness to a family shame, her life belonging to a man whose lust  
for power is without limit. Prepared to risk everything for her freedom,

her release - when it comes - is at a price, and to put things right she will need the help of the Culture. Benevolent, enlightened and almost infinitely resourceful though it may be, the Culture can only do so much for any individual. With the assistance of one of its most powerful - and arguably deranged - warships, Lededje finds herself heading into a combat zone not even sure which side the Culture is really on. A war - brutal, far-reaching - is already raging within the digital realms that store the souls of the dead, and it's about to erupt into reality. It started in the realm of the Real and that is where it will end. It will touch countless lives and affect entire civilizations, but at the center of it all is a young woman whose need for revenge masks another motive altogether.

A novel of dazzling wit and serious purpose. An extraordinary feat of storytelling and breathtaking invention on a grand scale, it is a tour de force from a writer who has turned science fiction on its head. "Unexpectedly savage, emotionally powerful, and impossible to forget." —The Times In a world renowned even within a galaxy full of wonders, a crime within a war. For one brother it means a desperate flight, and a search for the one — maybe two — people who could clear his name. For his brother it means a life lived under constant threat of treachery and murder. And for their sister, even without knowing the full truth, it means returning to a place she'd thought abandoned forever. Only the sister is not what she once was; Djan Seriy Anaplian has changed almost beyond recognition to become an agent of the Culture's Special Circumstances section, charged with high-level interference in

civilizations throughout the greater galaxy. Concealing her new identity — and her particular set of abilities — might be a dangerous strategy, however. In the world to which Anaplitan returns, nothing is quite as it seems; and determining the appropriate level of interference in someone else's war is never a simple matter. The Reason You're Alive - Matthew Quick 2017-07-25

From the New York Times bestselling author of *The Silver Linings Playbook* "A compact powerhouse of a novel ... subversive, unexpected, and utterly compelling" Booklist "A valuable addition to fiction about the tangled aftereffects of Vietnam on soldiers in the field" Kirkus After sixty-eight-year-old David Granger crashes his BMW, medical tests reveal a brain tumor that he readily attributes to his wartime Agent Orange exposure. He wakes up from surgery repeating a name no one in his civilian life has ever heard - that of a Native American soldier whom he was once ordered to discipline. David decides to return something precious he long ago stole from the man he now calls Clayton Fire Bear. It might be the only way to find closure in a world increasingly at odds with the one he served to protect. It might also help him finally recover from his wife's untimely demise. As David confronts his past to salvage his present, a poignant portrait emerges: that of an opinionated and goodhearted American patriot fighting like hell to stay true to his red, white, and blue heart, even as the country he loves rapidly changes in ways he doesn't always like or understand. Hanging in the balance are Granger's distant art-dealing son, Hank; his adoring seven-year-old granddaughter, Ella; and his best friend, Sue, a Vietnamese-American who respects David's fearless sincerity. Through the controversial, wrenching, and wildly honest David Granger, Matthew Quick offers a no-nonsense but ultimately hopeful view of America's polarized psyche. By turns irascible and hilarious, insightful and inconvenient, David is a complex, wounded, honorable, and ultimately loving man. *The Reason You're Alive* examines how the secrets and debts we carry from our past

define us; it also challenges us to look beyond our own prejudices and search for the good in our supposed enemies. MORE PRAISE FOR THE REASON YOU'RE ALIVE "Dark, funny, and surprisingly tender."

**India** - Various 2021-03-18

From its very first contact with the West, India has been subject to great mystification. India's long history, the survival of ancient rituals, and its variety of languages and cultures, continues to fascinate. This narrative is intertwined with a newer one that sees the frenetic change of a society

at the forefront of innovation. Success stories coexist alongside stories of daily struggle. A large slice of the population still does not have access to drinking water, and agriculture (still the main source of livelihood for most of the 1.3 billion people who live there) is threatened by climate change. India is a country that does not know how to eradicate one of the

most infamous forms of classism/racism: the caste system. From the resistance of the Kashmiri people to that of atheists - hated by all religious communities - from the dances of the 'hijra' in Koovagam to the success of the female wrestler Vinesh Phogat, learn about the contradictory, terrible and joyful chaos that lies at the heart of India.
