**Financing California Real Estate** - Lynne P. Doti 2016-06-01

California was at the epicentre of the collapse of the real estate market in 2008, which had a devastating effect on the world economy. Taking this diverse and powerful state as a case study, this book presents a financial history of the property business, from the time Spanish Missions were established to the Great Recession. "Financing California Real Estate" provides the history of expansions and contractions in the real estate market, and describes factors in the state and nation which may have triggered changes in the direction of growth in real estate lending. It explores how financial institutions which provided funding for building and buying homes changed over time, from the establishment of Spanish Missions in 1769, to the Gold Rush, to rail transportation, all the way through to the real estate bubble that peaked in 2005. Using detailed information on financial institutions to explain the changing nature of the real estate market, this book ultimately suggests an alternative theory for what led to the Great Recession. This book will be of interest to researchers working in the area of real estate cycles in the economy, historians interested in the economy of California, and

financial historians.

**Introduction to Mortgages and Mortgage Backed Securities** - Richard K. Green 2013-11-21

In *Introduction to Mortgages & Mortgage Backed Securities*, author Richard Green combines current practices in real estate capital markets with financial theory so readers can make intelligent business decisions. After a behavioral economics chapter on the nature of real estate decisions, he explores mortgage products, processes, derivatives, and international practices. By focusing on debt, his book presents a different view of the mortgage market than is commonly available, and his primer on fixed-income tools and concepts ensures that readers understand the rich content he covers. Including commercial and residential real estate, this book explains how the markets work, why they collapsed in 2008, and what countries are doing to protect themselves from future bubbles. Green's expertise illuminates both the fundamentals of mortgage analysis and the international paradigms of products, models, and regulatory environments. Written for buyers of real estate, not mortgage lenders Balances theory with increasingly complex practices of commercial and residential mortgage lending Emphasizes international practices, changes caused by the 2008-11 financial crisis, and the behavioral aspects of mortgage decision making

**An Introduction to Real Estate Finance** - Edward Glickman 2013-10-14

An Introduction to Real Estate Finance serves as the core of knowledge for a single-semester first course in real estate finance. Unlike other real estate finance textbooks, with their encyclopedic but often stale details, it combines a short traditional text with a living website. The book gives students and professors highly applied information, and its regularly updated online features makes it especially useful for this practitioner-oriented audience. It covers fundamental topics such as accounting and tax, mortgages, capital markets, REITs and more. It also addresses the 2008 financial crisis and its impact on the real estate profession. This text is a valuable companion for students of real estate finance as well as financial analysts, portfolio managers, investors and other professionals in the field. Offers a concise, efficient, "finance-centric" alternative to traditional real estate finance texts Website gives readers the tools to find current information about their own areas of specialization—a unique approach not found in other real estate finance textbooks Gives

students and professors the material to examine every subject in broad and highly detailed terms

**Stein on New York Commercial Mortgage Transactions** - Joshua Stein 2009-11-09

"Must reading for anyone who handles substantial commercial mortgage loans in New York." Jonathan Mechanic, chair of the real estate department at Fried, Frank, Harris, Shriver & Jacobson "...a generally useful book, and one that I will frequently turn to." Roger Bernhardt, Professor of Law, Golden Gate; Editor of the California Real Property Law Reporter Written by Joshua Stein of Latham & Watkins LLP, one of the foremost practitioners of commercial mortgage law in New York State and the country, Stein on New York Commercial Mortgage Transactions provides the trenchant analysis and practical guidance that busy commercial real estate attorneys need every day. Comprehensive in scope, this one-volume guide explores the full range of legal issues unique to New York commercial mortgages, including four chapters devoted just to the mortgage recording tax (with emphasis on the myriad problems and issues it creates for closings), title insurance, construction loans and the New York Lien Law, rental income and leases, defaults and acceleration, foreclosure and other remedies, New York choice of law and forum, usury, and lost notes. Other chapters address the closing process and language that needs to appear in every New York mortgage, with complete explanations. Stein on New York Commercial Mortgage Transactions is extensively supplemented with sample language, model documents, and legal checklists that are essential to help avoid the many pitfalls in this area of the law, whether you are representing the borrower or the lender. The book also includes a statutory supplement with all relevant excerpts of the statutes commercial mortgage practitioners need to know about, all presented in a practical and user-friendly format.

**U.S. Housing Policy, Politics, and Economics** - Lawrence A. Souza 2021-10-03

The stirrings of reform or more of the same? U.S. Housing Policy, Politics, and Economics shares a stark and urgent message. With a new president in the White House and the economy emerging from its peak

pandemic lows, the time is right for transformative federal housing legislation—but only if Congress can transcend partisan divides. Drawing on nearly a century of legislative and policy data, this briefing for scholars and professionals quantifies the effects of Democratic or Republican control of the executive and legislative branches on housing prices and policies nationwide. It exposes the lasting consequences of Congress' more than a decade of failure to pass meaningful housing laws and makes clear just how narrow the current window for action is. Equal parts analysis and call to arms, U.S. Housing Policy, Politics, and Economics is essential reading for everyone who cares about affordable, accessible housing.

Climate Adaptation Finance and Investment in California - Jesse M. Keenan 2018-10-26

This book serves as a guide for local governments and private enterprises as they navigate the uncharted waters of investing in climate change adaptation and resilience. This book serves not only as a resource guide for identifying potential funding sources but also as a roadmap for asset management and public finance processes. It highlights practical synergies between funding mechanisms, as well as the conflicts that may arise between varying interests and strategies. While the main focus of this work is on the State of California, this book offers broader insights for how states, local governments and private enterprises can take those critical first steps in investing in society's collective adaptation to climate change.
