GM High - David Roy Morgan 2006-05-22

Mates will do anything for each other. Isn't that what they say? Dave Morrison is a typical country bloke made good. Recently graduated as a scientist, he works for GenTec, a US based

Biotechnology Company with a genetic research facility in Adelaide, Australia. Dave's best mate is Jake Kelly, born on the land to work on the land. Like most he has a few weaknesses. One is his liking to smoke an occasional joint rolled from his own home grown, totally organic cannabis. While Jake reckons his cannabis is the best there is, he thinks Dave may be able to make it even better. Dave tells Jake the whole process to genetically modify a cannabis plant will take years. But Dave hasn't counted on some undercover, high level assistance from the United States. He also has not considered just how high the stakes will reach in this innocent attempt to maintain his lifelong friendship. Remember, when your Mum said 'don't touch'? She just might have been right.

Embedded Formative Assessment - Dylan Wiliam 2011-11-01

Formative assessment plays an important role in increasing teacher quality and student learning when it's viewed as a process rather than a tool. Emphasizing the instructional side of formative assessment, this book explores in depth the use of classroom questioning, learning intentions and success criteria, feedback, collaborative and cooperative learning, and self-regulated learning to engineer effective learning environments for students.

Practice Tests in Math Kangaroo Style for Students in Grades 1-2 - Cleo Borac 2014-06-06

A companion series to our "Competitive Mathematics for Gifted Students," the series "Math Challenges for Gifted Students" offers additional material in practice test form. The workbooks are useful for assessment and for development of testing skills. In full color and with fully detailed solutions, the workbooks may be used as a fun introduction to competitive

problem solving. However, the problems are a bit more difficult than actual Kangaroo problems, exploring a large number of known 'tips and tricks.' One could say it is much more concentrated in that, unlike actual exams, it has less 'filler' - almost every problem is 'tricky' and embodies a specific strategy. The material is excellent for training purposes and has been used by the authors in seminars with hundreds of the most gifted students in the Bay Area. The workbook contains six 24-question tests. After each test there is an answer key. The tests are followed by detailed solutions. The recommended time limit for each test is of 75 minutes. Students who have not been exposed to competitive problem solving will find this book extremely difficult and will need help from an adult. Without preparation, students who get 'A' in school generally score about 50 points out of 96 possible on Kangaroo level 1-2.

The Curious Incident of the Dog in the Night-Time - Mark Haddon 2009-02-24

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a

superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of

exceptional literary merit that is great fun to read.
