Pot Shards - Donald P. Gregg 2014-09-14

“Donald Gregg’s career . . . would make a great spy novel. This autobiography makes an even better book.” —Tim Weiner, Pulitzer

Prize-winning reporter and bestselling author of *Enemies* Pot Shards is a memoir, based on the author’s unforgettable experiences. He served as a CIA agent on the island of Saipan, during ten years in Japan, and a tour in Burma. He then spent four years tied up in the Vietnam War, two tours in Korea, the second time as ambassador, and spent ten years in the White House, where he worked for Jimmy Carter, Ronald Reagan, and George H. W. Bush. “Don Gregg is that authentic and admirable thing: a great American. He spent most of his life serving his country: in the CIA, at the White House and as a US ambassador. He has stories to tell, many of them gripping, and they are beautifully and movingly recollected here in this memoir of a splendid life.” —Christopher Buckley “A personal witness to decades of largely hidden intelligence and diplomatic history, Donald Gregg recounts his unlikely and amazing career as a CIA officer, national security advisor, and US diplomat. His adventures and insider knowledge of US relations with East Asian nations over many decades make for a lively narrative, entertaining for the general reader and useful for serious scholars alike. Through it all, Ambassador Gregg expresses a natural warmth and concern for humanity that makes his story a truly personal journey.” —Nicholas Dujmovic, PhD, CIA Staff Historian, Center for the Study of Intelligence

Classroom Observation Tasks - Ruth Wajnryb 1992

Classroom Observation Tasks shows how to use observation to learn about language teaching. It does this by providing a range of tasks which guide the user through the process of observing, analysing and reflecting, and which develop the skills of observation. The book contains a bank of 35 structured tasks which are grouped into seven areas of focus: the learner, the language, the learning process, the lesson, teaching skills and strategies, classroom management, and materials and resources. Each task looks at one aspect of a particular area; for example, the language a teacher uses to ask questions, or how the teacher monitors learning, or how people interact in a lesson. Each task provides guidance in how to record observations, and questions to help users interpret the data and relate the experience to their own teaching circumstances and practice. [This book]: a- is addressed mainly to teachers, but also caters for trainee teachers, teacher trainers and others involved in school-based teacher support, teacher development and trainer training; b- has a comprehensive introduction to the tasks and a rationale covering the theoretical issues involved; and c- places the responsibility for professional growth in the hands of the teacher. -- Back cover.

Modern Korean - Michael Namkil Kim
2000-07-01

Modern Korean breaks new ground in the field of Korean studies by providing students at last with an intermediate-level language text. The volume emphasizes the development of reading proficiency, but the exercises reinforce skills learned through conversation practice. They use a communicative approach emphasizing student-student and student-teacher interactions in real-life scenarios. Twenty-four lessons are divided into two groups of twelve lessons each. A single lesson consists of a main text, written in expository or descriptive prose that often incorporates a conversational style; a dialogue; a discussion of new word usage and structural patterns; substitution and grammar drills; exercises; and a vocabulary list. The second half of the book introduces Chinese characters found in each lesson. Modern Korean may be used for classroom instruction or self-study. Main text topics cover a wide range of subjects including Korean history, geography, holidays, literature, customs, and people, allowing students to develop a better understanding of Korean society and culture while improving their language skills.

Got It!, Level 2 - Claire Thacker 2010-11-04
Got it! is a course which is comprehensive and innovative in its range of resources, but also offers support and flexibility for the teacher. How does it achieve this? By presenting grammar through dialogues or texts and following up with more detailed analysis,

students are able to check their understanding of meaning and context. They are encouraged to try out new structures and are given opportunities to explore the meaning and usage of new language before it is presented and practised more formally. This allows them to discover the language intuitively for themselves and this sense of achievement helps to motivate them. With a strong emphasis on dialogue work and personalization, students are able to understand how the language can work for them. Targeted skills lessons develop this and build their competence further. The outstanding range of components means that every lesson can be varied and exciting. Whether you prefer using print or digital, or a combination of the two, all the resources are at your fingertips - giving you maximum support and flexibility. Maintaining motivation is always a challenge with teenagers, so the topics for each unit have been carefully chosen to help them become culturally aware. In addition, the broad range of issues covered develops their understanding of values.

The North Korean People's Army - James M. Minnich 2005

For more than fifty years, the combined armed forces of the United States and the Republic of Korea have faced down the North Korean People's Army (NKPA) along the world's most militarized stretch of land known as the demilitarized zone. Despite the prolonged standoff, much remains unknown about the

world's third largest army. In this authoritative study, James M. Minnich blends academic knowledge with nearly twenty-five years of military experience to explain the NKPA's origins, military ideology, strategy, combat formations, and tactics to ensure a full understanding of this reclusive belligerent. At the outset, Minnich examines the first crucial years of the North Korean state and its army. Solidly grounded in primary sources and buttressed by the judicious use of secondary sources, his work traces the formative elements of the Korean partisans, Soviet Army, and Chinese communists to show how each group contributed to the NKPA's development and its ability to mount the first shooting campaign of the Cold War. This timely book then presents a vitally relevant examination of the NKPA's current military tactics, including its seven forms of offensive maneuver, two forms of defense, and tactical artillery groupings. Required reading for military planners and personnel who must remain prepared to rapidly deploy to Korea, this concise profile will also appeal to students of Korean history and those seeking a deeper understanding of the NKPA.

Think No Evil - C. Fred Alford 1999

In this investigation of the contemporary notion of evil, C. Fred Alford asks what we can learn about this concept, and about ourselves, by examining a society where it is unknown--where language contains no word that equates to the English term "evil." Does such a society look upon human nature more benignly? Do its members view the world through rose-colored glasses? Korea offers a fascinating starting point, and Alford begins his search for answers there. In conversations with hundreds of Koreans from diverse religions and walks of life--students, politicians, teachers, Buddhist monks, Confucian scholars, Catholic priests, housewives, psychiatrists, and farmers--Alford found remarkable agreement about the nonexistence of evil. Koreans regard evil not as a moral category but as an intellectual one, the result of erroneous Western thinking. For them,

evil results from the creation of dualisms, oppositions between people and ideas. Alford's interviews often led to discussions about imported ways of thinking and the impact of globalization upon society at large. In particular, he was struck by how Koreans' responses to globalization matched Westerners' views about evil. In much of the world, he argues, globalization is the ultimate dualism--attractive for the enlightenment and freedom it brings, terrifying for the great social and personal upheaval it can cause.

2001-01-01

Advanced Korean - Ross King 2015-04-07

Advanced Korean offers a complete, systematic, and streamlined third-year course in Korean. It is ideal for university students and adult learners with plentiful reading texts and written exercises, all in Korean Hangul. Concise Korean grammar notes in English, extensive glossaries, and an answer key make this book suitable for those studying alone, as well as for classroom use. There are 20 comprehensive lessons, each with a reading text in which new language is introduced in context, followed by vocabulary, grammar points, and exercises. Lessons 5, 10, 15 and 20 are short reviews of the key structural patterns introduced. The focus is on written Korean, but the reading texts are not academic, they are breezy, chatty, and amusing, with illustrations. The textbook comes with a downloadable supplement entitled Sino-Korean Companion. It is for those learners wishing to commence the study of Chinese characters as they are used in the Korean language. The 20 lessons build on the content of the lessons in the main textbook to introduce 500 Chinese characters in their Sino-Korean readings. The emphasis is on giving students the tools they need to decipher unfamiliar Chinese characters on their own, and also on Sino-Korean vocabulary acquisition. Each lesson introduces approximately 25-30 new Chinese characters

along with related vocabulary items, and builds on previous characters and vocabulary introduced, demonstrating the cumulative effect on one's vocabulary of paying systematic attention to Sino-Korean.

Friend - Paek Nam-nyong 2020-05-05

Paek Nam-nyong's Friend is a tale of marital intrigue, abuse, and divorce in North Korea. A woman in her thirties comes to a courthouse petitioning for a divorce. As the judge who hears her statement begins to investigate the case, the story unfolds into a broader consideration of love and marriage. The novel delves into its protagonists' past, describing how the couple first fell in love and then how their marriage deteriorated over the years. It chronicles the toll their acrimony takes on their son and their careers alongside the story of the judge's own marital troubles. A best-seller in North Korea, where Paek continues to live and write, Friend illuminates a side of life in the DPRK that Western readers have never before encountered. Far from being a propagandistic screed in praise of the Great Leader, Friend describes the lives of people who struggle with everyday problems such as marital woes and workplace conflicts. Instead of socialist-realist stock figures, Paek depicts complex characters who wrestle with universal questions of individual identity, the split between public and private selves, the unpredictability of existence, and the never-ending labor of maintaining a relationship. This groundbreaking translation of one of North Korea's most popular writers offers English-

language readers a page-turner full of psychological tension as well as a revealing portrait of a society that is typically seen as closed to the outside world.

Korean Reader for Chinese Characters will help students of Korean master basic Chinese characters that are frequently encountered in everyday situations. More than five hundred characters are targeted in exercises that aid in the efficient study of the forms, meanings, and sounds of individual characters and their compounds. Although the primary goal of the Reader is recognition of basic Chinese characters, students are encouraged to learn to write them properly by inclusion of a section on stroke order. The Reader is also designed to reinforce skills in reading and writing in Korean while studying Chinese characters. Forty lessons are preceded by an introductory chapter on the principles of Chinese character formation and reading and writing characters and followed by appendices on stroke order, English translations of the main reading text of each lesson, and an index of characters. The lessons are organized into seven parts: new characters, reading text, glossary, notes, new words in characters, more words in characters, and exercises. After every

fifth lesson, there is a section reviewing all the characters introduced in the preceding five lessons.
