The Unique Technique - Maria Higgins
2016-02-02

I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city

that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image

strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

The Four Great Questions of Life - James N. Judd 2000-03-16

Rare is the person who, at some time or another, has not found himself/herself pondering one or more of the four great questions of life Who am I? Where did I come from What is my purpose? And, Where am I going? Such questions invariably arise when there is some crisis in ones personal affairs, but due to the emotional confusion that usually accompanies such crises it is difficult to reason out answers to such profound metaphysical questions. Answers appear in the worlds religions, but there is such a variance of opinion between the different theologies that trying to find a definitive solution among all of those divergent teachings only develops more confusion. There is, however, a common inner or mystical foundation to all

religions that supports their man-made dogmas, creeds and rituals which provides the clear answers all of us are looking for. This consistency and enduring nature of the ideas that form this foundation or ground of religion has resulted in those ideas being collectively referred to as the Perennial Philosophy of mysticism. There can be some difficulty, however, in finding the answers within this Perennial Philosophy because the concepts are metaphysical in nature; and this means they are beyond the range of our normal linear way of thinking and, so, not readily obvious. They are, so to speak, locked-up, and a key is needed for us to be able to discover their wisdom. In this book, *The Four Great Questions of Life*, Dr. Judd provides that key and, Clearly shows where these answers appear in various religious teachings Uses down-to-earth illustrations to explain what they mean Shows the universal application of the ideas embodied in the Christian Trinity Describes how the Law of

Karma (cause/effect) and Reincarnation are compatible with Christianity Provides a logical explanation and definition that removes the mystery of the nature of good and evil. For anyone who has ever struggled to find any meaning in such questions as, Who am I? What is my purpose in living? and so on, this book offers clear-cut and practical answers which, irrespective of ones religious background, show the way to a happy and fulfilling life.

Where Do Babies Come From? - Jillian Roberts 2015-10-13

An engaging introduction for very young children to the basic facts of life in a way that is gentle, age-appropriate and accessible. Child psychologist Dr. Jillian Roberts created the Just Enough series to help parents and caregivers approach difficult subjects with little ones. These primers offer a gentle and accessible starting point for conversations about important topics. Research shows that children are learning about sex at an increasingly young age and often from undesirable sources. The Q&A format, with questions posed in the child's voice and answers starting simply and becoming gradually more in-depth, allows the adult to guide the conversation to a natural and satisfying conclusion. Additional

questions at the back of the book allow for further discussion. *Where Do Babies Come From?* is the first book in the Just Enough series. Other topics in the series include death, cultural diversity and separation or divorce.

The Complete Married With Children Book: TV's Dysfunctional Family Phenomenon - Denise Noe

2017-08-13

Married . . . with Children premiered on Fox TV in 1987 and updated the Don Ameche and Frances Langford radio comedy series, *The Bickersons*, and Jackie Gleason's TV classic, *The Honeyymooners*, with a raunchy, cutting-edge slant that focused on a lovable yet laughable family headed by endearingly flawed Al (Ed O'Neill), his housework-hating wife, sexy daughter, and randy son. For 11 seasons, the brilliant team of talent put the funk in dysfunctional. Rediscover the exhilarating humor and intellectual excitement in Denise Noe's first book. She delves behind-the-scenes with Michael Moye, Ron Leavitt, Ed O'Neill, Katey Sagal, Christina Applegate, David Faustino, David Garrison, Amanda Bearse, E. E. Bell, and Ritch Shydney. You'll be fascinated by the story of how two rogue writers created a deliberately off-the-wall program; how it almost got derailed before production began; how a controversy could have plucked the series off the

air but ended up injecting a much needed shot in the arm; how a reality-based show occasionally—and courageously—ventured into comedy with a fantasy, horror, and/or science fiction spin. Come from Away - Genevieve Graham
2018-04-24

From the bestselling author of *Tides of Honour* and *Promises to Keep* comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf

packs” of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone’s throw from Grace’s window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. Come from Away is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.
