## **Into the War** - Italo Calvino 2014

"These three stories, set during the summer of 1940, draw on Italo Calvino's memories of his own adolescence during the Second World War, too young to be forced to fight in Mussolini's army but old enough to be conscripted into the Italian youth brigades. The callow narrator of these tales observes the mounting unease of a

city girding itself for war, the looting of an occupied French town, and nighttime revels during a blackout. Appearing here in its first English translation, *Into the War* is one of Calvino's only works of autobiographical fiction. It offers both a glimpse of this writer's extraordinary life and a distilled dram of his wry, ingenious literary voice."--from cover, page [4].

**Lost in the Spanish Quarter** - Heddi Goodrich 2019-09-10  
As seen in the New York Times Book Review. Set in the passionate, intense, and crumbling neighborhood known as the Spanish Quarter of Naples, comes a tale of two students searching for love and belonging in the city they so desperately want to call home. Years after leaving Naples with a broken heart, Heddi

receives an email from her first love. Although she now lives in New Zealand, just the thought of the Spanish Quarter's narrow, winding streets sparks the pain of longing. Heddi had found her place in that city built on Roman ruins and set against a sleeping volcano. A place she wants to call home despite being l'americana or the American. For Heddi's group of university friends, Naples is either a refuge from their familial responsibilities or an entryway to a wider world. But for all of them, Naples was their real university of life: the setting of their unrestrained youth. When Heddi first met Pietro at a party hosted by her bohemian roommates, she was inexplicably drawn to the serious geology student. Despite coming from wildly different backgrounds—Heddi, a nomadic American; Pietro, an Italian farm boy—the two fell into a liberating romance. She was searching for the roots she never had, while he tried to escape his. Yet even after the two were doomed to part ways, their story isn't finished just yet.

Inspired by her own 10-year search for belonging in Naples, author Heddi Goodrich gives readers a passionate tale of a life caught between two worlds and a heartfelt ode to first love—of a place, of a person— where languages and cultures collide while dreams soar and crash in unexpected ways.

*Handbook of International Futurism* - Günter Berghaus 2018-12-17

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary

phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the context of their national traditions, their international connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

The Cloven Viscount - Italo Calvino 2012-10-26  
When a nobleman is split in two, his separate halves pursue different adventures in a fantastically macabre tale by the author of Invisible Cities. It is the seventeenth century, and the Viscount Medardo of Terralba must go

into battle against the Turks. But the inexperienced warrior is soon bisected lengthwise by a cannonball. Through a miracle of stitching, one half of him survives, returning to his feudal estate to lead a lavishly evil life. But soon his other, virtuous half appears—also very much alive. When the two halves become rivals for the love of the same woman, there's no telling the lengths each will go to in order to win. Now available in an independent volume for the first time, this deliciously bizarre novella of is Calvino at his most devious and winning.

**On Ugliness** - Umberto Eco 2011

Beauty and ugliness are two sides of the same coin; by ugliness we usually mean the opposite of beauty and we often define the first in order to understand the nature of the second. But the various depictions of ugliness over the centuries are richer and more unpredictable than is commonly thought. The striking images and anthological quotations in *On Ugliness* lead us on an extraordinary journey through the passions, terrors and nightmares of almost three thousand years, where acts of rejection go hand in hand with touching instances of empathy, and an aversion to deformity is accompanied by seductive violations of all classical canons. With his characteristic wit and erudition, Umberto Eco draws on examples in art and literature from ancient times to the present day.

Abundantly illustrated with demons, madmen,

vile enemies and disquieting presences, with freaks and the living dead, *On Ugliness* is conceived for a vast and diverse readership, and is an invaluable companion volume to *On Beauty*.

**Biographies and Autobiographies in Modern Italy: a Festschrift for John Woodhouse** -

Martin McLaughlin 2017-12-02

"Critical interest in biography and autobiography has never been higher. However,

while life-writing flourishes in the UK, in Italy it is a less prominent genre. The twelve essays collected here are written against this backdrop, and address issues in biographical and autobiographical writing in Italy from the later nineteenth century to the present, with a particular emphasis on the interplay between individual lives and life-writing and the wider social and political history of Italy. The majority of essays focus on well-known writers (D'Annunzio, Svevo, Bontempelli, Montale, Levi, Calvino, Eco and Fallaci), and their varying anxieties about autobiographical writing in their work. This picture is rounded out by a series of studies of similar themes in lesser known figures: the critic Enrico Nencioni, the Welsh-Italian painter Llewellyn Lloyd and Italian writers and journalists covering the Spanish Civil War. The contributors, all specialists in their fields, are Antonella Braida, Charles Burdett, Jane Everson, John Gatt Rutter, Robert Gordon, Gwyn Griffith, Peter Hainsworth, Martin

McLaughlin, Gianni Oliva, Giuliana Pieri, and Jon Usher. The volume is dedicated to John Woodhouse, on his seventieth birthday, and concludes with a bibliography of his writings."

**Robinson Crusoe** - Daniel Defoe 2021-03-03  
In Robinson Crusoe, Crusoe washes up on an uninhabited island on the North American coast. He lives there for twenty-eight years, documenting his physical and spiritual growth in his journal. Then one day a British ship sails by the island, and he is rescued. In the mid 17th century, Robinson Crusoe begins his career as a sailor, against the wishes of his parents, who would prefer him to go into law. Crusoe survives a deadly shipwreck in the Caribbean and manages to set up a camp for himself on an uninhabited island. Much of the story follows the

time Crusoe spent building his shelter and other things to make his life more comfortable. He documents his gardening, goat raising, and hunting, as well as his religious reflections.

*Eva Hesse* - Lucy R. Lippard 1992-08-21

As Lippard points out, Hesse's use of obsessive repetition in her works served to increase and exaggerate the absurdity she saw in her life. In many ways, her works were "psychic models," as Robert Smithson has said, of "a very interior person." In pioneering the use of "soft" materials, her sculptures betrayed her awareness of the manner in which her experience as a woman altered her art and career. Although she died before feminism affected the art world to any great extent, her major works have since become talismans for succeeding generations of women artists. Eva Hesse was designed by Hesse's friends and colleagues Sol LeWitt and Pat Stier; her sculptures, drawings, and paintings are reproduced and discussed; and the text includes

numerous quotations from her diaries. First published in 1976 but long out-of-print, this classic text is both an insightful critical analysis and a tribute to an artist whose genius has become increasingly apparent with the passage of time.

**Nostalgia** - Helmut Illbruck 2012-10-31

Helmut Illbruck traces the concept of nostalgia from the earliest uses of the term in the seventeenth century to today as it evolves with different meanings and intensities in the discourses of medicine, literature, philosophy, and aesthetics. Following nostalgia's troubled relations to the philosophical project of the Enlightenment, Illbruck's study builds a cumulative argument about nostalgia's modern significance that often revises and thoroughly enriches our understanding of cultural, literary, and intellectual history. Illbruck concludes with an attempt at a reinterpretation and defense of nostalgia, which seduces us to read and think with, rather than against, nostalgia's wistful yearning for the past. Nostalgia: Origins and Ends of an Unenlightened Disease is a

comprehensive, insistent, and profound interdisciplinary investigation of the history of an idea. It should appeal to readers interested in the cultural makings of the Enlightenment and modernity or in the histories of medicine, literature, and philosophy.

Una storia sull'amicizia, sulla saggezza e su come essere MOLTO RUMOROSI. *Collezione Giuseppe Iannaccone* - Alberto Salvadori 2018-02-15

The first volume on the Collezione Giuseppe Iannaccone covers the works produced in the period 1920-45, personally chosen by the collector and purchased up to the date of 30 November 2016. The collection was built up specifically as a homogeneous group of works essentially representing the course of artistic developments from 1920 to 1945 outside the canons of the Novecento Italiano movement and the "return to order". The first part of the book is devoted to Giuseppe Iannaccone and his personal vision of the history of art, describing the life and the decisions that characterize the collection with the greatest possible fidelity. Flavio Fergonzi then presents the twenty-five years in question with a study that puts forward and examines twelve critical themes for Italian art. This is followed by essays meticulously analyzing the cultural, historical and artistic events of the period 1920-45 by scholars who have explored and studied the collection in depth. The rich critical apparatus comprises a

list of the works with all the technical data required for the purposes of historical reconstruction; a critical chronology of the period 1920-45 including events in Italy's political and social history, biographical data, information on exhibitions, prizes and publications regarding the artists concerned and a critical anthology for each work; a list in chronological order of exhibitions featuring the works; and a bibliography by artist in alphabetical order including books, newspapers, periodicals and exhibition catalogues.
