First Comes Love - Marion Winik 2009-09-16
A New York Times Notable Book of the Year
When Marion Winik fell in love with Tony Heubach during a wild Mardi Gras in New Orleans, her friends shook their heads. For starters, she was straight and he was gay. But Marion and Tony's impossible love turned out to be true enough to produce a marriage and two beautiful sons, true enough to weather drug addiction, sexual betrayal, and the AIDS that would kill Tony at the age of thirty-seven, twelve years after they met. In a memoir heartbreaking and hilarious by turns, Marion Winik tells a story that is all more powerful for the way in which it defies easy judgments. As it charts the trajectory of a marriage so impossible that it became inevitable, *First Comes Love* reminds us—poignantly indelibly—that every story is a special case.

“Build a better brew by mastering 10 manual methods, from French Press to Chemex, with this comprehensive guide.” —Imbibe Magazine
Named a top food & drink book of 2017 by Food Network, Wired, Sprudge, and Booklist This comprehensive but accessible handbook is for the average coffee lover who wants to make better coffee at home. Unlike other coffee books, this one focuses exclusively on coffee—not espresso—and explores multiple pour-over, immersion, and cold-brew techniques on 10 different devices. Thanks to a small but growing number of dedicated farmers, importers, roasters, and baristas, coffee quality is at an all-time high. But for nonprofessionals, achieving café quality at home can seem out of reach. With dozens of equipment options, conflicting information on how to use that equipment, and an industry language that, at times, doesn't seem made for the rest of us, it can be difficult to know where to begin. *Craft Coffee: A Manual*, written by a coffee enthusiast for coffee enthusiasts, provides all the information readers need to discover what they like in a cup of specialty coffee—and how to replicate the perfect cup day after day. From the science of extraction and brewing techniques to choosing equipment and deciphering coffee bags, *Craft Coffee* focuses on the issues—cost, time, taste, and accessibility—that home coffee brewers negotiate and shows that no matter where you

are in your coffee journey, you can make a great cup at home. “Engaging and fun . . . I really can’t recommend *Craft Coffee: A Manual* enough. If you’re even mildly curious about brewing coffee at home, it’s absolutely worth a read.” —BuzzFeed

Spies, Lies, and Exile - Simon Kuper 2021-06-25

“Fascinating, rich, and probing . . . a beguiling and endlessly interesting portrait”—The Wall Street Journal For fans of John le Carré and Ben Macintyre, an exclusive first-person account of one of the Cold War’s most notorious spies “Kuper provides a different and valuable perspective, humane and informative. If the definition of a psychopath is someone who refuses to accept the consequences of his actions, does George fit the definition? There he sits, admitting it was all for nothing, but has no regrets. Or does he?” —John le Carré Few Cold War spy stories approach the sheer daring and treachery of George Blake’s. After fighting in the Dutch resistance during World War II, Blake joined the British spy agency MI6 and was stationed in Seoul. Taken prisoner after the North Korean army overran his post in 1950, Blake later returned to England to a hero’s welcome, carrying a dark secret: while in a communist prison camp in North Korea, he had secretly switched sides to the KGB after reading Karl Marx’s *Das Kapital*. As a Soviet double agent, Blake betrayed uncounted western spying operations—including the storied Berlin Tunnel, the most expensive covert project ever undertaken by the CIA and MI6. Blake exposed hundreds of western agents, forty of whom were

likely executed. After his unmasking and arrest, he received, for that time, the longest sentence in modern British history—only to make a dramatic escape to the Soviet Union in 1966, five years into his forty-two-year sentence. He left his wife, three children, and a stunned country behind. Much of Blake’s career existed inside the hall of mirrors that was the Cold War, especially following his sensational escape from Wormwood Scrubs prison. Veteran journalist Simon Kuper tracked Blake to his dacha outside Moscow, where the aging spy agreed to be interviewed for this unprecedented account of Cold War espionage. Following the master spy’s death in Moscow at age ninety-eight on December 26, 2020, Kuper is finally able to set the record straight.

Spilling the Beans Too - Samuelin Martinez 2015-07-24

Imagine living in a world that hates you, and becoming aware of this witnessing how that hate hurts your mother daily. At five I held my Ama's tired head and swore an oath, when I get big I will work hard so you won't be so tired. Look through my lens, and see Corporate America exploiting and overexposing my mother to toxic waste, and toxic relationships stressing her

native will to protect me from all that she suffered as a child. I invite you to consider my agony and adoring love that inspired this indictment; Corporate America killed my mother! Cancer is not a normal death; it is murder because corporations know their waste is toxic. I provide evidence, beyond a reasonable doubt, that our native maternal relationship was a military target for America to "Kill the Indian save the child." How can a country be so cruel, feel no empathy and deny there was a related American Holocaust? I submit historical evidence that America is a socio-pathic mass murderer. I also charge Corporate America with Child Abuse and Neglect, violating the United Nations Charter on the Human Rights of the Child. The evidence, beyond a reasonable doubt, is the millions of homeless, hungry, sick and under educated children stressed, in the richest country in the world preying "In God we Trust." What is feigned love without justice or freedom? A crime confusing profit with prophet. For example, pediatrician Nadine Burke Harris explains that "the repeated stress of abuse, neglect has real, tangible effects on the development of the brain. This unfolds across a lifetime with triple risk for heart disease and lung cancer." The related Adverse Childhood Experiences (ACE) Study "associations childhood maltreatment and later-life health and well-being." Their focus is toxic parenting, mine is a toxic American history.

Spilling the Beans Over Coffee - Linda Smith Kortemeyer 2010

Starting the day with a cup of coffee, reading an inspirational book, and focusing on family or friends is a positive way to gather the strength needed to face the challenges ahead. Once a person retires there is more time to spend reflecting on the things accomplished in life, and since the routine schedule changes there is time to finish all those projects on your "bucket list". Questions surface about whether the relatives in your family really knew you as well as they thought. You wonder if children, spouses, and friends realized the importance they played in

your life or knew all the things you learned from them. Writing your stories down is more than just a review of your experiences, but it is a picture of your emotional and spiritual soul. In searching through records, there comes a realization many facts are lost and details missing from family history. There are photos found in file folders without labels, dates, or names. You wonder why someone left this puzzle to be found unless these are special pieces in the mystery of someone's life. So pour a cup of coffee, sit down with this book, think about things in your own journey on life's path that you would like to pass on to others, and listen to your heart.

The study of food in literature complicates established critical positions. Both a libidinal pleasure and the ultimate commodity, food in fiction can represent sex as well as money and brings the body and the marketplace together in ways that are sometimes obvious and sometimes unsettling. *Spilling the Beans* explores these relations in the context of late eighteenth and early nineteenth century women's fiction, where concerns about bodily, economic and intellectual productivity and consumption power decades of novels, conduct books and popular medicine. The introduction suggests ways in which attention to food in these texts might complicate recent developments in literary theory and criticism, while the body of the book is devoted to close readings of novels and children's stories by Frances Burney, Mary Wollstonecraft, Maria Edgeworth and Susan Ferrier. This book will be of interest to scholars and students of eighteenth and nineteenth century literature, women's studies and material culture.

Spilling the Beans in Chicanolandia - Frederick Luis Aldama 2010-01-01

Since the 1980s, a prolific "second wave" of Chicano/a writers and artists has tremendously expanded the range of genres and subject matter in Chicano/a literature and art. Building on the pioneering work of their predecessors, whose artistic creations were often tied to political activism and the civil rights struggle, today's Chicano/a writers and artists feel free to focus as much on the aesthetic quality of their work as on its social content. They use novels, short stories, poetry, drama, documentary films, and comic books to shape the raw materials of life into art objects that cause us to participate empathetically in an increasingly complex Chicano/a identity and experience. This book presents far-ranging interviews with twenty-one "second wave" Chicano/a poets, fiction writers, dramatists, documentary filmmakers, and playwrights. Some are mainstream, widely recognized creators, while others work from the margins because of their sexual orientations or their controversial positions. Frederick Luis Aldama draws out the artists and authors on both the aesthetic and the sociopolitical concerns that animate their work. Their conversations delve into such areas as how the artists' or writers' life experiences have molded their work, why they choose to work in certain genres and how they have transformed them, what it means to be Chicano/a in today's pluralistic society, and how Chicano/a identity influences and is influenced by contact with ethnic and racial identities from around the world.

Spilling the Beans - Annabel Townsend 2012
Coffee is important. For some, it is the fuel that gets you through the day. For others, it is a business and a livelihood. It is the second most traded commodity in the world after oil, its production employs over 25 million people worldwide, and it is one of the most widely consumed beverages in the world as well. The coffee industry has suffered in recent decades with global prices falling dramatically, affecting the livelihood of millions. However, it is making a rapid recovery through alternative trade models, ethical trade initiatives and increasing consumer awareness. This book explores the rise of the 'speciality' coffee industry, which is driven by the constant pursuit of quality. What 'high quality coffee' actually means, how it is achieved and how its quality is assessed are extremely complex issues within this globalised industry. The book takes the form of a 'commodity ethnography', examining the cultures of coffee that are created throughout and around the production of the little brown beans.
