**Peace Child** - Don Richardson 2005-08-08

From Cannibals to Christ-Followers--A True Story In 1962, Don and Carol Richardson risked their lives to share the gospel with the Sawi people of New Guinea. Peace Child tells their unforgettable story of living among these headhunters and cannibals, who valued treachery through fattening victims with friendship before the slaughter. God gave Don and Carol the key to the Sawi hearts via a redemptive analogy from their own mythology. The "peace child" became the secret to unlocking a value system that had existed through generations. This analogy became a stepping-stone by which the gospel came into the Sawi culture and started both a spiritual and a social revolution from within. With an epilogue updating how the gospel has impacted the Sawi people, this missionary classic will inspire a new generation of readers who need to hear this remarkable story and the lessons it teaches us about communicating Christ in a meaningful way to those around us.

Motus Dei - Warrick Farah 2021-10-19

Discover Your Place in the Movement of God An incredible breakthrough in missions history is taking place as disciples of Jesus make more disciples of Jesus around the globe, particularly among the least-reached. But what exactly are these church planting or disciple making movements? Where are they occurring and what are their unifying features? How are they manifesting in diverse populations? And can you or your organization be instrumental in catalyzing more movements? Motus Dei, Latin for "movement of God," seeks to answer these questions and more. Warrick Farah has expertly synthesized an extensive conversation between mission practitioners, scholars, and seasoned movement leaders from around the world. The resulting in-depth analysis of movements provides a multi-disciplinary academic investigation of an emerging "movements missiology," highlighting the importance of theology, social sciences, ethnology and anthropology, communications theory, leadership theory, and statistical analysis. Motus Dei locates the

current Church Planting Movement (CPM) phenomenon within modern history, while tracing its roots back to the first century, and articulates a missiological description of the dynamics of Disciple Making Movements (DMMs) in Asia, Africa, and diaspora contexts in the Global North.

Offering over thirty first-hand accounts of indigenous churches planting churches among the nations, *Motus Dei* provides a seedbed for growing movements in diverse contexts. There are lessons to be learned here by anyone seeking to participate in the movement of God.

*Migration and the Making of Global Christianity* - Jehu J. Hanciles 2021-03-16

A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread. Human migration has long been identified as a driving force of historical

change. Building on this understanding, Jehu Hanciles surveys the history of Christianity's global expansion from its origins through 1500 CE to show how migration—more than official missionary activity or imperial designs—played a vital role in making Christianity the world's largest religion. Church history has tended to place a premium on political power and institutional forms, thus portraying Christianity as a religion disseminated through official representatives of church and state. But, as Hanciles illustrates, this "top-down perspective overlooks the multifarious array of social movements, cultural processes, ordinary experiences, and non-elite activities and decisions that contribute immensely to religious encounter and exchange." Hanciles's socio-historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence, while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia. In turning the focus of the story away from powerful empires and heroic missionaries, *Migration and the Making of Global Christianity* instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world.

*God's Feminist Movement* - Amber Picota 2016-07-19

Experience True Liberation by Seeing Your Beauty, Femininity, and Freedom From Heavens Point of View Has Christianity kept women trapped in the stone age? In many ways, yes; but this is not by Gods design. As society offers women opportunities to explore outer-space and govern nations, the church often stifles and limits them. The tide is changing, though. Amber Picotas Gods Feminist Movement is a new covenant manifesto calling women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the course of history with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. Its not politically driven and its not being championed by an uprising of angry man-haters. Based on an intense study of Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and Modesty Female Leaders in the Church Submission in Marriage Beauty and Self-Image Celebrate the power and beauty of womanhood. God has given you permission to change the world by being you! Break off religious traditions that keep women trapped in old school legalism and move beyond Christian clichés that minimize a womans true position in Christ!

Social Justice, Global Dynamics - Ayelet Banai 2011-04-06

Many theoretical publications make assumptions about the facts of globalization, and in particular about the role and autonomy of the nation

state. These factual claims and assumptions often play an important role in justifying the normative conclusions, yet remain under-explored. This interdisciplinary volume examines questions that are central to the problems of both social and international justice, and in particular, to their interdependence: How do global and transnational factors influence the capacity of states to be internally just? Has the state lost its capacity for autonomous action in the global economy, and thus its ethical significance for theories of justice? If so, which institutional reforms could address this problem? What is the role of the state in a just international order? The authors address important connections between domestic social justice and global dynamics, by identifying problematic practices and trends in the current global order. They examine political, economic and legal changes and offer normative views on concrete policies and institutions that are particularly important and/or problematic - i.e. international health policies, the World Bank, taxation policies and the World Trade Organization. Focusing on the relationship between social and global justice and establishing connections between political theory and empirical research, this book is vital reading for students and scholars of Politics, International Relations, and Development Studies.
