Timeshift - Ron Maier 2007-07

A deluge of rain and a strange hitchhiker combine to transport martial arts champion Noah King on a bizarre course to an alternate world. Days whiz by in a fraction of a second when he enters a mysterious fog. His passenger, Sylv, is not what she seems. She admits to being a Tabizi, the instigator of his fog-encased journey to World 5. She has chosen him to intervene in the anarchy of a split world two hundred years in the future. Time reversal fails, and Sylv is stranded with Noah. She deserts him in the forest, and becomes known as Dark Seeress. Noah discovers he must fight the anarchist leader in blood sport to survive. After he defeats his opponent, an influential dwarf proclaims him the new king. Captive women flee to the forest, where Sylv declares all women are under her protection. Noah learns this world

was split by quakes and volcanic action that left a 100 meter high Great Wall circling the globe. Cannibals roam the Wasteland on one side, preying on refugees. War is imperative to keep the savages out of Noah's lush green kingdom, but Sylv refuses to ally herself and the other women with his forces.

Please Undo This Hurt - Seth Dickinson 2015-09-16

Ever feel like you care too much? After a breakup, after the funeral...it feels like the way to win at life is to care the least. That's not an option for Dominga, an EMT who cares too much, or her drinking buddy Nico, who just lost his poor cat. Life hurts. They drink. They talk: Nico's tired of hurting people. He wants out. Not suicide, not that - he'd just hurt everyone who loves him. But what if he could erase his whole life? Undo the fact of his birth? Wouldn't Dominga be having a better night, right now, if she didn't have to take care of him? And when Dominga finds a way to do just that, when she is

gifted or armed with a terrible cosmic mercy, she still cares enough to say: I am not letting him have this. I am not letting Nico go without a fight. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Outlander - Diana Gabaldon 1998-08-10
#1 NEW YORK TIMES BESTSELLER • The first book in Diana Gabaldon's acclaimed Outlander saga, the basis for the Starz original series. One of the top ten best-loved novels in America, as seen on PBS's The Great American Read! Unrivaled storytelling. Unforgettable characters. Rich historical detail. These are the hallmarks of Diana Gabaldon's work. Her New York Times bestselling Outlander novels have earned the praise of critics and captured the hearts of millions of fans. Here is the story that started it all, introducing two remarkable characters, Claire Beauchamp Randall and Jamie Fraser, in a spellbinding novel of passion and history that combines exhilarating adventure with a love story for the ages. Scottish Highlands, 1945.

Claire Randall, a former British combat nurse, is just back from the war and reunited with her husband on a second honeymoon when she walks through a standing stone in one of the ancient circles that dot the British Isles.

Suddenly she is a Sassenach—an “outlander”—in a Scotland torn by war and raiding clans in the year of Our Lord . . . 1743. Claire is catapulted into the intrigues of a world that threatens her life, and may shatter her heart. Marooned amid danger, passion, and violence, Claire learns her only chance of safety lies in Jamie Fraser, a gallant young Scots warrior. What begins in compulsion becomes urgent need, and Claire finds herself torn between two very different men, in two irreconcilable lives.

Nibiru - Luna Blackwood 2012-07-11

The theme was inspired by reality and perceived reality as well as the events I went through and experienced. The heroine of the book is René, an Eastern-European woman in her thirties, who lives alone with her daughter. She has been looking for answers in all her life. She has always felt herself an outsider, which the people around her also made her feel. She has never found her place, she has had the gut feeling that she does not belong to this world. Lots of people consider her a lunatic, so they avoid her or cut off all contact with her. She has been tortured by dreams that happened in previous ages hundreds of years ago. As he grows up, they become more and more realistic, which provoke more and more intense feelings in her. Having grown up as an orphan, she does not know about her origins, she knows nothing about her past. Her doubts culminate when her daughter reaches the age of ten, because only then does René realize that her daughter is carrying

similar burdens. Both of their dreams are about the same thing but from a different perspective. They are involved as different characters. They experience each dream as if it had happened to them earlier, which makes it more and more difficult for them to separate from reality. René's senses become stronger, however, she has no idea how her perceived reality will form a new shape soon. She has the gut feeling that something fateful is about to happen to them, which she cannot prevent. In the meantime, at a faraway place in the universe, Planet Nibiru is struggling with serious problems. As a result, it has to send a reconnaissance team. The ruler of Planet Nibiru is dying, without a successor, reconnoiters have to seek a possible Chosen One, who might be capable of filling the ruler's position. After several years of search, they detect an increasing signal, which comes from Earth, and which used to characterize the royal family. The fate of their lives and their future are in René's and her daughter's hand, as they soon

realize that they both possess the abilities of the Chosen One and also how all this could have happened. The lives of René and her daughter suddenly change 180 degrees, when the reconnoiters of Nibiru, who have never been seen before, appear on the Earth to take them to their Planet. Unfortunately, the mission does not go smoothly, because the Russian and the American Armies also detected the aliens' arrival, and they want to know at any cost, why the aliens came to the Earth. The Pentagon sends a military plane to Hungary, Eastern-Europe, where they last detected the aliens' presence. Scientists also participate in the mission, but their main goal is to get what the aliens came for. René is assisted by three scientists, who are alien-researchers, but this is not enough to leave the earth. Soon after leaving the earth, they are attacked by the mercenaries of Nibiru's ancient enemy, therefore René and the reconnoiters of Nibiru are bound to stay on the Earth. In order to repair the spaceshuttle,

they have to penetrate into two secret terrestrial bases, which are in Antarctica and New-Mexico. Moreover, these bases are not human-controlled. They have to face an exciting and perilous journey, however, in the meantime, a several thousand years old secret is revealed. During their journey René and her daughter finally believe that they have a place in the world, they can get the answer to the questions 'where they are from', 'where they are going' and 'what their mission is'. The peaceful nation of Nibiru, the Annunakis find our heroine, thus starts René's fantastic and irreversible metamorphosis, which might happen to any of us. After plenty of excitement, action, and miraculous events, the heroines reach Nibiru, where they are warmly welcomed, and René occupies her place as the new ruler of Nibiru. The book is both exciting and entertaining, and is based on scientific information, due to which a whole new world

Knowing the Suffering of Others - Austin
Sarat 2014-07-14

In *Knowing the Suffering of Others*, legal scholar Austin Sarat brings together essays that address suffering as it relates to the law, highlighting the ways law imagines suffering and how pain and suffering become jurisprudential facts. From fetal imaging to end-of-life decisions, torts to international human rights, domestic violence to torture, and the law of war to victim impact statements, the law is awash in epistemological and ethical problems associated with knowing and imagining suffering. In each of these domains we might ask: How well do legal actors perceive and understand suffering in such varied domains of legal life? What problems of representation and interpretation bedevil efforts to grasp the suffering of others? What historical, political, literary, cultural, and/or theological

resources can legal actors and citizens draw on to understand the suffering of others? In *Knowing the Suffering of Others*, Austin Sarat presents legal scholarship that explores these questions and puts the problem of suffering at the center of thinking about law. The contributors to this volume do not regard pain and suffering as objective facts of a universe remote from law; rather they examine how both are discursively constructed in and by law. They examine how pain and suffering help construct and give meaning to the law as we know it. The authors attend to the various ways suffering appears in law as well as the different forms of suffering that require the law's attention. Throughout this book law is regarded as a domain in which the meanings of pain and suffering are contested, and constituted, as well as an instrument for inflicting suffering or for providing or refusing its relief. It challenges scholars, lawyers, students, and policymakers to ask how various legal actors and audiences

understand the suffering of others. Contributors

Fallen Stars, Bitter Waters - Gilbert Morris
2000-06-02

In The Beginning of Sorrows we saw the events
leading up to the destruction of America. Now in
the aftermath, the epic end-times struggle
between good and evil continues. Widespread
anarchy and chaos threaten Christians as they
seek a hiding place for the resistance. The power
of prayer is an invisible resistance to Count Tor
vonEisenhalt's evil, so now he is more
determined than ever to root out and annihilate
every Christian on the planet. Fallen Stars,
Bitter Waters is a rousing novel that will open

new ways of thinking about what the end-times
will be like and what they will mean to believers.
Note from Publisher: Due to the overall sales of
the first two books in the Omega Trilogy, we
regret to report that the third book, Seven
Golden Vials, will not be releasing. However, we
are happy to announce a new series from Gilbert
Morris, debuting in the spring of 2003,
tentatively titled "The Creoles." Look for the first
book to hit bookshelves early next year.

Dwarven Ruby - Richard S. Tuttle 2009-03-22

The mysteriously senile Mage entices some of
the Children to join him in what may be a suicide
attack of the Imperial Palace of Emperor Hanchi.
The Contest of Power reaches a critical stage,
and gypsy rebels must determine what the
Ancient Prophecy means to them. Discover a
world of might, magic, and intrigue as the
search for the fourth gem of the Sword of
Heavens brings danger to a new level.

Understanding Computers: Today and Tomorrow, Comprehensive - Deborah Morley 2016-02-18

Discover a modern introduction to computer concepts with UNDERSTANDING COMPUTERS: TODAY AND TOMORROW, COMPREHENSIVE, 16E. Known for a unique emphasis on societal issues and industry insights from respected leaders, this book provides reliable information to help readers learn about emerging technologies that may impact the way industries conduct business in the future. Readers become familiar with exciting technology developments and take a sneak peek at the future of modular smartphones, smartphone driver licenses, robot butlers and other robotic assistants, perceptual

computing, smart clothes, 4K video, and emerging networking standards. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

How the Blessed Live - Susannah M. Smith 2002

Minor earthquakes every day; that's what they say. Lucy feels the tremors like a needle sensitized to respond to the slightest movement. She feels the push, the blind thrust of the earth's elastic body, pushing out, pulling in, behaving unpredictably. She lies awake at night, staring into the darkness, thinking of the tectonic plates moving against one another, building up tension, until something has to give. On an isolated island in Lake Ontario live twins Lucy and Levi and their father, Daniel. While Daniel desperately mourns for his dead wife, Levi and Lucy grow up ever more entwined in their enchanted childhood of fairy tales and rhymes. But when a fissure in the fragile cocoon of the

family explodes into a chasm, each of the three is hurled in a different direction. Soon, there emerges a geographical triangle - Vancouver, Montreal, the island - that also maps out the terrain of love and the territory of family. Part Egyptian myth, part Alice in Wonderland, How the Blessed Live is an ethereally quiet, unexpected debut from a novelist to be watched.

The Enchantress of Orne - Greg Nelson
2017-02-22

On the world of Orne, the Torlok Council discover a change in the balance of magic. Strange, dark magic is getting stronger. They learn that Malanhor, a dark wizard, has found a way to unlock the dark magic sealed deep inside the planet. Lie'net, the leader of the Council, chooses a young apprentice, Sha'mi, to help locate and stop Malanhor. Sha'mi knows little of magic but reluctantly agrees to help. Along the way she meets an ancient wizard who teaches her about magic and helps her learn how to fight Malanhor. She must fight her own feelings of

inadequacy and learn to believe in herself before she can face Malanhor. Her journey will help her discover who she is and how to use her special abilities to save the planet. Can she find the strength to defeat Malanhor before he becomes too powerful?

Queen Hereafter - Susan Fraser King
2011-12-06

Refugee. Queen. Saint. Based on the lives of Saint Margaret of Scotland and her husband, King Malcolm III, in eleventh-century Scotland, a young woman strives to fulfill her destiny despite the risks... Shipwrecked on the Scottish coast, a young Saxon princess and her family—including the outlawed Edgar of England—ask sanctuary of the warrior-king Malcolm Canmore, who shrewdly sees the political advantage. He promises to aid Edgar and the Saxon cause in return for the hand of Edgar's sister, Margaret, in marriage. A foreign queen in a strange land, Margaret adapts to life among the barbarian Scots, bears princes, and

shapes the fierce warrior Malcolm into a sophisticated ruler. Yet even as the king and queen build a passionate and tempestuous partnership, the Scots distrust her. When her husband brings Eva, a Celtic bard, to court as a hostage for the good behavior of the formidable Lady Macbeth, Margaret expects trouble. Instead, an unlikely friendship grows between the queen and her bard, though one has a wild Celtic nature and the other follows the demanding path of obligation. Torn between old and new loyalties, Eva is bound by a vow to betray the king and his Saxon queen. Soon imprisoned and charged with witchcraft and treason, Eva learns that Queen Margaret—counseled by the furious king and his powerful priests—will decide her fate and that of her kinswoman Lady Macbeth. But can the proud queen forgive such deep treachery? Impeccably researched, a dramatic page-turner, *Queen Hereafter* is an unforgettable story of shifting alliances and the tension between fear

and trust as a young woman finds her way in a dangerous world.

Tor's Odyssey - Michael O. Gregory 2019-04-19
Facing destruction by a neutron star, Earth sends out seed ships into the cosmos to perpetuate the human race. Ship 94 arrives at its destination, an earth-like planet, where it completes its mission to produce at least three hundred human breeding pairs, along with animals that would be of use to them, and training resources to give the new colony a jump-start into the Iron Age. Five-hundred ninety-seven years later, Tor, a young man, and his mastiff dog, Benjy, returns from hunting to find his entire village massacred by invading soldiers of the Nurtiska Empire. With no other choice, he must flee. Thus begins an odyssey of revenge that turns into a search for a place of refuge for himself and the survivors of the Delta Clans. In his travels, he meets and takes as mate Koreen, a young woman of his own age. Will they find a refuge for themselves and the survivors of

the Delta Clans where the Nurtiska Empire can never find them?

When We Do Harm - Danielle Ofri, MD
2020-03-23

Medical mistakes are more pervasive than we think. How can we improve outcomes? An

acclaimed MD's rich stories and research explore patient safety. Patients enter the medical system with faith that they will receive the best care possible, so when things go wrong, it's a profound and painful breach. Medical science has made enormous strides in decreasing mortality and suffering, but there's no doubt that treatment can also cause harm, a significant portion of which is preventable. In *When We Do Harm*, practicing physician and acclaimed author Danielle Ofri places the issues of medical error and patient safety front and center in our national healthcare conversation. Drawing on current research, professional experience, and extensive interviews with nurses, physicians, administrators, researchers, patients, and families, Dr. Ofri explores the diagnostic, systemic, and cognitive causes of medical error. She advocates for strategic use of concrete safety interventions such as checklists and improvements to the electronic medical record, but focuses on the full-scale cultural and

cognitive shifts required to make a meaningful dent in medical error. Woven throughout the book are the powerfully human stories that Dr. Ofri is renowned for. The errors she dissects range from the hardly noticeable missteps to the harrowing medical cataclysms. While our healthcare system is—and always will be—imperfect, Dr. Ofri argues that it is possible to minimize preventable harms, and that this should be the galvanizing issue of current medical discourse.

The Saxon Wolf - Angus Donald 2022-01-13
'Compelling, disturbing, entertaining, this is a bloody riot from start to finish. In every good sense' Theodore Brun, author of A Burning Sea Conflict flares once more in Saxony... March, AD 773. Bjarki Bloodhand is now Fire Born - a legendary berserker inhabited by the ferocious spirit of a bear in battle. Yet he has sworn never again to allow that sacred rage to possess him, lest he for ever lose himself in the madness like his father. Tor Hildarsdottir yearns to save

pagan Saxony from the grip of the Christian Franks, who now occupy half the region. But she also has serious problems closer to home with her fast-growing pet bear cub, Garm, and, worse, she seems to be falling in love. Widukind, new lord of the Saxons, is on a mission to reconquer the lands of his fathers from the Franks. He will stop at nothing to win the hearts of the men and women of the North, and bind them to his cause. But will they follow the Saxon Wolf in an unwinnable war? And will Bjarki join them? The epic second novel in the Fire Born saga, perfect for fans of Bernard Cornwell, Giles Kristian, and Matthew Harffyy. Praise for The Saxon Wolf 'Donald has spun another terrific yarn, skilfully interweaving heart-thumping action sequences with a compelling plot... his writing is original and completely convincing. The Saxon Wolf is another step forward and a step up in the Fire Born series. Compelling, disturbing, entertaining, this is a bloody riot from start to finish. In every good sense'

Theodore Brun, author of A Burning Sea Praise for The Last Berserker, Volume One in the Fire Born series 'Donald has taken the legendary berserkers, those frothing-at-the-mouth shield-biters, and made them human, which once again proves that Donald is a writer not only at the top of his game, but of the game ... It is a wonderful, rich and violent brew. I welcome Angus Donald to the shield wall of Viking fiction like a thirsty man welcomes a mead-brother to the feast ... A tale worthy of the skalds' Giles Kristian, author of the Raven series 'With The Last Berserker, Donald has given us the first cut of some serious Dark Age beef. By turns heart-racing, intriguing, and touching, this is not a book for the faint-hearted - I can't wait for more' Theodore Brun, author of A Burning Sea 'The Last Berserker strikes with the thundering power of Thor's hammer... rich with the earthy depth, historical detail, intrigue, violence and adventure that we expect from Donald. But it is Bjarki and Tor that make The Last Berserker stand out... Donald's

masterful creations will live on in the imagination long after the final page' Matthew Harffy, author of the Bernicia Chronicles 'A wonderful, blood-soaked tale of redemption and revenge, set amidst the eighth century clash of civilisations between Pagan Vikings and Christian Franks, by a master of the genre' Saul David, author of Zulu Hart 'Loved this tale of a berserker facing up against the tidal wave of Charlemagne's expansion. Great characters, brilliantly paced and explosive, gritty battle-scenes. Highly recommended' John Gwynne, author of Malice 'Well researched detail and stunning battle scenes make The Last Berserker a white knuckle ride. A thrilling, up-all-night read' C. R. May, author of The Day of the Wolf 'I loved it. Bjarki and Tor are great characters, instantly relatable. The depth of the immersion in their world and their values gives the book authenticity and weight' Cecelia Holland, author of The Soul Thief
[American Thresherman](#) - 1914
