Japan's Motorcycle Wars -
Jeffrey W. Alexander
2009-01-01

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the

historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company

histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

Mozart - Robert Gutman

2011-08-31

Mozart: A Cultural Biography is a fresh interpretation of a musical genius, meticulously researched and gracefully written. It places Mozart's life and music in the context of the intellectual, political, and artistic currents of eighteenth-century Europe. Even as he delves into philosophic and aesthetic questions, Robert Gutman keeps in sight, clearly and firmly, the composer and his works. He discusses the major genres in which Mozart worked - chamber music; liturgical, theatre, and keyboard compositions; concerto; symphony; opera; and oratorio. All of these riches unfold within the framework of the composer's brief but

remarkable life. With Gutman's informed and sensitive handling, Mozart emerges in a light more luminous than in previous renderings. The composer was an affectionate and generous man to family and friends, self-deprecating, witty, winsome, but also an austere moralist, incisive and purposeful. Mozart is both an extraordinary portrait of a man in his time and a brilliant distillation of musical thought.

The IBS Low-Starch Diet - Carol Sinclair 2011-10-31
Twenty per cent of the UK population - 12 million people - suffer IBS-related symptoms, but they may be unaware that the simple elimination of starch from their diet can bring dramatic relief from pain and discomfort. In this revised edition, Carol Sinclair, a sufferer who has successfully overcome IBS and arthritic pain, brings you a revolutionary programme for a pain-free future. This practical guide will help millions to reduce their arthritic symptoms, whose pain to date has been relieved only by regular medication, with sometimes dangerous side effects. The diet shows that a gradual reduction of starch in one's diet can dramatically reduce pain in days, to a point where drug usage is reduced

and, in some cases, eliminated completely. Details of the discovery - along with case histories and a practical guide - make Carol Sinclair's book a first in the world. The IBS Low-Starch Diet also contains over 200 delicious starch- and gluten-free recipes, along with a comprehensive guide to eating out.

"Company policy forbids me from exchanging my blood, my soul, or my firstborn child with customers..." When Ross starts working third-shift at a gas station, he doesn't think anything extraordinary will happen. He expects a lot of quiet shifts. Well, you know what they say about assumptions. One explosion later and he's the personal assistant to a vampire-who he admits is not only sexy, but the sane one-in charge of his supernatural clan's paperwork, and managing any trouble the members get into. Spoiler alert: the clan can get into quite a bit of trouble. Ross is definitely not paid enough for this. Tags: The crack ship

magazine Sideburn, and illustrated by Adi Gilbert who is best known for his bicycle and motorcycle drawings whose clients include Harley-Davidson, Guy Martin, Wired magazine, Sideburn magazine and Nike, this is a must-have for all motorcycle lovers. Read this book, even dip in and out where relevant. If it makes sense, schedule some time, clear your mind, pull on some old clothes, grab your toolbox and get going. The chapters in How to Build a Motorcycle will tell you how to complete a huge variety of tasks that will allow even the greenest of novices to get their hands dirty and start modifying with purpose. If you belong to this camp, start with some of the low-input, high-reward jobs, such as fitting bars, swapping the rear shocks or wiring in a new tail light. Even though these require relatively little work, they'll transform the look of your bike, and completing them will fill you with confidence to undertake the more difficult jobs, such as fitting more modern front forks

or even making your own frame. The book comes with a glossy 32-page section on finished bikes and is a reference and the perfect gift for all fans, from those who merely like to tinker, to riders taking on a full build.

national service, stayed with the company until it closed in 1974. In his time with Triumph, Hughie worked in the Experimental, Service, Product Road Test, Toolroom, Final Production Assembly and Service Repair Shop departments before joining the staff in the Service Office. He also served as a Technical Writer/Advisor/Customer Relations "Trouble Shooter." Even his National Service was spent with the "White Helmets" motorcycle display team! Here, Hughie tells the story of his life in the famous Meriden factory and of his many adventures with Triumph motorcycles and Triumph people and, by doing so, records the fascinating inside story of one of Britain's greatest motorcycle marques.

World War II the motorcycle industry was the third largest source of foreign exchange for the United Kingdom after motor cars and Scotch whiskey. Yet by 1975 the industry was essentially dead. What led to the fall of the motorcycle industry in Britain, after virtually defining the country for so long? Shooting Star: The Rise and Fall of the British Motorcycle Industry is the first comprehensive look at the motorcycle industry with a critical look at business and trade practices that led to its demise. The full romance, beauty and excitement of the machines and especially the top racers who rode them is captured here, but it's all blended for the first time with information about the lesser known businessmen who built the companies and then ran them into the ground, as well as a critical look at some of the engineers and designers who were brilliant and badly flawed at once. The failures of the British motorcycle industry are a painful object lesson for the

badly strapped American automobile industry at the present time.

Riding Man - Mark Gardiner
2012-07-15

For 100 years, the Isle of Man Tourist Trophy races have been the world's most dangerous organized sporting event. As one of thirty thousand fans who attended the annual spectacle, Mark Gardiner harbored no illusions about his own skill or bravery. He was, however, an avid motorcyclist for whom the race represented a boyhood dream. He went home, quit his job, sold everything he owned, and returned to the Island to race there himself. *Riding Man* is the account of an Everyman, struggling to qualify for -- and survive -- the TT races. If you're a dreamer, the lesson in this book is that the pursuit of any worthwhile goal involves risks, rewards and, almost inevitably some regrets. If you're not a dreamer, the lesson is more important: the deepest regrets are always over risks not taken.
