Antisemitism in the North - Jonathan Adams 2019-12-02

Is research on antisemitism even necessary in countries with a relatively small Jewish population? Absolutely, as this volume shows. Compared to other countries, research on antisemitism in the Nordic countries (Denmark, the Faroe Islands, Finland, Greenland, Iceland, Norway, and Sweden) is marginalized at an institutional and staffing level, especially as far as antisemitism beyond German fascism, the Second World War, and the Holocaust is concerned. Furthermore, compared to scholarship on other prejudices and minority groups, issues concerning Jews and anti-Jewish stereotypes remain relatively underresearched in Scandinavia - even though antisemitic stereotypes have been present and flourishing in the North ever since the arrival of Christianity, and long before the arrival of the first Jewish communities. This volume aims to help bring the study of antisemitism to the fore, from the medieval period to the present day. Contributors from all the Nordic countries describe the status of as well as the challenges and desiderata for the study of antisemitism in their respective countries.

The New Wild West - Blaire Briody 2017-09-26

Williston, North Dakota was a sleepy farm town for generations—until the frackers arrived. The oil companies moved into Williston, overtaking the town and setting off a boom that America hadn't seen since the Gold Rush. Workers from all over the country descended, chasing jobs that promised them six-figure salaries and demanded no prior experience. But for every person chasing the American dream, there is a darker side—reports of violence and sexual assault skyrocketed, schools overflowed, and housing prices soared. Real estate is such a hot commodity that tent cities popped up, and many workers' only option was to live out of their cars. Farmers whose families had tended the land for generations watched, powerless, as their fields were bulldozed to make way for one oil rig after another. Written in the vein of Ted Conover and Jon Krakauer, using a mix of first-person adventure and cultural analysis, *The New Wild West* is the definitive account of what's happening on the ground and what really happens to a community when the energy industry is allowed to set up in a town with little regulation or oversight—and at what cost.

Tulia - Nate Blakeslee 2006-09-12

In the summer of 1999, in the tiny west Texas town of Tulia, thirty-nine people, almost all of them black, were arrested and charged with dealing powdered cocaine. The operation, a federally-funded investigation performed in cooperation with the local authorities, was based on the work of one notoriously unreliable undercover officer. At trial, the prosecution relied almost solely on the uncorroborated, and contradictory, testimony of that officer, Tom Coleman. Despite the flimsiness of the evidence against them, virtually all of the defendants were convicted and given sentences as high as ninety-nine years. Tom Coleman was named a Texas Lawman of the Year for his work. *Tulia* is the story of this town, the bust, the trials, and the heroic legal battle that ultimately led to the reversal of the convictions in the summer of 2003. Laws have been changed in Texas as a result of the scandal, and the defendants have earned a measure of bittersweet redemption. But the story is much bigger than the tale of just one bust. As *Tulia* makes clear, these events are the latest chapter in a story with themes as old as the country itself. It is a gripping, marvelously well-told tale about injustice, race, poverty, hysteria, and desperation in rural America.

The Bone and Sinew of the Land - Anna-Lisa Cox 2018-06-12

The long-hidden stories of America's black pioneers, the frontier they settled, and their fight for the heart of the nation When black settlers Keziah and Charles Grier started clearing their frontier land in 1818, they couldn't know that they were part of the nation's earliest struggle for equality; they were just looking to build a better life. But within a few years, the Griers would become early Underground Railroad conductors, joining with fellow pioneers and other allies to confront the growing tyranny of bondage and injustice. *The Bone and Sinew of the Land* tells the Griers' story and the stories of many others like them: the lost history of the nation's first Great Migration. In building hundreds of settlements on the frontier, these black pioneers were making a stand for equality and freedom. Their new home, the Northwest Territory--the wild region that would become present-day Ohio, Illinois, Indiana, Michigan, and Wisconsin--was the first territory to ban slavery and have equal voting rights for all men. Though forgotten today, in their own time the successes of these pioneers made them the targets of racist backlash. Political and even armed battles soon ensued, tearing apart families and communities long before the Civil War. This groundbreaking work of research reveals America's forgotten frontier, where these settlers were inspired by the belief that all men are created equal and a brighter future was possible. Named one of Smithsonian's Best History Books of 2018

Would You Do That to Your Mother? - Jeanne Bliss 2018-05-08

Customer experience pioneer Jeanne Bliss shows why "Make Mom Proud" companies outperform their competition. Her 5-step guide to customer experience and culture transformation makes this achievement possible. Bliss urges companies to make business personal to earn ardent fans and admirers, by focusing on one deceptively simple question:

"Would you do that to your mother?" "Make Mom Proud" companies give customers the treatment they desire, and employees the ability to deliver it. They turn "gotcha" moments into "we've got your back" moments by rethinking business practices, and they enable employees to be part of the solution to fix customer frustrations. Bliss scoured the marketplace seeking companies who excel at living their core values, grounded in what we all learned as kids. She offers a five-step plan for evaluating your current behaviors and implementing actions at every level of the organization. Step 1. "Be the Person I Raised You to Be" Understand how you are hiring, developing and trusting employees to bring the best version of themselves to work. Vail resorts, for example, the world's largest ski resort operator, banned the three words "Our policy is..." from their vocabulary, freeing employees to take spirited actions to deliver "the experience of a lifetime." Step 2. "Don't Make Me Feed You Soap" Learn the eight key frustrations that bind us as customers (waiting, fear, anxiety, the black hole of no communication, etc.) and how to apply actions from companies who are delivering a seamless, frictionless and easy experience. Step 3. "Put Others Before Yourself" Determine if your focus is on helping customers achieve their goals - and evaluate how that is fueling your growth. Canada's Mayfair Diagnostics, for example, spent over a year studying the emotions of patients entering an imaging clinic, so they could redesign their welcome to deliver warmth and caring over procedure and process. The newly designed clinic achieved profitability in record time. Step 4. "Take the High Road" Learn how companies who do the right thing rise above the competition. Virgin Hotels, for example, named #1 U.S. hotel by Conde Nast Reader's Choice Awards, walked away from price gouging at the mini bar, so you'll never pay more for that Snickers bar than what you'd pay at the corner market. Step 5. "Stop the Shenanigans!" Evaluate your current company behaviors and identify the key actions that you can begin immediately. With 32 case studies and examples from more than 85 companies, this is a practical and easy to follow guide for your experience and culture transformation. Filled with comics to snapshot our experiences as customers, a "mom lens" to reflect continuously on your performance, and a "make-mom-proud-ometer" quiz - the book makes Bliss's approach accessible and approachable. Join the movement to #MakeMomProud by applying this book across your organization. Whether you're contemplating your company's returns policy, its social media presence, or its big-picture strategy, this approach will help your company anticipate both employee and customer needs, extend patience, and show respect at all times.

Great American Outpost - Maya Rao 2018-04-24

A surreal, lyrical work of narrative nonfiction that portrays how the largest domestic oil discovery in half a century transformed a forgotten corner of the American West into a crucible of breakneck capitalism. As North Dakota became the nation's second-largest oil producer, Maya Rao set out in steel-toe boots to join a wave of drifters, dreamers, entrepreneurs, and criminals. With an eye for the dark, absurd, and humorous, Rao fearlessly immersed herself in their world to chronicle this modern-day gold rush, from its heady beginnings to OPEC's price war against the US oil industry. She rode shotgun with a surfer-turned-truck driver braving toxic fumes and dangerous roads, dined with businessmen disgraced during the financial crisis, and reported on everyone in between--including an ex-con YouTube celebrity, a trophy wife mired in scandal, and a hard-drinking British Ponzi schemer--in a social scene so rife with intrigue that one investor called the oilfield Peyton Place on steroids. As the boom receded, a culture of greed and recklessness left troubling consequences for investors and longtime residents. Empty trailers and idle oil equipment littered the fields like abandoned farmsteads, leaving the pioneers who built this unlikely civilization to reckon with their legacy. Part Barbara Ehrenreich, part Upton Sinclair, *Great American Outpost* is a sobering exploration of twenty-first-century America that reads like a frontier novel.

The Longevity Economy - Joseph F. Coughlin 2017

Oldness: a social construct at odds with reality that constrains how we live after middle age and stifles business thinking on how to best serve a group of consumers, workers, and innovators that is growing larger and wealthier with every passing day. Over the past two decades, Joseph F. Coughlin has been busting myths about aging with groundbreaking multidisciplinary research into what older people actually want-not what conventional wisdom suggests they need. In *The Longevity Economy*, Coughlin provides the framing and insight business leaders need to serve the growing older market: a vast, diverse group of consumers representing every possible level of health and wealth, worth about \$8 trillion in the United States alone and climbing. Coughlin provides deep insight into a population that consistently defies expectations: people

who, through their continued personal and professional ambition, desire for experience, and quest for self-actualization, are building a striking, unheralded vision of longer life that very few in business fully understand. His focus on women-they outnumber men, control household spending and finances, and are leading the charge toward tomorrow's creative new narrative of later life-is especially illuminating. Coughlin pinpoints the gap between myth and reality and then shows businesses how to bridge it. As the demographics of global aging transform and accelerate, it is now critical to build a new understanding of the shifting physiological, cognitive, social, family, and psychological realities of the longevity economy.

Today, however, punishing rents and the increasingly prohibitive cost of ownership have turned housing into the foremost symbol of inequality and an economy gone wrong. Nowhere is this more visible than in the San Francisco Bay Area, where fleets of private buses ferry software engineers past the tarp-and-plywood shanties of the homeless. The adage that California is a glimpse of the nation's future has become a cautionary tale. With propulsive storytelling and ground-level reporting, New York Times journalist Conor Dougherty chronicles America's housing crisis from its West Coast epicenter, peeling back the decades of history and economic forces that brought us here and taking readers inside the activist movements that have risen in tandem with housing costs.

Thinking Through Climate Change - Adam Briggles 2020-10-19

In this creative exploration of climate change and the big questions confronting our high-energy civilization, Adam Briggles connects the history of philosophy with current events to shed light on the Anthropocene (the age of humanity). Briggles offers a framework to help us understand the many perspectives and policies on climate change. He does so through the idea that energy is a paradox: changing sameness. From this perennial philosophical mystery, he argues that a high-energy civilization is bound to create more and more paradoxes. These paradoxes run like fissures through our orthodox picture of energy as the capacity to do work and control fate. Climate change is the accumulation of these fissures and the question is whether we can sustain technoscientific control and economic growth. It may be that our world is about change radically, imploring us to start thinking heterodox thoughts.

The Strenuous Life - Ryan Swanson 2020-12

Onigamiising - Linda LeGarde Grover 2017-10-10

Long before it came to be known as Duluth, the land at the western tip of

Lake Superior was known to the Ojibwe as Onigamiising, "the place of the small portage." There the Ojibwe lived in keeping with the seasons, moving among different camps for hunting and fishing, for cultivating and gathering, for harvesting wild rice and maple sugar. In *Onigamiising* Linda LeGarde Grover accompanies us through this cycle of the seasons, one year in a lifelong journey on the path to Mino Bimaadiziwin, the living of a good life. In fifty short essays, Grover reflects on the spiritual beliefs and everyday practices that carry the Ojibwe through the year and connect them to this northern land of rugged splendor. As the four seasons unfold—from Ziigwan (Spring) through Niibin and Dagwaagin to the silent, snowy promise of Biboon—the award-winning author writes eloquently of the landscape and the weather, work and play, ceremony and tradition and family ways, from the homey moments shared over meals to the celebrations that mark life's great events. Now a grandmother, a Nokomis, beginning the fourth season of her life, Grover draws on a wealth of stories and knowledge accumulated over the years to evoke the Ojibwe experience of Onigamiising, past and present, for all time.

Storm Lake - Art Cullen 2020-01-21

"A reminder that even the smallest newspapers can hold the most powerful among us accountable."—The New York Times Book Review Watch the documentary *Storm Lake* on PBS. Iowa plays an outsize role in national politics. Iowa introduced Barack Obama and voted bigly for Donald Trump. But is it a bellwether for America, a harbinger of its future? Art Cullen's answer is complicated and honest. In truth, Iowa is losing ground. The Trump trade wars are hammering farmers and manufacturers. Health insurance premiums and drug prices are soaring. That's what Iowans are dealing with, and the problems they face are the problems of the heartland. In this candid and timely book, Art Cullen—the *Storm Lake Times* newspaperman who won a Pulitzer Prize for taking on big corporate agri-industry and its poisoning of local rivers—describes how the heartland has changed dramatically over his career. In a story where politics, agriculture, the environment, and immigration all converge, Cullen offers an unsentimental ode to rural America and to the resilient people of a vibrant community of fifteen thousand in Northwest Iowa, as much survivors as their town.

The Green and the Black - Gary Sernovitz 2016-02-23

Gary Sernovitz leads a double life. A typical New York liberal, he is also an oilman - a fact his left-leaning friends let slide until the word "fracking" entered popular parlance. "How can you frack?" they suddenly demanded, aghast. But for Sernovitz, the real question is, "What happens if we don't?" Fracking has become a four-letter word to environmentalists. But most people don't know what it means. In his fast-paced, funny, and lively book, Sernovitz explains the reality of fracking: what it is, how it can be made safer, and how the oil business works. He also tells the bigger story. Fracking was just one part of a shale revolution that shocked our assumptions about fueling America's future. The revolution has transformed the world with consequences for the oil industry, investors, environmentalists, political leaders, and anyone who lives in areas shaped by the shales, uses fossil fuels, or cares about the climate - in short, everyone. Thanks to American engineers' oilfield innovations, the United States is leading the world in reducing carbon emissions, has sparked a potential manufacturing renaissance, and may soon eliminate its dependence on foreign energy. Once again the largest oil and gas producer in the world, America has altered its balance of power with Russia and the Middle East. Yet the shale revolution has also caused local disruptions and pollution. It has prolonged the world's use of fossil fuels. Is there any way to reconcile the costs with the benefits of fracking? To do so, we must start by understanding fracking and the shale revolution in their totality. *The Green and the Black* bridges the gap in America's energy education. With an insider's firsthand knowledge and unprecedented clarity, Sernovitz introduces readers to the shales - a history-upturning "Internet of oil" - tells the stories of the shale revolution's essential characters, and addresses all the central controversies. To capture the economic, political, and environmental prizes, we need to adopt a balanced, informed perspective. We need to take the green with the black. Where we go from there is up to us.

The King Of California - Mark Arax 2005-02-16

J.G. Boswell was the biggest farmer in America. He built a secret empire while thumbing his nose at nature, politicians, labor unions and every journalist who ever tried to lift the veil on the ultimate "factory in the fields." *The King of California* is the previously untold account of how a Georgia slave-owning family migrated to California in the early 1920s, drained one of America's biggest lakes in an act of incredible hubris and carved out the richest cotton empire in the world. Indeed, the

sophistication of Boswell's agricultural operation -from lab to field to gin - is unrivaled anywhere. Much more than a business story, this is a sweeping social history that details the saga of cotton growers who were chased from the South by the boll weevil and brought their black farmhands to California. It is a gripping read with cameos by a cast of famous characters, from Cecil B. DeMille to Cesar Chavez.

Ghost Train to the Eastern Star - Paul Theroux 2009-08-06

The acclaimed author of *The Great Railway Bazaar* retraces his legendary journey through Europe and Asia in this "funny, informative and lyrical" travelogue (The Guardian, UK). Paul Theroux virtually invented the modern travel narrative by recounting his 25,000-mile journey by train through eastern Europe, central Asia, the Indian subcontinent, China, Japan, and Siberia. Three decades later, the world he recorded in *The Great Railway Bazaar* has undergone phenomenal change. The Soviet Union has collapsed and China has risen; India booms while Burma smothers under dictatorship; Vietnam flourishes in the aftermath of the havoc America was unleashing on it the last time Theroux passed through. Now Theroux returns to capture the texture, sights, smells, and sounds of this new landscape. Theroux's odyssey takes him from eastern Europe, still hung-over from communism. He experiences a tense but thriving Turkey, and a Georgia limping back toward feudalism while its neighbor Azerbaijan revels in oil-fueled capitalism. Through it all, Theroux travels as the locals do—by train, bus, taxi, and foot; he encounters fellow writers, including Orhan Pamuk, Haruki Murakami, and Arthur C. Clarke; and, as always, his omnivorous curiosity and unerring eye for detail capture it all.

Iran's Struggles for Social Justice - Peyman Vahabzadeh 2016-12-20

This interdisciplinary volume offers a range of studies spanning the various historical, political, legal, and cultural features of social justice in Iran, and proposes that the present-day realities of life in Iran could not be farther from the promises of the Iranian Revolution. The ideals of social justice and participatory democracy that galvanized a resilient nation in 1979 have been abandoned as an avaricious ruling elite has privatized the economy, abandoned social programs and subsidy payments for the poor, and suppressed the struggles of women, workers, students, and minorities for equality. At its core, *Iran's Struggles for Social Justice* seeks to educate and to develop a new discourse on social justice in Iran.

Madness Rules the Hour - Paul Starobin 2017-04-11

From Lincoln's election to secession from the Union, this compelling history explains how South Carolina was swept into a cultural crisis at the heart of the Civil War. "The tea has been thrown overboard -- the revolution of 1860 has been initiated." -- Charleston Mercury, November 8, 1860 In 1860, Charleston, South Carolina, embodied the combustible spirit of the South. No city was more fervently attached to slavery, and no city was seen by the North as a greater threat to the bonds barely holding together the Union. And so, with Abraham Lincoln's election looming, Charleston's leaders faced a climactic decision: they could submit to abolition -- or they could drive South Carolina out of the Union and hope that the rest of the South would follow. In *Madness Rules the Hour*, Paul Starobin tells the story of how Charleston succumbed to a fever for war and charts the contagion's relentless progress and bizarre turns. In doing so, he examines the wily propagandists, the ambitious politicians, the gentlemen merchants and their wives and daughters, the compliant pastors, and the white workingmen who waged a violent and exuberant revolution in the name of slavery and Southern independence. They devoured the Mercury, the incendiary newspaper run by a fanatical father and son; made holy the deceased John C. Calhoun; and adopted "Le Marseillaise" as a rebellious anthem. *Madness Rules the Hour* is a portrait of a culture in crisis and an insightful investigation into the folly that fractured the Union and started the Civil War.

Tools for Thought - Howard Rheingold 2000-04-13

In a highly engaging style, Rheingold tells the story of what he calls the patriarchs, pioneers, and infonauts of the computer, focusing in particular on such pioneers as J. C. R. Licklider, Doug Engelbart, Bob Taylor, and Alan Kay. The digital revolution did not begin with the teenage millionaires of Silicon Valley, claims Howard Rheingold, but with such early intellectual giants as Charles Babbage, George Boole, and John von Neumann. In a highly engaging style, Rheingold tells the story of what he calls the patriarchs, pioneers, and infonauts of the computer, focusing in particular on such pioneers as J. C. R. Licklider, Doug Engelbart, Bob Taylor, and Alan Kay. Taking the reader step by step from nineteenth-century mathematics to contemporary computing, he introduces a fascinating collection of eccentrics, mavericks, geniuses, and visionaries. The book was originally published in 1985, and Rheingold's attempt to envision computing in the 1990s turns out to have been remarkably prescient. This edition contains an afterword, in which Rheingold interviews some of the pioneers discussed in the book. As an exercise in what he calls "retrospective futurism," Rheingold also looks back at how he looked forward.

The Hill to Die On - Jake Sherman 2019-04-09

The startling inside story of Donald Trump's first two years in Washington as viewed from Capitol Hill, where lawmakers on both sides of the aisle jockeyed for advantage as American politics reached a fevered pitch. Taking readers into secret strategy calls and closed-door meetings from the House to the White House, Politico Playbook writers Jake Sherman and Anna Palmer trace the gamesmanship and the impulsiveness, the dealmaking and the backstabbing, in a blow-by-blow account of the power struggle that roiled Congress. Moving from the fights for advantage between Donald Trump, Nancy Pelosi, and Chuck Schumer; to Mitch McConnell's merciless, Machiavellian handling of the sexual assault accusations against Supreme Court nominee Brett Kavanaugh; to Paul Ryan's desperate, failed attempts to keep Mark Meadows from pushing Trump into a government shutdown over immigration, *The Hill to Die On* bristles with fresh news and tells the story of what really happened in some of the most defining moments our era. Like *The West Wing* for Congress, or *Shattered* meets *This Town*, *The Hill to Die On* tells an unforgettable story of politics and power, where the stakes going forward are nothing less than the future of America and the lives of millions of ordinary Americans.

The Dinosaur Artist - Paige Williams 2018-09-11

In this 2018 New York Times Notable Book, Paige Williams "does for fossils what Susan Orlean did for orchids" (Book Riot) in her account of one Florida man's reckless attempt to sell a dinosaur skeleton from Mongolia--a story "steeped in natural history, human nature, commerce, crime, science, and politics" (Rebecca Skloot). In 2012, a New York auction catalogue boasted an unusual offering: "a superb Tyrannosaurus skeleton." In fact, Lot 49135 consisted of a nearly complete T. bataar, a close cousin to the most famous animal that ever lived. The fossils now on display in a Manhattan event space had been unearthed in Mongolia, more than 6,000 miles away. At eight-feet high and twenty-four feet long, the specimen was spectacular, and when the gavel sounded, the winning bid was over \$1 million. Eric Prokopi, a thirty-eight-year-old Floridian, was the man who had brought this extraordinary skeleton to market. A onetime collegiate-level swimmer who spent his teenage years diving for shark teeth, Prokopi's singular obsession with fossils fueled a thriving business hunting, preparing, and selling specimens, to clients ranging from natural history museums to avid private collectors like actors Leonardo DiCaprio and Nicolas Cage. But there was a problem. This time, facing financial strain, had Prokopi gone too far? As the T. bataar went to auction, a network of paleontologists alerted the government of Mongolia to the eye-catching lot. An international custody battle ensued, and Prokopi watched his own world unravel. In the tradition of *The Orchid Thief*, *The Dinosaur Artist* is a stunning work of narrative journalism about humans' relationship with natural history and a seemingly intractable conflict between science and commerce. A story that stretches from Florida's Land O' Lakes to the Gobi Desert, *The Dinosaur Artist* illuminates the history of fossil collecting--a murky,

sometimes risky business, populated by eccentrics and obsessives, where the lines between poacher and hunter, collector and smuggler, enthusiast and opportunist, can easily blur. In her first book, Paige Williams has given readers an irresistible story that spans continents, cultures, and millennia as she examines the question of who, ultimately, owns the past.

BLOW - Bruce Porter 2014-11-18

BLOW is the unlikely story of George Jung's roller coaster ride from middle-class high school football hero to the heart of Pablo Escobar's Medellin cartel-- the largest importer of the United States cocaine supply in the 1980s. Jung's early business of flying marijuana into the United States from the mountains of Mexico took a dramatic turn when he met Carlos Lehder, a young Colombian car thief with connections to the then newly born cocaine operation in his native land. Together they created a new model for selling cocaine, turning a drug used primarily by the entertainment elite into a massive and unimaginably lucrative enterprise-- one whose earnings, if legal, would have ranked the cocaine business as the sixth largest private enterprise in the Fortune 500. The ride came to a screeching halt when DEA agents and Florida police busted Jung with three hundred kilos of coke, effectively unraveling his fortune. But George wasn't about to go down alone. He planned to bring down with him one of the biggest cartel figures ever caught. With a riveting insider account of the lurid world of international drug smuggling and a super-charged drama of one man's meteoric rise and desperate fall, Bruce Porter chronicles Jung's life using unprecedented eyewitness sources in this critically acclaimed true crime classic.

Andrea Corr's **Barefoot Pilgrimage** is a compelling and honest memoir.

Jitterbug Perfume - Tom Robbins 2003-06-17

Jitterbug Perfume is an epic. Which is to say, it begins in the forests of ancient Bohemia and doesn't conclude until nine o'clock tonight (Paris time). It is a saga, as well. A saga must have a hero, and the hero of this one is a janitor with a missing bottle. The bottle is blue, very, very old, and embossed with the image of a goat-horned god. If the liquid in the bottle actually is the secret essence of the universe, as some folks seem to think, it had better be discovered soon because it is leaking and there is only a drop or two left.
