On Film - Stephen Mulhall  
2008-03-25

In this significantly expanded  
new edition of his acclaimed

exploration of the four Alien  
movies, Stephen Mulhall adds  
several new chapters on Steven  
Spielberg's Mission: Impossible  
trilogy and Minority Report.

The first part of the book  
discusses the four Alien

movies. Mulhall argues that the sexual significance of the aliens themselves, and of Ripley's resistance to them, takes us deep into the question of what it is to be human. At the heart of the book is a highly original and controversial argument that films themselves can philosophize. Mulhall then applies his interpretative model to another sequence of contemporary Hollywood movies: the Mission: Impossible series. A brand new chapter is devoted to each of the three films in the series, and to other films by the relevant directors that cast light on their individual contribution to it. In this discussion, the nature of television becomes as central a concern as the nature of cinema; and the shift in generic focus from science fiction to thriller also makes room for a detailed reading of Spielberg's *Minority Report*. *On Film*, Second Edition is essential reading for anyone interested in philosophy, film theory and cultural studies, and in the way philosophy can enrich our

understanding of cinema.

**Fettered for Life** - Lillie Devereux Blake 1874

*A Book for All Readers* - Ainsworth Rand Spofford 1900

*The Giant, O'Brien* - Hilary Mantel 2013-01-22

From the two-time Man Booker winner, the story of the 18th Century Irish giant, Charles O'Brien. Charles O'Brien, bard and giant. The cynical are moved by his flights of romance; the craven stirred by his tales of epic deeds. But what of his own story as he is led from Ireland to seek his fortune beyond the seas in England? *The Surprising Irish Giant* may be the sensation of the season but only his compatriots seem to attend to his mythic powers of invention. John Hunter, celebrated surgeon and anatomist, buys dead men from the gallows and babies' corpses by the inch. Where is a man as unique as *The Giant* to hide his bones when he is yet alive? *The Giant, O'Brien* is an unforgettable novel; lyrical, shocking and

spliced with black comedy.  
Nodes of Contemporary  
Finnish Literature - Leena  
Kirstinä 2019-03-12  
This book examines  
phenomena from Finnish and  
Finnish-Swedish literature  
written in the years between  
the 1980s and the first decade  
of the new millennium. Its  
objective is to study this  
interesting era of literary  
history in Finland and to sketch  
some possible directions for  
future development by  
identifying literary turning  
points which have already  
occurred. The nine articles  
found in the anthology are  
written by some of the most  
prominent literary scholars in  
Finland. These distinguished  
authors examine such varied  
topics as postmodern  
allegories, feminism,  
historiography, autobiographic  
writing, modern subjects in  
postmodern conditions,  
metalyrical poetry, realistic  
involvement in the novel,  
successful children's literature,  
and the intertextuality of Sofi  
Oksanen's famous novel *Purge*.  
A Dictionary of Cultural and

Critical Theory - Michael Payne  
2013-05-06  
Now thoroughly updated and  
revised, this new edition of the  
highly acclaimed dictionary  
provides an authoritative and  
accessible guide to modern  
ideas in the broad  
interdisciplinary fields of  
cultural and critical theory  
Updated to feature over 40  
new entries including pieces on  
Alain Badiou, Ecocriticism,  
Comparative Racialization ,  
Ordinary Language Philosophy  
and Criticism, and Graphic  
Narrative Includes reflective,  
broad-ranging articles from  
leading theorists including  
Julia Kristeva, Stanley Cavell,  
and Simon Critchley Features a  
fully updated bibliography  
Wide-ranging content makes  
this an invaluable dictionary  
for students of a diverse range  
of disciplines  
Being and Time - Martin  
Heidegger 2008-07-22  
"What is the meaning of  
being?" This is the central  
question of Martin Heidegger's  
profoundly important work, in  
which the great philosopher  
seeks to explain the basic

problems of existence. A central influence on later philosophy, literature, art, and criticism—as well as existentialism and much of postmodern thought—Being and Time forever changed the intellectual map of the modern world. As Richard Rorty wrote in the New York Times Book Review, "You cannot read most of the important thinkers of recent times without taking Heidegger's thought into account." This first paperback edition of John Macquarrie and Edward Robinson's definitive translation also features a new foreword by Heidegger scholar Taylor Carman.

*Strumpet City* - James Plunkett 2006

*Strumpet City*, set in Dublin during the Lockout of 1913, is one of the great Irish novels of the twentieth century and an enduring and popular classic. A stunning new edition re-issued by Gill & MacMillan.

**Imperialism** - John Atkinson Hobson 1902

This document is from Empire Online, a powerful and interactive collection of

primary source documents, sourced from leading archives around the world. This project has been developed to encourage undergraduates, postgraduates, academics and researchers to explore colonial history, politics, culture and society. Material in the collection spans five centuries, charting the story of the rise and fall of empires; from the explorations of Columbus, Captain Cook, and others, right through to de-colonisation in the second half of the twentieth century and debates over American Imperialism.

**Farewell Companions** - James Plunkett 2015

This novel is set in Ireland between 1914 and the end of World War II. It follows Tim McDonagh and his two close friends journey through their childhood and adolescence to early manhood, and how each adapts in their own way to the varied and complex strands of their Irish heritage, Tea and Tea Drinking - Alfred Arthur Reade 1884

The Ecological Thought -

Timothy Morton 2012-04-02

In this passionate, lucid, and surprising book, Timothy Morton argues that all forms of life are connected in a vast, entangling mesh. This interconnectedness penetrates all dimensions of life. No being, construct, or object can exist independently from the ecological entanglement, Morton contends, nor does "Nature" exist as an entity separate from the uglier or more synthetic elements of life. Climate Change and the Health of Nations - Anthony J.

McMichael 2017

When we think of "climate change," we think of man-made global warming, caused by greenhouse gas emissions. But natural climate change has occurred throughout human history, and populations have had to adapt to the climate's

vicissitudes. Anthony J. McMichael, a renowned epidemiologist and a pioneer in the field of how human health relates to climate change, is the ideal person to tell this story. Climate Change and the Health of Nations shows how the natural environment has vast direct and indirect repercussions for human health and welfare. McMichael takes us on a tour of human history through the lens of major transformations in climate. From the very beginning of our species some five million years ago, human biology has evolved in response to cooling temperatures, new food sources, and changing geography. As societies began to form, they too adapted in relation to their environments, most notably with the development of agriculture eleven thousand years ago. Agricultural civilization was a Faustian bargain, however: the prosperity and comfort that an agrarian society provides relies on the assumption that the environment will largely remain stable. Indeed, for

agriculture to succeed, environmental conditions must be just right, which McMichael refers to as the "Goldilocks phenomenon." Global warming is disrupting this balance, just as other climate-related upheavals have tested human societies throughout history. As McMichael shows, the break-up of the Roman Empire, the bubonic Plague of Justinian, and the mysterious collapse of Mayan civilization all have roots in climate change. Why devote so much analysis to the past, when the daunting future of climate change is already here? Because the story of mankind's previous survival in the face of an unpredictable and unstable climate, and of the terrible toll that climate change can take, could not be more important as we face the realities of a warming planet. This sweeping magnum opus is not only a rigorous, innovative, and fascinating exploration of how the climate affects the human condition, but also an urgent call to recognize our species' utter reliance on the earth as it is.

**Sound Unseen** - Brian Kane  
2014

'Sound Unseen' explores acousmatic sound - a sound that one hears without seeing its cause. Pierre Schaeffer, the inventor of musique concrète, in his *Traité des objets musicaux*, first popularized the term 'acousmatic'. After an introduction, the first chapter provides a thorough exegesis of Schaeffer's theory of acousmatics. It also presents three objections to Schaeffer's theories (myth, phantasmagoria, and ontology) around which the book is structured.

**Working** - Studs Terkel  
2011-07-26

A Pulitzer Prize winner interviews workers, from policemen to piano tuners: "Magnificent . . . To read it is to hear America talking." —The Boston Globe A National Book Award Finalist and New York Times bestseller Studs Terkel's classic oral history *Working* is a compelling look at jobs and the people who do them. Consisting of over one hundred interviews with everyone from

a gravedigger to a studio head, this book provides a “brilliant” and enduring portrait of people’s feelings about their working lives. This edition includes a new foreword by New York Times journalist Adam Cohen (Forbes).

“Splendid . . . Important . . . Rich and fascinating . . . The people we meet are not digits in a poll but real people with real names who share their anecdotes, adventures, and aspirations with us.”

—Business Week “The talk in Working is good talk—earthy, passionate, honest, sometimes tender, sometimes crisp, juicy as reality, seasoned with experience.” —The Washington Post

**The Age of Revolution** - Eric J. Hobsbawm 1977-01

*The Goose-step* - Upton Sinclair 1923

**The Wind in the Willows** - Kenneth Grahame 2020-02-28  
The Mole had been working very hard all the morning, spring-cleaning his little home. First with brooms, then

with dusters; then on ladders and steps and chairs, with a brush and a pail of whitewash; till he had dust in his throat and eyes, and splashes of whitewash all over his black fur, and an aching back and weary arms. Spring was moving in the air above and in the earth below and around him, penetrating even his dark and lowly little house with its spirit of divine discontent and longing. It was small wonder, then, that he suddenly flung down his brush on the floor, said 'Bother!' and 'Oblow!' and also 'Hang spring-cleaning!' and bolted out of the house without even waiting to put on his coat. Something up above was calling him imperiously, and he made for the steep little tunnel which answered in his case to the gravelled carriage-drive owned by animals whose residences are nearer to the sun and air. So he scraped and scratched and scabbled and scrooged and then he scrooged again and scabbled and scratched and scraped, working busily with his little paws and muttering to himself,

'Upwe go! Up we go!' till at last, pop! his snout came out into the sunlight, and he foundhimself rolling in the warm grass of a great meadow.

**All Things Shining** - Hubert Dreyfus 2011-01-04

In unrelenting flow of choices confronts us at nearly every moment of our lives, and yet our culture offers us no clear way to choose. This predicament seems inevitable, but in fact it's quite new. In medieval Europe, God's calling was a grounding force. In ancient Greece, a whole pantheon of shining gods stood ready to draw an appropriate action out of you. Like an athlete in "the zone," you were called to a harmonious attunement with the world, so absorbed in it that you couldn't make a "wrong" choice. If our culture no longer takes for granted a belief in God, can we nevertheless get in touch with the Homeric moods of wonder and gratitude, and be guided by the meanings they reveal? All Things Shining says we can. Hubert Dreyfus and Sean Dorrance Kelly illuminate some

of the greatest works of the West to reveal how we have lost our passionate engagement with and responsiveness to the world. Their journey takes us from the wonder and openness of Homer's polytheism to the monotheism of Dante; from the autonomy of Kant to the multiple worlds of Melville; and, finally, to the spiritual difficulties evoked by modern authors such as David Foster Wallace and Elizabeth Gilbert. Dreyfus, a philosopher at the University of California, Berkeley, for forty years, is an original thinker who finds in the classic texts of our culture a new relevance for people's everyday lives. His lively, thought-provoking lectures have earned him a podcast audience that often reaches the iTunesU Top 40. Kelly, chair of the philosophy department at Harvard University, is an eloquent new voice whose sensitivity to the sadness of the culture—and to what remains of the wonder and gratitude that could chase it away—captures a generation

adrift. Re-envisioning modern spiritual life through their examination of literature, philosophy, and religious testimony, Dreyfus and Kelly unearth ancient sources of meaning, and teach us how to rediscover the sacred, shining things that surround us every day. This book will change the way we understand our culture, our history, our sacred practices, and ourselves. It offers a new—and very old—way to celebrate and be grateful for our existence in the modern world.

*Demorests' Monthly Magazine* - 1883

**The Athenaeum** - 1883

**Arguments about Abortion** - Kate Greasley 2017

Does the morality of abortion depend on the moral status of the human fetus? Must the law of abortion presume an answer to the question of when personhood begins? Can a law which permits late abortion but not infanticide be morally justified? These are just some of the questions this book sets

out to address. With an extended analysis of the moral and legal status of abortion, Kate Greasley offers an alternative account to the reputable arguments of Ronald Dworkin and Judith Jarvis Thomson and instead brings the philosophical notion of 'personhood' to the foreground of this debate. Structured in three parts, the book will (I) consider the relevance of prenatal personhood for the moral and legal evaluation of abortion; (II) trace the key features of the conventional debate about when personhood begins and explore the most prominent issues in abortion ethics literature: the human equality problem and the difference between abortion and infanticide; and (III) examine abortion law and regulation as well as the differing attitudes to selective abortion. The book concludes with a snapshot into the current controversy surrounding the scope of the right to conscientiously object to participation in abortion provision.

Immortality and the Philosophy of Death - Michael Cholbi

2015-12-02

A collection of seminal articles investigating whether death is bad for us – and if so, whether immortality would be good for us.

Our Molecular Future -

Douglas Mulhall 2002

Speculates on the impact of certain advanced technologies on human society and their relationship with the natural world.

**Identity and Violence: The Illusion of Destiny (Issues of Our Time)** - Amartya Sen

2007-02-17

“One of the few world intellectuals on whom we may rely to make sense out of our existential confusion.”—Nadine Gordimer In this sweeping philosophical work, Amartya Sen proposes that the murderous violence that has riven our society is driven as much by confusion as by inescapable hatred.

Challenging the reductionist division of people by race, religion, and class, Sen presents an inspiring vision of

a world that can be made to move toward peace as firmly as it has spiraled in recent years toward brutality and war.

*Music and Consciousness* -

David Clarke 2011-07-28

What is consciousness? Why and when do we have it?

Where does it come from, and how does it relate to the lump

of squishy grey matter in our heads, or to our material and social worlds? While

neuroscientists, philosophers, psychologists, historians, and cultural theorists offer widely different perspectives on these fundamental questions

concerning what it is like to be human, most agree that consciousness represents a 'hard problem'. The emergence

of consciousness studies as a multidisciplinary discourse

addressing these issues has often been associated with

rapid advances in

neuroscience—perhaps giving the impression that the arts

and humanities have arrived late at the debating table. The

longer historical view suggests otherwise, but it is probably

true that music has been

under-represented in accounts of consciousness. *Music and Consciousness* aims to redress the balance: its twenty essays offer a timely and multi-faceted contribution to consciousness studies, critically examining some of the existing debates and raising new questions. The collection makes it clear that to understand consciousness we need to do much more than just look at brains: studying music demonstrates that consciousness is as much to do with minds, bodies, culture, and history. Incorporating several chapters that move outside Western philosophical traditions, *Music and Consciousness* corrects any perception that the study of consciousness is a purely occidental preoccupation. And in addition to what it says about consciousness the volume also presents a distinctive and thought-provoking configuration of new writings about music.

**The Empire of Business -**

The Rift in the Lute -

Maximilian De Gaynesford  
2017

What is it for poetry to be serious and to be taken seriously? What is it to be open to poetry, exposed to its force, attuned to what it says and alive to what it does? These are important questions that call equally on poetry and philosophy. But poetry and philosophy, notoriously, have an ancient quarrel. Maximilian de Gaynesford sets out to understand and convert their mutual antipathy into something mutually enhancing, so that we can begin to answer these and other questions. The key to attuning poetry and philosophy lies in the fact that poetic utterances are best appreciated as doing things. For it is as doing things that the speech act approach in analytic philosophy of language tries to understand all utterances. Taking such an approach, this book offers ways to enhance our appreciation of poetry and to develop our understanding of philosophy. It

explores work by a range of poets from Chaucer to Geoffrey Hill and J. H. Prynne, and culminates in an extended study of Shakespeare's Sonnets. What work does poetry set itself, and how does this determine the way it is to be judged? What do poets commit themselves to, and what they may be held responsible for? What role does a poet have, or their audience, or their context, in determining the meaning of a poem, what work it is able to achieve? These are the questions that an attuned approach is able to ask and answer.

Women in Game of Thrones -  
Valerie Estelle Frankel  
2014-04-11

Game of Thrones, one of the hottest series on television, leaves hundreds of critics divided on how "feminist" the show really is. Certainly the female characters, strong and weak, embody a variety of archetypes—widow queens, warrior women, damsels in distress, career women, priestesses, crones, mothers and maidens. However, the

problem is that most of them play a single role without nuance—even the "strong women" have little to do besides strut about as one-note characters. This book analyzes the women and their portrayals one by one, along with their historical inspirations. Accompanying issues in television studies also appear, from the male gaze to depiction of race. How these characters are treated in the series and how they treat themselves becomes central, as many strip for the pleasure of men or are sacrificed as pawns. Some nude scenes or moments of male violence are fetishized and filmed to tantalize, while others show the women's trauma and attempt to identify with the scene's female perspective. The key is whether the characters break out of their traditional roles and become multidimensional.

**The Goodriches** - Dane Starbuck 2001

When local author Dane Starbuck set out several years ago to write the biography of Pierre Goodrich, scion of one of

Indiana's most prominent twentieth-century families, he soon discovered that it was impossible to really understand Pierre Goodrich without also closely examining his family. Starbuck's years of research culminated in *The Goodriches: An American Family*, now available from Liberty Fund. This work is a revealing window into the founding ideals of both Indiana and our country, and how our founders meant these ideals to be lived. *The Goodriches: An American Family* begins with the birth of James P. Goodrich in 1864 and continues through the death of his son Pierre F. Goodrich in 1973. As the story of two fascinating and fiercely individualistic men, it is compelling reading, but as author Dane Starbuck says in the preface, "the later chapters of this book are as much a social commentary on American life in the twentieth century as parts of a biography of two accomplished men." In his foreword to *The Goodriches: An American Family*, James M. Buchanan,

Nobel laureate in economics and celebrated Liberty Fund author, says, "The Indiana Goodriches are an American family whose leading members, James and Pierre, helped to shape the American century. . . . This biography makes us recognize what is missing from the millennial setting in which we find ourselves. We have lost the 'idea of America,' both as a motivation for action and as a source of emotional self-confidence. We have lost that which the Goodriches possessed." What did the Goodrich family "possess" which made them so unique? A belief in the power of knowledge, the importance of education, and a strong work ethic combined to imbue the Goodrich family with a distinctive sense of civic duty. James Goodrich served as governor of Indiana from 1917 to 1921 and as adviser to Presidents Warren G. Harding, Calvin Coolidge, and Herbert Hoover. During his eulogy of James Goodrich, the Reverend Gustav Papperman explained, "The Governor felt that he had

been given talents that were a trust, that he was to administer them faithfully. . . ." According to author Dane Starbuck, "Education was a large part of the Goodriches' work ethos. . . . The family viewed education as a process by virtue of which the individual remained informed, made better business decisions, learned the importance of citizenship, and was given an opportunity for individual self-improvement. Therefore, work and education became the centerpieces of the Goodrich family's ethical and practical life." In later years, Pierre Goodrich, successful businessman and entrepreneur, would set aside a portion of his estate to found Liberty Fund because he believed that the principles of liberty on which our nation was founded need to be constantly kept before the public.

**Skin** - Donna Jo Napoli  
2013-08-06

When sixteen-year-old Sep develops a disease that causes white blotches to appear on her skin, she rushes into a relationship with a boy she has

always thought of as just a friend.

*Knowing What To Do* - Timothy Chappell 2014

Presents what philosophical ethics can be like if freed from the idealizing and reductive pressures of conventional moral theory, making the case that moral imagination is a key part of human virtue by showing the variety of roles it plays in our practical and evaluative lives.

*Railway Adventures and Anecdotes* - Richard Pike 1884

*Fabian Essays in Socialism* - Bernard Shaw 1908

*Values in Education and Education in Values* - Mark Halstead 2005-10-26

An investigation into how schools can influence the developing values of young people is given in this book. The authors first look, from the perspective of educationalists and policy makers, at values within contemporary education; in particular, moral, spiritual, democratic and environmental values together

with arts and health education. Secondly, they focus on the values of pupils and schools, examining school aims and mission statements, the formal curriculum, school ethos and assessment of children's development.; Insights are provided with guidance on how values may be most effectively incorporated into the activities

of the schools. This book is intended to be of use as a practical and informative guide to all those involved in primary and secondary education and those interested in values education generally.

**The Story of the Irish in Argentina** - Thomas Murray  
1919
