Mating the Omega - Ada Stuart 2020-12-13

Mated to three large alpha shifters? No way, Leah decides. She might be an omega, but who says she needs to follow every dust-covered tradition? She would rather work on her studies than count male abs. Particularly when those abs belong to three of her uncle's most intimidating enforcers. Unfortunately, her uncle is also the Alpha, the pack leader. And he has too many unmated males to deal with. Still, Leah refuses to solve the Alpha's 'problem'. Particularly not when she learns that her fated mate is her childhood tormentor - and he wants to mate her with two of his friends.. ----- "Mating the Omega" is a steamy hot Dubcon Reverse Harem Erotic Wolf Shifter Romance. Full length, explicit sex scenes, standalone, no cheating or cliffhangers - and Happily Ever After. Reader advisory: This story contains elements of non-consensual sex, strong language, suicide thoughts and very explicit sex scenes. Themes: Reverse Harem, Enemies to lovers, Happily ever after, Opposites attract, Alpha male, Unrequited love, Matchmaker, Accidental pregnancy, Arranged marriage, Love triangle, Menage, Protector, Return to hometown, Wolf shifter, Pack life, Omega, Alpha NOTE: The cover has been changed, but the content remains the same. ----- Excerpt: The next morning, Leah tried to stick to her usual routines and ignore what had happened yesterday. It wasn't a great success. Her mind seemed to be constantly churning on how she could avoid her fate. But so far, no good ideas had come forward. She needed to calm down. That would help her mind work more efficiently. But even a long, warm shower had failed to calm her nerves. She dried her hair and got dressed. Taking some comfort in doing what she always did in the morning. There had to be a way out of this mess. Some miracle that would restore her life to normal and wake her up from this nightmare. As she left the bathroom, Leah heard her mother call from the story below her. "Leah?" "Yes?" "There's someone here to see you." "Who?" "Come down and see for yourself, dear." Leah had a strong suspicion who it might be. Taren. Otherwise, her mother would have said so. She had briefly told her mother what her uncle had ordered her to do. Her mother had seemed relieved, but she hadn't nagged about it. Instead, she had kept her questions to a minimum, as if she sensed Leah was too shocked to want to talk about it. In fact, she didn't even want to think or talk about the mating. She wanted to forget the whole thing. But the people around her wouldn't forget. Particularly not if her so-called mate would become a frequent visitor to her house. Leah heard muttered voices coming from the living room as she moved closer. Fearing the meeting, yet it was better to know. She stood in the doorway and looked inside. At the same time, they stopped talking and turned their attention to her. Even if she had moved silently, it felt like she had barged in. Leah stiffened when she saw Taren wasn't the only visitor. Three large men towered over her mother. Each of them so large and broad, their living room suddenly felt tiny. Their faces turned to her. Leah felt their eyes scan her entire body from top to toe. As if they were weighing her, judging her. -----

The next thing Dan knew, he was on the moon, piloting humanity's first starship while fighting his way through one peril after another. Little did Dan know that simple offer was anything but, and would lead him to the stars far beyond our own. The risks are great. But if life knocked you down, what would you gamble to have one more shot at your dreams? Excerpt: "Dan - ad astra!" Dan heard the order. Ad astra. To the stars. It was a toast the two of them had shared back in college, when they first stepped onto the roads which would lead them into space. It had been John's idea to use the toast as a code word now. Dan didn't even take a deep breath before executing the order. He'd practiced this with Majel enough times in the simulator - not the part about having a gunman in the bridge, but if that order was ever given, it would be a true crisis. He checked the screen again. Visual range in only fifteen seconds. No time for anything else. He rapidly initiated the program, said a quick prayer, and pressed the Enter button on his keyboard. Immediately, the ship began to shudder. This book is a heavily revised second edition of the original volume. The story length has been increased by about 60%, adding enormously more background to the characters and deepening of the personality of the world and crew. Yet no one in the Orion Arm has forgotten that the colonists possess the most valuable technology known to humankind, least of all Tanis Richards-as she secretly prepares to defend New Canaan against any and all aggressors. Now things have come to a head. A Transcend fleet has invaded New Canaan, and a Hegemony of Worlds fleet on its way. Tanis Richards must defeat a rogue AI that has its own designs for humanity's future, while saving her people from invaders. General, governor, commander of twenty thousand warships, Tanis Richards stands on the edge of a precipice. If she jumps, she will draw all of humanity into total war.
