A Walk in the Park - Jill Mansell 2012-11-06
No one could have planned for this... Lara Carson left her family and boyfriend Flynn eighteen years ago without a word to anyone. Why has no one heard from her since? Does it mean anything that she's suddenly reappeared

in Bath just in time for her ex-best friend Evie's wedding? And what about Flynn? Even the most eagle-eyed observer can't tell whether he's happy to see her, or just stunned. While secrets pile up on secrets, and the gossip mill wings into high gear, the brand-new life Lara's searching

for becomes ever more elusive. There's a lot of catching up for everyone to do, and Lara's return is going to be anything but a walk in the park. Praise for *To the Moon and Back*: "A tremendous look at friendship, hope, romance, and second chances."—RT Book Reviews, 4 stars "A romantic and lighthearted story...fans will eat this story up."—Publishers Weekly "Mansell crafts a lovely story with multiple plotlines, characters, and love interests."—USA Today "Absolutely, positively and outstanding story."—Night Owl Reviews Reviewer Top Pick, 5 stars

A Walk in the Park - Travis Elborough
2016-06-02

'A fascinating, informative, revelatory book' William Boyd, *Guardian* Parks are such a familiar part of everyday life, you might be forgiven for thinking they have always been there. In fact, public parks are an invention. From their medieval inception as private hunting grounds through to their modern incarnation as

public spaces of rest and relaxation, parks have been fought over by land-grabbing monarchs, reforming Victorian industrialists, hippies, punks, and somewhere along the way, the common folk trying to savour their single day of rest. In *A Walk in the Park*, Travis Elborough excavates the history of parks in all their colour and complexity. Loving, funny and impassioned, this is a timely celebration of a small wonder that - in an age of swingeing cuts - we should not take for granted.

A Walk in New York - Salvatore Rubbino

Flâneuse - Lauren Elkin 2017-02-28

The New York Times Book Review Editor's Choice The flâneur is the quintessentially masculine figure of privilege and leisure who strides the capitals of the world with abandon. But it is the flâneuse who captures the imagination of the cultural critic Lauren Elkin. In her wonderfully gender-bending new book, the flâneuse is a "determined, resourceful individual keenly attuned to the creative potential of the city and the liberating possibilities of a good walk." Virginia Woolf called it "street haunting"; Holly Golightly epitomized it in *Breakfast at Tiffany's*; and Patti Smith did it in her own inimitable style in 1970s New York. Part cultural meander, part memoir, *Flâneuse* takes us on a distinctly cosmopolitan jaunt that begins in New York, where Elkin grew

up, and transports us to Paris via Venice, Tokyo, and London, all cities in which she's lived. We are shown the paths beaten by such flâneuses as the cross-dressing nineteenth-century novelist George Sand, the Parisian artist Sophie Calle, the wartime correspondent Martha Gellhorn, and the writer Jean Rhys. With tenacity and insight, Elkin creates a mosaic of what urban settings have meant to women, charting through literature, art, history, and film the sometimes exhilarating, sometimes fraught relationship that women have with the metropolis. Called "deliciously spiky and seditious" by The Guardian, *Flâneuse* will inspire you to light out for the great cities yourself.

London - Edward Rutherfurd 2010-12-23

A grand, epic story that tells the history of the greatest city in the world, from Roman times to the present day. London has perhaps the most remarkable history of any city in the world. Now its story has a unique voice. In this epic novel Edward Rutherfurd takes the reader on a

magnificent journey across sixteen centuries from the days of the Romans to the Victorian engineers of Tower Bridge and the era dockland development of today. Through the lives and adventures of his colourful cast of characters he brings all the richness of London's past unforgettably to life.

Walking Cities: London - Jaspar Joseph-Lester
2020-05-28

Walking Cities: London (second edition) brings together a new interdisciplinary field of artists, writers, architects, musicians, human geographers and philosophers to consider how a city walk informs and triggers new processes of making, thinking, researching and communicating. In particular, the book examines how the city contains narratives, knowledge and contested materialities that are best accessed through the act of walking. The varied contributions take the form of short stories, illustrated essays, personal reflections and accounts of walks both real and fictional. While

artist and RCA tutor Rut Blee Luxenburg and philosopher Jean-Luc Nancy recount a nocturnal journey from Shoreditch to the City of London; architect Peter St John of the practice Caruso St John offers a detailed and personal reflection on the Holloway Road; and architect and author Douglas Murphy examines what he calls London's 'more politically charged locations' in his account of a solitary walk through an area of South London. Ultimately, *Walking Cities: London* seeks to understand the wider significance of changing geographies to generate critical questions and creative perspectives for navigating the social and political impact of rapid urban change.

The London Loop - David Sharp 2017-03-02
For 140 miles, the London LOOP (London Outer Orbital Path) follows a green corridor right around the capital, offering a circular walk among secret countryside that can make you forget you're within a few miles of Heathrow Airport, the A13, or the suburban sprawl of

Croydon, Watford or Dagenham. Here is rolling downland near Coulsdon, the forest of Enfield Chase, the lonely Thames marshes at Rainham, the classical parkland of Bushy Park and a canalside stroll at Uxbridge. London could not seem further away. Each of the guide's 15 sections represents a day's walk of reasonable length, and starts and finishes at a public transport point.

Walk the Lines - Mark Mason 2013-06

The only way to truly discover a city, they say, is on foot. Taking this to extremes, Mark Mason sets out to walk the entire length of the London Underground - overground - passing every station on the way. In a story packed with historical trivia, personal musings and eavesdropped conversations, Mark learns how to get the best gossip in the City, where to find a pint at 7am, and why the Bank of England won't let you join the M11 northbound at Junction 5. He has an East End cup of tea with the Krays' official biographer, discovers what cabbies mean

by 'on the cotton', and meets the Archers star who was the voice of 'Mind the Gap'. Over the course of several hundred miles, Mark contemplates London's contradictions as well as its charms. He gains insights into our fascination with maps and sees how walking changes our view of the world. Above all, in this love letter to a complicated friend, he celebrates the sights, sounds and soul of the greatest city on earth.

London Adventure Walks for Families -

Becky Jones 2010-05-04

London Adventure Walks for Families offers 25 carefully devised, imaginative explorations of the city from its center to its suburbs, all accessible by public transport and specifically designed to appeal to the mindset of children. These intriguing explorations of the historic (Tudor London/Fire of London/Florence Nightingale), literary (Coram Boy, Dickens, Shakespeare, 101 Dalmatians, Paddington Bear) and famous sights of the capital draw children in and keep them actively involved and enthralled. For the

parents, there is all the add-on information that families need, such as facilities, opening times, shops, food, transport, places for a sit-down, places for a run-around, I-spy lists, and other game ideas. Highly creative in its content and design, the format tempts children and adults as well as London natives and tourists alike. Packed with tantalizing facts and unusual places, the book draws on the urban culture as much as the countryside within the city, revealing secret facts, hidden places, and little explored treasures of London.

London's Lost Rivers - Paul Talling 2020-04-02

From the sources of the Fleet in Hampstead's ponds to the mouth of the Effra in Vauxhall, via the meander of the Westbourne through 'Knight's Bridge' and the Tyburn's curve along Marylebone Lane, London's Lost Rivers unearths the hidden waterways that flow beneath the streets of the capital. Paul Talling investigates how these rivers shaped the city - forming borough boundaries and transport networks,

fashionable spas and stagnant slums - and how they all eventually gave way to railways, roads and sewers. Armed with his camera, he traces their routes and reveals their often overlooked remains: riverside pubs on the Old Kent Road, healing wells in King's Cross, 'stink pipes' in Hammersmith and gurgling gutters on streets across the city. Packed with maps and over 100 colour photographs, London's Lost Rivers uncovers the watery history of the city's most famous sights, bringing to life the very different London that lies beneath our feet.

[The Killing of Osama Bin Laden](#) - Seymour M. Hersh 2016-04-12

Electrifying investigation of White House lies about the assassination of Osama bin Laden In 2011, an elite group of US Navy SEALs stormed an enclosure in the Pakistani city of Abbottabad and killed Osama bin Laden, the man the United States had begun chasing before the devastating attacks of 9/11. The news did much to boost President Obama's first term and played a major

part in his reelection victory of the following year. But much of the story of that night, as presented to the world, was incomplete, or a lie. The evidence of what actually went on remains hidden. At the same time, the full story of the United States' involvement in the Syrian civil war has been kept behind a diplomatic curtain, concealed by doublespeak. It is a policy of obfuscation that has compelled the White House to turn a blind eye to Turkey's involvement in supporting ISIS and its predecessors in Syria. This investigation, which began as a series of essays in the London Review of Books, has ignited a firestorm of controversy in the world media. In his introduction, Hersh asks what will be the legacy of Obama's time in office. Was it an era of "change we can believe in" or a season of lies and compromises that continued George W. Bush's misconceived War on Terror? How did he lose the confidence of the general in charge of America's forces who acted in direct contradiction to the White House? What else do

we not know?

I Went for a Walk - Gabriel Stewart 2019-03-07

In February 2016, Gabriel Stewart embarked on a walk around the UK with just a backpack, a camera and a tent for company. With little previous experience of hiking or camping on his own, it was always going to be an interesting one. This isn't your typical hiking book, wittering on about the cold fierce winds battering Gabriel's determined face as he treads across a mountainside. It's an exploration of the mind of a confused, self-deprecating eighteen- to nineteen-year-old boy as he dabbles and dabbles in everything from mental health problems to

the fake radio voice of Hugh Fearnley-Whittingstall. 'I will walk a thousand miles and it will be for charity - and maybe some other reason which I may or may not discover at some point in a random soggy British field.' That pretty much sums up the logic. *I Went for a Walk* is the story of how it all went spectacularly wrong.

Tate to Tate - Tommy Penton 2008

Tate to Tate is a book like no other you have ever seen. Concertina-bound, it shows a group of people walking east along the South Bank. Brightly coloured, brilliantly drawn by artist Tommy Penton, they are a diverse group, of all races and ages, and as you follow their progress from spread to spread you start to notice cunning details and the beginning of a story. Behind them, in the foreground, are Lambeth, Hungerford, Blackfriars and Southwark Bridges, and the London Eye - and across the Thames a magnificent panorama of the buildings on the North Bank: Tate Britain, the Palace of

Westminster, the Savoy Hotel, Somerset House. Then, arriving at Tate Modern, and the climaxes of the stories you have been following, you see that another group of characters is walking west, each with another story to follow. A game as absorbing as *Where's Wally*, a delightful, totally original guidebook, a stunning graphic book, *Tate to Tate* will appeal to Londoners of all ages, to tourists, to anyone who wants an exceptional graphic book at a remarkably reasonable price.

London Overground - Iain Sinclair 2016-04-07

"A walk around the circuit of the elevated railway, that accidental re-mapping of London, in a single day.' The completion of the full circle of London Overground provides Iain Sinclair with a new path to walk the shifting territory of the capital. It is a route haunted by the unquiet voices of the city's many literary ghosts. With thirty-three stations and thirty-five miles to tramp - plus inevitable and unforeseen detours and false steps - he embarks on a marathon

circumnavigation at street level, tracking the necklace of garages, fish farms, bakeries, convenience cafés, cycle-repair shops and Minder lock-ups which enclose inner London."

Jack the Ripper: Scotland Yard Investigates - Stewart P Evans 2010-05-21

In 1888 the dreaded figure of Jack the Ripper stalked London's East End murdering prostitutes. His crimes set in motion a huge

police operation and have held a dark fascination over the public's imagination for over a century, yet his identity has never been proved. Now, for the first time, two leading Ripper experts have joined forces to treat the case like a police investigation. Drawing on their unparalleled knowledge of the Jack the Ripper murders and their professional experience as police officers, they uncover clues that have remained undetected for over a hundred years. There are five 'canonical' Ripper victims, yet Scotland Yard's 'Whitechapel Murders' files include another six suspected victims. Drawing the reader into the world of police investigation in Victorian London, Evans and Rumbelow reveal the conflict between the City and Metropolitan forces and the ridicule heaped on the police by the press. Investigating each murder, they conclude that only four of the eleven victims were actually killed by the Ripper. Perhaps most tellingly, they question the motives behind the destruction of evidence - particularly the

message 'The Juwes are the men that will not be blamed for nothing', which was chalked on the wall near one murder site and rubbed out on order of the Chief Commissioner - and ask whether the enigmatic Dr Robert Anderson, officer in charge of the investigation, knew the Ripper's true identity. Jack the Ripper: Scotland Yard Investigates strips away much of the nonsense that has accumulated since 1888 and reopens files on a case that will perhaps never be fully solved but will always fascinate.

Nightwalking - Matthew Beaumont 2015-03-01

A captivating literary portrait of the writers who explore the city at night, and the people they met. "Cities, like cats, will reveal themselves at night," wrote the poet Rupert Brooke. Before the age of electricity, the nighttime city was a very different place to the one we know today - home to the lost, the vagrant and the noctambulant. Matthew Beaumont recounts an alternative history of London by focusing on those of its denizens who surface on the streets when the

sun's down. If nightwalking is a matter of "going astray" in the streets of the metropolis after dark, then nightwalkers represent some of the most suggestive and revealing guides to the neglected and forgotten aspects of the city. In this brilliant work of literary investigation, Beaumont shines a light on the shadowy perambulations of poets, novelists and thinkers: Chaucer and Shakespeare; William Blake and his ecstatic peregrinations and the feverish ramblings of opium addict Thomas De Quincey; and, among the lamp-lit literary throng, the supreme nightwalker Charles Dickens. We discover how the nocturnal city has inspired some and served as a balm or narcotic to others. In each case, the city is revealed as a place divided between work and pleasure, the affluent and the indigent, where the entitled and the desperate jostle in the streets. With a foreword and afterword by Will Self, Nightwalking is a captivating literary portrait of the writers who explore the city at night and the people they

meet.

The Importance of Being Trivial - Mark Mason
2008-09-12

If you're intrigued by the fact that Jack the Ripper was left-handed, or that Heinz ketchup flows at 0.7 miles per day - and, more importantly, intrigued by why you're intrigued - then this book is required reading. Convinced that our love of trivia must reveal something truly important about us, Mark Mason sets out to discover what that something is. And, in the process, he asks the fundamental questions that keep all trivialists awake at night: Why is it so difficult to forget that Keith Richards was a choirboy at the Queen's coronation when it's so

hard to remember what we did last Thursday?
Are men more obsessed with trivia than women?
Can it be proved that house flies hum in the key
of F? Can anything ever really be proved? And
the biggest question of them all: is there a
perfect fact, and if so what is it?

The Pilgrims' Way - Leigh Hatts 2022-02-14

With relatively easy walking on ancient byways, the route from Winchester is presented in 15 stages of 5-14 miles: it can be comfortably completed in under a fortnight.
