**Young Children and the Arts** - Carol Korn-Bursztyn 2012-04-01

Young Children and the Arts: Nurturing Imagination and Creativity examines the place of the arts in the experiences of young and very young children at home and in out-of-home settings at school and in the community. There is great need for development of resources in the arts specifically designed to introduce babies and toddlers to participatory experiences in the visual arts, dance, music, and storytelling/theater. This book presents valuable guidelines for early childhood teachers, families, caregivers and community organizations. Young Children and the Arts presents a comprehensive approach to the arts that is aligned with early childhood developmentally appropriate practice and that combines an exploratory, materials-based approach with an aesthetic-education approach for children from birth to eight years of age. It addresses both how the arts are foundational to learning, and how teachers and parents can nurture young children's developing imagination and creativity. The models presented emphasize a participatory approach, introducing young children to the arts through activities that call for engagement, initiative and creative activity. Additionally, Young Children and the Arts addresses the intersection of early childhood education and the arts—at points of convergence, and at moments of tension. The role of families and communities in developing

and promoting arts suffused experiences for and with young children are addressed. Young Children and the Arts examines the role of innovative arts policy in supporting a broad-based early arts program across the diverse settings in which young children and their families live, work, and learn.

Yayoi Kusama - Sarah Suzuki 2017-07-27  
Growing up in the mountains of Japan, Yayoi Kusama (b. 1929) dreamed of becoming an artist. One day, she had a vision in which the world and everything in it--the plants, the

people, the sky--were covered in polka dots. She began to cover her paintings, drawings, sculptures, and even her body with dots. As she grew up, she traveled all around the world, from Tokyo to Seattle, New York to Venice, and brought her dots with her. Different people saw these dots in different ways--some thought they were tiny, like cells, and others imagined them enormous, like planets. Every year, Kusama sees more of the world, covering it with dots and offering people a way to experience it the way she does. Written by Sarah Suzuki, a curator at The Museum of Modern Art, and featuring reproductions of Kusama's instantly recognizable artworks, this colorful book tells the story of an artist whose work will not be complete until her dots cover the world, from here to infinity.

She also loves stories of all kinds and is always surrounded by books. At the Catholic school she attends, she studies Western literature, and at home, her father regales her and her siblings with fantastical tales from a Russian storybook on animals. *Teaching to Support Children's Artistic Independence* - George Szekely 2021-12-29  
This engagingly written, research- and practice-based book defines how art teachers can build on students' creative initiatives without depending on adult-imposed lesson plans and school requirements. In doing so, art educator and author George Szekely explores the role of the arts in developing children's creativity and sense of purpose, and reminds readers that

students in the art classroom are unique artists, designers, and innovators. Against the backdrop of a school culture that over-emphasizes compliance and standardization, Szekely recognizes the importance of the role of the art teacher in supporting the artistic independence and creative flare that occurs naturally in students of all ages in the classroom. Providing real-life examples of classrooms and schools that work towards championing child artists, this text arms teachers with the skills necessary to listen to their students and support them in presenting their ideas in class. Ultimately, Szekely challenges readers to focus the practice of art teaching on the student's creative process, rather than the teacher's presentation of art. Written for pre-service and in-service art educators, teacher educators, and researchers, *Teaching to Support Children's Creativity and Artistic Independence* demonstrates that an openness to youthful and inquisitive visual expression inspires a more rewarding learning experience for both teacher and child artists that can support a life-long love of art.

Maurice Sendak and the Art of Children's Book Illustration - L. M. Poole 2007

MAURICE SENDAK Maurice Sendak is the widely acclaimed American children's book author and illustrator. This critical study focusses on his famous trilogy, *Where the Wild Things Are*, *In the Night Kitchen* and *Outside Over There*, as well as the early works and Sendak's superb depictions of Grimms' fairy tales in *The Juniper Tree*. L.M. Poole begins with a chapter on children's book illustration, in particular the treatment of fairy tales. Sendak's work is situated within the history of children's book illustration, and he is compared with many contemporary authors. This new edition includes a new introduction, a new bibliography and many more illustrations. MAURICE SENDAK, born in 1928, has become America's premier children's book author and illustrator. He's as important - and as adored - as Theodore Geisel (Dr Seuss). Best known for his trilogy of classic picture books - *Where the Wild Things Are* (1963), *In the Night Kitchen* (1970) and *Outside Over There* (1981) - Sendak has also written many other books (though mainly in children's book form). His interpretation of the Grimm Brothers, *The Juniper Tree*, although it is less well-known, could be said to be his most accomplished work. This book aims to consider some of Maurice Sendak's most significant works, concentrating on the children's books and the picture books. Other chapters explore Sendak's relationship with the movies and art of Walt Disney (which Sendak admires); his interpretation of classic fairy tales; a brief consideration of the fairy tale form; Sendak's links with the tradition of children's book illustration; and finally a comparison of Sendak's art with that of other book illustrators. The *Oxford Companion to Children's Literature* offers a typical assessment of Maurice Sendak as one of the highpoints of modern children's book illustration: Quite apart from his outstanding draughtsmanship and mastery of styles, Sendak's exploration of the realms of the unconscious in *Where the Wild Things Are* and its successors lifts his work beyond the confines of the children's picture book and places it among major art of the 20th century. Joyce Whalley and Tessa Chester write of Sendak: Sendak's superiority amounts to far more than mere

technical ability and an instinct for interpreting a text, whether his own or that of someone else. His sympathy and concern with every book he illustrates mounts to an almost religious obsession when it comes to his own picture books... His vision is unique, his draughtsmanship par excellence, and his work as a whole lifts him well into the ranks of the great illustrators of all time. Lee Kingman is equally laudatory, calling Sendak 'a magician who, working on several levels simultaneously, creates a world of carefully wrought surfaces and spaces dense with suggested drama.'

**Art Workshop for Children** - Barbara Rucci 2016-11-01

Art Workshop for Children is not just another book of straightforward art projects. The book's unique child-led approach provides a framework for cultivating creative thinking and encourages

the wonder that comes when children are allowed to freely explore the creative process and their materials. As children work through these open-ended workshops, adults are guided on how to be facilitators who provide questions, encourage deep thinking, and help spark an excitement for discovery. Children explore basic materials and workshops that use minimal supplies, and then gradually add new materials to fill the art cabinets as well as new skills and more complex workshops. Most workshops are suitable to preschool-aged children, and each contains ideas for explorations and new twists to engage older or more experienced artists. Interspersed throughout are sidebar essays that introduce perspectives on mess-making, imperfection, the role of adult, collaborative art, and thoughts on the Reggio Emilia method, a self-guided teaching philosophy. These pieces underscore the value of art-making with children, and support the parent/teacher/care-giver on how to successfully lead, question, and navigate their children through the workshops to result in the fullest experiences.
