**Confessions of a Tax Collector** - Richard Yancey 2004-12-28

Twelve years ago, Richard Yancey answered a blind ad in the newspaper offering a salary higher than what he'd made over the three previous years combined. It turned out that the job was for the Internal Revenue Service -- the most hated and feared organization in the

federal government. So Yancey became the man who got in his car, drove to your house, knocked on your door, and made you pay. Never mind that his car was littered with candy wrappers, his palms were sweaty, and he couldn't remember where he stashed his own tax records. He was there on the authority of the United States government. With "a rich mix of

humor, horror, and angst [and] better than most novels on the bestseller lists" (Boston Sunday Globe), *Confessions of a Tax Collector* contains an astonishing cast of too-strange-for-fiction characters. But the most intriguing character of all is Yancey himself who -- in detailing how the job changed him and how he managed to pull himself back from the brink of moral, ethical, and spiritual bankruptcy -- reveals what really lies beneath those dark suits and mirrored sunglasses. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

**Who Killed the Tax Man?** - Thomas Hischak  
2017

*The Taxman* - Fiona Beddall 2008-01-01  
Robin Hood and his men live in Sherwood Forest. The taxman comes to see the Sheriff of Nottingham, and the men are not happy! They hate taxes and they hate the Sheriff. Can Robin and his men give back the taxes to the people of

*The Devil* - Graham Johnson 2011-03-04  
Drug dealers beware. The Devil is coming to get you. Gangster Stephen French invented the perfect crime: robbing drug barons of their huge fortunes. In SAS-style swoops, French raided their fortified mansions and tortured them with horrifying violence until they paid up. Through 'taxing' the richest and most powerful crimelords in the UK, he netted over £20 million. French was no ordinary criminal. He was a world-champion fighter, he studied psychology at university to master mind-control techniques, and he used the teachings of Machiavelli and samurai warriors to outwit his enemies. The Devil also reveals French's complex relationship with Curtis Warren, the wealthiest criminal in British history. The two were childhood pals, then partners and finally bitter enemies. Now a legitimate businessman, French built up a multimillion-pound empire. Having eventually turned his back on his former life, he is now

seeking to set the record straight.

*Tax Man* - Tony Milne 2020-02-03

Tax Man explains how a human population of more than seven billion is possible. Most mammals follow a violent instinct when meeting strange same-sex members of their own species, restricting their population to a few million. Humans, uniquely, co-operate. This adaptation derives from a simple genetic mutation. It inhibits our fight/flight/freeze instinct and instead operates a 10% tax, which is far more effective in increasing our total offspring. Homo sapiens with the tax gene mutation competed with other Homo species, and used their tax-derived co-operation to outperform even the most intelligent sapiens subspecies. It seems a misnomer to call ourselves sapiens. A more accurate term would be Homo acquiescans, for it is in our ability to acquiesce to the theft of our wealth that lies our demographic success. All civilisation stems from, and cannot exist without, this simple genetic change. Our ability to avoid

killing allows us to co-operate in ever-larger groups to hunt, to build, to explore, to fight and to farm. Operating in larger groups requires more complex language and social systems. Taxation led to the development of writing and mathematics, and social engineering like circumcision. Belief cults become religions when they adopt taxation. Complex societies form cities, in which individuals can specialise in trades, creating a division of labour that is far more efficient than personal autarky. All these developments help tax societies to grow faster, to produce aggressive young men in larger numbers than other societies. Groups with this mutant tax gene who adopted taxation conquered and occupied most of the world. The story of those men is Tax Man.

**The Tax Man** - Brian Cockerill 2007-10-01

Brian Cockerill has ruled his world with an iron fist. Using nothing but his hands as weapons, he has patrolled the streets, clubs and raves of Britain in order to keep order and to 'tax' those

whose ill-gotten gains he sees fit to take a share of. Yet despite his appalling record of aggression, Brian is a man who lives by rules and respect.

**The Tax Collector and the Pharisee** - Peter Tan-Gatue 2022-02-04

The idea of "justification by faith" is noticeably illustrated in narrative form in the parable of the tax collector and the Pharisee (Luke 18:9-14). Did Luke the evangelist copy or import this idea from the apostle Paul? Or is there a better likelihood that Luke derived the theme from the teachings of Jesus himself? The answers to these questions have implications on the likely origin of this central Christian theme, and the connection between Jesus and Paul. In *The Tax Collector and the Pharisee*, Peter Tan-Gatue builds a plausible case that this notion of "justification by faith" comes from material sources that already exist in the Jesus tradition. Through biblical exegesis, critical use of authenticity criteria, and contributions in

ancient and current historical-cultural studies, this work challenges the idea that justification is a Pauline innovation and also affirms the intrinsic authenticity of the Lukan parable.

*The Taxman's Visit* - Raymond McMahon 2010

From start to finish, *The Taxman Visit* is a comprehensive UK guide to dealing with a PAYE/Employer Compliance Visit. In the UK, every employer will be visited on average every five or six years. The UK's HM Revenue & Customs (HMRC) have specialist teams and Tax Inspectors to review employer records and to establish if the correct tax and National Insurance is being calculated and paid to the tax office. The book takes a step-by-step approach, detailing over 100 questions which are likely to be asked. It also explains what the issues may be and it provides solutions. *The Taxman Visit* is split into sections highlighting different areas - such as payroll, expenses, benefits, and the Construction Industry Scheme - so that the correct information can be found easily.

*Rebellion, Rascals, and Revenue* - Michael Keen  
2022-05-17

An engaging and enlightening account of taxation told through lively, dramatic, and sometimes ludicrous stories drawn from around the world and across the ages Governments have always struggled to tax in ways that are effective and tolerably fair. Sometimes they fail grotesquely, as when, in 1898, the British ignited a rebellion in Sierra Leone by imposing a tax on huts—and, in repressing it, ended up burning the very huts they intended to tax. Sometimes they succeed astonishingly, as when, in eighteenth-century Britain, a cut in the tax on tea massively increased revenue. In this entertaining book, two leading authorities on taxation, Michael Keen and Joel Slemrod, provide a fascinating and informative tour through these and many other episodes in tax history, both preposterous and dramatic—from the plundering described by Herodotus and an Incan tax payable in lice to the (misremembered)

Boston Tea Party and the scandals of the Panama Papers. Along the way, readers meet a colorful cast of tax rascals, and even a few tax heroes. While it is hard to fathom the inspiration behind such taxes as one on ships that tended to make them sink, Keen and Slemrod show that yesterday's tax systems have more in common with ours than we may think. Georgian England's window tax now seems quaint, but was an ingenious way of judging wealth unobtrusively. And Tsar Peter the Great's tax on beards aimed to induce the nobility to shave, much like today's carbon taxes aim to slow global warming. *Rebellion, Rascals, and Revenue* is a surprising and one-of-a-kind account of how history illuminates the perennial challenges and timeless principles of taxation—and how the past holds clues to solving the tax problems of today.

**Kierkegaard's Dancing Tax Collector** - Sheridan Hough 2015

Kierkegaard's account of the life of faith claims that a person living faithfully continually enjoys, and takes part in, everything. What can this mean? Sheridan Hough imagines how such a person might look: 'just like a tax collector'. He embarks on an 'existential-phenomenological' investigation of the faithful life through an analysis of Kierkegaard's 'spheres of existence', each revealing a specific kind of significance, and a way of 'being in the world'. Hough examines Kierkegaard's ontology from the perspective of his pseudonymous voices, and from the characters they create.

[Sing for the Taxman](#) - Sheenagh Pugh 1993  
Her characteristic wit and precision are fully in evidence in Sheenagh Pugh's latest collection of poems, *Sing for the Taxman*. Dedicated to the proposition that poetry must, first of all, entertain the reader, these poems give delight on first reading and pleasure upon contemplation. A day mountain climbing inspires the beautiful three-part pastoral 'Climbing Hermaness', that opens the book. In 'Five Voices', we learn about the strange and tragic execution of Lieutenant Hans Hermann von

Katte in 1730, through the dramatic confessions of his intimates. Later we meet, among others, 'Mozart Playing Billiards', 'The Last Wolf in Scotland', and Guy Fawkes' girlfriend ('Remember, Remember'). Half a dozen of Sheenagh Pugh's excellent translations from the poetry of Jammes, Holty, Von Hofmannswaldau and others, round off this thoroughly enjoyable collection.

[Taking on the Bully \(taxman\)](#) - Elly Foote  
2021-06-25

A soul-wrenching tale of one family falsely accused of criminal tax evasion. Nathan and Elly arrived in Canada in 1973, after travelling five years on horseback through the three Americas. They became Canadian citizens, raised a family and carved a ranch out of the wilderness in northern British Columbia with Belgian draft horses. In 2006, inexplicably, the family was swept up in the Canada-wide wave of terror originating with the Harper government, intended to spread fear among small business

owners, and, through fear, taxpayer compliance. And to divert attention from the off-shore tax havens of the rich. Trail hardened and resilient, Nathan and Elly would not allow themselves to become victims of a bully. They launched a civil lawsuit against the tax agency that attacked them without merit, mercy, or fact. They acted as their own lawyers. The battle lasted ten years. This small book has a big message: when you have the guts to stand up for what you believe, no one has power over you!

why he filed no tax returns for 17 years. He says he forgot. The jury buys this argument, but Mess rigs the trial. Samson decides he ain't gonna take it anymore. He declares war against the United States government. Guess who wins.  
*Tackling the Taxman* - Alex Doulis 2006-03  
Many questions swirl around the heads of worried Canadians at tax time every year. As they snap their pencils, slam down their calculators, and let out an anguished sigh, they wonder, How on earth did this convoluted system of taxation ever evolve? That question breaks the logjam of many others, and Alex Doulis is here to answer them: - Does the taxman ever lose? Yes. - Would the taxman lie? Yes. - Has the government ever used the tax system to bludgeon its opponents? Apparently. - Does the government use the tax system to help its friends? Only the wealthy ones. - Can ordinary

**Regina V Vagina** - Angela Nangle 2013-12

WARNING: CONTAINS EXPLICIT LANGUAGE  
Letitcia was the proverbial 'good time' (girl) that had been 'had by all'. She had been sporadically pleasuring the masses in a 'career' which spanned several continents. As Mae West would comment, she had 'been things and seen places.' She was (unfortunately) blissfully unaware of her Tax liability in the UK, until HMRC kindly pointed out her responsibility. One would imagine, and certainly, logic would dictate, that suitably chastened, she could have just paid the tax bill with the attendant penalties, to carry on, and wend her merry way. But, oh no, that would just be too simple on Planet Civil Service. 'Justice', as in, showing the general public: 'Behold how we catch these miscreants!!' has to be, (in the world of HMRC), SEEN to be done. It was another fine mess Letitcia had gotten into, but could she get herself out? As the comedian Max Miller would joke: 'Would she block their passage or toss them off' of the Tax train? Wince as the horror of bankruptcy, homelessness

and/or incarceration squeezes her 'pincer movement' into submission. Watch her grapple with the discrimination, morality and misinformation surrounding the rights of Sex workers....along with the incompetence of her persecutors. Will it all come out in the wash or do nice gals always have to finish last? Will Brighton and beyond be deprived of their best loved Erotic Service Provider? This is her story..... (Inconveniently, she also used to work for the Inland Revenue, albeit 40 years ago!!!!!!!)

**The Tax Man Cometh** - Joan W. Peters 1999  
This book was written with two purposes in mind. First, to make Fauquier's hitherto unpublished colonial tithable lists available to the research public; secondly, to provide an explanation for the tax and fiscal laws that brought the tithable lists into being. The tax lists cover the colonial Virginia time period into the Revolutionary War. Designed to meet the needs of researchers--family historians, professional

genealogists, historians, African-American family researchers as well as those interested in colonial Virginia history. The book is organized into three parts--includes a historical introduction and transcripts of Fauquier's nineteen never before published colonial tax lists of 1759-1782. Four different indexes are included: 1759-1778 list, 1759-1778 tithables, slave holders and slaves, 1782 tithables, 1782 slave holders and slaves. Officials mentioned in this work include Thomas Marshall, George Lamkin, John Marshall, Gilson Foote, John Kirk, Armistead Churchill, John Kirk, William Grant, John Moffet, Thomas Keith, William Pickett, William Blackwell, Charles Chilton, John Blackwell, and William Heale. These tax lists were discovered in a 1994 preservation and repair project funded by the Library of Virginia. The Tax and Fiscal records were done by the Justices who took the lists of Tithables from Fauquier's residents and by the Sheriff and other officials who took the tax and were

responsible for their transmission to the colonial capital. The colonial tax lists, those taken before 1782 were loosely termed Tithable Lists-- included both property and land. During and after 1782, these lists were divided into two distinct tax lists which included personal property tax lists and land tax lists.
