A haunting, evocative novel about a woman who might have to face the disturbing truth about her own daughter. Hanna and Joe send their awkward daughter Dawn off to college hoping that she will finally "come into her own." When she brings her new boyfriend, Rud, to her sister's wedding, her parents try to suppress their troubling impressions of him for Dawn's sake. Not long after, Hanna and Joe suffer a savage attack at home, resulting in Joe's death and Hanna's severe injury and memory loss. Rud is convicted of the crime, and the community speculates that Dawn may also have been

involved. When Rud wins an appeal and Dawn returns to live in the family home, Hanna resolves to recall that traumatic night so she can testify in the retrial, exonerate her daughter, and keep her husband's murderer in jail. But as those memories resurface, Hanna faces the question of whether she knows her own daughter-and whether she ever did.

**The Weekend Homesteader** - Anna Hess 2012-12-18

The Weekend Homesteader is organized by month—so whether it's January or June you'll find exciting, short projects that you can use to dip your toes into the vast ocean of homesteading without getting overwhelmed. If you need to fit homesteading into a few hours each weekend and would like to have fun while doing it,

these projects will be right up your alley, whether you live on a forty-acre farm, a postage-stamp lawn in suburbia, or a high rise. You'll learn about backyard chicken care, how to choose the best mushroom and berry species, and why and how to plant a no-till garden that heals the soil while providing nutritious food. Permaculture techniques will turn your homestead into a vibrant ecosystem and attract native pollinators while converting our society's waste into high-quality compost and mulch. Meanwhile, enjoy the fruits of your labor right away as you learn the basics of cooking and eating seasonally, then preserve homegrown produce for later by drying, canning, freezing, or simply filling your kitchen cabinets with storage vegetables. As you become more self-sufficient, you'll save seeds, prepare for power outages, and tear yourself away from a full-time job, while building a supportive and like-minded community. You won't be completely eliminating your reliance on

the grocery store, but you will be plucking low-hanging (and delicious!) fruits out of your own garden by the time all forty-eight projects are complete.
