Warning Miracle -

Through Vegetal Being - Luce Irigaray 2016-07-05
Blossoming from a correspondence between Luce Irigaray and Michael Marder, *Through Vegetal Being* is an intense personal, philosophical, and political meditation on the significance of the vegetal for our lives, our ways of thinking, and our relations with human and nonhuman beings. The

vegetal world has the potential to rescue our planet and our species and offers us a way to abandon past metaphysics without falling into nihilism. Luce Irigaray has argued in her philosophical work that living and coexisting are deficient unless we recognize sexuate difference as a crucial dimension of our existence. Michael Marder believes the same is true for vegetal difference. Irigaray and

Marder consider how plants contribute to human development by sustaining our breathing, nourishing our senses, and keeping our bodies and minds alive. They note the importance of returning to ancient Greek tradition and engaging with Eastern teachings to revive a culture closer to nature. As a result, we can reestablish roots when we are displaced and recover the vital energy we need to improve our sensibility and relation to others. This generative discussion points toward a more universal way of becoming human that is embedded in the vegetal world.

Foucault's Futures - Penelope Deutscher 2017-04-04

In Foucault's Futures, Penelope Deutscher reconsiders the role of procreation in Foucault's thought, especially its proximity to risk, mortality, and death. She brings together his work on sexuality and biopolitics to challenge our understanding of the politicization of reproduction. By analyzing Foucault's contribution to the politics of

maternity and its influence on the work of thinkers such as Roberto Esposito, Giorgio Agamben, and Judith Butler, Deutscher provides new insights into the conflicted political status of reproductive conduct and what it means for feminism and critical theory.

Posthumous Life - Jami Weinstein 2017-03-28

Posthumous Life launches critical life studies: a mode of inquiry that neither endorses nor dismisses a wave of recent "turns" toward life, matter, vitality, inhumanity, animality, and the real. Questioning the nature and limits of life in the natural sciences, the essays in

this volume examine the boundaries and significance of the human and the humanities in the wake of various redefinitions of what counts as life. They explore the possibility of theorizing life without assuming it to be either a simple substrate or an always-mediated effect of culture and difference. Posthumous Life provides new ways of thinking about animals, plants, humans, difference, sexuality, race, gender, identity, the earth, and the future.

Testo Junkie - Paul B. Preciado
2013-09-23

What constitutes a "real" man or woman in the twenty-first century? Since birth control pills, erectile dysfunction remedies, and factory-made testosterone and estrogen were developed, biology is definitely no longer destiny. In this penetrating analysis of gender, Paul B. Preciado shows the ways in which the synthesis of hormones since the 1950s has fundamentally changed how gender and sexual identity are formulated, and how the pharmaceutical and pornography industries are in the business of creating desire.

This riveting continuation of Michel Foucault's *The History of Sexuality* also includes Preciado's diaristic account of his own use of testosterone every day for one year, and its mesmerizing impact on his body as well as his imagination.

Ghost in the Wires - Kevin Mitnick 2011-08-15

In this "intriguing, insightful and extremely educational" novel, the world's most famous hacker teaches you easy cloaking and counter-measures for citizens and consumers in the age of Big Brother and Big Data (Frank W. Abagnale). Kevin Mitnick was the most elusive computer break-in artist in history. He accessed computers and networks at the world's biggest companies -- and no matter how fast the authorities were, Mitnick was faster, sprinting through phone switches, computer systems, and cellular networks. As the FBI's net finally began to tighten, Mitnick went on the run, engaging in an increasingly sophisticated game of hide-and-seek that escalated through false identities, a host of cities, and

plenty of close shaves, to an ultimate showdown with the Feds, who would stop at nothing to bring him down. *Ghost in the Wires* is a thrilling true story of intrigue, suspense, and unbelievable escapes -- and a portrait of a visionary who forced the authorities to rethink the way they pursued him, and forced companies to rethink the way they protect their most sensitive information. "Mitnick manages to make breaking computer code sound as action-packed as robbing a bank." -- NPR

[You Got Anything Stronger?](#) - Gabrielle Union 2021-09-14
Included in Time's 100 Must Read Books of 2021 list * A New York Times Best Seller * One of Audible's Best of The Year * AV Club's Best Books to Buy "Funny, tender, and so good." — Mindy Kaling, #1 New York Times bestselling author of Why Not Me?

Remember when we hit it off so well that we decided We're Going to Need More Wine? Well, this time you and I are going to turn to our friend the bartender and ask, You Got Anything Stronger? I promise to continue to make you laugh, but with this round, the stakes get higher as the conversation goes deeper. So. Where were we? Right, you and I left off in October 2017, when my first book came out. The weeks

before were filled with dreams of loss. Pets dying. My husband leaving me. Babies not being born. My therapist told me it was my soul preparing for my true self to emerge after letting go of my grief. I had finally spoken openly about my fertility journey. I was having second thoughts—in fact, so many thoughts they were organizing to go on strike. But I knew I had to be honest because I didn't want other women going through IVF to feel as alone as I did. I had suffered in isolation, having so many miscarriages that I could not give an exact number. Strangers shared their own journeys and heartbreak with me. I had led with the truth, and it opened the door to compassion. When I released *We're Going to Need More Wine*, the response was so great people asked when I would do a sequel. The New York Times even ran a headline reading "We're Going to Need More Gabrielle Union." Frankly, after being so open and honest in my writing, I wasn't sure there was more of

me I was ready to share. But life happens with all its plot twists. And new stories demand to be told. This time, I need to be more vulnerable—not so much for me, but anyone who feels alone in what they're going through. A lot has changed in four years—I became a mom and I'm raising two amazing girls. My husband retired. My career has expanded so that I have the opportunity to lift up other voices that need to be heard. But the world has also shown us that we have a lot we still have to fight for—as women, as black women, as mothers, as aging women, as human beings, as friends. In *You Got Anything Stronger?*, I show you how this ever-changing life presents challenges, even as it gives me moments of pure joy. I take you on a girl's night at Chateau Marmont, and I also talk to Isis, my character from *Bring It On*. For the first time, I truly open up about my surrogacy journey and the birth of Kaavia James Union Wade. And I take on racist institutions and practices in the

entertainment industry, asking for equality and real accountability. You Got Anything Stronger? is me at my most vulnerable. I have recently found true strength in that vulnerability, and I want to share that power with you here, through this book.

honesty and heartbreaking wisdom, she revealed her own trauma as a victim of sexual assault: "It is for you that I am speaking. This is real. We are real." In this moving collection of thought provoking essays infused with her unique wisdom and deep humor, Union uses that same fearlessness to tell astonishingly personal and true stories about power, color, gender, feminism, and fame. Union tackles a range of experiences, including bullying, beauty standards, and competition between women in Hollywood, growing up in white California suburbia and then spending summers with her black relatives in Nebraska, coping with crushes, puberty, and the divorce of her parents. Genuine and perceptive, Union bravely lays herself bare, uncovering a complex and courageous life of self-doubt and self-discovery with incredible poise and brutal honesty. Throughout, she compels us to be ethical and empathetic, and reminds us of the importance of

confidence, self-awareness, and the power of sharing truth, laughter, and support.

Countersexual Manifesto -

Paul B. Preciado 2018-12-18

Countersexual Manifesto is an outrageous yet rigorous work of trans theory, a performative literary text, and an insistent call to action. Seeking to overthrow all constraints on what can be done with and to the body, Paul B. Preciado offers a provocative challenge to even the most radical claims about gender, sexuality, and desire. Preciado lays out mock constitutional principles for a countersexual revolution that will recognize genitalia as technological objects and offers step-by-step illustrated instructions for dismantling the heterocentric social contract. He calls theorists such as Derrida, Foucault, Butler, and Haraway to task for not going nearly far enough in their attempts to deconstruct the naturalization of normative identities and behaviors. Preciado's claim that the dildo precedes the penis—that artifice, not nature, comes first

in the history of sexuality—forms the basis of his demand for new practices of sexual emancipation. He calls for a world of sexual plasticity and fabrication, of bio-printers and “dildonics,” and he invokes countersexuality’s roots in the history of sex toys, pornography, and drag in order to rupture the supposedly biological foundations of the heterocentric regime. His claims are extreme, but supported through meticulous readings of philosophy and theory, as well as popular culture. The Manifesto is now available in English translation for its twentieth anniversary, with a new introduction by Preciado. Countersexual Manifesto will disrupt feminism and queer theory and scandalize us all with its hyperbolic but deadly serious defiance of everything we’ve been told about sex.

Act Like a Lady, Think Like

a Man LP - Steve Harvey

2010-06-01

Steve Harvey, the host of the nationally syndicated Steve

Harvey Morning Show, can't count the number of impressive women he's met over the years, whether it's through the "Strawberry Letters" segment of his program or while on tour for his comedy shows. Yet when it comes to relationships, they can't figure out what makes men tick. Why?

According to Steve it's because they're asking other women for advice when no one but another man can tell them how to find and keep a man. In *Act Like a Lady, Think Like a Man*, Steve lets women inside the mindset of a man and sheds light on concepts and questions such as: The Ninety Day Rule: Ford requires it of its employees. Should you require it of your man? The five questions every woman should ask a man to determine how serious he is. And much more . . . Sometimes funny, sometimes direct, but always truthful, *Act Like a Lady, Think Like a Man* is a book you must read if you want to understand how men think when it comes to relationships.

Perishability Fatigue - Vincent

Bruyere 2018-09-25

The Svalbard Global Seed Vault project is an arctic archive designed to preserve the world's agricultural biodiversity. What do it and other novel forms of storage tell us about our relationship to the future in a time of resource depletion and extinction scenarios? In this innovative book, Vincent Bruyere offers an invitation to look at the present we live in through a fresh lens: the difference between storage and burial in the age of sustainability science.

Perishability Fatigue considers questions of permanence and the potentiality of retrieval, noting the tensions within our collective sense of time and finitude. Bruyere reflects on the nature and significance of perishability, asking what it means to have one's sense of temporality engendered by seed banks and frozen embryo storage, genetically modified organisms and the "de-extinction" of species, nuclear-waste repositories, oncology, and palliative care. He draws attention to the scripts and

scenarios that mediate our relations to loss and decay, preservation and conservation, emphasizing the inequalities implicit in technologies of perishability, which promise continuity in the future to some while refusing it to others. A highly interdisciplinary study, *Perishability Fatigue* reframes the environmental humanities and humanistic inquiry into sustainability science by developing a new language to commemorate fatigue and transience in a culture of preparedness and survival.
