*Information Rights* - Philip Coppel QC  
2020-06-11

Retaining the position it has held since first publication, the fifth edition of this leading practitioner text on information law has been thoroughly re-worked to provide comprehensive coverage of the Data Protection Act 2018 and the GDPR. Information Rights has been cited by

the Supreme Court, Court of Appeal and others, and is used by practitioners, judges and all those who practise in the field. The new edition maintains its style of succinct statements of principle, supported by case law, legislative provisions and statutory guidance. Reflecting its enlarged scope and to maintain easy referencing, the work has been arranged into

two volumes. The first volume is a 1,250-page commentary, divided into six parts. The first part is an overview and introduction to overarching principles. The second part provides an authoritative treatment of the data protection regime. This covers all four forms of processing (general, applied, law enforcement and security services) under the GDPR and DPA 2018. Each obligation and each right is comprehensively treated, with reference to all known case-law, both domestic and EU, including those dealing with analogous provisions in the previous data protection regime. The third part provides a detailed treatment of the environmental information regime. This recognises the treaty provenance of the regime and its distinct requirements. The fourth part continues to provide the most thorough analysis available of the Freedom of Information Act and its Scottish counterpart. As with earlier editions, every tribunal and court decision has been reviewed and, where required, referenced. The fifth part

considers other sources of information rights, including common law rights, local government rights and subject-specific statutory information access regimes (eg health records, court records, audit information etc). The final part deals with practice and procedure, examining appeal and regulatory processes, criminal sanctions and so forth. The second volume comprises extensive annotated statutory material, including the DPA 2018, the GDPR, FOIA, subordinate legislation, international conventions and statutory guidance. The law is stated as at 1st February 2020.

*Welsh Manors and Their Records* - Helen Watt 2000

*The Surnames Handbook* - Debbie Kennett 2012-10-04

Every surname has its own story to tell, and a surname study is a natural complement to family history research. The study of surnames has been revolutionised in the last decade with the increasing availability of online resources, and it is now easier than ever before to explore the history, evolution, distribution and meaning of your family name. The Surnames Handbook provides a comprehensive guide to researching your surname using genealogical methods in conjunction with the latest advances in DNA testing and surname mapping. The book explores the key resources that are used to study a surname and is packed with links to relevant websites giving you everything you need to research your surname in one compact volume.

*Tracing Your Lancashire Ancestors* - Sue Wilkes  
2013-01-19

"Sue Wilkes's accessible and informative handbook outlines Lancashire's history and describes the origins of its major industries -

cotton, coal, transport, engineering, shipbuilding and others. She looks at the stories of important Lancashire families such as the Stanleys, Molyneuxs and Egertons, and famous entrepreneurs such as Richard Arkwright, in order to illustrate aspects of Lancashire life and to show how the many sources available for family and local history research can be used. Relevant documents, specialist archives and libraries, background reading and other sources are recommended throughout this practical book. Also included is a directory of Lancashire archives, libraries and academic repositories, as well as databases of family history societies, useful genealogy websites, and places to visit which bring Lancashire's past to life"--Book jacket.

**Abstract of the court rolls of the manorial records** - Surrey, Eng. County Council. Records Committee 1928

*The Manor and Manorial Records* - Nathaniel J.

Hone 1906

### **Monks Eleigh Manorial Records, 1210-1683**

- Vivienne Aldous 2022-05-19

The manor was one of the principal units of medieval administration, providing a legal framework for land tenure, the prosecution of crimes and misdemeanours and social control. For the lord of a manor it was a source of supplies and income for the maintenance of his status and power. For the tenants the manor formed the everyday focus of their working lives, because they typically owed work services on his land and were subject to the manorial court for wrong doings, the settlement of disputes, the holding of their lands and payment of various feudal dues. Manors were the standard unit of land tenure for centuries, but they changed and developed over time and differed in their administration according to the particular custom of each manor. The records of the manor of Monks Eleigh are typical of those which still

exist for hundreds of manors across England. They allow us to glimpse some of the details of the people who lived and worked there over a period of some four centuries. In the earliest extents and accounts we see a concentration on the work services which the unfree tenants were obliged to do on the lord's lands in lieu of rent, including ploughing, sowing, harrowing, harvesting, carting, ditching, hurdle-making and working in the manor vineyard. Accounts list the lord's stock of animals including oxen, horses, cattle, sheep, geese, ducks, peacocks and doves. They detail repairs to manorial buildings such as the hall, barns, mill, dovecote, sheep-cotes and gates. Court rolls record admissions of tenants to land-holdings as well as fines for misdemeanours such as trespass on growing crops, assaults and thefts. By the sixteenth century the rentals show that an increasing number of tenants were using their manorial land-holdings as investments by living elsewhere and sub-letting them. In more general terms,

these records can throw light on the development of manorial administration over time, the changing forms of land tenure, place name and surname studies, the decline in serfdom, popular unrest and social mobility.

*Daily Life in Medieval Europe* - Jeffrey L. Singman 1999

INTRODUCING MANORIAL RECORDS - IAN H. WALLER 2020

### **Teaching with the Records of Early English Drama** - Elza C. Tiner 2006-01-01

Since the appearance of the first volume in 1979, the Records of Early English Drama (REED) series has made available an accurate and useable transcription of all surviving documentary evidence of dramatic, ceremonial,

and minstrel activity in Great Britain up to the closing of the theatres in 1642. Although they are immensely valuable to scholars, the REED volumes sometimes prove difficult for students to use without considerable assistance. With this book, Elza Tiner aims to make the records accessible for classroom use. The contributors to the volume describe the various ways in which students can learn from working with these documents. Divided into five sections, the volume illustrates how specific disciplines can use the Records to provide resources for students including ways to teach the historical documents of early English drama, training students in acting and producing, historical contexts for the interpretation of literature, as well as the study of local history, women's studies, and historical linguistics. As a practical and much needed companion to the REED volumes, *Teaching with the Records of Early English Drama* will prove invaluable to both students and teachers of Medieval English

Drama.

*Using Manorial Records* - Mary Ellis 1997  
Manorial records are a valuable source of information: this guide aims to make them more accessible to amateur researchers. It covers the types of information they contain and advises on how to locate manorial records using the Manorial Documents Register. A section at the end of the book deals specifically with the manorial records in the Public Record Office and how to use the available finding aids. The records covered date from 1500 to 1900.

*Tracing History Through Title Deeds* - Nat Alcock 2017-11-30

Property title deeds are perhaps the most numerous sources of historical evidence but also one of the most neglected. While the information any one deed contains can often be reduced to a few lines, it can be of critical importance for family and local historians. Nat Alcock's handbook aims to help the growing army of enthusiastic researchers to use the evidence of these documents, without burying them in legal technicalities. It also reveals how fascinating and rewarding they can be once their history, language and purpose are understood. A sequence of concise, accessible chapters explains why they are so useful, where they can be found and how the evidence they provide can be extracted and applied. Family historians will

find they reveal family, social and financial relationships and local historians can discover from them so much about land ownership, field and place names, the history of buildings and the expansion of towns and cities. They also bring our ancestors into view in the fullness of life, not just at birth, marriage and death, and provide more rounded pictures of the members of a family tree.

**Archives and Archivists in 20th Century England** - Dr Elizabeth Shepherd 2012-10-01  
'Archives have the potential to change people's lives. They are 'a fundamental bulwark of our democracy, our culture, our community and personal identity' - National Council of Archives. *Archives and Archivists in 20th Century England* innovatively focuses on the multifunctional reasons behind the creations of archives - they enable the conduct of business and support accountability whilst also meeting the demands of a democratic society's expectations for transparency and the protection of rights. They

are the raw material of our history and memory while archivists and records managers are the professionals responsible for ensuring that these qualities are protected and exploited for the public good. This volume will be of key interest to anyone working with archives.

Manorial records of Cuxham, Oxfordshire -  
Merton College 1976

### **Medieval Society and the Manor Court** -

Professor of Medieval History Zvi Razi 1996

The records of manorial courts have been used increasingly as the principal source for the reconstruction of rural and small town society in medieval England. They offer a unique source with which to investigate peasant demography, family patterns, the village community and economy, the characteristics and instruments of customary law, and the ways in which that law was perceived and exploited by landlords and tenants. The essays in this collection provide novel approaches to all of these themes and are

written by many of the historians who have pioneered the use of this source category in the last two decades. In two introductory chapters, the editors review the historiography of manorial court rolls and account for their origins as a distinctive record of customary law within the broad context of medieval European society. A valuable appendix contains an inventory of the most comprehensive unprinted manorial court roll series arranged systematically on a county-to-county basis, detailing the repository in which they are located. This book will serve as an essential reference tool for any serious study of medieval English rural society.

*Medieval Manorial Records* - P. D. A. Harvey  
1983

The English manor c.1200-c.1500 - 2013-01-01

Provides a comprehensive introduction and essential guide to one of the most important institutions in medieval England and to its substantial archive. This is the first book to offer

a detailed explanation of the form, structure and evolution of the manor and its records. Offers translations of, and commentaries upon, each category of document to illustrate their main features. Examples of each category of record are provided in translation, followed by shorter extracts selected to illustrate interesting, commonly occurring, or complex features. A valuable source of reference for undergraduates wishing to understand the sources which underpin the majority of research on the medieval economy and society.

Societies, Cultures and Kinship 1580-1850 -

Charles Phythian-Adams 2010-07-15

This work maps the cultural and physical divisions of medieval England. It concentrates on the level of hierarchy immediately above individual local societies, using detailed case studies of networks of linked communities in the East Midlands, the South and East Anglia. The societies studied are respectively on the periphery of a "cultural province", central to

another such province and linked closely to a major urban centre. The text is a synthesis of modern continental historical scholarship, social anthropological and geographical techniques, and English medieval history. Included in the investigations are findings about the role of women in defining the sense of local community during the medieval period.

*House Histories for Beginners* - Colin Style

2022-09-15

Popular television programmes highlight the satisfaction that can be gained from investigating the history of houses, and there is always plenty of interest in the subject, with archives becoming ever more accessible with access to the internet. As the subject covers a broad field, the authors have set out to include advice on those aspects that usually apply to a project and others that will be of particular use for beginners. The reader is guided through every stage of research, from the first exploration of the archives to the completion of

the task. Suggestions are also included on how to present the findings – a house history makes a very attractive gift. The authors describe how to deduce the age of a property (it is very seldom directly recorded when a house was built) and characteristics of research on particular types of property – such as cottages, manor houses, inns, mills, former church properties, and farms – are discussed. In one example, research demonstrated that a farm was likely to have been a Domesday manor – a fascinating discovery achieved using records accessible to any beginner.

**Tracing Your Welsh Ancestors** - Beryl Evans  
2015-05-30

Few previous publications have focused on Welsh family history, and none have provided a comprehensive guide to the genealogical information available and where to find it. That is why the publication of Beryl Evans's new Welsh family history handbook is such a significant event in the field. Her detailed,

accessible, authoritative guide will be essential reading and reference for anyone who is eager to research ancestors from Wales. She describes the key archival sources and shows how the development of new technology, the internet in particular, has made them so much easier to explore. Drawing on her long experience of family history work, she gives clear practical advice on how to start a research project, and she sketches in the outlines of Welsh history, Welsh surnames and place-names and the Welsh language. But the main body of her book is devoted to identifying the variety of sources researchers can consult the archive repositories, including The National Library of Wales, civil records of all kinds, the census, parish registers, wills, the records of churches, chapels, schools, businesses, tax offices and courts, and the wide range of printed records. Beryl Evans's handbook will be a basic text for researchers of Welsh descent and for anyone who is keen to learn about Welsh history

## **Tracing Your Ancestors Through Death Records** - Celia Heritage 2013-04-19

Of all family history sources, death records are probably the least used by researchers. They are, however, frequently the most revealing of records, giving a far greater insight into our ancestors' lives and personalities than those records created during their lifetime. Celia Heritage leads readers through the various types of death records, showing how they can be found, read and interpreted and how to glean as much information as possible from them. In many cases, they can be used as a starting point for developing your family history research into other equally rewarding areas. This highly readable handbook is packed with useful information and helpful research advice. In addition, a thought-provoking final chapter looks into the repercussions of death its effects on the surviving members of the family and the fact that a premature death could sometimes affect the family for generations to come.

## **Medieval Affect, Feeling, and Emotion** - Glenn D. Burger 2019-04-11

Provides a new, intersectional investigation of affects, feelings, and emotions in late Middle English literature.

**The Manor and Manorial Records** - Nathaniel J. Hone 1906

## **Peasant and Community in Medieval England, 1200-1500** - P. Schofield 2002-12-17

In recent years, work on the medieval English peasant has tended to stress the degree of interaction between the village and the world beyond its bounds. This book not only provides an overview of this research, but also develops this approach. Phillip R. Schofield describes the traditional world of the peasant - with attention given to such issues as relations between lord and tenant, and the nature of the peasant family - and places the peasantry of the late middle ages within the wider political, legal, ecclesiastical and commercial world of the

medieval community.

**Sources for English Local History** - W. B. Stephens 1981-09-10

English local and regional history has attracted widespread attention in the last twenty-five to thirty years. Its study has expanded at undergraduate and postgraduate levels in universities, polytechnics, and at other institutions of higher education, and it has long

retained its popularity as a subject for adult education classes. In schools the teaching of local history in its own right, and as an ingredient of general history, environmental studies, and local and social studies, is well established, and commonly involves the use of original sources. The expansion of genealogical studies into the wider area of family history has involved many individuals and groups in the investigation of the local conditions, which existed where former generations lived and, in this pursuit, increasing use of local records has been made. Many who seek to involve themselves in this work, however, find that they are ill-equipped in the knowledge of what sources exist, where they are to be found, or what techniques are suitable in making the best use of them.

**Whereabouts** - 200?

**Information Rights** - Philip Coppel 2014-12-01  
This is the fourth edition of what is the leading practitioner's text on freedom of information law. Providing in-depth legal analysis and practical guidance, it offers complete, authoritative coverage for anyone either making, handling or adjudicating upon requests for official information. The three years since the previous edition have seen numerous important decisions from the courts and tribunals in the area. These and earlier authorities supply the basis for clear statements of principle, which the work supports by reference to all relevant cases. The book is logically organised so that the practitioner can quickly locate the relevant text. It commences with an historical analysis that sets out the object of the legislation and its relationship with other aspects of public law. Full references to Hansard and other Parliamentary materials are provided. This is

followed by a summary of the regime in five other jurisdictions, providing comparative jurisprudence which can assist in resolving undecided points. The potential of the Human Rights Act 1998 to support rights of access is dealt with in some detail, with reference to all ECHR cases. Next follows a series of chapters dealing with rights of access under other legislative regimes, covering information held by EU bodies, requests under the Data Protection Act and the Environmental Information Regulations, public records, as well as type-specific rights of access. These introduce the practitioner to useful rights of access that might otherwise be overlooked. They are arranged thematically to ensure ready identification of potentially relevant ones. The book then considers practical aspects of information requests: the persons who may make them; the bodies to whom they may be made; the time allowed for responding; the modes of response; fees and vexatious requests; the duty to advise

and assist; the codes of practice; government guidance and its status; transferring of requests; third party consultation. The next 13 chapters, comprising over half the book, are devoted to exemptions. These start with two important chapters dealing with general exemption principles, including the notions of 'prejudice' and the 'public interest'. The arrangement of these chapters reflects the arrangement of the FOI Act, but the text is careful to include analogous references to the Environmental Information Regulations and the Data Protection Act 1998. With each chapter, the exemption is carefully analysed, starting with its Parliamentary history (giving full references to Hansard and other Parliamentary material) and the treatment given in the comparative jurisdictions. The analysis then turns to consider all court judgments and tribunal decisions dealing with the exemption. The principles are stated in the text, with footnotes giving all available references. Whether to prepare a case

or to prepare a response to a request, these chapters allow the practitioner to get on top of the exemption rapidly and authoritatively. The book concludes with three chapters setting out the role of the Information Commissioner and the Tribunal, appeals and enforcement. The chapter on appeals allows the practitioner to be familiar with the processes followed in the tribunal, picking up on the jurisprudence as it has emerged in the last eight or so years. Appendices include: precedent requests for information; a step-by-step guide to responding to a request; comparative tables; and a table of the FOI Act's Parliamentary history. Finally, the book includes an annotated copy of the FOIA Act, the Data Protection Act 1998, the Environmental Information Regulations 2004, all subordinate legislation made under them, EU legislation, Tribunal rules and practice directions, and the Codes of Practice. **Researching Local History** - Stuart A Raymond 2022-09-08

How has the place we live in changed, developed, and grown over the centuries? That is the basic question local historians seek to answer. The answer is to be found in the sources of information that previous generations have left us. The records of parish, county, and diocesan administration, of the courts, of the national government, and of private estates, all have something to tell us about the history of the locality we are interested in. So do old newspapers and other publications. All of these sources are readily available, but many have

been little used. Local historians come from a wide diversity of backgrounds. But whether you are a student researching a dissertation, a family historian interested in the wider background history of your family, a teacher, a librarian, an archivist, an academic, or are merely interested in the history of your own area, this book is for you. If you want to research local history, you need a detailed account of the myriad sources readily available. This book provides a comprehensive overview of those sources, and its guidance will enable you to explore and exploit their vast range. It poses the questions which local historians ask, and identifies the specific sources likely to answer those questions.
