**BTEC Tech Award in Sport, Activity and Fitness Student Book** - Jennifer Stafford Brown 2018

*BTBTEC Nationals Business Student Book 1 + Activebook* - Pearson Education, Limited 2016-05-31

Construction Mathematics - Surinder Viridi 2014-03-21

Construction Mathematics is an introductory level mathematics text, written specifically for students of construction and related disciplines. Learn by tackling exercises based on real-life construction maths. Examples include: costing calculations, labour costs, cost of materials and setting out of building components. Suitable for beginners and easy to follow throughout. Learn the essential basic theory along with the practical necessities. The second edition of this popular textbook is fully updated to match new curricula, and expanded to include even more learning exercises. End of chapter exercises cover a range of theoretical as well as practical problems commonly found in construction practice, and three detailed assignments based on practical tasks give students the opportunity to apply all the knowledge they have gained. Construction Mathematics addresses all the mathematical requirements of Level 2 construction NVQs from City & Guilds/CITB and Edexcel courses, including the BTEC First Diploma in Construction. Additional coverage of the core unit Mathematics in Construction and the Built Environment from BTEC National Construction, Civil Engineering and Building Services courses makes this an essential revision aid for students who do not have Level 2 mathematics experience before commencing their BTEC National studies. This is also the ideal primer for any reader who wishes to refresh their mathematics knowledge before going into a construction HNC or BSc.

This textbook is supported by a separately available Dynamic Learning package for tutors

Talent to Triumph - Amy Williams 2021-10

The ratio of those that do, compared to those that don't is incredibly small. You mightn't have found the right sport for you, you might have faced setbacks, barriers, bad luck or lack of facilities. You mightn't have the knowledge required to optimise your performance, look after your wellbeing or take a long-term approach to your sporting journey. This book is the answer. Olympic Champion, Amy Williams MBE guides you through your entire sporting journey, using her own experiences & those of some of Britain's greatest athletes to help you turn your talent into your triumph.

Good to Go - Christie Aschwanden 2020-03-05

All athletes from Olympians to weekend warriors must toe the line between training and recovery to maximize the benefits of workouts and reach optimal performance. For the longest time, coaches and training manuals have emphasized training. But now sports science is homing in on an even more fundamental part: recovery. The aim of training is to force the body to adapt to stress, and this adaptation is what makes you fitter and better able to perform. But to adapt, you need to optimize recovery too. You only benefit from training that you can recover from, and the ability to recover determines how much training your body can handle. Recovery, the science shows, is a crucial component of exercise training and it's starting to look like it may be the most important one. Good to Go assesses the science and claims of a wide variety of recovery methods and potions, and debunks the junk to give a clear picture of what we should actually be doing to look after our bodies better between exercising.

**Physical and Health Education (PHE) for the IB MYP 4&5: MYP** - Dominique Dalais 2021-01-29

Ensure you navigate the MYP framework with confidence using a concept-driven and assessment-focused approach to PHE, presented in global contexts. - Develop conceptual understanding with key concepts and related concepts, set in global contexts, at the heart of each chapter. - Prepare for every aspect of assessment using support and tasks designed by experienced educators. - Extend learning through research projects and interdisciplinary opportunities. - Apply global contexts in meaningful ways with an internationally-minded perspective.

**Pearson BTEC National Applied Psychology** - Cara Flanagan 2019-09-19

Please note: Specification changes to Unit 3 were announced by Pearson in late May 2021. These changes will apply to learners sitting Unit 3 exams from January 2022 and onwards. This means that Unit 3 within this book does not now match the revised specification. Units 4,5,6 and 7 within this book remain unchanged. There is a new Book 2 Revised Edition for the revised Unit 3 specification coming in Spring 2022. / Written by Cara Flanagan and other leading authors, two books support the Pearson BTEC Level 3 National in Applied Psychology and are endorsed for BTEC. / Book 2 covers the Extended Certificate Units and Book 1 covers the Certificate Units. The Extended Certificate comprises of four units - the Certificate Units plus Health Psychology and one optional unit. / Each book provides knowledge and evaluation of theories and studies combined with many engaging activities to deliver the vocational element; / Activities aim to prepare you for internal and external assessments; / A brilliant visual style and tone will encourage you through every step of the course.

*BTEC First in Sport Revision Workbook* - Adam Gledhill 2014-06-13

This Revision Workbook delivers hassle-free question practice for the new, next generation BTEC First in Sport.

*Pearson BTEC Level 3 in Information Technology* - Pm Heathcote 2019-02-19

The aim of this book is to provide comprehensive coverage of topics in Unit 1 of the BTEC Level 3 course in Information Technology in an interesting and approachable manner. If you are studying this course, you need to notice, read about, experience and analyse the impact and implications of current and emerging digital technologies. Examples and case studies from scenarios and events that have recently been in the news are used to bring the subject to life. Reading and discussing articles from quality newspapers, whether printed or online, discussing relevant TV documentaries, noticing and analysing the use of digital technology in countless aspects of life, as well as learning from a textbook, are all going to contribute to a successful exam result. The book is divided into six sections corresponding to the six Learning Aims outlined in the specification, complementing each of the PG Online teaching resource packs. These sections are divided into between four and eight chapters, each containing material that can be covered in one or two lessons. The chapters have in-text questions which can be used as discussion points in a lesson. An extra chapter at the end of Learning Aim B on "Drawing System Diagrams" will be useful for students faced with a question on the exam for which they are required to draw such a diagram. In addition to almost 100 in-text questions and discussion points, there are over 80 end-of-chapter exercises that are designed to give practice in answering exam-style questions, using command words such as state, describe, explain, analyse. As much practice as possible is needed in answering such questions and getting feedback from the teacher so as to understand how to gain the maximum possible marks in the final exam.

**BTEC First Award Sport Student Book** - Mark Adams 2012-08-24

BTEC First Award Sport Student Book - Our BTEC First in Sport Award Book covers Units 1 - 6 so learners have relevant and specific content to complete the new next generation Pearson BTEC First Award in Sport for level 2 learners. **Automotive Science and Mathematics** - Allan Bonnicks 2008-02-22

Automotive technicians and students need a firm grasp of science and technology in order to fully appreciate and understand how mechanisms and systems of modern vehicles work. Automotive Science and Mathematics presents the necessary principles and applications with all the examples and exercises relating directly to motor vehicle technology and repair, making it easy for automotive students and apprentices to relate the theory back to their working practice. The coverage of this book is based on the syllabus requirements of the BTEC First in Vehicle Technology, BTEC National in Vehicle Repair and Technology, and the IMI Certificate and Diploma in Vehicle Maintenance and Repair, but will help all automotive students and apprentices at levels 2 and 3 and up to and including HNC/HND, foundation and first degree with their studies and in achieving the Key Skill 'Application of Number' at levels 2 and 3. The book is designed to cater for both light and heavy vehicle courses. Full worked solutions of most exercises are available as a free download for lecturers only from <http://textbooks.elsevier.com>. Allan Bonnicks is a motor vehicle education and training consultant and was formerly Head of Motor Vehicle Engineering, Eastbourne College. He is the author of several established automotive engineering textbooks.

**Revise BTEC National Applied Science Revision Guide** - David Brentnall 2021
