Strayed Homes - Edwina Attlee 2021-12-16

Strayed Homes explores the blurring of public and private space. But whereas most writing about the public/private focusses on urban space, Strayed Homes focusses on the domestic - exploring those overlooked, everyday places where private and intimate activities take place in public. With four chapters set in four small, liminal spaces: the launderette, the greasy spoon, the fire escape, and the sleeper train - the book is part architectural history, part cultural history. It follows a series of allusions and impressions, to explore how films, adverts, books and anecdotes shape experiences of everyday architecture. Making a case for the poetic interpretation of space, the book can be used as a sourcebook for architects and designers as well as for theorists. It invites the reader - by embracing the notion of the 'strayed home' - to think again about concepts that are commonly invoked in the fields of architecture and urbanism, such as 'private', 'public' and 'home', and to rethink the emotional state of leaving home, intimacy in public, and lonely dreaming.

I Don't Want to Eat Bugs - Rachel Branton 2016-04-08

Bugs are for the birds! Lisbon is hungry and it's hard to wait for dinner. When her animal friends try to help her find something tasty to eat, the real the problems begin! Join Lisbon on her funny misadventures. Each beautiful illustration is designed to inspire the imaginations of children. An activity page at the end of the book allows for more fun as they search for special items in the illustrations. This version of I Don't Want to Eat Bugs has been designed specifically for ebook with a fixed layout and larger text for easy reading. While this is a great read-aloud book for parents, teachers, and other adults to share with children, we have chosen fonts that are similar to the way children form letters for easy recognition as they begin to read on their own. The print book is also available in 8.5" x 11" format. Author's Note: I Don't Want to Eat Bugs was written for my daughter, who was two when I wrote this story and didn't like salad, but now she's four and a half and loves it—if I give her plenty of salad dressing! (But don't worry—this isn't a book about eating salad.) Of course birds, cats, and dogs have a very different idea of what's good to eat, but through this fun adventure, Lisbon learns there is also food meant just for her—and it's good, especially compared with all the offerings from her animal friends. My daughter and I privately call this book the "Ice Cream Story" (she LOVES ice cream so there had to be ice cream involved), and now whenever something funny happens, she says, "We should write a new ice cream story about that." And we have! I Don't Want to Eat Bugs is the first book in a planned series called Lisbon's Misadventures. I've written the next three books in the series, and Tim Petersen is hard at work creating the illustrations. Tim is obviously a fabulous artist, and I'm excited to be working with him. You can sign up on my website to learn when the next book comes out (<http://teylarachelbranton.com/>). Thank you and enjoy!

"A vast, beguiling...postmodern novel of ideas, misread intentions, and robots, told in words, pictures, symbols, and even blank pages" by the author of *Well* (Kirkus). Rooted in the western United States in the decade after 9/11, Matthew McIntosh's epic and elliptical novel follows a young writer and his wife as he attempts to write the follow-up to his first novel. He desperately searches for a form that will express the world as it has become, even as it continually shifts all around him. Pop-up ads, search results, web chats, snippets of conversation, lines of code, and film and television stills mix with alchemical manuscripts, classical works of literature—and the story of a man who wakes up one morning having lost his memory. His only clue to his own identity is a single blank document on his computer called *theMystery.doc*. From text messages to *The Divine Comedy*, first love to artificial intelligence, the book explores what makes us human—the stories we tell, the memories we hold on to, the memories we lose—and the relationships that give our lives meaning. Part love story, part memoir, part documentary, part existential whodunit, *theMystery.doc* is a modern epic about the quest to find something lasting in a world where everything—and everyone—is in danger of slipping away. "McIntosh is a slacker Proust, writing about the underclass of Spokane rather than the upper classes of Paris as he attempts to convert memories and experience into art...a remarkable achievement."—Steven Moore, *Washington Post*

Excuse Me Waiter, but There'S a Flyswatter in My Soup - Fritz Fitzgerald 2016-10-06

Fritz Fitzgerald loves to laugh at life almost as much as he loves to laugh at himself. In his collection of endearingly humorous poems, Fitzgerald balances important topics like spirituality, love, friendship, honesty, and even mortality with equally significant and relatable issues like eating until your stomach explodes, waking up naked in a department store, and peeing in the snow. Fitzgerald, who has learned the hard way not to drink pretty paints, writes for a diverse audience that includes those with a full head of small hairs or only one giant hair; people that silently chew their gum or people that loudly gum their chew; and, most importantly, for anyone who is alive and breathing. In laugh-out-loud poems, Fitzgerald shares leftovers advice, reflects on why one should never take a cherry slushy on a roller coaster, and contemplates how to analyze Martian anatomy somewhere over Kansas when normal goes right out the window. Excuse Me Waiter, but There's a Flyswatter in My Soup offers a compilation of funny poems that proves, once and for all, that black jellybeans are outcasts.

A New Kind of Monster - Timothy Appleby 2011-04-01

Ripped from the headlines, the horrific and astonishing true story of the double life of Russell Williams, who was at once a respected figure in the Canadian military and a ruthless sado-sexual serial criminal and murderer. In the annals of psycho-killers, Colonel Russell Williams may well be unique. A decorated air force colonel, Williams was, for years, living a double life as a sado-sexual home invader, burglar, pedophile and, ultimately, murderer. A model officer and elite pilot, he was trusted with flying international dignitaries including Queen Elizabeth, as well as commanding Canada's most important military airbase. Yet his dark and violent secret life included breaking into 82 homes of girls and women; thefts of vast amounts of lingerie (which he dressed in); two bizarre sexual assaults that left an uncomprehending Ontario village on a knife's edge; and eventually, two rape-murders. When police raided Williams's home - a home he shared with his wife, a respected professional in her own right who was apparently completely unaware of her husband's unconscionable double life - they found hundreds of pairs of women's underwear, meticulously organized and catalogued. In this book, veteran Globe and Mail crime reporter Tim Appleby chronicles a true story that could have been lifted from the darkest pages of pulp fiction, one that offers fascinating - and troubling - insights on human psychopathology.
