The Danger Within Us - Jeanne Lenzer 2017-12-12

Did you know... Medical interventions have become the third leading cause of death in America. An estimated 10 percent of Americans are implanted with medical devices -- like pacemakers, artificial hips, cardiac stents, etc. The overwhelming majority of high-risk implanted devices have never undergone a single clinical trial. In *The Danger Within Us*, award-winning journalist Jeanne Lenzer brings these horrifying statistics to life through the story of one working class man who, after his "cure" nearly kills him, ends up in a battle for justice against the medical establishment. His crusade leads Lenzer on a journey through the dark underbelly of the medical device industry, a fascinating and disturbing

world that hasn't been written about before. What Lenzer exposes will shock readers: rampant corruption, elaborate cover-ups, shameless profiteering, and astonishing lack of oversight, all of which leads to dangerous devices (from artificial hips to pacemakers) going to market and into our bodies. In the vein of *America's Bitter Pill* and *A Civil Action*, *The Danger Within Us* is a stirring call for reform and a must-read for anyone who cares about the future of American healthcare. "Before you get anything implanted in your body, read this book."-Shannon Brownlee, author of *Overtreated*

Really Important Stuff My Kids Have Taught Me - Cynthia L. Copeland
2015-08-11

Celebrate the wisdom of the sandbox—the witty, innocent, surprising, and yet completely sensible things that kids say and do. A little book with a big heart, *Really Important Stuff My Kids Have Taught Me* combines deceptively simple life lessons with engaging images that together not only offer insight but inspire joy. Kids see the world in a way that adults don't, so glimpsing life through a child's eyes offers a fresh—and often funny—perspective. Kids encourage us to be open-minded: There are a lot of different ways to get to the top of the jungle gym. To be fearless: Jump right in or you may change your mind about swimming. To aim high: Even babies grab for things just beyond their reach. To be kind to yourself: Sometimes you need a Saturday on a Wednesday. To follow your own path: If the flowers you draw don't look like anyone else's, that's good. And to stay young: Go barefoot! Tune in to the chatter on the playground, and remind yourself how simple everything really is.

The Art of Being Human - Michael Wesch 2018-08-07

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's

hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

Texts from Mittens - Angie Bailey 2015-03-31

Texts from Mittens is a series of text message conversations between a snappy, self-absorbed housecat named Mittens and his long-suffering human, a single woman who works away from home during the day.

Mittens relentlessly hassles his human all day long, while only taking breaks to watch Judge Judy, hang with his best friend Stumpy, complain about the antics of Drunk Patty the neighbor, ask Grandma for money to buy useless items from QVC, and harass the "filthy beast" dog, Phil. Angie Bailey is an award-winning writer and blogger, humorist, and professional member of the Cat Writers' Association. Her primary blog, Catladyland, has won many awards, and her humor writing is featured nearly daily on Catster.com, one of the most popular cat sites on the Web. She loves to photograph her cats in silly poses and sleeps with one eye open. And yes, she has three cats. "Each installment of Texts From Mittens is like a little gift to brighten your day!" —Kate Benjamin, Hauspanther founder and co-author of *Catification* with Jackson Galaxy "Texts From Mittens makes me wish my cat had thumbs! This is a hilarious book; Angie Bailey has done it again!" —Jeremy Greenberg, Author of *Sorry I Barfed on Your Bed* "We all knew that cats were hilarious, but Ms. Bailey's sardonic cat quips really take their mannerisms, attitude and occasional apathy to another level." —Susan Michals, Curator of Cat Art Show Los Angeles Come home! There's an emergency! What?? Are you OK? My dish is half empty! I'll be home soon. You wish starvation upon me! Stop being dramatic. Am we weak. Caan hasrdly tyyppe. Funds of Knowledge - Norma Gonzalez 2006-04-21

The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform

and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.

All-girl colored band clarinetist, Korla, knows the police sirens are coming for her. Can she escape the Jim Crow Sheriff in time to play the USO show before he and the young deputy figure out what else the girls are hiding? After the perfect date in jazzy WWII San Francisco, an American boy searches for his Japanese girlfriend after the government orders all Japanese-Americans to an internment camp. Perceptions are skewed by hot swing rhythms in Night Club Feet. A vintage girl pines for a married dancer while a newbie guy lusts after her, each encumbered by ego and self-image. In 1943, too many men had enlisted or been drafted, leaving empty spots in the big band orchestras. Can seventeen-year-old ingénue, Moira, pass the audition, keep her too friendly bandleader at bay, and snatch one of the coveted positions in the all-girl band. A young couple becomes sidetracked by the musicians who play hot jazz alongside the petting zoo of piglets, ducks, and lambs on the family jaunt to the feed store. Will the bereaved young woman find the perfect place her mother told her about without being diverted by a mysterious handsome man and the swing music emerging from the hotel cantina where she stopped for the night? Training the Best Dog Ever - Larry Kay 2012-09-25

Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog ever.
