learn how to avoid a variety of weak strategic and tactical moves. Selected, with commentary, by World Chess Champion Max Euwe and by Walter Meiden, an amateur player, the games point out graphically how the chess master exploits characteristic errors of the amateur.

Miniatures in the Queen's Indian - Carsten Hansen
2017-11-23

Instructive Miniatures in the Queen's Indian Defense - Spice up your chess opening repertoire and sharpen your chess tactics Miniatures in the Queen's Indian: 4.g3 The subject of this book is the Fianchetto Variation of the Queen's Indian Defense, which arises after 1.d4 Nf6 2.c4 e6 3.Nf3 b6 4.g3. Its purpose is to entertain and educate you. The entertainment consists of 100 main games all of which are 25 moves or less. In addition to the main games, you will find miniatures included in the notes, along with many other complete games. The education part involves solving tactical puzzles, reasoning your way to

the right move, spotting combinations and studying the theory associated with these lines. While the theoretical coverage may not necessarily be as deep as in opening monographs or repertoire books, there's usually more than enough to give you a good understanding of the particular line, making it easier for you to incorporate it into your opening repertoire. We have also tried to include some key alternatives with analysis to give you an idea of other possibilities for both sides. As for the games, they are typically between players with a rating of at least 2350 and in fact are often stronger. The Queen's Indian as a whole has been played consistently since its invention by Aron Nimzowitsch in the early years of the 20th century and it remains a very popular opening at all levels. While its foundation is solid, things can quickly become very sharp and heavy on theory, particularly when Black plays 4...Ba6. We hope you enjoy this second volume in the "Miniatures"

Downloaded from
test.uni.cari.be.edu.doon
by guest

series... "Every chess player dreams of winning quickly and beautifully in his favorite opening. Carsten Hansen's new "Miniatures" Series shows you how to do that, divided by opening! A novel and entertaining approach. But as they say - wait, there is more! It's in the nature of chess that miniatures can only be won following mistakes by the opponent. The books can also show you which early mistakes to avoid so that you don't lose quickly and beautifully in your favorite opening. Get the volumes with your openings and use them as preparation for your next tournament!" -

Grandmaster Lars Bo Hansen
Marvelous Modern Miniatures - Carsten Hansen
2020-11-02

50% Tactics - 50% Opening Book - 100% Enjoyment! Enter the world of chess miniatures where games are decided in 20 moves or less! Marvelous Modern Miniatures features the largest collection of miniatures chess games played in the last half-century. Over 500 pages of cut and thrust!

Although every player is rated at least 2100, the overwhelming majority are strong masters or grandmasters. You will follow them as they do battle with tactical fireworks raging around them. The surprising depth of the annotations (each one of the 2,020 games has meaningful comments) turns this book into a virtual course on tactics. Looking for traps and pitfalls in your favorite openings? You'll probably find them here. Marvelous Modern Miniatures will improve your tactical skills and alertness and sharpen your opening play. As a bonus, the entire collection is immensely enjoyable!

Modern Chess Miniatures - Neil McDonald 1995

First Steps - Cyrus Lakdawala
2017-09-09

Cyrus Lakdawala analyses all the fundamental endgame positions and carefully explains the methods needed to win the favourable ones and draw the unfavourable ones.

200 Open Games - David Bronstein 1991-01-01

*Downloaded from
test.uni.cari.be.edu.doon
by guest*

Russian grandmaster offers a wealth of his finest games, presented in full with numerous illustrative diagrams. Lively, frequently amusing commentary emphasizes ideas behind moves, shows how 1P-K4—P-K4 imposes its patterns on subsequent game. 207 black-and-white illustrations.

A Guide to Chess Endings -

Max Euwe 1976-01-01

One of the finest modern works on chess endings. Thorough analysis by former world champion. 331 examples, each with diagram.

Chess Strategy - Edward Lasker 1959-01-01

Presents and explains strategic chess principles, covering the opening and middle and end game, and illustrates these principles with forty-eight games from master tournaments.

100 Soviet Chess Miniatures

- P. H. Clarke 2000-01-01

Tactics, audacity, and speed are the hallmarks of miniature chess ? games played in 25 moves or less. Learn from 100 games played by Soviet chess

masters. 99 chess diagrams.

Simple Chess - Michael Stean 2003-01-07

Written by a Grand Master, this guide isolates basic elements and illustrates them through Master and Grand Master games, breaking down the mystique of strategy into easy-to-understand ideas. More than a lesson in fundamentals, it illustrates the value of acquiring small, permanent advantages and saving the attack for later.

107 Great Chess Battles,

1939-1945 - Alexander

Alekhine 1992-01-01

One of the game's greatest players annotates scores of fascinating games involving Capablanca, Bogoljubov, Keres, Reshevsky, others. Included are many of Alekhine's own games, plus candid commentary on fellow masters, rivals.

Miniatures in the Sicilian

Najdorf - Carsten Hansen

2016-06-13

INSTRUCTIVE NAJDORF

MINIATURES "An opening

book based only on miniatures?

Perhaps it sounds odd at first,

*Downloaded from
test.uni-caribe.edu.doon*

by guest

but it works well in the sharp Najdorf, and even in the more positional Queen's Indian Defense. As usual Carsten's theoretical coverage is thorough, and the books are not repertoire based, but gives a full examination of these topical openings. Is it limiting only to show miniatures? Maybe, but one somehow get the purified version of a successful strategy, when the games are not complex battles, but a slam-dunk! - Grandmaster Peter Heine Nielsen, Coach & Second to World Champion Magnus Carlsen The purpose of the book is to entertain and educate you. The entertainment consists of 100 main games all of which are 25 moves or less. In addition to the main games, you will find miniatures included in the notes, along with many other complete games. The education part involves solving tactical puzzles, reasoning your way to the right move, spotting combinations and studying the theory associated with these lines. While the theoretical

coverage may not necessarily be as deep as in opening monographs or repertoire books, there's usually more than enough to give you a good understanding of the particular line, making it easier for you to incorporate it into your opening repertoire. We have also tried to include some key alternatives with analysis to give you an idea of other possibilities for both sides. As for the games, they are typically between players with a rating of at least 2350 and in fact are often stronger. However, we have made some exceptions to this guiding principle when a lower-rated player beats a player rated above the magical 2350 number. So that the performances of the players may be evaluated better, their ELO ratings have been included. The subject of this book is the Najdorf Sicilian, which arises after 1 e4 c5 2 Nf3 d6 3 d4 cxd4 4 Nxd4 Nf6 5 Nc3 a6. The Najdorf has been and continues to be a tremendously popular opening at all levels. It is sharp,

*Downloaded from
test.uni.cari.be.edu.doon
by guest*

unbalanced, with many theory-laden lines – and fun. The main lines after 6 Bg5 e6 7 f4 are steeped in theory, making them tricky to play, especially for players with limited time to study.

Capablanca's Best Chess Endings - Jos Rafl

Capablanca 1982-01-01

These 60 complete games, annotated throughout, emphasize the Cuban master's elegant, classic, accurate, lethal endgame play against Alekhine, Lasker, Marshall, Nimzowitsch, Réti, the best. Here are real games from match and tournament play, with endings that seem like long-contemplated works of art.

600 Ruy Lopez Miniatures - Bill Wall 2021-02-28

This is the sixth in Bill Wall's famous Chess Miniature series. Short games make it quick and easy to study openings, tactics, traps and other essentials to improving your chess game! Ruy Lopez (1.e4 e5 2.Nf3 Nc6 3.Bb5), or Spanish Opening, is the most famous and popular of all chess

openings and despite the extensive depth and length of opening analysis for over 450 years, it continues to be a popular opening among amateurs and grandmasters. Mastery of either side requires tactical alertness and strategic planning. Even today, chess masters quickly fall into traps and pitfalls arising from the Ruy Lopez. It is the task in this present volume to bring together these decisive short games (25 moves or less) of the Ruy Lopez from practical games. Here is a rich collection of over 600 such chess miniatures, with examples from chess kibitzers to grandmasters and world chess champions. These short games illustrate the swift punishment that follows from poor opening strategy or erroneous development. This instructive and entertaining collection of decisive miniature games will be of interest to any player who plays the Ruy Lopez or has to defend against it. Enjoy!

[A First Book of Morphy](#) - Frisco Del Rosario 2004

A First Book of Morphy aims to
Downloaded from
test.uni.cari.be.edu.doon
by guest

illustrate the teachings of three great chessplayers with games played by the first American chess champion, Paul Morphy. The book presents more than 60 of Morphy's brilliant and instructive games in demonstration of basic chess principles written by grandmasters Reuben Fine and Cecil Purdy.

The Most Instructive Games of Chess Ever Played - Irving Chernev 1992-11-01

Over 60 masterly demonstrations of the basic strategies of winning, featuring games by the greatest chess masters — Capablanca, Tarrasch, Fischer, Alekhine, Lasker, others. Each game offers a classic example of a fundamental problem and its best resolution, described and diagramed in the clearest possible manner for players of every level of skill. 146 illustrations.

The Agile London System - Alfonso Romero Holmes 2016-10-15

It is not difficult to understand why the London System is such a popular chess opening with

club players all over the world. Against virtually every Black defence after 1.d4 it offers White an easy-to-learn and reliable set of lines with interesting choices between strategic or more aggressive approaches, while avoiding tons of opening theory. Lately an increasing number of Grandmasters such as Alexander Grischuk, Gata Kamsky, Baadur Jobava, Richard Rapport and even World Champion Magnus Carlsen have played the London System. In this light it is surprising that so little has been published about this fascinating universal weapon. GM Alfonso Romero and FM Oscar de Prado have now filled this gap. In The Agile London System they present both historical material and recent top-level examples to provide a comprehensive overview. Romero and De Prado explain the typical plans and tactics using illustrative games with clear verbal explanations, and provide lots of tactical and strategic exercises. The authors reveal the secrets

*Downloaded from
test.uni.cari.be.edu.doon
by guest*

behind sharp ideas such as the Barry Attack and the Jobava Attack and have added an exciting chapter on the hyper-aggressive Pereyra Attack, developed by the Argentinean master Manuel Pereyra Puebla. *1000 Best Short Games of Chess* - Irving Chernev 2013-02

Perhaps if you owned one of the four or five great chess libraries of the world, you could, by diligent search, find most or all of these delectable nuggets. But who has either the time or the assets. So, Mr. Chernev, who has both, has provided us here with 1000 of the sweetest sugar-coated pills in all chess literature. Each introduced with a brief, pungent or witty commentary. Chess brevities have always exercised a special attraction for lovers of the royal game. It may be well that we welcome the punishment inexorably meted out for some trifling slip. Maybe it's out inherent sadism that makes us enjoy the spectacle of speedy punishment doled out to someone else, just as a fight fan thrills to a one-round

knockout. Perhaps it's only our inherent laziness after all, to play over a brevity, one often need not bother to set up the pieces. Be that as it may, its popularity is universal. And here are the best of them, gathered together in one volume, for your pleasure and enjoyment. Many of us know instances galore of beginners becoming a cropper after only a few moves through the "scholar's mate" or some other absurdity not necessarily so primitive. Yet it would be quite wrong to assume that only duffers suffer the ignominy of a speedy knockout. The victim may well be a famous master, as you will discover to your surprise, delight and, most of all, your deep, deep satisfaction. After all, if Morphy can be mated in 12 moves, Capablanca defeated in 13, and Lasker blitzed in 14, who are we to hide our heads in shame?

The Art of the Checkmate - Georges Renaud 2012-04-30

All mating situations in basic classification, how tactics adjust to each. 127 games

Downloaded from
test.uni.cari.be.edu.doon
by guest

analyzed. 80 quiz examples, answers.

Learn Chess from the Greats

- Peter J. Tamburro 2016-11-16

Invaluable instructions for chess players at all levels includes elementary ideas for immediate practical use; how to attack, featuring tactics of Fischer, Keres, Alekhine, and other masters; challenging chess problems; and 60 complete games by Blackburne, Marshall, Spielmann, Tartakower, and other immortals.

How Karpov Wins - Edmar Mednis 1994-01-01

Revised, enlarged edition of book focusing on Russian chess master's tactics and strategy against Bronstein, Smyslov, Spassky, Korchnoi, other greats. 100 games analyzed. Over 300 chess diagrams.

Chess Life - 1968

How to Play the Chess

Openings - Eugene Znosko-Borovsky 1971-01-01

Details the possible variations in the opening game for players who have a basic understanding of chess rules

and notation

Chess Life & Review - 1966

Chess Strategy for Club

Players - Herman Grooten 2017-03-28

This new 3rd edition has, besides various corrections and improvements, a new introduction and a brand-new chapter called 'Total Control'. In this 35-page chapter Grooten adds the final instructive brick to his formidable, yet very accessible, building: inspired by Tigran Petrosian's playing style he explains amateurs how to exploit small advantages. With a new set of exercises. --- Every club player knows the problem: the opening has ended, and now what? First find the right plan, then the good moves will follow! With this book, International Master Herman Grooten presents to amateur players a complete and structured course on: how to recognize key characteristics in all types of positions how to make use of those characteristics to choose the right plan His teachings

*Downloaded from
test.uni.cari.be.edu.doon
by guest*

are based on the famous "Elements" of Wilhelm Steinitz, but Grooten has significantly expanded and updated the work of the first World Champion. He supplies many modern examples, tested in his own practice as a coach of talented youngsters. In Chess Strategy for Club Players you will learn the basic elements of positional understanding: -- pawn structure -- piece placement -- lead in development -- open files -- weaknesses -- space advantage -- king safety -- exploiting small advantages. The author also explains what to do when, in a given position, the basic principles seem to point in different directions. Each chapter of this fundamental primer ends with a set of highly instructive exercises.

How Good Is Your Chess? -

Daniel King 2003-01-01

Chess enthusiasts can determine their mastery by facing off against 20 of the world's top players. This instructive and amusing test-yourself guide by a grandmaster asks readers to

predict their opponent's moves and helps to improve their game by studying the plans and ideas of renowned players.

Go and Go-moku - Edward Lasker 1960-01-01

Go, a fascinating Oriental game, has been finding devotees in the Western world in ever greater numbers. Those who enjoy problems which test their powers of logic and imagination will want to try the game of Go for the excitement and intellectual satisfaction it provides. For those who enjoy a lighter form of contest, the author has included a section explaining Go-Moku, a very easy sister game of Go. 72 diagrams.

From Chess Novice to Advanced Player in 7 days -

Self-paced self-tutor for novice chess players who know the basics Used by parents, teacher and chess coaches

Instructive Chess Miniatures -

Alper Efe Ataman 2016-08-23

Warning: this book is not just entertainment. The author wants to teach you a lot about chess and improve the quality

Downloaded from
test.uni.cari.be.edu.doon
by guest

of your play! He has selected 50 miniatures from throughout chess history the earliest are from the 1850s, while the most recent are from grandmaster events just a few months ago! A miniature is a decisive game, won in 25 moves or fewer. Most of these 50 games feature brilliant tactics, attacks on the king, and even a few outrageous king-hunts. In many, the winner had to overcome cunning defensive ploys and inventive counterattacks. But our aim in this book is not just to admire the players skill, but to learn how we can play like this in our own games. Chess coach Ataman is keenly focused on the instructive points, explaining which features of the position justified the attacks, and what prompted the critical decisions. Where analysis is given, it is restricted to what it would be realistic for a human to work out at the board. But why are miniatures so instructive, especially for younger players? It s because we get to see an idea or plan implemented successfully, in

full. Once we understand what players are trying to achieve, we can then appreciate how to oppose these ideas, and the cut-and-thrust typical in modern grandmaster play will make a lot more sense. Alper Efe Ataman is a FIDE Master from Turkey. He is a chess publisher, author and an experienced trainer, especially at the scholastic level. "Better Chess for Average Players - Tim Harding 1996-01-01

Designed for the typical amateur player who wants to improve his or her chess skills, this clear, straightforward guide provides the extra knowledge and technique that turns a losing player into a winner. The author, a well-known chess teacher and author of a dozen books on openings, coaches the reader through all the fundamentals of attacking, sacrifices, defense, positional play and choosing a move, as well as how to approach the endgame. The crucial processes of assessing the position and choosing a move are examined in depth,

*Downloaded from
test.uni.cari.be.edu.doon
by guest*

and there are helpful sections on how to cope with difficult positions and time-trouble. Several illustrative games, from the annals of the imaginary Midlington Chess Club, add a light touch to this expert practical guide to better chess. Tim Harding is a well-known chess author and captain of the Irish Correspondence Chess Team. He represented Ireland in the 1984 FIDE chess Olympiad in Thessaloniki.

Simple Attacking Plans -
Fred Wilson 2012

"I had a fantastic position, but I couldn't figure out what to do next!" Sound familiar? If so, then Fred Wilson's Simple Attacking Plans was written for you. The author distills the complexities of mounting an offensive against your opponent's king down to four principles that lie at the root of most successful chess attacks. Novice players and amateurs of intermediate strength will benefit from the explanations of ideas and tips for practical play, all presented in an easy, conversational style. More

experienced competitors will appreciate this book as a game collection featuring masterpieces of enterprising play - some of them never before published.

Chess World Title Contenders and Their Styles - Craig Pritchett 2002-04-01

Here is a rich selection of games by some of the finest young grandmasters of the 1980s. Each chapter introduces a player, outlining his career, personality, and playing style. Then follows a thoroughly annotated selection of his finest and most characteristic games. By studying these games, presented by two international masters and former champions, players at every level will find inspiration and practical techniques. This insight into the Grandmaster competition will be an interesting read even to nonplayers. Index of openings and games. About the Authors. Player profiles include Gary Kasparov, Jan Timman, Walter Browne, Robert Hubner, Zoltan Ribli, Ljubomir Ljubojevic, Tony Miles, and Ulf Andersson.
