**Due Process of Law Beyond the State** - Giacinto Della Cananea 2016  
Traditionally the issues concerning the exercise of administrative powers by public authorities were considered a type of national enclave. It was the responsibility of the state to ensure that adequate procedural safeguards were in place to prevent the government from interfering with the rights of its citizens. During the last few decades, however, a variety of sets of rules regarding procedural due process has developed to govern the conduct of those public authorities who operate on a regional or world regulatory footing, such as the European Union and the World Trade Organization. Analysing the procedural due process requirements applicable to administrative procedure beyond the borders of the States, this volume demonstrates how regional and global regulatory regimes impose requirements that are strikingly similar to those set out by the most developed legal systems of the world. The book argues that such requirements of administrative procedure are justified not only by the traditional concerns for the protection of individual interests against the misuse of power by public authorities, but also by other values, such as good governance and cooperation between public authorities. Finally, the book conceptualizes such rules as legal requirements which arbitral tribunals and other agencies should respect when interpreting standards of justice.

**Procurement of Health Sector Goods** - 2001-01-01

These Standard Bidding Documents (SBD) and its companion Technical Note (TN) have been prepared by the World Bank for use by borrowers and their implementing agencies in the procurement of pharmaceuticals, vaccines, and condoms through international competitive bidding (ICB). For the purpose of these documents, pharmaceuticals also include nutritional supplements and oral and injectable hormonal forms of contraception. The procedures and practices presented in these SBD have been developed through broad international experience and are mandatory for use in projects that are financed in whole or in part by the World Bank in accordance with the provisions of the latest edition of Guidelines: Procurement under IBRD Loans and IDA Credits. The purpose of the TN is to provide background information to the Bank's project staff and borrowers, about the complex issues in the procurement of health sector goods and to help them make well-informed decisions in each special situation.

Bribery in Public Procurement Methods, Actors and Counter-Measures - OECD 2007-05-31

A ground-breaking report that throws new light on the shadowy mechanisms and patterns of bribery in public procurement, and offers insider expertise that governments and international organisations can use to improve their anti-corruption policies.

United Nations - Thomas Melito 2008-07

The U.N. headquarters in N.Y. City neither conforms to current bldg. codes nor meets U.N. technology or security requirements. As the U.N. is

host country and largest contributor, the U.S. has a substantial interest in the success of the Capital Master Plan (CMP), a project to renovate the complex. This report reviews the following areas: renovation, approach, schedule, cost, funding, risk mgmt., project progress, procurement, and oversight. The author reviewed U.N. documents and met with officials from the CMP office and other U.N. depts. He also reviewed U.N. documents and oversight reports and interviewed U.N. officials from the Office of Internal Oversight Services and officials from the U.S. Dept. of State. Public Procurement Regulation in (a) Crisis? - Sue Arrowsmith 2021-11-04

This timely book provides the first systematic analysis of global public procurement regulation and policy during and beyond the COVID-19 pandemic. Through both thematic chapters and national case studies, this book: - explores the adequacy of traditional legal frameworks for emergency procurement; - examines how governments and international organisations have responded specifically to the pandemic; and - considers how the experience of the pandemic and the political impetus for reform might be leveraged to improve public procurement more broadly. Public procurement has been critical in delivering vital frontline public services both in the health sector and elsewhere, with procurement of ventilators, protective equipment and new hospitals all hitting the headlines. At the same time, procurers have faced the challenge of adjusting existing contracts to a new reality where, for example, some contracted services can no longer operate. Further, efficient and effective procurement will be an essential, and not a luxury, in the economic recovery. With case studies on Italy, the UK, the USA, India, Singapore, Africa, Latin America and China, the book brings together the world's leading academics and practitioners from across Europe, the Americas, Asia and Africa to examine these issues, providing an essential resource for policy makers, legislators, international organisations and academics.

Public Procurement and Human Rights - Olga Martin-Ortega 2019

This timely work reflects on the role and obligations of the state as a buyer of goods and services, from the dual disciplinary perspectives of public procurement and human rights. Through theoretical and doctrinal analyses, and practice-focused case studies, it interrogates the evolving character of public procurement as an interface for multiple normative regimes and competing policies. Challenging the prevailing paradigm which subordinates human rights to narrowly-defined economic goals, insightful contributions advance a compelling case for greater inter-disciplinarity and policy coherence as crucial to realising international policies such as those embodied in the UN Guiding Principles on Business and Human Rights and 2030 Sustainable Development Goals.

Procurement by International Organizations - Elisabetta Morlino 2018-11-30

How do international organizations procure goods, services and works to carry out their institutional mission? How does this procurement activity affect individuals? Does the procurement relationship between international organizations and private subjects bring an even distribution of rights and duties? Are international organizations accountable to private subjects and states when allocating their resources through procurement? The book explores the complex phenomenon of procurement by international organizations from the point of view of the relationship between international organizations and private subjects. It provides, for the first time, a systematization and conceptualization of the emerging rules and practices of procurement by international organizations. It also identifies the international political dynamics and interplay of interests underlying these rules and practices. In doing so, it shows how these dynamics shape the exercise of international public authority over private subjects, and the scope of

private subjects' rights vis-à-vis international organizations.  
International Handbook of Public Procurement - Khi V. Thai 2017-09-25  
Since the 1990s, government at all levels is under increasing pressure to do more with less. However, despite the U.S. government spending about 15 to 20 percent of its GDP on contracts for goods and services, there is a paucity of reference books for public procurement officials and very few textbooks for courses on the subject. Filling this void, the International Handbook of Public Procurement provides the knowledge necessary to understand how procurement works and how to improve the cost-effectiveness of procurement systems. Taking a multidisciplinary approach, the book focuses on the managerial, economic, political, and legal aspects of this topic. It begins with a conceptual framework and highlights various reforms occurring in certain countries. By examining these improvements, readers are able to apply this knowledge to their own strategies. The next section presents selected cases that illustrate the public procurement process, examining systems in various nations including Germany, China, South Africa, Cambodia, Uganda, and Estonia. The book also discusses the rise of electronic procurement systems (E-procurement) and reviews the benefits of these efficient systems. Other topics presented in this comprehensive volume include practical discussions on contract negotiations, bidding, price strategies and cost analysis, and an insightful chapter on the market's response to contract award announcements. A virtual encyclopedia from numerous international experts, this book was assembled by Khi V. Thai, Professor at Florida Atlantic University and Editor of the Journal of Public Procurement. Dr. Thai has provided technical assistance in the area of public procurement to governments across the world. Empowering those on all sides of the issue, this volume dispenses advice valuable to government officials and contractors, as well as providing a comprehensive text for public administration students.

**Tied Aid and Development Aid Procurement in the Framework of EU and WTO Law** - Annamaria La Chimia 2014-07-18

This book is the first legal treatment of tied aid and examines in detail the compatibility of tied aid with EU and WTO law. The workings of the aid projects and aid procurement systems of donor countries granting bilateral aid are fully examined through case studies from the UK, Italy, the EU and the US. Tied aid refers to aid granted to developing countries on condition that goods and services for the aid-financed projects are purchased from the donor country only. The recipient country, in order to receive the grant or the loan, has no other choice but to fulfil the condition imposed by the donor. Economists have shown that tying aid undermines the effectiveness of aid. It leads to higher costs paid for the goods and services purchased and the distortion of the nature of the aid. Further, tying frustrates the potential of aid to foster trade between developing countries - in many of these countries public bodies and, in particular, aid-financed projects are major potential outlets for trade between neighbouring states. The importance of tied aid has been pointed out in economic literature but there is surprisingly little written on the legal aspects of tied aid practices and this book seeks to fill this major gap in the literature. The book is of interest to academics in the field of EU and WTO law, NGOs and practitioners working both in the field of public procurement and development policies.

**UN Use of Private Military and Security Companies** - Åse Gilje Østensen 2011-11-09

Although subject to little discussion, the UN has increasingly paid private military and security companies (PMSCs) for a range of services in the areas of humanitarian affairs, peacebuilding and development. However, this practice has rarely translated into coherent policies or guidelines that could guide the UN in setting standards or ensuring responsible contracting procedures. This paper explores UN demand for PMSCs and identifies the need for a more proactive, sensitive and deliberate political approach in order to avoid potential pitfalls associated with involving PMSCs in the delivery of UN tasks.

Annual Review of United Nations Affairs 2009/2010 VOLUME III - Joachim Muller 2011-04-15

a. The set generally Since the publication of its first edition in 1950, the Annual Review of United Nations Affairs has stood as the authoritative resource for scholars, students, and practitioners researching the latest developments of that august body. From the insightful introduction, prepared each year by a distinguished expert on UN affairs, to the full-text presentation of reports and resolutions and the helpful subject index, ARUNA provides a practical tour of each year's U.N. actions and debates. The expert selection of documents by Joachim Muller and Karl Sauvant and the topic-based organization of those documents make any researcher's task much easier than the vast searching, sorting, and pruning required by the U.N.'s website. The series' topic-based organization of the materials and subject index lend invaluable guidance to all researchers. ARUNA presents comprehensive documentation of the work of the UN on an annual basis, starting in September of each year with the beginning of the regular sessions of the General Assembly. Coverage of the UN's key organs is provided, including the General Assembly, the Security Council, the Economic and Social Council (ECOSOC), the International Court of Justice, and the UN Secretariat. In addition, selected reports of intergovernmental bodies and expert groups are included. Solely official UN documentation is used. ARUNA occupies a special place in the publications on the work of the UN, as it allows readers to obtain an overview of the principal developments in its key organs. This makes it an important reference source for policy-makers and academic researchers. b. The 2009-2010 volumes This year's edition continues to focus on the world financial crisis and the reaction of the United Nations and the international financial system to that crisis. The Overview to this year's edition, written by Joachim Muller and Karl Sauvant, examines the changing role of the United Nations and explores ways in which the management of the financial crisis has impacted that role. The Introduction to this year's edition also examines the effects of this crisis; this Introduction is drawn from the "Report of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System," as well as a slightly edited version of a Preface to that report written by Professor Joseph E. Stiglitz. The Introduction discusses the findings of the Commission and proposes the creation of a new institution, a Global Economic Coordination Council, which would be supported by an International Panel of Experts with a geographically diverse membership that would represent the interests of emerging and developing countries as well as those of developed countries. Dr. Joseph E. Stiglitz, who served as Chairman of the Commission and wrote the Preface to the Commission's Report, holds joint professorships at Columbia University's Economics Department and its Business School. He is also Co-founder and Co-President of the Initiative for Policy Dialogue. From 1997 to 2000 he was the World Bank's Senior Vice President for Development Economics and Chief Economist. From 1995 to 1997 he served as Chairman of the U.S. Council of Economic Advisers and as a member of President Clinton's cabinet. From 1993 to 1995 he was a member of the Council of Economic Advisers. He was previously a professor of economics at Stanford, Princeton, Yale, and All Souls College. Dr. Stiglitz is also a leading scholar of the economics of the public sector and was awarded the Nobel Prize in Economics in 2001 in addition to the American Economic Association's biennial John Bates Clark Award in 1979. His recent publications include *Freefall: America, Free Markets, and the Sinking of the World Economy* (2010), *Making Globalization*

Work (2006), Fair Trade for All (2005), and Globalization and its Discontents (2002). The 2009-2010 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises. Among the documents in the 2009-2010 volumes are the complete General Assembly resolutions, as well as the Report and Resolutions of the Security Council and the Economic and Social Council (ECOSOC). Annual Reports of note include reports of the United Nations Children's Fund (UNICEF), the UN Development Programme and UN Population Fund, the UN High Commissioner for Human Rights, the UN High Commissioner for Refugees, the UN Relief and Works Agency for Palestine Refugees in the Near East, and the World Food Programme. Mr. Muller and Dr. Sauvant have also selected progress reports on key peacekeeping, peace-building, and political missions, including those for Afghanistan, the Democratic Republic of the Congo, Haiti, Iraq, the Middle East, Sudan, and West Africa. c. Volume III (this volume) This volume contains the following: Chapter 1: General Assembly, Sixty-fourth Session (continued) 3. Resolutions Adopted by the General Assembly at Its Sixty-fourth Session (continued) (Resolutions 64/104 through 64/199) d. Guest Authors of previous years' editions Each annual edition of ARUNA is introduced by a Guest Author, a distinguished expert on UN affairs, who highlights the outstanding themes of the year in review. Together with an overview provided by the editors, this introduction is intended to facilitate access to the material and, above all, to make it easier for users of ARUNA to "see the forest for the trees." This year's ARUNA includes excerpts from the "Report of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System" (21 Sept. 2009), and from a slightly edited version of a Preface to that report written by Professor Joseph E. Stiglitz. However, the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention: Jose Antonio Ocampo: ARUNA 2008/2009 edition Professor Jose Antonio Ocampo is Co-President of the Initiative for Policy Dialogue. He is also Professor in the School of International and Public Affairs and Fellow of the Committee on Global Thought at Columbia University. Professor Ocampo previously held the positions of Under-Secretary-General of the United Nations for Economic and Social Affairs, Executive Secretary of the United Nations Economic Commission for Latin America and the Caribbean, and Minister of Finance, Agriculture, and Planning of Colombia. In 2009, he was a member of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System. Professor Ocampo is also the author of numerous books and articles on macroeconomics policy and theory, economic development, international trade, and economic history. His recent publications include Stability with Growth: Macroeconomics, Liberalization and Development, with Joseph E. Stiglitz, Shari Spiegel, Ricardo Ffrench-Davis and Deepak Nayyar (New York: Oxford University Press, 2006). Jeffrey D. Sachs: ARUNA 2007/2008 edition Professor Jeffrey D. Sachs is Director of the Earth Institute at Columbia University and Special Advisor to the Secretary-General of the UN on the Millennium Development Goals. Professor Sachs's introduction to ARUNA 2007/2008 was titled "Towards a New Global Protocol on Climate Change," in which he argued that solving the climate change problem will demand four steps: scientific consensus, public awareness, the development of alternative technologies, and a global framework for action. He dealt, in particular, with the science underpinning the negotiations for a new global protocol on climate change, as a successor to the Kyoto Protocol. Professor Sachs argued that climate change crises can only be solved through the goals, leadership, and treaty mechanisms of the UN. Edward C. Luck: ARUNA 2006/2007 edition Professor Edward C. Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy. From 1984 to 1994, he served as President and Chief Executive Officer of the UN Association of the USA (UNA-USA). Professor Luck's introduction to ARUNA 2006/2007 covered "The responsible sovereign and the responsibility to protect," in which he addressed the scope and content of what was agreed at the 2005 World Summit, the implications of the responsibility to protect (RtoP) for notions of state sovereignty, and some of the conceptual, architectural, and policy challenges then facing UN Secretary-General Ban Ki-moon's commitment to "operationalizing" the responsibility to protect and translating it "from words to deeds." Louise Frechette: ARUNA 2005/2006 edition Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation, Waterloo, Ontario. Until March 2006, she was the first Deputy Secretary-General of the UN; before that, she was Permanent Representative of Canada to the UN. Ms

Frechette's introduction to ARUNA 2005/2006 covered "United Nations reform: an unfinished story." As the first Deputy Secretary-General of the UN, Ms Frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the UN and why. She examined if the UN is functioning better than it was 15 years ago, why reform is so difficult to achieve and what the future holds for the institutions. Rubens Ricupero: ARUNA 2004/2005 edition Mr Rubens Ricupero is Dean of the Fundacno Armando Alvares Penteado (FAAP), Sao Paulo and was formerly Secretary-General of UN Conference on Trade and Development (UNCTAD) and Minister of Finance of Brazil. Mr Ricupero's introduction to ARUNA 2004/2005 covered "The difficulty of building consensus in an age of extremes" and examined the mysteries of the negotiating process leading to the outcome of the 2005 World Summit. Rather than a "Grand Bargain" of a comprehensive UN reform in the areas of development, security and human rights, it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity. Mr Ricupero concludes that contrary to the daring proclamation at the outset by the Secretary-General, the conditions indispensable to succeed were not in place. Indeed, it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding.

**Buying Social Justice** - Christopher McCrudden 2007-09-13

Buying Social Justice analyses how governments in developed and developing countries use their contracting power in order to advance social equality and reduce discrimination, and argues that this approach is an entirely legitimate, and underused means of achieving social justice.

**The Administration of International Organizations** - Michael D.V. Davies 2017-07-05

Drawing on his extensive practical experience as an international civil servant in a number of organizations, Davies writes in a lively and readable manner about all aspects of administrative policy and its related implications. Divided into two parts, the first - Top down - will enable policy makers in government, academia and elsewhere who have an interest in the proper governance and management of international institutions to gain fresh insight into the topic. The second part - Bottom up - provides a substantial body of knowledge of administrations, including case studies of best and worse practice. The book includes analysis of: -The UN system -International Financial Institutions -Co-ordinated Organizations -Regional European Institutions -The Consultative Group for International Agricultural Research This is a work that fills a well-defined gap in organizational knowledge in a rigorous, but accessible way. It is essential reading for both practitioners and academics involved with international organizations.

**Understanding Sustainable Public Procurement** - Sanjay Kumar  
2022-09-02

This book explores the development of sustainable public procurement (SPP) as a strategic policy instrument to support decoupling of economic growth from environmental degradation and enhancing social well-being. Offering an in-depth case study of India's SPP implementation trajectory, it discusses the challenges of integrating sustainability criteria into purchasing decisions, and examines policy choices and best practices to address them. It investigates the legislative, institutional, and governance framework for SPP in India, and identifies priority actions to accelerate wider uptake of SPP policy and practices. Furthermore, the book highlights the evolving role of SPP policies in response to emerging global mega trends, such as international trade, low carbon economy, circular economy, and Industry 4.0. Given its scope, this book appeals to scholars of economics, public administration, and environmental and social sciences, as well as to policymakers, practitioners, and advocates interested in steering transformational changes towards mainstreaming sustainable procurement practices in developing economies at the desired scale. "This book comes at the right time to compensate for the lack of in-depth works on the origins, nature and reality of the implementation of sustainable purchases." - Farid Yaker, Programme Officer, Sustainable Public Procurement, Economy Division, UNEP, Paris,

France. "...If you are a procurement or sustainability professional anywhere in the world, please read this book. Fool's Errands - Gary Dempsey 2001

In the decade following the end of the Cold War the United States undertook several nation-building missions around the globe, most of which have failed. We said we'd bring order to Somalia, but we left chaos. We went to Haiti to restore democracy, but left tyranny. We intervened in Kosovo to create a multiethnic democracy, but we may become embroiled in renewed strife and bloodshed. This extremely timely book cuts through the excuses and uncovers the causes of Washington's pattern of failure.
