My Father's Words - Patricia MacLachlan 2018-10-02

Patricia MacLachlan, beloved author of the Newbery Medal-winning *Sarah, Plain and Tall*, has crafted another lyrical and touching novel for young readers about finding hope after the loss of a loved one. This middle grade novel is an excellent choice for tween readers in grades 5 to 6, especially during homeschooling. It's a fun way to keep your child entertained and engaged while not in the classroom. Declan O'Brien always had a gentle word to share, odd phrases he liked to repeat, and songs to sing while he played basketball. His favorite song was "Dona Nobis Pacem," "Grant Us Peace." His family loved him deeply and always knew they were loved in return. But a terrible accident one day changes their lives forever, and Fiona and Finn O'Brien are left without a father. Their mother is at a loss. What words are there to guide them through such overwhelming grief? At the suggestion of their friend Luke, Fiona and Finn volunteer at an animal rescue shelter, where they meet two sweet dogs who are in need of comfort, too. Perhaps with time, patience, and their father's gentle words in their hearts, hope will spark once more. * Junior Library Guild Selection * Bank Street Best Children's Book of the Year 2019 (9-12) *

Summits and Secrets - Kurt Diemberger 2019-03-08

'A book grows rather like a snow crystal. One doesn't write it from start to finish but, in greater or less degree, all at the same time ... that is why my book is not in chronological order; for everything is of the present, held in the moment when thought captures it.' Kurt Diemberger's *Summits and Secrets* is a mountaineering autobiography like no other. Writing anecdotally, Diemberger provides an abstract look into his life and climbing career that is both fascinating and awe-inspiring to navigate. Known for surviving the 1986 K2 disaster - an account described in harrowing detail in his award-winning book *The Endless Knot* - Diemberger provides a captivating insight into his earlier climbs in *Summits and Secrets*. From climbing his first peak in the Tyrol mountains of Austria, to the epoch-making first ascent of Broad Peak with Hermann Buhl in 1957, and then summiting Dhaulagiri in 1960, where he became one of only two people to have made first ascents of two mountains over 8,000 metres, Diemberger recounts his experiences with wit, honesty and an infectious enthusiasm: 'Every climber knows the thrill ... the unique inexplicable tension, which the regular shapes of the

mountain world awake in him: huge pyramids, enormous rectangular slabs, piled-up triangles of rock, white circles, immense squares - the thrill of simplicity of shape and outline and the excitement of mastering them, to an unbelievable extent, by his own efforts, his own power ... ' *Summits and Secrets* is a must-read for those wanting an insight into the life and achievements of one of the toughest high-altitude climbers the world has ever known.

It investigates the political economy of precarity and the historical sociology of the precariat, and discusses movements of precarious youth against oligopoly and oligarchy in Europe, America, and East Asia.

Unlocking the Customer Value Chain - Thales S. Teixeira 2019-02-19

Based on eight years of research visiting dozens of startups, tech companies and incumbents, Harvard Business School professor Thales Teixeira shows how and why consumer industries are disrupted, and what established companies can do about it—while highlighting the specific strategies potential startups use to gain a competitive edge. There is a pattern to digital disruption in an industry, whether the disruptor is Uber, Airbnb, Dollar Shave Club, Pillpack or one of countless other startups that have stolen large portions of market share from industry leaders, often in a matter of a few years. As Teixeira makes clear, the nature of competition has fundamentally changed. Using innovative new business models, startups are stealing customers by breaking the links in how consumers discover, buy and use products and services. By decoupling the customer value chain, these startups, instead of taking on the Unilevers and Nikes, BMW's and Sephoras of the world head on, peel away a piece of the consumer purchasing process. Birchbox offered women a new way to sample beauty products from a variety of companies from the convenience of their homes, without having to visit a store. Turo doesn't compete with GM. Instead, it offers people the benefit of driving without having to own a car themselves. Illustrated with vivid, in-depth and exclusive accounts of both startups, and reigning incumbents like Best Buy and Comcast, as they struggle to respond, *Unlocking the Customer Value Chain* is an essential guide to demystifying how digital disruption takes place - and what companies can do to defend themselves.

Newton and the Antigravity Formula - Luca Novelli 2017-06-01

Back in the late 1600s, science was still in its infancy. If you dropped an apple it would fall to the ground, but nobody could explain why. That changed in 1687 when Isaac Newton, a professor at the University of Cambridge, published a book describing three laws of motion as well as a theory of universal gravitation. Newton also came up with a brand new field of mathematics, called calculus, to explain it all. The same equations that described the motion of a falling apple could also be used to describe the motion of planets orbiting the sun. It was revolutionary! Newton would go on to make new discoveries on the nature of light. But he also made mistakes; his fascination with alchemy, the hope of turning one element into another, was a tremendous waste of his genius. But science is not just about successful experiments--sometimes it takes a few failures to achieve success. *Newton and the Antigravity Formula* is a fast-paced, entertaining biography of the man who launched the field of modern physics. In addition to its lively story, it includes 190 illustrations, a glossary, and sidebars covering related topics, from the plague to the planets to the telescope.

Blackass - A. Igoni Barrett 2016-03-01

Furo Wariboko, a young Nigerian, awakes the morning before a job interview to find that he's been transformed into a white man. In this condition he plunges into the bustle of Lagos to make his fortune. With his red hair, green eyes, and pale skin, it seems he's been completely changed. Well, almost. There is the matter of his family, his accent, his name. Oh, and his black ass. Furo must quickly learn to navigate a world made unfamiliar and deal with those who would use him for their own purposes. Taken in by a young woman called Syreeta and pursued by a writer named Igoni, Furo lands his first-ever job, adopts a new name, and soon finds himself evolving in unanticipated ways. A. Igoni Barrett's *Blackass* is a fierce comic satire that touches on everything from race to social media while at the same time questioning the values society places on us simply by virtue of the way we look. As he did in *Love Is Power*, or *Something Like That*, Barrett brilliantly depicts life in contemporary Nigeria and details the double-dealing and code-switching that are

implicit in everyday business. But it's Furo's search for an identity--one deeper than skin--that leads to the final unraveling of his own carefully constructed story.
