Reclaiming the American Library Past - Suzanne Hildenbrand 1996

This solid anthology makes a fine start at the effort in its title, ^IReclaiming the American Library Past: Writing the Women In^R. Like most good beginnings, it succeeds first by clarifying the status of the field and then by raising questions for subsequent scholars to ponder and pursue. ^IHistory of Education Quarterly ^RThe essays in this book contribute along several dimensions to the new scholarship

on a profession and public service of vital importance for well over a century to American literacy, culture and invention. Their authors add to the individual and collective biographies of women who have founded and administered diverse institutions and taught succeeding generations of librarians. The worksites of influential women such as Anne Carroll Moore, Josephine Rathbone, and Grace Hebard, like the nameless paid and volunteer staff who have served as unrecognized catalogers and children's librarians, have varied. They range from the pioneering libraries and library schools of the settled East- including Brooklyn and the Harlem, Times Square, and Morningside Heights neighborhoods of Manhattan- the historically Black Howard University to the numberless small towns of the West. They include the raw A&M colleges of Arkansas, Utah, New Mexico, and similarly neglected centers of local and regional enlightenment.

Stories from the Mohawk Valley - Bob Cudmore 2011-01-09

Nestled in Upstate New York along the banks of the Mohawk River are the many communities of the Mohawk Valley. These villages, towns and cities have unique histories but are inextricably tied together by the waterways that run through them. The mills, railroads and the Erie Canal sustained early growth; the Painted Rocks beautified the landscape; and tales from the local Mohawk Nation still enrich the folklore. Many remarkable individuals have called the Mohawk Valley home, including psychedelic philosopher Benjamin Paul Blood, Queen Libby, the Daiquiris and actor Kirk Douglas. For over a decade, local native Bob Cudmore has documented the interesting, important and unusual stories from the region's past, and he has compiled the best of them here.

Masters of All They Surveyed - D. Graham Burnett 2001-09-20

Chronicling the British pursuit of the legendary El Dorado, *Masters of All They Surveyed* tells the fascinating story of geography, cartography, and scientific exploration in Britain's unique South American colony, Guyana. How did nineteenth-century Europeans turn areas they called terra incognita into bounded colonial territories? How did a tender-footed gentleman, predisposed to seasickness (and unable to swim), make his way up churning rivers into thick jungle, arid savanna, and forbidding mountain ranges, survive for the better part of a decade, and emerge with a map? What did that map mean? In answering these questions, D. Graham Burnett brings to light the work of several such explorers, particularly Sir Robert H. Schomburgk, the man who claimed to be the first to reach the site of Raleigh's El Dorado. Commissioned by the Royal Geographical Society and later by the British Crown, Schomburgk explored and mapped regions in modern Brazil, Venezuela, and Guyana, always in close contact with Amerindian communities. Drawing heavily on the maps, reports, and letters that Schomburgk sent back to England, and especially on the luxuriant images of survey landmarks in his *Twelve Views in the Interior of Guiana* (reproduced in color in this book), Burnett shows how a vast network of traverse surveys, illustrations, and travel narratives not only laid out the official boundaries of British Guiana but also marked out a symbolic landscape that fired the British imperial imagination. Engagingly written and beautifully illustrated, *Masters of All They Surveyed* will interest anyone who wants to understand the histories of colonialism and science.

Successful Social Networking in Public Libraries - Walt Crawford 2014

Most commentaries to date on library use of social networks such as Facebook and Twitter

have focused on a handful of well-funded public libraries with high-profile employees. Now Crawford's *Successful Social Networking in Public Libraries* fills in the rest of the picture, offering for the first time an in-depth look at how a large variety of public libraries are using social networks. Examining nearly 6,000 libraries across the US, Crawford Analyzes social network usage by libraries of many different sizes and funding levels, showing how many of them are active and effective in quite different ways Offers many examples that will help other libraries establish or refine their own social networking activities Lays out several key questions that libraries should ask themselves, such as "Who do we want to reach?" and "What's the best way to interact with communities?" Gives libraries guidelines for setting social networking goals and conducting ongoing evaluation Includes illuminating comments from numerous librarians on the front lines of communication Based on broad research, Crawford draws a vivid portrait that shows how a wide range of public libraries is conducting digital outreach and marketing through social networking.
