**Human Souls Journey After Death In Islam** - Muhammad Vandestra 2019-05-22

Imagine yourself at the moment of your death. What thoughts cross your mind? Memories of family and friends? Panic? Regrets? Remembrance of Allah? What is death? What happens to us after we die? What is life in the Hereafter like, this new and strange world after death? Do we lose consciousness of this life? Where does our soul go? Do we feel and think the same? The ineffable feeling of crossing the boundary between this world and the next cannot be described in words, nor imagined in the mind, but can be understood only through divine revelation and inspiration. Let us for the next few moments seek an understanding of this, death, the only certainty in life. Sometimes we may not want to know about the processes that occur after we die because we are afraid or don't want to think about it. However, this is not the attitude of a Muslim. We should be foremost in learning and understanding death, so we can live our lives accordingly. The prophet (saw) said, "Live in this world as though you are a stranger or a traveler (passing through it)." [Muslim] We are on a journey and should know about the whole journey's itinerary, not just one part. Death is inevitable. It is the one thing that we can be certain about in life. We are born to die. Every soul shall have a taste of death no matter who they are. This is confirmed for us many times in the Quran: "Every soul shall have a taste of death: and only on the Day of Judgement shall you be paid your full recompense." (Quran 3:185) "Every soul shall have a taste of death: and We test you by evil and by good, by way of trial. To Us must you return." (21:35) "Every soul shall have a taste of death: In the end to Us shall you be brought back." (29:57) Death is not pure annihilation, but rather both the living and dead are aware, but there is a difference that can't be compared. Death is merely movement from one world to another. It can be described as a journey through a wormhole to a separate dimension of existence.

**The Afterlife** - Elizabeth Clare Prophet 2020-09-01

What happens when we die? Is there really a heaven and a hell? What can we expect on the other side? In this profoundly insightful and fascinating work, world-renowned author Elizabeth Clare Prophet answers these questions and more as she sheds new light on the mysteries of the life beyond. Gifted with powerful inner sight, enabling her to trace the journey of souls into the afterlife, she begins by sharing stories of those who have passed on as she reveals what they experienced and why. She explores common misconceptions about the afterlife and even takes us to the movies to show how Hollywood has gotten it both right and wrong. As she opens the door into hidden dimensions, you will learn what happens during the life review (and "pre-life" review), what we do and who we meet in the afterlife, why suicide isn't a solution, the truth about forgiveness, and how you can help your loved ones make a safe and peaceful transition. Just as importantly, you'll explore how your options in the afterlife will depend on the choices you make in this life. With clarity and compassion, this life-changing guide to what comes next will show you how to make the most of life's opportunities as you prepare for the ultimate journey.

*Life in Al-Barzakh* - Ibn Kathir 2018-12-03

The Inevitable Journey, We inevitably go through the journey starting in this life and extending into the grave, before our final abode in the hereafter. In the process, we pass through stages of sickness, death,

and the intermediate life in the grave (al-Barzakh). These are the subjects that "The Inevitable Journey" discusses over a sequence of tides: 1. Sickness, Regulations & Exhortations 2. The Final Bequest, Islamic Inheritance and Will 3. Funerals, Regulations & Exhortations 4. Life in al-Barzakh 5. Dreamer's Handbook This book is the fourth in the series. It deals with many important matters that have always perplexed the human minds, but that, as is shown in this book, have been clearly explained in the authentic Texts from Allah's Book and His Messenger's Sunnah. Among the subjects covered are the following: The Moment of Death, The Soul's Trip to the Heavens, The Final Test, The Righteous and the Sinful in al-Barzakh, Saviors from the Grave's Punishment, Communications with al-Barzakh and Things That Benefit the Dead.

**The Myth of an Afterlife** - Michael Martin 2015-03-12

Because every single one of us will die, most of us would like to know what—if anything—awaits us afterward, not to mention the fate of lost loved ones. Given the nearly universal vested interest in deciding this question in favor of an afterlife, it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance. But the evidence of our senses and the ever-gaining strength of scientific evidence strongly suggest otherwise. In *The Myth of an Afterlife: The Case against Life after Death*, Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong, comprehensive, and up-to-date casebook of the chief arguments against an afterlife. Divided into four separate sections, this collection opens with a broad overview of the issues, as contributors consider the strongest evidence of whether or not we survive death—in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death. Next, contributors consider a host of conceptual and empirical difficulties that confront the various ways of "surviving" death—from bodiless minds to bodily resurrection to any form of posthumous survival. Then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife—heaven, hell, karmic rebirth—and widely held ethical principles central to the belief systems supporting those notions. In the final section, authors offer critical evaluations of the main types of evidence for an afterlife. Fully interdisciplinary, *The Myth of an Afterlife: The Case against Life after Death* brings together a variety of fields of research to make that case, including cognitive neuroscience, philosophy of mind, personal identity, philosophy of religion, moral philosophy, psychical research, and anomalistic psychology. As the definitive casebook of arguments against life after death, this collection is required reading for any instructor, researcher, and student of philosophy, religious studies, or theology. It is sure to raise provocative issues new to readers, regardless of background, from those who believe fervently in the reality of an afterlife to those who do not or are undecided on the matter.

*The Little Book of Life After Death* - Gustav Theodor Fechner 1904

**Death and the Afterlife** - Samuel Scheffler 2013-09-09

Suppose you knew that, though you yourself would live your life to its natural end, the earth and all its inhabitants would be destroyed thirty days after your death. To what extent would you remain committed to your current projects and plans? Would scientists still search for a cure for cancer? Would couples still want children? In *Death and the Afterlife*, philosopher Samuel Scheffler poses this thought experiment in

order to show that the continued life of the human race after our deaths--the "afterlife" of the title--matters to us to an astonishing and previously neglected degree. Indeed, Scheffler shows that, in certain important respects, the future existence of people who are as yet unborn matters more to us than our own continued existence and the continued existence of those we love. Without the expectation that humanity has a future, many of the things that now matter to us would cease to do so. By contrast, the prospect of our own deaths does little to undermine our confidence in the value of our activities. Despite the terror we may feel when contemplating our deaths, the prospect of humanity's imminent extinction would pose a far greater threat to our ability to lead lives of wholehearted engagement. Scheffler further demonstrates that, although we are not unreasonable to fear death, personal immortality, like the imminent extinction of humanity, would also undermine our confidence in the values we hold dear. His arresting conclusion is that, in order for us to lead value-laden lives, what is necessary is that we ourselves should die and that others should live. Death and the Afterlife concludes with commentary by four distinguished philosophers--Harry Frankfurt, Niko Kolodny, Seana Shiffrin, and Susan Wolf--who discuss Scheffler's ideas with insight and imagination. Scheffler adds a final reply.

*Afterlife* - Carol Neiman 1994

Explores the many beliefs about the afterlife, reviews various religious beliefs and personal accounts of near-death experiences and reincarnation

*Life Hereafter* - Paul Crittenden 2020-10-24

In this book, Paul Crittenden offers a critical guide to the problematic origins of biblical teaching about the afterlife and the way in which it was subsequently developed by Church authorities and theologians—Origen, Augustine, and Thomas Aquinas in particular. In the post-Reformation era the focus falls on the challenges set by modern secularism. The tradition encompasses a body of interconnected themes: an apocalyptic war in which the Kingdom of God triumphs over Satan's powers of darkness; salvation in Christ; the immortality of the soul; and finally the resurrection of the dead and the last judgment, ratifying an afterlife of eternal bliss for the morally good and punishment in hell for wrongdoers. The critique questions these beliefs on evidential, ethical, and philosophical grounds. The argument overall is that what lies beyond death is beyond knowledge. The one fundamental truth that can be distilled from the once compelling body of Christian eschatological belief—for believers and unbelievers alike—is the importance of living ethically.

*Messages from the Hereafter* - Serge Girard 2012-12-05T00:00:00-05:00

Messages from the Hereafter is an extremely sincere and truthful testimony. This book questions, without arrogance, our behaviour as human beings and, most importantly, brings us to question our personal ideas related to death and the beyond.

**Happily Ever Hereafter** - 2017-10-15

"Nobody can live forever. Allah (SWT) created us and gives us life, and Allah will decide when to end our lives and take us back to Him (2:156). Naturally, we might fear the time when loved ones will pass away, and we also might worry about when our own time will come. But our faith tells us about death and teaches us what we must do to prepare for the hereafter. In this book, we teach two key lessons. In the first story, "Life Goes On," Amira's parents explain that they can't and won't always be with her, but that Allah (SWT) always is and will always continue to take care of her. Not only that, a person's life doesn't stop with death;

rather, it is a transition from one world to another. Therefore, while it's expected to miss the one who passed away, we should take solace in the fact that, "The hereafter is better and more lasting" (87:17). The second story is about preparing ourselves for the hereafter. Our belief in Qiyamah, the Day of Judgement, fundamentally changes how we live our lives. We didn't come into this world simply to go to school, get a job, have a family, and then die. Allah (SWT) tells us that He created death and life as a test to see who is the best in deeds (67:2). We must try to perform the best of deeds such that we become good human beings in the eyes of God, before our time on earth is up. Good deeds are like bricks, which we can use to build our house in paradise, our ultimate destination, insha'Allah. The second story, "A Home in the Hereafter," conveys this lesson through Haroon Uncle's example, as he role models what it means to live a life for the next."—Provided by publisher.

[Life After Death, Powerful Evidence You Will Never Die](#) - Stephen Hawley Martin 2017-02-14

What happens when we die? This new edition of -Life After Death- adds to powerful evidence consciousness continues the author presented in his 2015 release. He spent two years gathering information that demonstrates this and along the way interviewed more than a hundred experts in a number of different fields. Among them were parapsychologists, medical doctors, psychologists, psychiatrists, quantum physicists, and researchers into the true nature of reality. Specific examples are presented that indicate what happens when we die, for example that memories can be formed and retained despite a subject's brain having been shutdown and the blood drained from it. Questions such as whether or not you will be able to communicate with living loved ones after death are addressed, if it is possible to be reborn, and what might be missing from reproductive theory to explain the various phenomena indicated in the many case histories and scientific investigations presented. All of us will someday cross the border to what Shakespeare called -The undiscovered country.- As long as we must make that trip, wouldn't it be smart to find out where we are going and what to expect when we get there?

**Shades of Sheol** - Philip Johnston 2002-08-14

Philip S. Johnston examines Israelite views on death and afterlife as reflected in the Hebrew Bible and in material remains, and sets them in their cultural, literary and theological contexts.

*Death, Mourning, and the Afterlife in Korea* - Charlotte Horlyck 2014-05-31

Death and the activities and beliefs surrounding it can teach us much about the ideals and cultures of the living. While biologically death is an end to physical life, this break is not quite so apparent in its mental and spiritual aspects. Indeed, the influence of the dead over the living is sometimes much greater than before death. This volume takes a multidisciplinary approach in an effort to provide a fuller understanding of both historic and contemporary practices linked with death in Korea. Contributors from Korea and the West incorporate the approaches of archaeology, history, literature, religion, and anthropology in addressing a number of topics organized around issues of the body, disposal of remains, ancestor worship and rites, and the afterlife. The first two chapters explore the ways in which bodies of the dying and the dead were dealt with from the Greater Silla Kingdom (668-935) to the mid-twentieth century. Grave construction and goods, cemeteries, and memorial monuments in the Koryŏ (918-1392) and the twentieth century are then discussed, followed by a consideration of ancestral rites and worship, which have formed an inseparable part of Korean mortuary customs since premodern times. Chapters address the need to appease the dead both in shamanic and Confucian contexts. The final section of the book examines the treatment of the dead and how the state of death has been perceived. Ghost stories provide important insight into how death was interpreted by common people in the Koryŏ and Chosŏn (1392-1910) while nonconformist narratives of death such as the seventeenth-century romantic novel Kuunmong point to a clear conflict between Buddhist thought and practice and official Neo-Confucian doctrine. Keeping with unendorsed views on death, the final chapter explores how death and the afterlife were understood by early Korean Catholics of the eighteenth and nineteenth centuries. *Death, Mourning, and the Afterlife in Korea* fills a significant gap in studies on Korean society and culture as well as on East Asian mortuary practices. By approaching its topic from a variety of disciplines and extending its historical reach to cover both premodern and modern Korea, it is an important resource for scholars and students in a variety of fields.

[Afterlife, the Whole Truth](#) - Stephen Martin 2018-10-07

This two book volume contains the author's bestselling title, "Life After Death, Powerful Evidence You Will

Never Die" and the sequel, "Life After Death Book II: Heaven, Hell & You," thereby revealing what everyone living today needs to know about life after death. Book One lays out indisputable evidence the brain does not create your consciousness, and that when your body dies, your consciousness will be released into a mental realm. It explains what you can expect to experience during the first minutes until you come to a border near death survivors agree is a point of no return. Book Two will lead you past that border to explore that Shakespeare called, "The undiscovered country," a mental realm each individual creates for him or herself. It also makes suggestions about actions to take now to insure the best possible outcome after death. Read what reviewers had to say about Book I: "Extraordinary findings in Stephen Martin's newest book, Life After Death, Powerful Evidence You Will Never Die, will keep readers on the edge of their seats as they burn through this well written book's pages. . . ." - Mark Davis, M.D. "If you only read one book about the afterlife, I highly recommend this one. It's an extensive research project and is quite understandable for the average reader. . . ." - Alan Halverson "I couldn't put this book down. I'm 34 years old with no major health issues and have been recently dealing with a lot of anxiety over death. . . ." - Nicole Ryan "This is one of the most powerful books on this subject that I have ever read. Very inspiring." - C. Ann Clarkon "Very accessible and well-written overview of recent research supporting evidence of consciousness existing independent of the brain; as well as its implications for survival of awareness after physical death. . . ." - Keith Park, Ph.D.

*The Life After Death (Barzakh) In Islam Based from The Holy Quran Bilingual Edition* - 2020-05-27

The Life After Death (Barzakh) In Islam Based from The Holy Quran Bilingual Edition In English & Germany Language Barzakh is an Arabic word meaning "obstacle", "hindrance", "separation", or "barrier" designates a place separating the living from the hereafter; a veil between the dead and their return to world of the living, but also to a phase happening between death and resurrection. Barzakh may, according to Ghazali, also be the place for those, who go neither to hell or to heaven. According to Ibn Hazm, Barzakh is also the place for the unborn souls, existing in the lowest heaven, where an angel blows the soul into wombs. Mentioned only three times in The Holy Quran, and just once specifically as the barrier between the corporeal and ethereal, Barzakh is portrayed as a place in which, after death, the spirit is separated from the body - freed to contemplate the wrongdoing of its former life. Despite the gain of recognizance, it cannot utilize action. The other two occurrences refer to Barzakh as an impenetrable barrier between fresh and salt water. While fresh and salt water may intermingle, an ocean remains distinct from a river. In hadith, Ibn al-Qayyim cites that, albeit not mentioned in the Quran, souls in Al-Barzakh would be grouped with others matching in purity or impurity. In Islam, the soul and the body are independent of each other. This is significant in Barzakh, because only a person's soul goes to Barzakh and not their physical body. Since one's soul is divorced from their body in Barzakh, the belief is that no progress or improvements to one's past life can be made. If a person experienced a life of sin and worldly pleasures, one cannot try to perform good deeds in order to reach Jannah Paradise. Whatever one does in his or her lifetime is final and

cannot be changed or altered in Barzakh. However, there is belief that the fire which represents the own bad deeds can already be seen in Barzakh, and that the spiritual pain caused by this can lead to purification of the soul. In Sufism the Barzakh or Alam-e-Araf is not only where the human soul resides after death but it is also a place that the soul can visit during sleep and meditation. Barzakh ist ein arabisches Wort, das "Hindernis", "Hemmnis", "Trennung" oder "Barriere" bedeutet und einen Ort bezeichnet, der die Lebenden vom Jenseits trennt; ein Schleier zwischen den Toten und ihrer Rückkehr in die Welt der Lebenden, aber auch zu einer Phase, die sich zwischen Tod und Auferstehung abspielt. Barzakh kann, so Ghazali, auch der Ort für diejenigen sein, die weder in die Hölle noch in den Himmel kommen. Nach Ibn Hazm ist Barzakh auch der Ort für die ungeborenen Seelen, die im untersten Himmel existieren, wo ein Engel die Seele in den Leib bläst. Im Koran wird Barzakh nur dreimal erwähnt, und nur einmal ausdrücklich als die Barriere zwischen dem Körperlichen und dem Ätherischen. Barzakh wird als ein Ort dargestellt, an dem der Geist nach dem Tod vom Körper getrennt wird - befreit, um über das Fehlverhalten seines früheren Lebens nachzudenken. Trotz des Zugewinns an Anerkennung kann er sich keine Handlung zunutze machen. Die beiden anderen Vorkommnisse beziehen sich auf Barzakh als undurchdringliche Barriere zwischen Süß- und Salzwasser. Während Süß- und Salzwasser sich vermischen können, bleibt ein Ozean von einem Fluss getrennt.

*Glimpsing Heaven* - Judy Bachrach 2014-09-02

If you caught a glimpse of heaven, would you choose to come back to life? Investigative journalist Judy Bachrach has collected accounts of those who died and then returned to life with lucid, vivid memories of what occurred while they were dead, and the conclusions are astonishing. Clinical death—the moment when the heart stops beating and brain stem activity ceases—is not necessarily the end of consciousness, as a number of doctors are now beginning to concede. Hundreds of thousands of fascinating post-death experiences have been documented, and for many who have died and returned, life is forever changed. These days, an increasing number of scientific researchers are turning their studies to people who have experienced what the author calls death travels -- putting stock and credence in the sights, encounters, and exciting experiences reported by those who return from the dead. Through interviews with scores of these "death travelers," and with physicians, nurses, and scientists unraveling the mysteries of the afterlife, Bachrach redefines the meaning of both life and death. *Glimpsing Heaven* reveals both the uncertainty and the surprising joys of life after death.

**7 Reasons to Believe in the Afterlife** - Jean Jacques Charbonier 2015-03-07

An uplifting study of the scientific evidence for the afterlife from an experienced anesthesiologist/intensive

care physician • Details meticulously recorded and hospital-verified cases of near-death experiences • Cites scientific research on NDEs to refute the standard objections of doubters and materialists point by point • Explores out-of-body experiences, sessions with mediums, electronic communication with the deceased, and other signs from the afterlife Over the course of his 25-year career as an anesthesiologist and intensive care physician, Jean Jacques Charbonier, M.D., gathered hundreds of accounts of patients who returned from clinical death. Across all of these accounts--from patients with vastly different backgrounds--Dr. Charbonier found striking similarities as well as indisputable proof that these experiences were more than hallucinations. He surveyed other physicians, nurses, and professional caregivers and discovered that their patients described the same experiences as well as exhibited the same positive life transformations afterward. Igniting a scientific quest to learn more, he collected more accounts of near-death experiences as well as out-of-body experiences, attended dozens of sessions with mediums, experimented successfully with electronic communication with the deceased (EVP), interviewed hundreds of people who have cared for the dying, and gathered countless inexplicable stories of "signs" from the afterlife. With each experience he studied, he found himself more firmly believing in the survival of consciousness beyond death. Dr. Charbonier distills his findings into 7 reasons to believe in the afterlife, beginning with the more than 60 million people worldwide who have reported a transcendent afterlife experience. He refutes the standard objections of doubters and materialists point by point, citing scientific research on NDEs and the work of pioneers in the field of consciousness studies such as Raymond Moody and Pim van Lommel. Drawing on meticulously recorded and hospital-verified cases, Dr. Charbonier explains that we should not fear death for ourselves or our loved ones. By releasing our fear of death, we can properly prepare for "the final journey." As those who have returned from death reveal, death is simply a transition and its lessons enable us to live more fully, peacefully, and happily in the now.

**The Life After Death (Barzakh) In Islam Based from The Holy Quran Bilingual Edition Ultimate Version** - Jannah An-Nur Foundation 2020-09

*The Life After Death (Barzakh) In Islam Based from The Holy Quran Bilingual Edition In English and Germany Language Ultimate Version*. Barzakh is an Arabic word meaning "obstacle", "hindrance", "separation", or "barrier" designates a place separating the living from the hereafter; a veil between the dead and their return to world of the living, but also to a phase happening between death and resurrection.

Barzakh may, according to Ghazali, also be the place for those, who go neither to hell or to heaven. According to Ibn Hazm, Barzakh is also the place for the unborn souls, existing in the lowest heaven, where an angel blows the soul into wombs. Mentioned only three times in The Holy Quran, and just once specifically as the barrier between the corporeal and ethereal, Barzakh is portrayed as a place in which, after death, the spirit is separated from the body - freed to contemplate the wrongdoing of its former life. Despite the gain of recognizance, it cannot utilize action. The other two occurrences refer to Barzakh as an impenetrable barrier between fresh and salt water. While fresh and salt water may intermingle, an ocean remains distinct from a river. In hadith, Ibn al-Qayyim cites that, albeit not mentioned in the Quran, souls in Al-Barzakh would be grouped with others matching in purity or impurity. In Islam, the soul and the body are independent of each other. This is significant in Barzakh, because only a person's soul goes to Barzakh and not their physical body. Since one's soul is divorced from their body in Barzakh, the belief is that no progress or improvements to one's past life can be made. If a person experienced a life of sin and worldly pleasures, one cannot try to perform good deeds in order to reach Jannah Paradise. In Sufism the Barzakh or Alam-e-Araf is not only where the human soul resides after death but it is also a place that the soul can visit during sleep and meditation.
