A nineteenth-century American missionary widow embarks on a daring quest to find her dark-skinned child. India, 1857: Anna Wheeler Roundtree, missionary wife, flees her husband's pious tyranny, leaving the safety of the Protestant Mission in which she's spent most of the past decade. Her timing is bad: the train carrying her to freedom steams into the midst of the brutal Indian Rebellion. She is, however, plucked from danger by Ashok Montgomery, a wealthy Anglo-Indian tea planter. Together they escape the angry mobs and find the shelter of an isolated mountain cave. There, for the first time, Anna learns the true nature of love. New York City, 1860: Now a successful poet featured in national magazines, Anna Wheeler is astonished to learn that the daughter she bore upon her return was not stillborn, as she was told, but has been kidnapped. When Anna hears the baby described as "dark-skinned," she realizes that Ashok, the man she'd left behind in the tumult of the rebellion, is the true father, not her blond, fair-skinned husband. In her own racially inflamed nation on the verge of its own war, Anna throws respectability to the wind, learns to take risks, break rules, and trust strangers in a determined search for the little girl. Then a deranged voice arises from her tormented past, making demands that compel her back to India. Anna must confront the evil that set her running in the first place. Will her daring quest for her child, and for the love of her life, end in triumph or in heartbreak?

**Can India Become a Developed Country?** - APJ Abdul Kalam 2018-11-30

"A developed India by 2020, or even earlier, is not a dream." What is it that makes a country 'developed'? Wealth of the nation? Prosperity of its people? It's standing in the international forum? For instance, per capita income can indicate wealth in the hands of people but everyone doesn't have the same amount of money. India's core strengths are derived from our resources: national and human. It is optimising these to the fullest that we can really set on the path to development. But where does one begin? What does one pay attention to first? Can India Become a Developed Country? by APJ Abdul Kalam and YS Rajan takes a look at some of the most fundamental questions we must ask as a populace to truly see India take its rightful place on the global map. **Contemporary English-Language Indian Children's Literature** - Michelle Superle 2011-05-09

Concurrent with increasing scholarly attention toward national children's literatures, *Contemporary English-language Indian Children's Literature* explores an emerging body of work that has thus far garnered little serious critical attention. Superle critically examines the ways Indian children's writers have represented childhood in relation to the Indian nation, Indian cultural identity, and Indian girlhood. From a framework of postcolonial and feminist theories, children's novels published between 1988 and 2008 in India are compared with those from the United Kingdom and North America from the same period, considering the differing ideologies and the current textual constructions of childhood at play in each. Broadly, Superle contends that over the past twenty years an aspirational view of childhood has developed in this literature—a view that positions children as powerful participants in the project of enabling positive social transformation. Her main argument, formed after recognizing several overarching thematic and structural patterns in more than one hundred texts, is that the novels comprise an aspirational literature with a transformative agenda: they imagine apparently empowered child characters who perform in diverse ways in the process of successfully creating and shaping the ideal Indian nation, their own well-adjusted bicultural identities in the diaspora, and/or their own empowered girlhoods. Michelle Superle is a Professor in the department of Communications at Okanagan College. She has taught children's literature, composition, and creative writing courses at various Canadian universities and has published articles in *Papers* and *IRCL*.

and *Mission In Motion* presents the results of this research. (NEW PARAGRAPH) This book is the first definitive exploration of the recent history, ministries and methods of mission mobilization. Furthermore, what hinders it? In addressing these questions, *Mission In Motion* allows the interviewed respondents to speak for themselves, in an open and frank manner. Some results confirm common beliefs, but others may surprise you.

Bringing together the results of a comprehensive research effort, the report suggests that unless human beings take action to reduce their impact on Mother Earth, the world is likely to be warmer by more than 4 degrees Celsius (7.2 degrees Fahrenheit) in the next hundred years. This will not be the end. Further warming of over 6 degrees Celsius (10.8 degrees Fahrenheit) will follow in the centuries to come. This book is a call to action. Making it clear that "when it comes to ecological work, it is not somebody's work, it is everybody's work," Sadhguru links the responsibilities of people, business and governance to address the problem with both short-term action as well as long-term vision.

Though India is no longer a Buddhist country, Buddhism held its place among Indian faiths for nearly seventeen centuries (500 B.C.--A.D. 1200). During this long stretch of time the Buddhist monks were organized in Sanghas in most parts of the country and their activities and achievements have profoundly influenced India's traditional culture. There are monumental remains of Buddhist monastic life scattered all over India: in the south there are about a thousand cave-monasteries, among them Ajanta, world-famous for its exquisite mural paintings; in the north, less spectacular, the ruins of monastic edifices from Taxila in the west to Paharpur in the east. A connected history of the Buddhist monks of ancient India, their activities, their monastic establishments and their contributions to Indian culture, is available for the first time in this work, which is remarkable also for its pervading human interest. In reconstructing the history of the emperors and kings who were patrons of Buddhism, the early missionaries and the illustrious monk-scholars of later times, the author has used sources in four languages--Pali, Sanskrit, Chinese and Tibetan. Beyond 2020 - A P J Abdul Kalam 2016-02-01

India 2020 is about to become a reality. Are we ready? As Dr Kalam and Y.S. Rajan had contended in their landmark vision document, *India 2020*, India has steadily moved towards becoming one of the top five economic powers in the twenty-first century. India's growth story has seen new opportunities and emerging technologies that make faster and more inclusive growth viable. In *Beyond 2020*, Kalam and Rajan argue that a renewed policy focus is now needed for agriculture, manufacturing, mining, the chemicals industry, healthcare and infrastructure to invigorate these sectors and boost economic growth. India can still make it to the list of developed nations in a decade. This timely book provides an action plan for that transformation.

*India 2020* - A P J Abdul Kalam 2014-08-01

In this ground-breaking vision document, first published in 1998, Dr A.P.J. Abdul Kalam and Y.S. Rajan offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past successes--the green revolution and satellite-based communication linking remote regions of the country, for instance--bear them out. The same sense of purpose can make us a prosperous, strong nation in a matter of years, assert Kalam and Rajan. This is a book that every citizen who hopes for a better India must read.
