Rainbow Party - Paul Ruditis 2008-06-24

Rainbow Parties. Are they real? Who's going? GIN and SANDY One's been with all the guys, one's terrified of them. It's Gin's party; she invited everyone. ALLISON President of the Celibacy Club. What's she thinkin'? HUNTER and PERRY Friends...with benefits. JADE Hanging on to it for the right guy. SKYE and ROD Totally doing it, totally curious. VI Skye's BF who has it for Rod. The party could change everything. RUSTY and BRICK One thinks he's a playah. One's built like it. Neither's getting any. ASH and ROSE The class couple, not ready yet. So why are they going? Would you? Rainbow Party is a cautionary tale about a group of teens faced with the prospect of attending a party involving oral sex. The novel spotlights each of their diverse viewpoints in the hours leading up to the party. It explores what each teen has -- and has not -- been up to sexually, and why. And ultimately, why they would consider going to a party like this in the first place. This book addresses important and timeless issues relevant to teens, including self-esteem, peer pressure, awareness about STD protection, and making an informed and educated decision about readiness for sexual activity. It was inspired by numerous news reports about the prevalence and attitudes among teens towards certain types of sexual behavior, and is intended to engage readers in this real-life issue in a responsible and constructive fashion.

The Rainbow Virus, Second Edition - Dennis Meredith 2016-07-22

It's the weirdest bioterrorism attack ever! At first, loner scientist Arthur Lupo seems the most eccentric bioterrorist of all time. After vanishing from his lab at a biotech company, he releases viruses that only turn their victims a palette of colors. But then his chief pursuers--disgraced FBI agent Bobby Loudon and obsessive CDC epidemic-tracker Kathleen Shinohara--discover a horrifying fact. The brilliant Lupo has stolen the world's most lethal viruses from the Army's bioterrorism center. Lupo reveals that his first viruses were only a test. He dramatically proves their infectivity by transforming the terrified citizens of Denver into a rainbow of colors. In a chilling declaration, he announces that he will now release an unstoppable artificial virus whose spread will decimate the world's population. Loudon and Shinohara must race against

time, a mysterious assassin, and a secret government faction to find Lupo and stop him. The Rainbow Virus is a gripping, realistic bioterrorism tale that launches readers on a harrowing adventure with the flips and plunges of the wildest roller coaster. In this second edition, author Dennis Meredith has recrafted his science thriller to make it even more dynamic, exciting, and engaging.

Fashion Victims - Alison Matthews David 2015-09-24

From insidious murder weapons to blaze-igniting crinolines, clothing has been the cause of death, disease and madness throughout history, by accident and design. Clothing is designed to protect, shield and comfort us, yet lurking amongst seemingly innocuous garments we find hats laced with mercury, frocks laden with arsenic and literally 'drop-dead gorgeous' gowns. Fabulously gory and gruesome, Fashion Victims takes the reader on a fascinating journey through the lethal history of women's, men's and children's dress, in myth and reality. Drawing upon surviving fashion objects and numerous visual and textual sources, encompassing louse-ridden military uniforms, accounts of the fiery deaths of Oscar Wilde's half-sisters and dancer Isadora Duncan's accidental strangulation by entangled scarf; the book explores how garments have tormented those who made and wore them, and harmed animals and the environment in the process. Vividly chronicling evidence from Greek mythology to the present day, Matthews David puts everyday apparel under the microscope and unpicks the dark side of fashion. Fashion Victims is lavishly illustrated with over 125 images and is a remarkable resource for everyone from scholars and students to fashion enthusiasts.

The Infinite Noise - Lauren Shippen 2019-09-24

Lauren Shippen's The Infinite Noise is a stunning, original debut novel based on her wildly popular and award-winning podcast The Bright Sessions. Caleb Michaels is a sixteen-year-old champion running back. Other than that his life is pretty normal. But when Caleb starts experiencing mood swings that are out of the ordinary for even a teenager, his life moves beyond "typical." Caleb is an Atypical, an individual with enhanced abilities. Which sounds pretty cool except Caleb's ability is extreme empathy—he feels the emotions of everyone around him. Being an empath in high school would be hard enough, but Caleb's life becomes even more complicated when he keeps getting pulled into the emotional orbit of one of his classmates, Adam. Adam's feelings are big and all-consuming, but they fit together with Caleb's feelings in a way that he can't quite understand. Caleb's therapist, Dr. Bright, encourages Caleb to explore this connection by befriending Adam. As he and Adam grow closer, Caleb learns more about his ability, himself, his therapist—who seems to know a lot more than she lets on—and just how dangerous being an Atypical can be. "What if the X-Men, instead of becoming superheroes, decided to spend some time in therapy?" (Vox on The Bright Sessions) At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Scary Stories for Young Foxes - Christian McKay Heidicker 2019-07-30

A 2020 Newbery Honor Recipient! Christian McKay Heidicker, author of the Thieves of Weirdwood trilogy, draws inspiration from Bram Stoker, H. P. Lovecraft and Edgar Allan Poe for his debut middle-grade novel, a thrilling portrait of survival and an unforgettable tale of friendship. "Clever and harrowing." —The Wall Street Journal "Into the finest tradition of storytelling steps Christian McKay Heidicker with these highly original, bone-chilling, and ultimately heart-warming stories. All that's needed is a blazing campfire and a delicious plate of peaches and centipedes." —Kathi Appelt, Newbery Award honoree and National Book Award finalist The haunted season has arrived in the Antler Wood. No fox kit is safe. When Mia and Uly are separated from their litters, they discover a dangerous world full of monsters. In order to find a den to call home, they must venture through field and forest, facing unspeakable things that dwell in the darkness: a zombie who hungers for their flesh, a witch who tries to steal their skins, a ghost who hunts them through the snow . . . and other things too scary to mention. Featuring eight interconnected stories and sixteen hauntingly beautiful illustrations, Scary Stories for Young Foxes contains the kinds of adventures and thrills you love to listen to beside a campfire in the dark of night. Fans of Neil Gaiman, Jonathan Auxier, and R. L. Stine have found their next favorite book. A Booklist 2019 Editors' Choice Selection

Rainbow Rhino - Peter Sis 1993

Rhino's good friends, the rainbow birds, leave him for better places to live, but they soon discover that beautiful places can have secret dangers.

Trumpocalypse - Paul McGuire 2018-01-02

From the authors of the international bestseller The Babylon Code comes an explosive exposé of the chilling truth about the fierce opposition to the Trump presidency, and why the globalist elite and Deep State will stop at nothing—assassination, military coup, staged economic collapse, or worse—to overthrow him.

"Trumpocalypse!" It's the media-coined meme inciting panic and fear that America has elected an unstable man who will barge into delicate international affairs like a bull in a china shop and incite nations bent on America's destruction to trigger World War III—an unprecedented nuclear apocalypse ending the world as we know it. But is the media telling us the truth? No, say internationally-recognized prophecy expert and Fox News and History Channel commentator Paul McGuire and Pulitzer Prize-nominated investigative journalist Troy Anderson. America's most insidious enemies are not hostile nations; they are elite globalists—the "Establishment" that is making the "1 percent" even richer while working- and middle-class people watch their incomes and net worth's flatline or plummet. The authors fearlessly expose the globalist elite's secret plan for humanity and campaign of mass deception. Using documentation gleaned from years of journalistic investigation and extensive interviews with over fifty of the world's most respected geopolitical, economic and military affairs experts, faith leaders, and biblical scholars, McGuire and Anderson unmask these elites as members of secret societies with deep occult connections who have gained control of America's dominant institutions—government, education, entertainment, international banking, and even the media. Trumpocalypse explores the enigmatic prophecies and "biblical codes" involving Trump, and asks whether God raised up President Trump as a fearless leader to guide America and the free world through a series of major crises as the biblical end-time narrative unfolds, as many people with prophetic gifts are predicting, and shows why everyday Americans and evangelicals have rallied around Trump as their last hope of saving America and averting the horrors of the Apocalypse. It further reveals why Trump and millions of "deplorables" are fighting to stop the hidden agenda of the Establishment, and how the perplexing chaos enveloping the planet could paradoxically signal the beginning of the great end-times awakening that millions are praying for. Here is an invitation to join the anti-Establishment surge—what evangelist Franklin Graham calls "the Christian revolution"—and discover how to fulfill your own destiny in the run-up to the Second Coming of Jesus Christ.

Blue Bells of Scotland - Laura Vosika 2009-09

Shawn has a skyrocketing musical career, fans, fame, money, a beautiful girlfriend and all the women he wants. Everything changes when he falls asleep in a castle tower and wakes up in medieval Scotland. Mistaken for the castle's future laird, he is forced to make a dangerous cross-country trek with a beautiful woman wielding a knife, pursued by English soldiers and a Scottish traitor, to raise men for the critical battle at Bannockburn. Niall Campbell, Shawn's opposite in everything except looks, is no more happy to find himself caught in Shawn's life, pursued by women, the target of an angry girlfriend, expected to play a sell-out concert, and hearing the account of his own death and Scotland's annihilation at Bannockburn. He vows to figure out what went wrong at the battle, and find a way back to change it. Blue Bells of Scotland is both an action-packed adventure and a tale of redemption that will be remembered long after the last page has been turned

Info We Trust - RJ Andrews 2019-01-03

How do we create new ways of looking at the world? Join award-winning data storyteller RJ Andrews as he pushes beyond the usual how-to, and takes you on an adventure into the rich art of informing. Creating Info We Trust is a craft that puts the world into forms that are strong and true. It begins with maps, diagrams, and charts — but must push further than dry defaults to be truly effective. How do we attract attention? How can we offer audiences valuable experiences worth their time? How can we help people access complexity? Dark and mysterious, but full of potential, data is the raw material from which new understanding can emerge. Become a hero of the information age as you learn how to dip into the chaos of data and emerge with new understanding that can entertain, improve, and inspire. Whether you call the craft data storytelling, data visualization, data journalism, dashboard design, or infographic creation — what matters is that you are courageously confronting the chaos of it all in order to improve how people see the world. Info We Trust is written for everyone who straddles the domains of data and people: data visualization professionals, analysts, and all who are enthusiastic for seeing the world in new ways. This

book draws from the entirety of human experience, quantitative and poetic. It teaches advanced techniques, such as visual metaphor and data transformations, in order to create more human presentations of data. It also shows how we can learn from print advertising, engineering, museum curation, and mythology archetypes. This human-centered approach works with machines to design information for people. Advance your understanding beyond by learning from a broad tradition of putting things “in formation” to create new and wonderful ways of opening our eyes to the world. Info We Trust takes a thoroughly original point of attack on the art of informing. It builds on decades of best practices and adds the creative enthusiasm of a world-class data storyteller. Info We Trust is lavishly illustrated with hundreds of original compositions designed to illuminate the craft, delight the reader, and inspire a generation of data storytellers.

Perspectives on the New Age - James R. Lewis 1992-01-01

This book begins with a comprehensive historical section that places the New Age within the context of its predecessor movements. It then focuses on specialized aspects of this subculture, from essays on the convergence of New Age spirituality with women's spirituality, to an essay on how Evangelical Christians have responded to the movement. The book also examines the international impact of the New Age.

Sophie's World - Jostein Gaarder 2007-03-20

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Most Dangerous Book in the World - S. K. Bain 2012-09-01

In this shocking exposé, investigative researcher and author S. K. Bain reveals the truth behind the mass-murdering psychopaths responsible for the events of September 11, 2001, and reconstructs the occult-driven script for this Global Luciferian MegaRitual. As Bain uncovers, the framework for the entire event was a psychological warfare campaign built upon a deadly foundation of black magick and high technology. The book details the sinister nature of the defining event of the 21st century and explains the vast scope of the machinery of oppression that has been constructed around us.

The Plant Paradox - Dr. Steven R. Gundry, MD 2017-04-25

"I read this book... it worked. My autoimmune disease is gone and I'm 37 pounds lighter in my pleather." -- Kelly Clarkson Most of us have heard of gluten—a protein found in wheat that causes widespread inflammation in the body. Americans spend billions of dollars on gluten-free diets in an effort to protect their health. But what if we've been missing the root of the problem? In *The Plant Paradox*, renowned cardiologist Dr. Steven Gundry reveals that gluten is just one variety of a common, and highly toxic, plant-based protein called lectin. Lectins are found not only in grains like wheat but also in the “gluten-free” foods most of us commonly regard as healthy, including many fruits, vegetables, nuts, beans, and conventional dairy products. These proteins, which are found in the seeds, grains, skins, rinds, and leaves of plants, are designed by nature to protect them from predators (including humans). Once ingested, they incite a kind of chemical warfare in our bodies, causing inflammatory reactions that can lead to weight gain and serious health conditions. At his waitlist-only clinics in California, Dr. Gundry has successfully treated tens of thousands of patients suffering from autoimmune disorders, diabetes, leaky gut syndrome, heart disease, and neurodegenerative diseases with a protocol that detoxes the cells, repairs the gut, and nourishes the body. Now, in *The Plant Paradox*, he shares this clinically proven program with readers around the world. The simple (and daunting) fact is, lectins are everywhere. Thankfully, Dr. Gundry offers simple hacks we easily can employ to avoid them, including: Peel your veggies. Most of the lectins are contained in the skin and seeds of plants; simply peeling and de-seeding vegetables (like tomatoes and peppers) reduces their lectin content. Shop for fruit in season. Fruit contain fewer lectins when ripe, so eating apples, berries, and other lectin-containing fruits at the peak of ripeness helps minimize your lectin consumption. Swap your brown rice for white. Whole grains and seeds with hard outer coatings are designed by nature to cause digestive distress—and are full of lectins. With a full list of lectin-containing foods and simple substitutes for each, a step-by-step detox and eating plan, and delicious lectin-free recipes, *The Plant Paradox* illuminates the hidden dangers lurking in your salad bowl—and shows you how

to eat whole foods in a whole new way.

The Seeds of New Earth (the Silent Earth, Book 2) - Mark R. Healy 2014-12-17

The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp. *The Silent Earth Series Book 1 - After the Winter*: amazon.com/dp/B00P02FBPM

The Ballad of Never After - Stephanie Garber 2022-09-13

Stephanie Garber's *The Ballad of Never After* is the fiercely-anticipated sequel to the #1 New York Times bestseller *Once Upon a Broken Heart*, starring Evangeline Fox and the Prince of Hearts on a new journey of magic, mystery, and heartbreak. Not every love is meant to be. After Jacks, the Prince of Hearts, betrays her, Evangeline Fox swears she'll never trust him again. Now that she's discovered her own magic, Evangeline believes she can use it to restore the chance at happily ever after that Jacks stole away. But when a new terrifying curse is revealed, Evangeline finds herself entering into a tenuous partnership with the Prince of Hearts again. Only this time, the rules have changed. Jacks isn't the only force Evangeline needs to be wary of. In fact, he might be the only one she can trust, despite her desire to despise him. Instead of a love spell wreaking havoc on Evangeline's life, a murderous spell has been cast. To break it, Evangeline and Jacks will have to do battle with old friends, new foes, and a magic that plays with heads and hearts. Evangeline has always trusted her heart, but this time she's not sure she can. . . .

Big Kibble - Shawn Buckley 2020-12-01

A big, inside look at the shocking lack of regulation within the pet food industry, and how readers can dramatically improve the quality of their dogs' lives through diet. What's really going into commercial dog food? The answer is horrifying. Big Kibble is big business: \$75 billion globally. A handful of multi-national corporations dominate the industry and together own as many as 80% of all brands. This comes as a surprise to most people, but what's even more shocking is how lax the regulations and guidelines are around these products. The guidelines—or lack thereof—for pet food allow producers to include ever-cheaper ingredients, and create ever-larger earnings. For example, “legal” ingredients in kibble include poultry feces, saw dust, expired food, and diseased meat, among other horrors. Many vets still don't know that kibble is not the best food for dogs because Big Kibble funds the nutrition research. So far, these corporations have been able to cut corners and still market and promote feed-grade food as if it were healthful and beneficial—until now. Just as you are what you eat, so is your dog. Once you stop feeding your dog the junk that's in kibble or cans, you have taken the first steps to improving your dog's health, behavior and happiness. You know the unsavory side of Big Tobacco and Big Pharma. Now Shawn Buckley, Dr. Oscar Chavez, and Wendy Paris explain all you need to know about unsavory Big Kibble—and offer a brighter path forward for you and your pet.

Song of the Crimson Flower - Julie C. Dao 2019-11-05

From the acclaimed author of *Forest of a Thousand Lanterns* comes a fantastical new tale of darkness and love, in which magical bonds are stronger than blood. Will love break the spell? After cruelly rejecting Bao, the poor physician's apprentice who loves her, Lan, a wealthy nobleman's daughter, regrets her actions. So when she finds Bao's prized flute floating in his boat near her house, she takes it into her care, not knowing that his soul has been trapped inside it by an evil witch, who cursed Bao, telling him that only love will set him free. Though Bao now despises her, Lan vows to make amends and help break the spell. Together, the two travel across the continent, finding themselves in the presence of greatness in the forms of the Great Forest's Empress Jade and Commander Wei. They journey with Wei, getting tangled in the webs of war, blood magic, and romance along the way. Will Lan and Bao begin to break the spell that's been placed upon them? Or will they be doomed to live out their lives with black magic running through their veins? In this fantastical tale of darkness and love, some magical bonds are stronger than blood.

The Night Rainbow - Claire King 2013-04-09

It is summer in the south of France, and Pea and her little sister Margot spend their days running free, inventing games in the meadow behind their house. But Pea has worries beyond her five and a half years. Her father has died in an accident, and her mother has just lost a baby. Maman is English, already isolated in this small, foreign village, and in her compounded grief, she has retreated even further. Pea and Margot stay out of her way and try to make things better, but they can't make Maman happy again. When Pea befriends Claude, a man who seems to love the meadow as she does, she wonders if he could be a new papa. But why do the other villagers view Claude with suspicion, and what secrets does his large empty house hold? Beautifully written, haunting, and full of surprises, *The Night Rainbow* is a novel about innocence and experience, grief and compassion, and the blessings and perils of imagination.

[Thy Kingdom Come](#) - Randall Balmer 2007-03-09

For much of American history, evangelicalism was aligned with progressive political causes. Nineteenth-century evangelicals fought for the abolition of slavery, universal suffrage, and public education. But contemporary conservative activists have defaulted on this majestic legacy, embracing instead an agenda virtually indistinguishable from the Republican Party platform. Abortion, gay marriage, intelligent design -- the Religious Right is fighting, and winning, some of the most important political battles of the twenty-first century. How has evangelical Christianity become so entrenched in partisan politics? Randall Balmer is both an evangelical Christian and a historian of American religion. Struggling to reconcile the contemporary state of evangelical faith in America with its proud tradition of progressivism, Balmer has headed to the frontlines of some of the most powerful and controversial organizations tied to the Religious Right. With a skillful combination of grassroots organization, ideological conviction, and media savvy, the leaders of the movement have mobilized millions of American evangelical Christians behind George W. Bush's hard-right political agenda. Deftly combining ethnographic research, theological reflections, and historical context, Balmer laments the trivialization of Christianity -- and offers a rallying cry for liberal Christians to reclaim the noble traditions of their faith.

[Confessions of an Illuminati, VOLUME II](#) - Leo Lyon Zagami 2017-11-11

After his master thesis of the secret societies network as outlined in Volume I, the Confessions of an Illuminati narrative of Leo Lyon Zagami is projected to the reality of today, including the occult maneuvers behind the New World Order. We need to wake up beyond our current belief systems, because the "controllers" of the New World Order are moving fast using the "Prophecies" to their advantage to implement their evil plan by 2020, when World War III will finally break loose. The author demonstrates that the hierarchy of power emanating from Rome and Jerusalem, with the Jesuits and the Zionist's united by a secret pact since the Second Vatican Council, are in cahoots working towards the creation of a world government. There is also China playing a new role in the NWO with the far reaching tentacles of Chinese Freemasonry manipulating economic Hit Men and disinformation artists, while Russia is building their Christian orthodox alliance to apparently oppose the Western antichrist. In this unprecedented scenario, we also have the involvement of the big media moguls like Ted Turner and Silvio Berlusconi and their role in manipulating perceptions. The author discusses further aspects of the Satanic infiltration of Freemasonry, pointing out on the generational aspect the many ways of defending yourself psychically against black magicians, but also against the many sects operating in the Illuminati Network.

[Under the Banner of Heaven](#) - Jon Krakauer 2004-06-08

NATIONAL BESTSELLER • From the author of *Into the Wild* and *Into Thin Air*, this extraordinary work of investigative journalism takes readers inside America's isolated Mormon Fundamentalist communities. Defying both civil authorities and the Mormon establishment in Salt Lake City, the renegade leaders of these Taliban-like theocracies are zealots who answer only to God; some 40,000 people still practice polygamy in these communities. At the core of Krakauer's book are brothers Ron and Dan Lafferty, who insist they received a commandment from God to kill a blameless woman and her baby girl. Beginning with a meticulously researched account of this appalling double murder, Krakauer constructs a multi-layered, bone-chilling narrative of messianic delusion, polygamy, savage violence, and unyielding faith. Along the way he uncovers a shadowy offshoot of America's fastest growing religion, and raises provocative questions about the nature of religious belief.

Kids Gone Wild - Joel Best 2014

The myths and truths of teen's sexual behavior. Winner of the 2015 Brian McConnell Book Award presented by the International Society for Contemporary Legend Research To hear mainstream media sources tell it, the sex lives of modern teenagers outpace even the smuttiest of cable television shows. Teen girls "sext" explicit photos to boys they like; they wear "sex bracelets" that signify what sexual activities they have done, or will do; they team up with other girls at "rainbow parties" to perform sex acts on groups of willing teen boys; they form "pregnancy pacts" with their best girlfriends to all become teen mothers at the same time. From *The Today Show*, to CNN, to the *New York Times*, stories of these events have been featured widely in the media. But are most teenage--or younger--children really going to sex parties and having multiple sexual encounters in an orgy-like fashion? Researchers say no--teen sex is actually not rampant and teen pregnancy is at low levels. But why do stories like these find such media traffic, exploiting parents' worst fears? How do these rumors get started, and how do they travel around the country and even across the globe? In *Kids Gone Wild*, best-selling authors Joel Best and Kathleen A. Bogle use these stories about the fears of the growing sexualization of childhood to explore what we know about contemporary legends and how both traditional media and the internet perpetuate these rumors while, at times, debating their authenticity. Best and Bogle describe the process by which such stories spread, trace how and to where they have moved, and track how they can morph as they travel from one medium to another. Ultimately, they find that our society's view of kids raging out of control has drastic and unforeseen consequences, fueling the debate on sex education and affecting policy decisions on everything from the availability of the morning after pill to who is included on sex offender registries. A surprising look at the truth behind the sensationalism in our culture, *Kids Gone Wild* is a much-needed wake-up call for a society determined to believe the worst about its young people.

[The Three Mothers](#) - Anna Malaika Tubbs 2021-02-02

"Tubbs' connection to these women is palpable on the page — as both a mother and a scholar of the impact Black motherhood has had on America. Through Tubbs' writing, Berdis, Alberta, and Louise's stories sing. Theirs is a history forgotten that begs to be told, and Tubbs tells it brilliantly." — Ibram X. Kendi, #1 *New York Times* bestselling author of *How to Be an Antiracist* and National Book Award winner *Stamped from the Beginning* Much has been written about Berdis Baldwin's son James, about Alberta King's son Martin Luther, and Louise Little's son Malcolm. But virtually nothing has been said about the extraordinary women who raised them. In her groundbreaking and essential debut *The Three Mothers*, scholar Anna Malaika Tubbs celebrates Black motherhood by telling the story of the three women who raised and shaped some of America's most pivotal heroes. These three extraordinary women passed their knowledge to their children with the hope of helping them to survive in a society that would deny their humanity from the very beginning—from Louise teaching her children about their activist roots, to Berdis encouraging James to express himself through writing, to Alberta basing all of her lessons in faith and social justice. These women used their strength and motherhood to push their children toward greatness, all with a conviction that every human being deserves dignity and respect despite the rampant discrimination they faced. These three mothers taught resistance and a fundamental belief in the worth of Black people to their sons, even when these beliefs flew in the face of America's racist practices and led to ramifications for all three families' safety. The fight for equal justice and dignity came above all else for the three mothers. These women, their similarities and differences, as individuals and as mothers, represent a piece of history left untold and a celebration of Black motherhood long overdue.

[The Rainbow Virus Young Adult Edition](#) - Dennis Meredith 2013-02

It's the weirdest bioterrorism attack ever! A frightening epidemic of unknown viruses is turning people red,

yellow, blue, chartreuse, emerald, pumpkin, fuschia. . . . An eccentric, brilliant biologist vanishes from a local biotech company. Is he the culprit? An unlikely team pursues the mystery: disgraced FBI agent Bobby Loudon and obsessive CDC disease detective Kathleen Shinohara. They race to find the bioterrorist, but they are thwarted by a shadowy, deadly network called the faction. Who is this group and what is their goal? Will Loudon's and Shinohara's worst fear be realized—that the colorful infections are prelude to an unstoppable virus that the bioterrorist will unleash to devastate the world? The Rainbow Virus is a breakneck science fiction adventure based on the looming potential of new biowarfare technology to pose a global terrorist threat. It's also a witty commentary on the peculiar human tendency to judge people by their skin color. Author and veteran science writer Dennis Meredith has crafted this riveting tale drawing on his decades of experience working at leading research universities such as Caltech, MIT, Cornell and Duke. The Sacred Lies of Minnow Bly - Stephanie Oakes 2016-11-01

****THE BOOK THAT INSPIRED SACRED LIES, DEBUTING JULY 27 ON FACEBOOK WATCH**** A hard-hitting and hopeful story about the dangers of blind faith—and the power of having faith in yourself. Finalist for the Morris Award. The Kevinian cult has taken everything from seventeen-year-old Minnow: twelve years of her life, her family, her ability to trust. And when she rebelled, they took away her hands, too. Now their Prophet has been murdered and their camp set aflame, and it's clear that Minnow knows something—but she's not talking. As she languishes in juvenile detention, she struggles to un-learn everything she has been taught to believe, adjusting to a life behind bars and recounting the events that led up to her incarceration. But when an FBI detective approaches her about making a deal, Minnow sees she can have the freedom she always dreamed of—if she's willing to part with the terrible secrets of her past. Gorgeously written, breathlessly page-turning and sprinkled with moments of unexpected humor, this harrowing debut is perfect for readers of Emily Murdoch's *If You Find Me* and Nova Ren Suma's *The Walls Around Us*, as well as for fans of *Orange Is the New Black*.

[Somewhere Under the Rainbow](#) - Tom Thumb 2013-02-22

If you were to stumble across a Rainbow Gathering, you'd be forgiven for thinking you'd walked through a time warp to the 1960's. People are singing and dancing, going naked with feathers in their hair, and offering prayers to the Great Spirit. But this is the 21st century and it turns out that peace and love are still going strong. Held across the world on mountains and beaches, in forests and deserts, Rainbow Gatherings draw thousands of people to celebrate together for a cycle of the moon.. There's no electricity, alcohol, or commerce of any kind. And there's no one in charge. In *Somewhere Under the Rainbow*, Tom Thumb shares how he found his true colours with the Rainbow Family and how, just maybe, you could find yours, too.

Arc of Justice - Kevin Boyle 2007-04-01

An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle. In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began—a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. *Arc*

[Eaters of Children](#) - Giovanni Augustino Cirucci 2017-09-11

The ultimate "conspiracy" is also the most horrible: a Satanic Elite controls all access to power. If you wish to join them, you must be like them—willing to do the worst things imaginable to the most innocent lives possible. They have been operating since the dawn of civilization. The "Christian Era" forced them underground but secretly these druids of depravity rule it all...and this book exposes them for you! -Sex messages hidden in Disney cartoons; Moloch worship in the Redwoods of California; only this book explains it all! -Did you know the "North American Man-Boy Love Association" was co-founded by a pedophile Roman Catholic priest? -The real reason why wars are started and why the Elite fabricate them needlessly out of whole cloth. -Read about the head of MI6 who was a lifelong "paedophile" and traitor. He also helped found NATO and seeded the "Global War on Terror" 30 years prior. -The most infamous serial killers are trained and enabled to do what they did. -Every famous person you've ever looked up to has been exposed to this dark secret and either kept it, been a victim of it and / or participated in it.

A Dangerous Collaboration - Deanna Raybourn 2020-02-11

A bride mysteriously disappears on her wedding day in the newest Veronica Speedwell adventure by the New York Times bestselling author of the *Lady Julia Grey* series. Lured by the promise of a rare and elusive butterfly, the intrepid Veronica Speedwell is persuaded by Lord Templeton-Vane, the brother of her colleague Stoker, to pose as his fiancée at a house party on a Cornish isle owned by his oldest friend, Malcolm Romilly. But Veronica soon learns that one question hangs over the party: What happened to Rosamund? Three years ago, Malcolm Romilly's bride vanished on their wedding day, and no trace of her has ever been found. Now those who were closest to her have gathered, each a possible suspect in her disappearance. From the poison garden kept by Malcolm's sister to the high towers of the family castle, the island's atmosphere is full of shadows, and danger lurks around every corner. Determined to discover Rosamund's fate, Veronica and Stoker match wits with a murderer who has already struck once and will not hesitate to kill again....

Permanent Revolution - Cliff Kincaid 2018-07-07

While racial conflict characterized the presidency of Barack Hussein Obama, his policies of allowing boys into girls' bathrooms and paying for transgender surgeries in the military were probably the most bizarre. Obama backers such as billionaire George Soros carried this insidious campaign of DNA denial into the heart of the U.S. Intelligence Community, leading to the tragic case of transgender Army traitor Bradley/Chelsea Manning. Under Obama, the nation's moral fabric was also torn apart by the increasing use of mind-altering drugs, resulting in despair, alienation, violence, and death. Here, in this extraordinary book on Obama's secret life and legacy, the public learns how Obama's heavy drug use and sordid sexual history guided his disastrous policies as president. But even though he is out of office, his Marxist "Permanent Revolution" continues. In fact, it has been expanded by his political followers and Big Money backers into a New Age plan for a "Rainbow Nation" of mysticism and alternative lifestyles. Once called "The Aquarian Conspiracy," it is a plan for a post-Christian civilization that takes power in America.

The Invisible Rainbow - Arthur Firstenberg 2020-03-09

Electricity has shaped the modern world. But how has it affected our health and environment? Over the last 220 years, society has evolved a universal belief that electricity is 'safe' for humanity and the planet. Scientist and journalist Arthur Firstenberg disrupts this conviction by telling the story of electricity in a way it has never been told before—from an environmental point of view—by detailing the effects that this fundamental societal building block has had on our health and our planet. In *The Invisible Rainbow*, Firstenberg traces the history of electricity from the early eighteenth century to the present, making a compelling case that many environmental problems, as well as the major diseases of industrialized civilization—heart disease, diabetes, and cancer—are related to electrical pollution.
