The impact of disasters and crises on agriculture and food security: 2021 - Food and Agriculture Organization of the United Nations 2021-03-17

On top of a decade of exacerbated disaster loss, exceptional global heat, retreating ice and rising sea levels, humanity and our food security face a range of new and unprecedented hazards, such as megafires, extreme weather events, desert locust swarms of magnitudes previously unseen, and the COVID-19 pandemic. Agriculture underpins the livelihoods of over 2.5 billion people - most of them in low-income developing countries - and remains a key driver of development. At no other point in history has agriculture been faced with such an array of familiar and unfamiliar risks, interacting in a

hyperconnected world and a precipitously changing landscape. And agriculture continues to absorb a disproportionate share of the damage and loss wrought by disasters. Their growing frequency and intensity, along with the systemic nature of risk, are upending people's lives, devastating livelihoods, and jeopardizing our entire food system. This report makes a powerful case for investing in resilience and disaster risk reduction - especially data gathering and analysis for evidence informed action - to ensure agriculture's crucial role in achieving the future we want.

Gardener's Log Book - The New York Botanical Garden 2018-02-06

This waterproof log book is the perfect place for recording your work in the garden. Use this journal throughout the seasons, from building catalog wish lists early in the year, to noting the first signs of spring, to recording what vegetable crops you planted and their yield, to organizing yourself for bulb planting in fall, to, finally, putting the garden to bed for the winter. A five year grid at the beginning of each month offers

space to note annual garden cycles over time, and journal entry pages are lined for notes or graphed for diagramming plantings. Whether you tend a window box, a cutting garden, or many raised vegetable beds, this is the perfect write-in companion to your gardening. This weatherproof five-year log book includes the following features: -Sturdy waterproof cover to protect pages from rain and muddy soil -Lined pages and gridded paper for plotting beds -Five years of 12-month bloom and harvest grids for recording what you planted and when - Authoritative appendices on composting, pruning, pest and disease control, and container gardening -Useful reminders by season on fertilizing, mulching, and transplanting -Space for listing your favorite sources and suppliers.

There's Someone Inside Your House -

Stephanie Perkins 2017-09-26

Now a Netflix Feature Film! "A heart-pounding page-turner with an outstanding cast of characters, a deliciously creepy setting, and an

absolutely merciless body count.” –Courtney Summers, New York Times bestselling author of *Sadie* and *The Project* A New York Times bestseller It’s been almost a year since Makani Young came to live with her grandmother and she’s still adjusting to her new life in rural Nebraska. Then, one by one, students at her high school begin to die in a series of gruesome murders, each with increasing and grotesque flair. As the body count rises and the terror grows closer, can Makani survive the killer’s twisted plan?

The Secret History of Twin Peaks - Mark Frost
2016-10-18

From the co-creator of the landmark series, the story millions of fans have been waiting to get their hands on for 25 long years. *The Secret History of Twin Peaks* enlarges the world of the original series, placing the unexplained phenomena that unfolded there into a vastly layered, wide-ranging history, beginning with the journals of Lewis and Clark and ending with

the shocking events that closed the finale. The perfect way to get in the mood for the upcoming Showtime series.

The Image of the City - Kevin Lynch 1964-06-15
The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

[City Unsilenced](#) - Jeffrey Hou 2017-06-26
What do the recent urban resistance tactics around the world have in common? What are the roles of public space in these movements? What

are the implications of urban resistance for the remaking of public space in the "age of shrinking democracy"? To what extent do these resistances move from anti- to alter-politics? City Unsilenced brings together a cross-disciplinary group of scholars and scholar-activists to examine the spaces, conditions, and processes in which neoliberal practices have profoundly impacted the everyday social, economic, and political life of citizens and communities around the globe. They explore the commonalities and specificities of urban resistance movements that respond to those impacts. They focus on how such movements make use of and transform the meanings and capacity of public space. They investigate their ramifications in the continued practices of renewing democracies. A broad collection of cases is presented and analyzed, including Movimento Passe Livre (Brazil), Google Bus Blockades San Francisco (USA), the Platform for Mortgage Affected People (PAH) (Spain), the Piqueteros Movement (Argentina),

Umbrella Movement (Hong Kong), post-Occupy Gezi Park (Turkey), Sunflower Movement (Taiwan), Occupy Oakland (USA), Syntagma Square (Greece), Researchers for Fair Policing (New York), Urban Movement Congress (Poland), urban activism (Berlin), 1DMX (Mexico), Miyashita Park Tokyo (Japan), 15M Movement (Spain), and Train of Hope and protests against Academic Ball in Vienna (Austria). By better understanding the processes and implications of the recent urban resistances, City Unsilenced contributes to the ongoing debates concerning the role and significance of public space in the practice of lived democracy. Farmers' Almanac 2008 - Peter Geiger 2007 Provides weather predictions for the entire United States and includes such features as the best days for fishing, recipes from the Wild West, and tips for tightwads. Butterfly Gardening - Jane Hurwitz 2018-04-10 An indispensable and lavishly illustrated guide to creating a garden that attracts and sustains

butterflies Butterfly gardening creates habitats that support butterflies, connecting us with some of the most beautiful creatures in the natural world and bringing new levels of excitement and joy to gardening. In this engaging and accessible guide, lavishly illustrated with more than two hundred color photographs and maps, accomplished butterfly gardener Jane Hurwitz presents essential information on how to choose and cultivate plants that will attract a range of butterflies to your garden and help sustain all the stages of their life cycles. An indispensable resource for aspiring and experienced butterfly gardeners alike, *Butterfly Gardening* is the most gardener-friendly source on the subject, covering all the practical details needed to create a vibrant garden habitat that fosters butterflies. It tells you which plants support which butterflies, depending on where you live; it describes what different butterflies require in the garden over the course of their lives; and it shows you how to

become a butterfly watcher as well as a butterfly gardener. While predominantly recommending regionally native plants, the book includes information on non-native plants. It also features informative interviews with experienced butterfly gardeners from across the United States. These gardeners share a wealth of information on plants and practices to draw butterflies to all kinds of gardens—from small suburban gardens to community plots and larger expanses. Whether you are a gardener who wants to see more butterflies in your garden, a butterfly enthusiast who wants to bring that passion to the garden, or someone who simply wants to make their garden or yard friendlier to Monarchs or other butterflies, this is a must-have guide. An essential guide for aspiring and experienced butterfly gardeners Encourages readers to rethink gardening choices to support butterflies and other pollinators in their gardens and communities Introduces gardeners to butterfly watching Includes regional lists of

plant species that are time-proven to help sustain butterflies and their caterpillars

Sustainable Market Farming - Pam Dawling
2013-02-01

Growing for 100 - the complete year-round guide for the small-scale market grower. Across North America, an agricultural renaissance is unfolding. A growing number of market gardeners are emerging to feed our appetite for organic, regional produce. But most of the available resources on food production are aimed at the backyard or hobby gardener who wants to supplement their family's diet with a few homegrown fruits and vegetables. Targeted at serious growers in every climate zone, Sustainable Market Farming is a comprehensive manual for small-scale farmers raising organic crops sustainably on a few acres. Informed by the author's extensive experience growing a wide variety of fresh, organic vegetables and fruit to feed the approximately one hundred members of Twin Oaks Community in central Virginia, this practical guide provides: Detailed

profiles of a full range of crops, addressing sowing, cultivation, rotation, succession, common pests and diseases, and harvest and storage Information about new, efficient techniques, season extension, and disease resistant varieties Farm-specific business skills to help ensure a successful, profitable enterprise Whether you are a beginning market grower or an established enterprise seeking to improve your skills, Sustainable Market Farming is an invaluable resource and a timely book for the maturing local agriculture movement. Pam Dawling is a contributing editor with Growing for Market magazine. An avid vegetable grower, she has been farming as a member of Twin Oaks Community in central Virginia for over twenty years, where she helps grow food for around one hundred people on three and a half acres, and provides training in sustainable vegetable production.

Sunflowers - Leland Dirks 2015-09-08

In the middle of a glorious nowhere, there is a

valley - the North American continent's largest alpine valley - where a hermit and his canine friends live. Surrounded by mountains, when summer comes, another sort of magic visits the valley: wildflowers, including the common sunflower, *Helianthus Annuus*. This book is a collection of the hermit photographer's own favorite sunflower photos and a miscellany of quotations, poetry, short stories, and trivia about those magnificent flowers.

The Old Farmer's Almanac 2022 - Old Farmer's Almanac 2021-08-17

Always timely, topical, and distinctively "useful, with a pleasant degree of humor," the Almanac is consulted daily

throughout the year by users from all walks of life. The 2022 edition contains the fun facts, predictions, and feature items that have made it a cultural icon: traditionally 80 percent-accurate weather forecasts; notable astronomical events and time-honored astrological dates; horticultural, culinary, fashion, and other trends; historical hallmarks; best fishing days; time- and money-saving garden advice; recipes for delicious dishes; facts on folklore, farmers, home remedies, and husbandry; amusements and contests; plus too much more to mention—all in the inimitable Almanac style that has charmed and educated readers since 1792.

Training Manual for Organic Agriculture - I.

Gomez 2017-09-01

The production of this manual is a joint activity between the Climate, Energy and Tenure Division (NRC) and the Technologies and practices for smallholder farmers (TECA) Team from the Research and Extension Division (DDNR) of FAO Headquarters in Rome, Italy.

The realization of this manual has been possible thanks to the hard review, compilation and edition work of Nadia Scialabba, Natural Resources officer (NRC) and Ilka Gomez and Lisa Thivant, members of the TECA Team. Special thanks are due to the International Federation of Organic Agriculture Movements (IFOAM), the Research Institute of Organic Agriculture (FiBL) and the International Institute for Rural Reconstruction (IIRR) for their valuable documents and publications on organic farming for smallholder farmers.

[Small-Scale Aquaponic Food Production](#) - Food and Agriculture Organization of the United Nations 2015-12-30

Aquaponics is the integration of aquaculture and soilless culture in a closed production system. This manual details aquaponics for small-scale production--predominantly for home use. It is divided into nine chapters and seven annexes, with each chapter dedicated to an individual module of aquaponics. The target audience for

this manual is agriculture extension agents, regional fisheries officers, non-governmental organizations, community organizers, government ministers, companies and singles worldwide. The intention is to bring a general understanding of aquaponics to people who previously may have only known about one aspect.

Up in the Garden and Down in the Dirt - Kate Messner 2015-03-03

In this exuberant and lyrical follow-up to the award-winning *Over and Under the Snow*, discover the wonders that lie hidden between stalks, under the shade of leaves . . . and down in the dirt. Explore the hidden world and many lives of a garden through the course of a year! Up in the garden, the world is full of green—leaves and sprouts, growing vegetables, ripening fruit. But down in the dirt exists a busy world—earthworms dig, snakes hunt, skunks burrow—populated by all the animals that make a garden their home. Plus, this is the fixed

format version, which will look almost identical to the print version. Additionally for devices that support audio, this ebook includes a read-along setting.

Pretty Tough Plants - Plant Select 2017-05-16
Tough-but-beautiful plant picks There's a growing demand for dependably hardy plants that require less maintenance and less water, but look no less beautiful in the garden. Plant Select—the leading purveyor of plants designed to thrive in difficult climates—meets this need by promoting plants that allow gardeners everywhere to have stunning, environmentally-friendly gardens that use fewer resources. *Pretty Tough Plants* highlights 135 of Plant Select's top plant picks. Each profile features a color photograph and specific details about the plant's size, best features, and bloom season, along with cultural needs, landscape features, and design ideas. The plant list includes perennials and annuals, groundcovers, grasses, shrubs, and trees. A chart at the end of the book makes it

easy to choose the right plants for specific conditions and needs.

Are We Smart Enough to Know How Smart

Animals Are? - Frans de Waal 2016-04-25

A New York Times bestseller: "A passionate and convincing case for the sophistication of nonhuman minds." —Alison Gopnik, *The Atlantic*
Hailed as a classic, *Are We Smart Enough to Know How Smart Animals Are?* explores the oddities and complexities of animal cognition—in crows, dolphins, parrots, sheep, wasps, bats, chimpanzees, and bonobos—to reveal how smart

animals really are, and how we've underestimated their abilities for too long. Did you know that octopuses use coconut shells as tools, that elephants classify humans by gender and language, and that there is a young male chimpanzee at Kyoto University whose flash memory puts that of humans to shame?

Fascinating, entertaining, and deeply informed, de Waal's landmark work will convince you to rethink everything you thought you knew about animal—and human—intelligence.

Communities in Action - National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her

behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. **Communities in Action: Pathways to Health Equity** seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Last Child in the Woods - Richard Louv
2008-04-22

“The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable.”
—Richard Louv, from the new edition In his landmark work *Last Child in the Woods*, Richard

Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, Last Child in the Woods, and its author, Richard Louv." —The Washington Post "Last Child in the Woods, which describes a generation so plugged into electronic diversions

that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —The Nation's Health "This book is an absolute must-read for parents." —The Boston Globe Now includes A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad

Grow More Food - Colin McCrate 2022-02-01
Just how productive can one small vegetable garden be? More productive than one might think! Colin McCrate and Brad Halm, former CSA growers and current owners of the Seattle Urban Farm Company, help readers boost their garden productivity by teaching them how to plan carefully, maximize production in every bed, get the most out of every plant, scale up systems to maximize efficiency, and expand the harvest season with succession planting, intercropping, and season extension. Along with

chapters devoted to the Five Tenets of a Productive Gardener (Plan Well to Get the Most from Your Garden; Maximize Production in Each Bed; Get the Most out of Every Plant; Scale up Tools and Systems for Efficiency; and Expand and Extend the Harvest), the book contains interactive tools that home gardeners can use to assist them in determining how, when, and what to plant; evaluating crop health; and planning and storing the harvest. For today's vegetable gardeners who want to grow as much of their own food as possible, this guide offers expert advice and strategies for cultivating a garden that supplies what they need. This publication conforms to the EPUB Accessibility specification at WCAG 2.0 Level AA.
