Millennials & Management - Lee Caraher 2016-10-14
As management ages and prepares to work longer than previous generations and Millennials join companies at steady rate, companies are suffering through tension and dissonance between Millennials and Boomers, and realizing that they can't just wait for management to age out to fix it. Finding productive ways to work across the generation gap is essential, and the organizations that do this well will have significant strategic advantages over those that don't. Millennials & Management: The Essential Guide to Making It Work at Work addresses a very real concern of large and small businesses nationwide: how to motivate, collaborate with, and manage the millennial generation, who now make up almost 50% of the American workforce. The key is to change Boomer attitudes from disbelief and derision to acceptance and respect without giving up work standards. Using real world examples, author Lee Caraher gives leaders data-driven steps to take to co-create a productive workplace for today and tomorrow.

Collaboration Explained - Jean Tabaka 2006-01-06
"Collaboration Explained is a deeply pragmatic book that helps agile practitioners understand and manage complex organizational and team dynamics. As an agile coach, I've found the combination of straightforward advice and colorful anecdotes to be invaluable in guiding and focusing interactions with my teams. Jean's wealth of experience is conveyed in a carefully struck balance of reference guides and prose, facilitating just-in-time learning in the agile spirit. All in all, a superb resource for building stronger teams that's fit for agile veterans and neophytes alike." —Arlen Bankston, Lean Agile Practice Manager, CC Pace "If Agile is the new 'what,' then surely Collaboration is the new 'how.' There are many things I really like about Jean's new book. Right at the top of the list is that I don't have to make lists of ideas for collaboration and facilitation anymore. Jean has it all. Not only does she have those great ideas for meetings, retrospectives, and team decision-making that I need to remember, but the startling new and thought-provoking ideas are there too. And the stories, the stories, the stories! The best way to transfer wisdom. Thanks, Jean!" —Linda Rising, Independent Consultant The Hands-On Guide to Effective Collaboration in Agile Projects To succeed, an agile project demands outstanding collaboration among all its stakeholders. But great collaboration doesn't happen by itself; it must be carefully planned and facilitated throughout the entire project lifecycle. Collaboration Explained is the first book to bring together proven, start-to-finish techniques for ensuring effective collaboration in any agile software project. Since the early days of the agile movement, Jean Tabaka has been studying and promoting collaboration in agile environments. Drawing on her unsurpassed experience, she offers clear guidelines and easy-to-use collaboration templates for every significant project event: from iteration and release planning, through project chartering, all the way through post-project retrospectives. Tabaka's hands-on techniques are applicable to every

leading agile methodology, from Extreme Programming and Scrum to Crystal Clear. Above all, they are practical: grounded in a powerful understanding of the technical, business, and human challenges you face as a project manager or development team member. · Build collaborative software development cultures, leaders, and teams · Prepare yourself to collaborate—and prepare your team · Define clear roles for each participant in promoting collaboration · Set your collaborative agenda · Master tools for organizing collaboration more efficiently · Run effective collaborative meetings—including brainstorming sessions · Promote better small-group and pair-programming collaboration · Get better information, and use it to make better decisions · Use non-abusive conflict to drive positive outcomes · Collaborate to estimate projects and schedules more accurately · Strengthen collaboration across distributed, virtual teams · Extend collaboration from individual projects to the entire development organization
Boomerang! - Nick Drake-Knight 2007-10
Quality of service is essential in the retail industry, if customers are to return time after time. This book sets out the "Continue and Begin" method of training for quality, using anonymous shoppers to observe staff in action. It explains how to motivate people and help them to improve, to achieve consistent high quality service across all branches of a company.
Meerkat Selling - Nick Drake-Knight 2008-06-01
Imagine if you filmed thousands of retail sales professionals in close up action, and studied their technique. What would you learn if you could view the nuances of successful selling, time and again on film, replaying key moments from secretly recorded mystery-shop evaluations? What if you introduced the best ethical sales processes into household-name world-class big-ticket retailers, and trained their sales teams to become super-effective? That's precisely what Nick Drake-Knight has done over 8 years in preparation for MEERKAT SELLING. This book explains what it takes to become a True Professional in big-ticket retail selling. Nick distils the best (and worst) elements from the sales behaviours of big-ticket sales professionals in the world's most prestigious brands, and presents an easy-to-recall sales model that really works. MEERKAT SELLING is has now been adopted by many of today's global big-ticket retailers.

Driving Loyalty - Kirk Kazanjian 2013-04-23
Must-reading for every manager, entrepreneur, corporate executive, and anyone looking to increase customer satisfaction, boost employee engagement, and significantly enhance the bottom line. In order to build a successful company today, you must create an unbreakable bond of loyalty between your customers and employees. Few have done this better than Enterprise Holdings, owner of the Enterprise, National, and Alamo rental car brands. While Enterprise has long been known for offering excellent customer service, it faced a huge challenge after buying National and Alamo in 2007. Among other things, it had to integrate different cultures, manage a varied workforce, and meet the needs of a much larger and highly divergent customer base. In Driving Loyalty, you'll get an inside look at how Enterprise began operating these three distinct brands in a way that ultimately led to rising profitability and some of the highest customer and employee satisfaction

scores in the industry. You'll also discover how other thriving companies—from JetBlue and Starbucks to Costco and even Chobani Yogurt—use similar techniques to outsmart the competition and turn customers and employees into raving fans. Driving Loyalty provides a blueprint that businesses of all types can use to deliver exceptional customer service, create a high-performing work environment, build strong brands, instill loyalty, market effectively online and off, and, in turn, power overall performance. In the pages of Driving Loyalty, you'll learn: - Specific strategies for offering exceptional service that will help to increase sales and grow your business. - Principles for developing engaged, high-performing teams - Why the rules of brand building differ based on your target audience - How to effectively leverage social media to better connect with your customers and employees - Why forming strong partnerships can take your company--and your career--to the next level - And much more

The Stressed Years of Their Lives - Dr. B. Janet Hibbs 2019-04-23 From two leading child and adolescent mental health experts comes a guide for the parents of every college and college-bound student who want to know what's normal mental health and behavior, what's not, and how to intervene before it's too late. "The title says it all...Chock full of practical tools, resources and the wisdom that comes with years of experience, The Stressed Years of their Lives is destined to become a well-thumbed handbook to help families cope with this modern age of anxiety." — Brigid Schulte, Pulitzer Prize-winning journalist, author of Overwhelmed and director of the Better Life Lab at New America All parenting is in preparation for letting go. However, the paradox of parenting is that the more we learn about late adolescent development and risk, the more frightened we become for our children, and the more we want to stay involved in their lives. This becomes particularly necessary, and also particularly challenging, in mid- to late adolescence, the years just before and after students head off to college. These years coincide with the emergence of many mood disorders and other mental health issues. When family psychologist Dr. B. Janet Hibbs's own son came home from college mired in a dangerous depressive spiral, she turned to Dr. Anthony Rostain. Dr. Rostain has a secret superpower: he understands the arcane rules governing privacy and parental involvement in students' mental health care on college campuses, the same rules that sometimes hold parents back from getting good care for their kids. Now, these two doctors have combined their expertise to corral the crucial emotional skills and lessons that every parent and student can learn for a successful launch from home to college.

The New York Times Film Reviews - 1969

Smarter Collaboration - Heidi K. Gardner 2022-11-01 We need a new approach for solving tough problems in a complex world—we need to collaborate smarter. Market volatility. Sustainability demands. Hybrid working. Opportunities and hazards of fast-changing technology and regulations. Companies and nonprofits face more daunting challenges than ever. How can we collaborate in our organizations—and with outside partners—to solve problems, innovate, and succeed? Smarter Collaboration offers groundbreaking solutions. This indispensable new book lays out a pragmatic action plan blending rich stories, new empirical research, and loads of practical advice to help companies thrive by collaborating more effectively. As Harvard professor Heidi K. Gardner and senior executive Ivan A. Matviak show, firms that collaborate smarter consistently generate higher revenues and profits, boost innovation, strengthen client relationships, and attract and retain better talent. In this successor to Gardner's bestselling first book, Smart Collaboration, the authors expand their mandate, illustrating the fundamental dynamics of collaborating well across industries like financial services, health care, biotech/pharma, consumer products, automotive, and technology. Based on their research with thousands of executives from around the world, they share deep insights on how to implement smarter collaboration and avoid the potential pitfalls. They also help leaders troubleshoot thorny challenges like misaligned incentives, collaboration overload, and unintended consequences on diversity and inclusion. Complete with how-tos and cases, the book concludes with inspiring examples of groups harnessing smarter collaboration to tackle society's biggest challenges such as saving the oceans, eradicating diseases, and tackling global warming. Smarter Collaboration is the essential guide for forward-thinking leaders to

transform their organizations, reshape the way they work, and increase impact and success.

The Employee Experience Advantage - Jacob Morgan 2017-03-01 Research Shows Organizations That Focus on Employee Experience Far Outperform Those That Don't Recently a new type of organization has emerged, one that focuses on employee experiences as a way to drive innovation, increase customer satisfaction, find and hire the best people, make work more engaging, and improve overall performance. The Employee Experience Advantage is the first book of its kind to tackle this emerging topic that is becoming the #1 priority for business leaders around the world. Although everyone talks about employee experience nobody has really been able to explain concretely what it is and how to go about designing for it...until now. How can organizations truly create a place where employees want to show up to work versus need to show up to work? For decades the business world has focused on measuring employee engagement meanwhile global engagement scores remain at an all time low despite all the surveys and institutes that been springing up tackle this problem. Clearly something is not working. Employee engagement has become the short-term adrenaline shot that organizations turn to when they need to increase their engagement scores. Instead, we have to focus on designing employee experiences which is the long term organizational design that leads to engaged employees. This is the only long-term solution. Organizations have been stuck focusing on the cause instead of the effect. The cause is employee experience; the effect is an engaged workforce. Backed by an extensive research project that looked at over 150 studies and articles, featured extensive interviews with over 150 executives, and analyzed over 250 global organizations, this book clearly breaks down the three environments that make up every single employee experience at every organization around the world and how to design for them. These are the cultural, technological, and physical environments. This book explores the attributes that organizations need to focus on in each one of these environments to create COOL spaces, ACE technology, and a CELEBRATED culture. Featuring exclusive case studies, unique frameworks, and never before seen research, The Employee Experience Advantage guides readers on a journey of creating a place where people actually want to show up to work. Readers will learn: The trends shaping employee experience How to evaluate their own employee experience using the Employee Experience Score What the world's leading organizations are doing around employee experience How to design for technology, culture, and physical spaces The role people analytics place in employee experience Frameworks for how to actually create employee experiences The role of the gig economy The future of employee experience Nine types of organizations that focus on employee experience And much more! There is no question that engaged employees perform better, aspire higher, and achieve more, but you can't create employee engagement without designing employee experiences first. It's time to rethink your strategy and implement a real-world framework that focuses on how to create an organization where people want to show up to work. The Employee Experience Advantage shows you how to do just that.

The Boomerang Principle - Lee Caraher 2017-03-16 It is rare today for employees to stay with one organization for the long tenures that were the norm before the Great Recession. In fact, "job hopping" is the new norm, especially for Millennials. In The Boomerang Principle, companies learn how to leverage this fact rather than fear it. By engendering a lifetime of loyalty from former employees, leaders can see them "return" in the form of customers, partners, clients, advocates, contractors, and even returning employees. Author Lee Caraher has built several companies and managed many Millennials along the way. In her first book, Millennials & Management, she shared her wisdom on how to get an intergenerational workforce to contribute to the larger goals of the organization. In this follow-up book, she shifts the emphasis to creating valuable, long-lasting relationships with your employees to ensure they remain your biggest fans, even if they leave the company. The Boomerang Principle is a pragmatic answer to the outdated corporate mindset around employee turnover. Instead, it shifts the focus to creating lifetime loyalty from your alumni who will bring back business again and again.

The Titanic Effect - Todd Saxton 2019-03-05
"I have read dozens of books on starting companies, but this is the first that accurately captures why startups fail and provides a tool for entrepreneurs and investors to measure and manage these sources of failure." Michael Hatfield, Co-Founder, Cerent, Calix, Cienna, and Carium. What makes a startup successful? This book, from award-winning business school professors and a tech serial entrepreneur, tells what makes startups successful. Instead of telling startups what to do, like most startup books, they share what startups should avoid. Along the way, they share small business startup success stories gleaned from the How Built This Podcast and their firsthand experiences. These stories of startup success are contrasted with stories of startup failure from startup graveyards and most notably, the Titanic. Like many of today's startups, the Titanic hoped to disrupt the transportation industry of its time. It fell short, to a disastrous outcome, from the same sources that prevent startup success today. Get a startup game plan! This startup book uses the Titanic and a sailing metaphor to provide a startup roadmap template. It shows what makes startups successfully navigate through challenges in startup investing, founding, and hiring with a game plan to get through the Human Ocean. It offers a startup guide to customer success in working through the Marketing Ocean. It even highlights what startups need to invest in to get through the Technical and Strategy Oceans. Its Iceberg Index gives entrepreneurs, startups, and small businesses a way to track their progress on the startup roadmap template. It also helps investors assess what startups to invest in. Many entrepreneurs assume that the Titanic was sunk by a single iceberg. The Titanic Effect shows, that like many startups, it's not a single misstep but a series of mistakes that keep a startup from being successful. This combination of missteps is called the Titanic Effect. Who can benefit from this startup roadmap? Entrepreneurs in the early stages of building a startup. They will learn what makes a startup successful. They will develop a to-do list of decisions to make and actions to take. Small business owners will also identify key next steps to building their startup game plan. Investors can identify what to avoid in startup investments and what startups to invest in. Students will learn how to evaluate the success potential of a startup and will read small business and startup success stories. These three co-authors have witnessed firsthand what leads to startup success. They have made it their mission to help entrepreneurs, startup founders and startup investors succeed. Drs. Todd and M. Kim Saxton bring more than two decades of academic and professional experience in business strategy, entrepreneurship, marketing, and angel investing. Serial tech entrepreneur, Michael Cloran, adds his two decades' of experiences in launching his own startups as well as building software products for other startups. In addition, the co-authors serve on various boards of entrepreneurial ventures and startup advisory associations. They have shared their expertise from the stage to dozens of audiences, including students, entrepreneurship and professional development associations, academic societies, and global companies like Roche Diagnostics and Pfizer Pharmaceuticals.

Boomerang - Tyler Smith 2020-06-09
If there was a guest follow-up system being used by over 17,000 church leaders, would you be intrigued? If church leaders were seeing first-time guest attendance and guest retention far surpassing the national average, would you want to know what they're doing? If there was a 3-step framework for building a guest follow-up system that creates more connection among members and guests and frees up more time among church staff and volunteers, would you give it a try?Spoiler alert: there is.Boomerang is the key to successful and sustainable church guest follow-up. Here's what you will find in Boomerang:*The proven 3-step framework of gather, connect, build*The actual follow up messages and strategies used by thousands of churches all across the country that are seeing incredible growth*The process of building a follow-up system that will work for you, freeing up more of your time to do what got you into ministry in the first placeBoomerang isn't like any other church growth book. There are no theories or hypotheticals. It is packed full of practical, proven, and strategic steps your church can start implementing right away.

Healing Myths, Healing Magic - Donald M. Epstein 2010-07-22
Healing Myths, Healing Magic examines the deeply ingrained stories, or myths, we commonly hold about how our bodies heal ¿ myths that can actually inhibit healing. In this breakthrough book, Epstein divides the healing myths into four categories: social, biomedical, religious, and new age. He exposes each myth individually, then suggests an alternative, or Healing Magic, to help us reclaim our body¿s natural ability to heal.

The Power of Negative Thinking - Bobby Knight 2013
Using examples from his long career, a legendary basketball coach outlines the benefits of negative thinking, which helps build a realistic strategy that takes all potential obstacles into account.
10 Discussions for Effective Leadership - R. Perras 2012-11
INTRODUCTION This is the second book from the lead author, Raymond Perras. Teaming up with two leadership coaching clients (Marcel Bellefeuille from the world of professional sports, and Bruno Lindia, a CEO and business owner), Raymond has developed a unique and groundbreaking effort to bring forward some issues that do not often get dealt with in a leadership book. Based on the concept of Peak Performance (the right stuff, in the right amount, at the right time(TM)), this work provides a leader with insight into how to maximize results while reducing stress. It is not meant to confirm what a leader already knows but rather to serve as a basis to "contemplate" how a person who leads a team can help create an atmosphere that enables people to exceed expectations on a routine basis. Tapping their experiences in leading and coaching leaders, the authors have shared insights into some of the less glamorous aspects of leadership. The goal is to raise a leader's awareness to the fact that the team results can be improved when attention is paid to specific aspects of leadership in order to increase effectiveness. The implementation of a thinking process that ensures a continuous effort to seek peak performance ultimately enables everyone to exceed expectations. The book provides insight into the state of leadership, highlighting the results of research done in 2011 by Development Dimensions International, to guide the reader's focus toward some leadership traps that can torpedo the best efforts to be an effective leader. In a "three distinct statement" approach, the 10 chapters each address one of the activities or issues that the authors have identified as mission-critical for a leader based on their professional experience. Through a prioritized list from a brainstorm exercise on usual traps that can create a barrier to leadership success, the authors selected 10 activities that may make or break a leader on the journey to leadership excellence. The 10 activities are not in order of priority, only proposed as cautionary subjects for the leader who seeks to be effective in leading a team. The 10 activities are discussed by each of the authors on the basis of their work experience and are listed as follows in the Table of Content: 1 - The Right Stuff in the Right Amount at the Right Time: in an effort to minimize waste and maximize result, the leader is encouraged to make judicious choices in order to have sufficient resources to address the priority issues. 2 - The Myth of Empowerment: reflections are shared on how this term is used extensively but often is not reflected in the actual leadership activities. People are said to be empowered but the end result is responsibility without authority - delegation is not true delegation. 3 - Trust and The Boomerang Theory: this critical quality of a leader is discussed to bring awareness to the fact that a person cannot expect trust if he or she does not trust first. In the end, results are greatly reduced when trust is not in the mix. 4 Telling The Truth: the discussion centres on the common difficulty for a leader to tell it like it is. In a place where trust is lacking, stories are usually made up to cover or twist the truth with a negative impact on the team. 5 - Optimize Results with Joint Planning: too often, projects do not bring the desired end results and expectations are not fulfilled because information is held back or key people are not involved at the planning stage. Taking the time to listen and involve people usually will optimize results. 6 - Clarity of Vision Leads to Success: the point is that when a leader is not clear on the shape and form of a successful outcome, it is very difficult to provide guidance and leadership in an effective way. A clear vision takes time to formulate and a leader will do well to define his vision and share it with the team. Here we are talking about a vision of HOW we will work as a team. A project's outcome is usually quite clearly define

The Boomerang Effect - Malachi Walker 2018-07-26
It's time to Level Up! Glass ceilings provide a nice view of what you cannot reach. In his book, Malachi gives you the weapons you need so you can shatter the glass that keeps holding you back.
Make It Matter - Scott Mautz 2015-03-04
Your employees' bodies may be putting in long hours, but their hearts and minds rarely punch in. Studies show that 70 percent of the workforce feel disengaged, without a sense of purpose in their jobs. This eye-popping statistic should horrify organizations today, most of whom are attempting to motivate their employees to do more with less.But how do you motivate the disengaged, and further engage the engaged? The answer is not pay, perks, or promotions. Those are nice Band-Aids that can work for a short time, but they aren't addressing the underlying problem: their employees' need to take part in work that matters. This upbeat, original book shows how meaning-rich workplaces connect, inspire, and catapult employees into new realms of productivity and well-being. Make It Matter not only makes a convincing case for change--it also explains how to become the kind of business where people love to work, and the kind of manager people love to work for. Insightful research findings, stories, and guidelines help readers create: • Direction: reframing work to add meaning • Discovery: offering challenges and thoughtful opportunities to learn and grow • Devotion: cultivating an authentic, caring culture, free from corrosive behaviorsMake It Matter is the first ever book that serves as a practical, yet inspiring how-to guide for motivating by creating meaning--the motivational tour de force of our times. When people feel they matter, they give their all. Everybody wins!
The 17 Indisputable Laws of Teamwork - John C. Maxwell 2013-04-01
Building and maintaining a successful team is no simple task. Even people who have taken their teams to the highest level in their field have difficulty recreating what accounted for their successes. Is it a strong work ethic? Is it "chemistry"? What tools can you wrap your hands around to build?or rebuild?your team? In The 17 Indisputable Laws of Teamwork, leadership expert and New York Times best-selling author John C. Maxwell shares the vital principles of team building that are necessary for success in your business, family, church, or organization. In his practical, down-to-earth style, Dr. Maxwell shows how: The Law of High Morale inspired a 50-year-old man who couldn't even swim to train for the toughest triathlon in the world. The Law of the Big Picture prompted a former U.S. president to travel across the country by bus, sleep in a basement, and do manual labor. Playing by The Law of the Scoreboard enabled one web-based company to keep growing and make money while thousands of other Internet businesses failed. Ignoring The Law of the Price Tag caused one of the world's largest retailers to close its doors after 128 years in business. The 17 Indisputable Laws of Teamwork will empower you?whether coach or player, teacher or student, CEO or non-profit vollunteer?with the "how-tos" and attitudes for building a successful team.
Aboriginal Sports Coaches, Community, and Culture - Demelza Marlin 2020-10-31
This book is the first to celebrate the stories of this group of Aboriginal mentors and leaders and present them in a form that is accessible to both academic and general audiences. In this book, Aboriginal sport coaches from all over Australia share stories about their involvement in sport and community, offering insight into the diverse experiences of Aboriginal people in settler colonial Australia. This collection amplifies the public voice of Aboriginal coaches who are transforming the social, cultural, and political lives of Aboriginal and non-Aboriginal people. These stories have been overlooked in public discussion about sport and indigeneity. Frank and often funny, these intimate narratives provide insight into the unique experiences and attitudes of this group of coaches. This book deepens our understanding of the shared and contested history of Aboriginal peoples' engagement with sport in Australia.
