Affective Health and Masculinities in South Africa - Hans Reihling 2020-04-24

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

The Dumb Bunnies' Easter - Dav Pilkey 2009

Momma Bunny is really dumb. Poppa Bunny is even dumber. Baby Bunny is the dumbest bunny of all. So on December 24th, they decorate the tree, stuff the turkey and paint the fried eggs. That can only mean one thing, it's Easter time at the Dumb Bunnies' house!

Bait and Switch - Barbara Ehrenreich 2006-07-25

The bestselling author of *Nickel and Dimed* goes back undercover to do for America's ailing middle class what she did for the working poor. Barbara Ehrenreich's *Nickel and Dimed* explored the lives of low-wage workers. Now, in *Bait and Switch*, she enters another hidden realm of the economy: the shadowy world of the white-collar unemployed. Armed with a plausible résumé of a professional "in transition," she attempts to land a middle-class job—undergoing career coaching and personality testing, then trawling a series of EST-like boot camps, job fairs, networking events, and evangelical job-search ministries. She gets an image makeover, works to project a winning attitude, yet is proselytized, scammed, lectured, and—again and again—rejected. *Bait and Switch* highlights the people who've done everything right—gotten college degrees, developed marketable skills, and built up impressive résumés—yet have become repeatedly vulnerable to financial disaster, and not simply due to the vagaries of the business cycle. Today's ultra-lean corporations take pride in shedding their "surplus" employees—plunging them, for months or years at a stretch, into the

twilight zone of white-collar unemployment, where job searching becomes a full-time job in itself. As Ehrenreich discovers, there are few social supports for these newly disposable workers—and little security even for those who have jobs. Like the now classic *Nickel and Dimed*, *Bait and Switch* is alternately hilarious and tragic, a searing exposé of economic cruelty where we least expect it.

Succeeding beyond their wildest dreams, it is quickly apparent the cloned ape belongs back in his native wilderness and not the wilds of New York. Millionaire by Thirty - Douglas R. Andrew 2008-04-30

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.
