Eleven New Cantos, XXXI-XLI - Ezra Pound 1934

[The Numinous Legacy](#) - Adair Butchins 2002

Where is God in the universe if anywhere? Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity

how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to consider the

Acts of Archelaus - Hegemonius 2001

Traditionally attributed to Hegemonius, the Acta Archelai is the oldest and most significant anti-Manichaean polemical texts. Originally composed in Greek in the fourth century, it has survived mainly in a near contemporary Latin translation - substantial section of the Greek version has however survived in the Panarion of Epiphanius. The Acta gives a fictional account of a debate between Mani and Archelaus, the Christian bishop of the city of Carchar in Roman Mesopotamia as well as an important summary of his teaching on cosmogony and a highly polemical version of Mani's life. The work would later exercise enormous influence on anti-Manichaean writings in both Late Antiquity and Middle Ages. The present translation, the first to be based on the excellent edition by Charles Beeson, is accompanied by detailed introduction

and notes. The Greek version of the summary of Mani's teaching preserved in Greek is also translated separately in an appendix. The book is of basic importance to all scholars of Manichaeism, gnosticism and of medieval heresies.

Ezra Pound and the Troubadour Tradition - Stuart Y. McDougal 2015-03-08

The world of the troubadours of medieval Provence—of Bertran de Born, Arnaut de Mareuil, and Peire Bremon lo Tort—always fascinated Ezra Pound and, as Stuart McDougal shows, provided both themes and techniques for his early poetry. Pound's first translations of

Provençal poetry were a way of penetrating an alien sensibility and culture and making it his own; they were also important technical exercises. Confronted with the problem of finding a suitable form and language for the Provençal experience, he condensed, deleted, expanded—the results were highly original works. Among Pound's early experiments were the studies of individual Provençal poets, each representing one of the qualities of Provençal culture that attracted him—Bertran is the man of action and Vidal is an example of the close connection between man and the "vital universe." Implicit in Pound's treatment of the past is his belief in the contemporaneity of these medieval values. This belief remains constant in *The Cantos*, although as the work developed it became clear that no single cultural framework could encompass it. Nevertheless, the medieval world remained the cornerstone of Pound's paradise—a brilliantly unified, vibrant world against which he could contrast the chaos and

sterility of contemporary civilization. Originally published in 1973. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. A Different Sea - Claudio Magris 2011-05-31

Early this century Enrico, a young intellectual, leaves the city of Gorizia with its abundant population and culture, to spend several years

living on the Patagonian pampas, alone with his ancient Greek texts, his flocks and, every now and then, a woman. He has been taught by his closest friend, Carlo, a philosopher/poet who commits suicide in his early twenties, to search for an authentic life, free of social falsehoods. But in his search for this unattainable goal, Enrico destroys every chance he has of a normal existence. This is portrait of a world in ferment, a decaying empire shaken by war and revolution, and a life-long search for meaning.

Yael's husband, Nachum, seems unable, or unwilling to understand what she has been through, and although her friends and colleagues are sympathetic, they cannot share her pain. Still traumatised, she feels compelled to seek out the blonde child's grieving father, the enigmatic and mysterious Avshalom. Drawn to him through their mutual suffering and fascinated by his unusual background, Yael begins to fall helplessly in love with him. Snow and Guilt - Giorgio Pressburger 2000

This award-winning collection confirms Giorgio Pressburger as a European master of the short story. Each tale is wondrous in its situation and its telling, but each refined truth it contains is hauntingly familiar in its resonance. In the title story, four rabbis on a trip through the mountains offer marvelous interpretations of the similarities between snow and guilt, just before an avalanche, killing three of them, provides the

most concrete interpretation of all for the survivor. In other stories, horrors await a scientist who provokes unrequited passion in a young girl; a wheelchair-bound philosopher rails at cosmic injustice; and a man who saves a kitten from death unwittingly changes his life through a random act of kindness. Giorgio Pressburger was born in Budapest in 1937 and later settled in Italy. He is now the Director of the Institute of Italian Culture in Hungary. Among his previous books is *The Law of White Spaces*.

Mythic Astrology Applied - Ariel Guttman 2004

A Serious Character - Humphrey Carpenter 2010-04

Ezra Pound's greatness as a man of letters - poet, translator, critic, editor, pedagogue, universal correspondent - made him a central figure in the literature of the twentieth century.

He was an exotic and controversial character throughout his life, and his public career achieved melodrama in 1945 when he was indicted on a charge of treason, for broadcasting Axis propaganda on Rome radio during the war. He was eventually confined to a Washington psychiatric hospital for thirteen years. The final period of his life, after his release and return to Italy, was as dramatic - and tragic - as anything that had gone before. In this vigorous and fully documented biography Humphrey Carpenter carefully scrutinizes and often takes issue with the accepted valuation of Pound's achievements and his personality. He had access to Pound's vast correspondence - including highly revealing letters to his parents - and to medical records and confidential American government memoranda relating to Pound's indictment and trial. *A Serious Character* is rich in fascinating detail and acutely challenging in its judgements and commentary. Its title is taken from one of Pound's favourite sayings (first recorded in

1913): 'Are you or are you not, a serious character?'

within the story, Nathan's tale spans generations of a Jewish family as it wanders the globe: from Magnus, who began a twenty-one-year walk from Poland to Holland in 1648, to the itinerant clockmakers who followed him, to Manhattan's Project. Here are comic embarrassments, mystical puzzles, and grand adventure rolled together. Gloriously rich, quirky, and endlessly inventive, Marcel Möring's novel is epic on a very human scale.

Experimental Researches - C.G. Jung

2014-12-18

After joining the staff of the Burgholzli Mental Hospital in 1900, Jung developed and applied the word-association tests for studying normal and abnormal psychology. The studies have remained a significant phase in the development of Jung's conceptions and an important contribution to diagnostic psychology and psychiatry. Between 1904 and 1907 he published nine studies on the tests. These studies, together with two lectures on the association method given in 1909 at Clark University and three articles on psychophysical researches from American and English journals in 1907-1908, compose this volume. Jung's association studies showed the definite influence of Bleuler and also of Freud, with whom he worked closely for several years. With this volume, the Collected Works are complete except for the Miscellany, Bibliography and

Index volumes.

Helena Rubinstein - Michèle Fitoussi

2013-03-11

Helena Rubinstein was born into a poor Polish family at the end of the nineteenth century; by the time of her death in 1965 she had built a cosmetics empire that spanned the world. When Rubinstein opened her first salon in Melbourne, her scientific approach to beauty was an instant sensation. Women just couldn't get enough of her innovative advice on skincare, and her beauty products were constantly sold out. Having conquered Australia, Rubinstein went on to open salons in Europe and America, at a time when women were barely seen in business, let alone running their own multinational companies. Dressed by Chanel and Yves St Laurent, painted by Salvador Dali and Picasso and mingling with Colette and Proust, Helena Rubinstein not only enjoyed unbelievable success, but was also instrumental in empowering and liberating women. Helena

Rubinstein was a total original, and her legacy can still be seen today in the methods used to market and manufacture cosmetics. This is her amazing life story.

The Jewish Messiah - Arnon Grunberg

2008-01-10

The new novel by the internationally acclaimed author- "a farce of nuclear proportions"(Vanity Fair) Arnon Grunberg is one of the most subtly outrageous provocateurs in world literature. The Jewish Messiah, which chronicles the evolution of one Xavier Radek from malcontent grandson of a former SS officer, to Jewish convert, to co-translator of Hitler's Mein Kampf into Yiddish, to Israeli politician and Israel's most unlikely prime minister, is his most outrageous work yet.

Taking on the most well-guarded pieties and taboos of our age, The Jewish Messiah is both a great love story and a grotesque farce that forces a profound reckoning with the limits of human guilt, cruelty, and suffering. It is without question Arnon Grunberg's masterpiece.
