Corporate Bravery - Darrin Murriner
2015-10-01

American culture has become a culture of fear. Parenting methods and advertising messages scream for safety. Terrorism's threat and the government's response both tell us to take cover. And, of course, social media's unending streams perpetually magnify it all. In this societal context, our business cultures, too, have become cultures of fear. Mistrust is rising between management and co-workers, all seeking to protect personal interests. Advisors push us toward fear-based caution, not opportunity-seeking strategy. External influences -- from the media to regulators to competition -- focus us on avoiding risks rather than moving boldly ahead. **Corporate Bravery** is a book about freeing your business from being a culture of fear. It starts by considering fear's impact on decision-making. Then, it explores eight ways that fear can harm culture. Finally, through a three-step process, it shows how to foster a culture that supports engaged employees, provides opportunities for measured risk-taking and innovation, and rewards the brave leadership that drives business success.

Lift - Ryan W. Quinn 2015-07-31

Just as the Wright Brothers combined science and practice to finally realize the dream of flight, Ryan and Robert Quinn combine research and personal experience to demonstrate how to reach a psychological state that elevates us and those around us to greater heights of achievement, integrity, openness, and empathy. It's the psychological equivalent of aerodynamic lift, and it is the fundamental state of leadership. This book draws on recent advances in positive psychology and organizational science to describe four questions that, when asked in any situation, will help us experience the fundamental state of leadership. Engaging personal stories illustrate how the Quinns and others have applied these concepts at work, at home, and in the community. --

A Field Guide to Climate Anxiety - Sarah Jaquette Ray 2020-04-21

A youth movement is reenergizing global environmental activism. The "climate generation"—late millennials and iGen, or Generation Z—is demanding that policy makers and government leaders take immediate action to address the dire outcomes predicted by climate science. Those inheriting our planet's environmental problems expect to encounter challenges, but they may not have the skills to grapple with the feelings of powerlessness and despair that may arise when they confront this seemingly intractable situation. Drawing on a decade of experience leading and teaching in college environmental studies programs, Sarah Jaquette Ray has created an "existential tool kit" for the climate generation. Combining insights from psychology, sociology, social movements, mindfulness, and the environmental humanities, Ray explains why and how we need to let go of eco-guilt, resist burnout, and cultivate resilience while advocating for climate justice. A Field Guide to Climate Anxiety is the essential guidebook for the climate generation—and perhaps the rest of us—as we confront the greatest environmental threat of our time.

I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was

proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

From Duty to Delight - Ron Parrish 2012-07

Prayer has an important role in the lives of believers. For some, however, prayer has become a chore almost something to be dreaded than eagerly anticipated. Some people get caught up in the "how much/how often" they pray. But it really is not about how many chapters of the Bible you read or how many minutes a day you pray. It is that you read the Bible and you pray. In *From Duty to Delight: Finding Greater Joy in Daily Prayer*, author Ron Parrish seeks to help you become a person who enjoys spending time in God's presence through prayer someone who finds such joy in devotion that you will lose track of time. *From Duty to Delight* is written for the average person who struggles to set aside time for meaningful, focused interaction with God. If you feel badly about missing your devotions, if you quickly run out of things to say when you try to pray, if you sometimes find prayer boring, or if you have given up on trying to be a man or woman of prayer, *From Duty to Delight* can help you find your way to prayer that is fulfilling and that you can look forward to each day.

A Complicated Legacy - Robert H. Stucky

2014-05-23

If movies and books like *Belle*, *Twelve Years a Slave*, *The Butler*, *The Help*, *A Time to Kill*, and *Amistad* have moved you, you'll love *A Complicated Legacy*, a novel by Baltimore writer Robert H. Stucky based on the true story of Elijah Willis, a white South Carolina planter, and Amy- the love of his life, the mother of his children, and his slave. Taking place in the decade leading up to the Civil War, it is written with a cinematic eye for atmosphere and setting, a linguist's ear for dialogue, and a historian's grasp of the powerful social forces and momentous events of the time. It is a riveting tale of personal transformation in facing the tide of sweeping social change. Elijah Willis fought family opposition, public opinion, and the law to free his family of choice and leave them his entire inheritance. In so doing, his and Amy's story becomes a microcosm of the human struggles that made the Civil War and the Abolition of Slavery both necessary and inevitable. Set in rural South Carolina, Baltimore, and Cincinnati, this vivid saga weaves history and humanity in a compelling testimony to the power of relationships to shape our destinies, even a century and a half later.

Machine Habitus - Massimo Airoidi 2021-12-13

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely - on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

Conflict Without Casualties - Nate Regier 2017-04-24

Make Conflict Your Partner for Positive Change! Clinical psychologist and transformative communication expert Dr. Nate Regier believes that the biggest energy crisis facing our world is the misuse of conflict. Most organizations are terrified of conflict, seeing it as a sign of trouble. But conflict isn't the problem, says Regier. It's all about how we use the energy. When people misuse conflict energy, it becomes drama: they struggle against themselves or each other to feel justified about their negative behavior. The cost to companies, teams, and relationships is staggering. The alternative, says Regier, is compassionate accountability: struggling with others through conflict. Discover the Compassion Cycle, an elegant model for balancing empathy, care, and transparency with boundaries, goals, and standards. Provocative, illuminating, and highly practical, this book helps us avoid the casualties of conflict through openness, resourcefulness, and persistence.

Re-Invent Yourself! - Cheryl Garrison 2016-08-12 Cheryl Garrison wrote Re-Invent Yourself after meeting numerous women over 50 who were struggling with the reality of growing older. Career change (including downsizing or layoff), empty nest syndrome, failed retirement, failed business, failed relationships and a lack of confidence in the future are just some of the issues facing women over 50. Cheryl begins the book sharing with the reader her personal journey from a "bold and fearless" 20-year-old to a 50something woman who has been defeated by life-altering changes. Re-Invent Yourself is a working guide that chronicles the steps Cheryl took to re-vitalize her life. Why do we stop dreaming after 50something? Why do we think

we are too old to start a business or run a marathon? This book answers these questions and then provides resources to help women live out their dreams and aspirations. The book is filled with personal experiences and is divided into 5 chapters, each designed to move the reader closer to creating a Re-Invention Plan which is the objective of the book. Know Yourself - Helps the reader answer the question, "Who are You?" and "What do you Want?." Cheryl believes that at the core of many of the problems women over 50 have is a lack of true identify or an identity that has been lost in the years of giving to others and spending very little time taking care of ourselves. The exercises in this chapter lead women through an assessment of their self-esteem right now and gives techniques for helping them find their true identity. Women completing this chapter will also be able to take a hard look at what they are currently accomplishing in their personal and professional life and begin the process of identifying what they desire to be and do. Heal Yourself- How do we overcome the beliefs that have kept us from succeeding? Cheryl carries the reader through extensive exercises that will help them identify the thoughts that have kept them standing in "cement blocks" and then break through to a life of accomplishment. Re-Invent Yourself- Readers are given the tools needed to take the wants they have identified as important to them and create a lifestyle plan for re-invention. The plan includes goal creation, identifying timelines, budgeting, and accountability in order to ensure that goals become a reality. The reader will create long-term, short-term and immediate goals that support their overall plan. Commit Yourself - The final part of Cheryl's re-invention plan is for the reader to be committed to change. Without making the commitment and being open to change, nothing will change. This chapter encourages the reader to get a digital calendar and keep track of daily progress. The next important part of change is getting an accountability partner who will make the journey with the reader. Finally, surrounding oneself with positive affirmations is an important part in creating lasting and sustained change. Cheryl's goal for the reader after they have completed the book is to celebrate a new life just as she has done. She went from near depression to now

writing books, creating training programs, coaching and speaking to women over 50 about living a life of passion and purpose.
