**How to Become a Successful Freight Broker** - George A. Stewart

2013-08-01

The world and its economics is more global today than it was 10 years ago. Products and goods are being shipped and received from country to country more than ever before. In this global process one key person that is needed is a Freight Broker and his or her service. Freight Brokerage firms are more in demand now than ever before. My name is George A. Stewart, I am 43 years old, I worked 12 years as a store manager for Burger King Restaurant, a truly dead end job. Just like most jobs in the market today I used to put in plenty of hours that unfortunately, did not translate into money. I understand that everyone has bad days at work; for me it was not an ordinary occasional dissatisfaction but a genuine mismatch. Working for long hours and under constant stress was taking a toll on my health and to make matters worse I was earning \$36,500 per year, which was barely enough to feed myself, my wife and three children. Most of the time, I felt like I was dangling from a cliff. My turning point was the day I met a certain customer in my restaurant who seemed to be doing very well despite the hard economic times the whole country was going through. After a little chitchat, I found out he was a freight broker and that he was earning a decent living while working a few hours. At that point I did not know anything about freight brokerage or that a profession like that even existed. I therefore decided to do some research about it and the more I learned the more my interest grew and within a matter of weeks I was completely hooked up. Before I knew it, I took time off work to begin my training in freight brokerage. After my training, I decided to quit my job at burger king and took up a job as a freight agent working under an established freight broker. My job included looking for new clients, taking orders and matching shippers with carriers. In one year or so I felt that I had enough experience and contacts to start my own firm. I then applied for the required licenses at FMCSA and started small. Starting my own firm was definitely not easy but I found it much better than working at burger king. My first client was a contact I had made from working as a freight agent. After a lot of

hard work I finally started getting more clients, and in 6 months I could finally relax because my business had finally taken off. I was earning around \$120,000 every year, which, I must confess, was really good for starters. Now that I can work for fewer hours per day, my stress level has gone down and health wise, I am on the road to recovery. I can take better care of my family and also spend a lot more time with them. In this book, I outlined every step about How to become a successful Freight Broker that anyone can understand and follow.

**Trucking Business Startup** - John Long 2021-10-23

Are you aware that the trucking industry is a booming business, and in coming years, its earning potential will increase manifold? Do you know that the trucking industry is safe from currency fluctuations because most of the revenue is generated domestically? The trucking industry is certainly a good predictor of the overall economy. Customers begin to ship more goods during the early stages of an economic upswing in anticipation of better business conditions. A drop in trucking demand, on the other hand, could signal the start of a recession. Customers can easily find a different shipper, so providing excellent service is a critical factor. The trucking industry is divided into two categories: truckload and less-than-truckload (LTL). Truckload carriers load a trailer with large amounts of cargo from a single customer, usually for delivery to a single location. LTL drivers load a trailer with small amounts of cargo from various customers, all of whom require different delivery destinations. Initiating an owner-operator trucking company is the right choice for people looking to establish a family business. It is because: - You just need to get a commercial driver's license (CDL) and take a quick course to learn the basics - You can work in this industry for as long as you want - Truckers have the unique advantage of operating independently - Truckers have complete control over their work schedule - Owner-operators are free to choose their clients and can take decisions on their own - Owner-operators generate more revenue than any other business This book covers all topics and terms related to starting a trucking business, such as: - History of Trucks and Trucking Business - Trucking Business Types and how to start it - Marketing Strategy for Owner

Operator Trucking Business - Managing Human Resource and Building Fleet for Trucking Business - The Most Common Reasons Why Trucking Business Fails - The Pros and Cons of a Trucking Business A freight broker is a middleman that connects two businesses by locating, evaluating, and commissioning a motor carrier that transports products for a shipper. Trucking Freight Brokerage Business Start-Up Step by Step Guide to Become a Successful Freight Broker The idea of owning a business crosses everyone's minds from time to time, and I was no different. For the majority, all that really comes along is a fleeting thought that never gets much true consideration. There are many reasons why people are afraid to take the plunge - they do not have access to substantial funds,

they are afraid to lose the security that comes with a steady paycheck, they believe they will have even less time for family and other commitments, and a host of other "I just can't do it" excuses. But the biggest reason that most people never try is simple - they are terrified of failure. I was no different as I mentioned, I have gone through all the phases that most go through before getting into their own business, but being a OTR truck driver, I was gone weeks at a time. I still loved what I was doing, but I had been married now for several years, and we had two children with a third on the way. I missed my family when I was gone, and it was hard on my wife as well. Then that little voice in my head came back and whispered, "Open your own business." This time I was in a position to listen and listen I did. When I look at the faces of my family and know without a doubt that running my own Freight/Trucking Broker Business was the best decision I ever made. I make my own hours, work right from home, and never miss any of those important life moments. There is so much opportunity out there for others just like me. I could work 24 hours a day if I really wanted to. I started off with just myself and my wife in the office, and now the wife is "retired," and we have 22 full-time employees in various positions. Starting out on my own took a lot of guts and was a long and winding path full of trial and error. I wish I had of been able to read a book like this when I was just getting up and running. But you will be the one to benefit because I have already done all of this stuff and now I will share it with you. Do you want to be your own boss? Sit back, put your feet up, and start reading. **Freight Forwarder Business Startup** - Allen McCarthy 2017-02-02

Freight Forwarder Business Startup How to Start, Run & Grow a

Successful Freight Forwarding Business The global freight forwarding market has been seeing a steady growth of around 5% for last four years in a row now. This trend is expected to continue and grow bigger. With all the new trade deals like TPP (Trans-Pacific Partnership), TAP (Trans-Atlantic Partnership) and many other similar trade deals between countries are bringing the whole world into one marketplace. According to Transportation Intelligence, a leading logistics research firm, in 2013 the freight forwarding industry was at 129 Billion, but as of today, it has grown by another 16-20 billion more. This is an industry that in my opinion still in its infancy, with TPP, TAP and many other global trade agreements, the need for such services will grow higher every year. Another rapid growth I see in this business is from all the Amazon FBA(Fulfilled By Amazon) business owners, most of who buy their merchandise from China. Now Amazon never accepts merchandise directly from a foreign country, so each and every piece of merchandise has to come through a freight forwarder/broker. This way the merchandise can get relabeled and shipped to various Amazon warehouses. In This Book You Will Learn: What is a Freight Forwarder What Is Freight Forwarding Business Types of Freight Forwarders Steps To Becoming A Freight Forwarder How to get started How and Where to Get Trained What Courses You Should Take How To Setup Your Business Legal Factors Freight Forwarder Licenses Steps to FMCSA Registration Insurance Requirements Running a Freight Forwarding Business Trading Condition and Limiting Liability How To Promote & Grow Your Business The Elements of Price Quote Links to all forms and applications But one word of caution, please don't think reading this book will be enough to get started as a freight forwarder, it takes some training either on the job (like I did) or formal school or online training to get started in this business. In this book, I shared some of the resources that are available for you to get started. If you are thinking about getting into this business, trust me when I say this, there is not a better time than now to get started. Do your research, get educated, get started. Good luck!

About the Expert Bruce Stimson started his factoring career in 2001, when he founded QLFS, which eventually became the Invoice Trucking Group. Mr. Stimson led the firm through its initial growth and established it as a leading provider to startups and small companies in the New England region. After QLFS, Mr. Stimson launched Trucking Capital LLC to provide services in the USA, Canada and Australia. Under his leadership, Trucking Capital LLC has expanded to offer a number of business finance products and can help companies in most industries. Trucking Capital LLC is one of the few companies that offers micro-factoring (also called small-ticket factoring), which helps early-stage companies with limited revenues.
