Nordic Nutrition Recommendations 2012 - Nordic Council of Ministers 2014-03-06

The Nordic countries have collaborated in setting guidelines for dietary composition and recommended intakes of nutrients for several decades through the joint publication of the Nordic Nutrition Recommendations (NNR). This 5th edition, the NNR 2012, gives Dietary Reference Values (DRVs) for nutrients, and compared with earlier editions more emphasis has been put on evaluating the scientific evidence for the role of food and food patterns contributing to the prevention of the major diet-related chronic diseases. Recommendations on physical activity are included and interaction with physical activity has been taken into account for the individual nutrient recommendations wherever appropriate. A chapter on sustainable food consumption has been added. A Nordic perspective has been accounted for in setting the reference values. The NNR 2012 has used an evidence-based and transparent approach in assessing

associations between nutrients and foods and certain health outcomes. Systematic reviews form the basis for the recommendations of several nutrients and topics, while a less stringent update has been done for others. The systematic reviews and individual chapters have been peer reviewed and the systematic reviews are published in the Food & Nutrition Research journal. The draft chapters were subject to an open public consultation. Recommendations have been changed only when sufficient scientific evidence has evolved since the 4th edition. The primary aim of the NNR 2012 is to present the scientific background of the recommendations and their application. A secondary aim is for the NNR 2012 to function as a basis for the national recommendations that are adopted by the individual

In Defense of Housing - Peter Marcuse 2016-08-16

In every major city in the world there is a housing crisis. How did this happen and what can we do about it? Everyone needs and deserves housing. But today our homes are being transformed into commodities, making the inequalities of the city ever more acute. Profit has become more important than social need. The poor are forced to pay more for worse housing. Communities are faced with the violence of displacement and gentrification. And the benefits of decent housing are only available for those who can afford it. In *Defense of Housing* is the definitive statement on this crisis from leading urban planner Peter Marcuse and sociologist David Madden. They look at the causes and consequences of the housing problem and detail the need for progressive alternatives. The housing crisis cannot be solved by minor policy shifts, they argue. Rather, the housing crisis has deep political and economic roots—and therefore requires a radical response.

Patient Safety and Quality - 2008

"Nurses play a vital role in improving the safety and quality of patient care

-- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- *Patient Safety and Quality: An Evidence-Based Handbook for Nurses*. (AHRQ Publication No. 08-0043)." -- Online AHRQ blurb, <http://www.ahrq.gov/qual/nursesfdbk>.

Behold a Pale Horse - William Cooper 2012-04-11

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's

leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The only man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heroes, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

Zen and the Art of Poker - Larry Phillips 1999-11-01

Inside the intriguing world of poker lies a fascinating exercise in strategy and extreme concentration--many of the same principles that underpin the one-thousand-year-old philosophy of Zen spirituality. Zen and the Art of Poker is the first book to apply Zen theories to America's most popular card game, presenting tips that readers can use to enhance their game. Among the more than one hundred rules that comprise this book, readers will learn to:* Make peace with folding* Use inaction as a weapon* Make patience a central pillar of their strategy* Pick their times of confrontationUsing a concise and spare style, in the tradition of Zen practices and rituals, Zen and the Art of Poker traces a parallel track connecting the two disciplines by giving comments and inspirational examples from the ancient Zen masters to the poker masters of today.

The Happy Body - Jerzy Gregorek 2015-08-16

Easy choices, difficult life. Difficult choices, easy life. There are times when we feel overwhelmed and nothing seems to work. At such times, it is important to avoid feeling discouraged and to tap into whatever power and tools are available to help us achieve the desired breakthrough. This book harnesses the power of the discovery of a series of internal dialogues, to help readers achieve important goals in the realm of health and fitness. This is accomplished first by understanding the tension and interplay between the voices of the Fatalist and the Master within all of us. Readers are then invited to first extend these dialogues into their own lives and subsequently to articulate other key scenarios in their lives that are playing themselves out along similar lines. Ultimately, by importing the critical message into these various scenarios, you enable the voice of the Master within you to triumph. Jerzy Gregorek has been mentoring people for more than 30 years, to help them attain a happy and healthy lifestyle. He is the co-creator, together with his wife Aniela, of The Happy Body Program

Pre-Incident Indicators of Terrorist Incidents - Brent L. Smith
2011-01

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Libertarians on the Prairie - Christine Woodside 2016-09-06

Generations of children have fallen in love with the pioneer saga of the Ingalls family, of Pa and Ma, Laura and her sisters, and their loyal dog, Jack. Laura Ingalls Wilder's Little House books have taught millions of Americans about frontier life, giving inspiration to many and in the process becoming icons of our national identity. Yet few realize that this cherished bestselling series wandered far from the actual history of the Ingalls family and from what Laura herself understood to be central truths about pioneer life. In this groundbreaking narrative of literary detection, Christine Woodside reveals for the first time the full extent of the collaboration between Laura and her daughter, Rose Wilder Lane. Rose hated farming and fled the family homestead as an adolescent, eventually becoming a nationally prominent magazine writer, biographer of Herbert Hoover, and successful novelist, who shared the political values of Ayn Rand and became mentor to Roger Lea MacBride, the second Libertarian presidential candidate. Drawing on original manuscripts and letters, Woodside shows how Rose reshaped her mother's story into a series of heroic tales that rebutted the policies of the New Deal. Their secret collaboration would lead in time to their estrangement. A fascinating look at the relationship between two strong-

willed women, *Libertarians on the Prairie* is also the deconstruction of an American myth. Skyhorse Publishing, along with our Arcade, Good Books, Sports Publishing, and Yucca imprints, is proud to publish a broad range of biographies, autobiographies, and memoirs. Our list includes biographies on well-known historical figures like Benjamin Franklin, Nelson Mandela, and Alexander Graham Bell, as well as villains from history, such as Heinrich Himmler, John Wayne Gacy, and O. J. Simpson. We have also published survivor stories of World War II, memoirs about overcoming adversity, first-hand tales of adventure, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Wind Energy and Wildlife Impacts - Regina Bispo 2019-03-25

This book provides a state-of-art overview of the significant advances in understanding the impacts of wind energy on wildlife. However, many challenges remain regarding planning and policy, assessment of direct and indirect effects on wildlife, methodological approaches, technology development, and mitigation strategies and their effectiveness. The book comprises a selection of the best contributions presented at the 4th Conference on Wind energy and Wildlife impacts, held in Estoril, Portugal, 2017. The contents promote the international cooperation among researchers, developers, regulators and stakeholders that have contributed to building knowledge on this topic.

more liberating than secrecy

Alternative Assets and Cryptocurrencies - Christian Hafner 2019-07-26

Alternative assets such as fine art, wine, or diamonds have become popular investment vehicles in the aftermath of the global financial crisis. Correlation with classical financial markets is typically low, such that diversification benefits arise for portfolio allocation and risk management. Cryptocurrencies share many alternative asset features, but are hampered by high volatility, sluggish commercial acceptance, and regulatory uncertainties. This collection of papers addresses

alternative assets and cryptocurrencies from economic, financial, statistical, and technical points of view. It gives an overview of their current state and explores their properties and prospects using innovative approaches and methodologies.
