*The Enchanted Hour* - Meghan Cox Gurdon 2019-01-15

A Wall Street Journal writer's conversation-changing look at how reading aloud makes adults and children smarter, happier, healthier, more successful and more closely attached, even as technology pulls in the other direction. A miraculous alchemy occurs when one person reads to another, transforming the simple stuff of a book, a voice, and a bit of time into complex and powerful fuel for the heart, brain, and imagination. Grounded in the latest neuroscience and behavioral research, and drawing widely from literature, The Enchanted Hour explains the dazzling cognitive and social-emotional benefits that await children, whatever their class, nationality or family background. But it's not just about bedtime stories for little kids: Reading aloud consoles, uplifts and invigorates at every age, deepening the intellectual lives and emotional well-being of teenagers and adults, too. Meghan Cox Gurdon argues that this ancient practice is a fast-working antidote to the fractured attention spans, atomized families and unfulfilling ephemera of the tech era, helping to replenish what our devices are leaching away. For everyone, reading aloud engages the mind in complex narratives; for children, it's an irreplaceable gift that builds vocabulary, fosters imagination, and kindles a lifelong appreciation of language, stories and pictures. Bringing together the latest scientific research, practical tips, and reading recommendations, The Enchanted Hour will both charm and galvanize, inspiring readers to share this invaluable, life-altering tradition with the people they love most.

***The Philosophy of Childhood*** - Gareth Matthews 1996-10-01

So many questions, such an imagination, endless speculation: the child seems to be a natural philosopher—until the ripe old age of eight or nine, when the spirit of inquiry mysteriously fades. What happened? Was it something we did—or didn't do? Was the child truly the philosophical being he once seemed? Gareth Matthews takes up these concerns in *The Philosophy of Childhood*, a searching account of children's philosophical potential and of childhood as an area of philosophical inquiry. Seeking a philosophy that represents the range and depth of children's inquisitive minds, Matthews explores both how children think and how we, as adults, think about them. Adult preconceptions about the mental life of children tend to discourage a child's philosophical bent, Matthews suggests, and he probes the sources of these limiting assumptions: restrictive notions of maturation and conceptual development; possible lapses in episodic memory; the experience of identity and growth as "successive selves," which separate us from our own childhoods. By exposing the underpinnings of our adult views of childhood, Matthews, a philosopher and longtime advocate of children's rights, clears the way for recognizing the philosophy of childhood as a legitimate field of inquiry. He then conducts us through various influential models for understanding what it is to be a child, from the theory that individual development recapitulates the development of the human species to accounts of moral and cognitive development, including Piaget's revolutionary model. The metaphysics of playdough, the authenticity of children's art, the effects of divorce and intimations of mortality on a child—all have a place in Matthews's rich discussion of the philosophical nature of childhood. His book will prompt us to reconsider the distinctions we make about development and the competencies of mind, and what we lose by denying childhood its full philosophical breadth.

Full of wry humor and deep compassion for our modern vulnerabilities, the stories in *Frog and Toad Are Doing Their Best* perfectly capture the heartwarming authenticity of Lobel's famous amphibian friends while revealing razor-sharp truths about the world we live in today. Through Frog and Toad, we see the anxieties that are woven throughout our everyday existence, from our well-meaning but often-failed attempts at practicing self-care to our struggle to balance the gifts and burdens of technology. Toad ponders a variety of questionable schemes to pay off his credit cards, while Frog spends too much time scrolling through the newsfeed on his phone. But despite their daily frustrations and existential concerns, they know that having a friend to share life's burdens makes even the darkest days brighter.
