*Rites of Passage* - William Golding 1980

Winner of the 1980 Booker Prize Sailing to Australia in the early years of the nineteenth century, Edmund Talbot keeps a journal to amuse his godfather back in England. Full of wit and disdain, he records the mounting tensions on the ancient, sinking warship where officers, sailors, soldiers and emigrants jostle in the cramped spaces below decks. Then a single passenger, the obsequious Reverend Colley, attracts the animosity of the sailors, and in the seclusion of the fo'castle something happens to bring him into a "hell of degradation," where shame is a force deadlier than the sea itself. William Golding's To the Ends of the Earth trilogy is now a BBC/PBS Masterpiece miniseries starring Benedict Cumberbatch, Jared Harris and Sam Neill. To the Ends of the Earth: 1. Rites of Passage 2. Close Quarters 3. Fire Down Below

**Humankind** - Rutger Bregman 2020-06-02

AN INSTANT NEW YORK TIMES BESTSELLER The "lively" (The New Yorker), "convincing" (Forbes), and "riveting pick-me-up we all need right now" (People) that proves humanity thrives in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success as a species. If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic—it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. "The Sapiens of 2020." —The Guardian "Humankind made me see humanity from a fresh perspective." —Yuval Noah Harari, author of the #1 bestseller Sapiens Longlisted for the 2021 Andrew Carnegie Medal for Excellence in Nonfiction One of the Washington Post's 50 Notable Nonfiction Works in 2020

**The Paper Men** - William Golding 2013-11-05

Join an eccentric novelist on the run from his obsessive would-be biographer in this comic farce by the radical Nobel Laureate and author of Lord of the Flies. Why should I conceal the fact that I had found a full

professor of Eng. Lit. rifling my dustbin? Fame, fortune, alcoholism, a failing marriage: for novelist Wilfred Barclay, his final unbearable irritation is his would-be-biographer, the young academic Professor Rick L. Tucker, who is determined to become The Barclay Man. Locked in a lethal relationship, the two men stumble across Europe, shedding wives, self-respect and identities in a game of literary cat and mouse - and the climax of their odyssey, when it comes, is as inevitable as it is unexpected . . . 'A complex literary comedy from an extraordinarily powerful writer, which holds us right through to the end.' Malcolm Bradbury 'Rich as a compost heap . . . It moves you and at times it can shake you.' Melvyn Bragg '[Golding's] splendid comic gift is used to often hilarious effect, running the whole gamut of comedy, from irony to farce . . . Hugely enjoyable.' Daily Telegraph

**Mary's Monster** - Lita Judge 2018-01-30

"Both timely and terrifying." —Gregory Macguire, New York Times—bestselling author of *Wicked Pairing* free verse with over three hundred pages of black-and-white watercolor illustrations, *Mary's Monster* is a unique and stunning biography of Mary Shelley, the pregnant teenage runaway who became one of the greatest authors of all time. Legend is correct that Mary Shelley began penning *Frankenstein* in answer to a dare to write a ghost story. What most people don't know, however, is that the seeds of her novel had been planted long before that night. By age nineteen, she had been disowned by her family, was living in scandal with a married man, and had lost her baby daughter just days after her birth. Mary poured her grief, pain, and passion into the powerful book still revered two hundred years later, and in *Mary's Monster*, author/illustrator Lita Judge has poured her own passion into a gorgeous book that pays tribute to the life of this incredible author. Straphanger - Taras Grescoe 2012-04-24

Taras Grescoe rides the rails all over the world and makes an elegant and impassioned case for the imminent end of car culture and the coming transportation revolution "I am proud to call myself a straphanger," writes Taras Grescoe. The perception of public transportation in America is often unflattering—a squalid last resort for those with one too many drunk-driving charges, too poor to afford insurance, or too decrepit to get behind the wheel of a car. Indeed, a century of auto-centric culture and city planning has left most of the country with public transportation that is underfunded, ill maintained, and ill conceived. But as the demand for petroleum is fast outpacing the world's supply, a revolution in transportation is under way. Grescoe explores the ascendance of the straphangers—the growing number of people who rely on public transportation to go about the business of their daily lives. On a journey that takes him around the world—from New York to Moscow, Paris, Copenhagen, Tokyo, Bogotá, Phoenix, Portland, Vancouver, and Philadelphia—Grescoe profiles public transportation here and abroad, highlighting the people and ideas that may help undo the damage that car-centric planning has done to our cities and create convenient, affordable, and sustainable urban transportation—and better city living—for all.

**The Great Fire** - Jim Murphy 2016-08-30

The Great Fire of 1871 was one of most colossal disasters in American history. Overnight, the flourishing city of Chicago was transformed into a smoldering wasteland. The damage was so profound that few people believed the city could ever rise again. By weaving personal accounts of actual survivors together with the carefully researched history of Chicago and the disaster, Jim Murphy constructs a riveting narrative that recreates the event with drama and immediacy. And finally, he reveals how, even in a time of deepest despair, the human spirit triumphed, as the people of Chicago found the courage and strength to build their city once again.

At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. *The Threat of Pandemic Influenza* - Institute of Medicine 2005-04-09

Public health officials and organizations around the world remain on high alert because of increasing concerns about the prospect of an influenza pandemic, which many experts believe to be inevitable. Moreover, recent problems with the availability and strain-specificity of vaccine for annual flu epidemics in some countries and the rise of pandemic strains of avian flu in disparate geographic regions have alarmed experts about the world's ability to prevent or contain a human pandemic. The workshop summary, *The Threat of Pandemic Influenza: Are We Ready?* addresses these urgent concerns. The report describes what steps the United States and other countries have taken thus far to prepare for the next outbreak of "killer

flu." It also looks at gaps in readiness, including hospitals' inability to absorb a surge of patients and many nations' incapacity to monitor and detect flu outbreaks. The report points to the need for international agreements to share flu vaccine and antiviral stockpiles to ensure that the 88 percent of nations that cannot manufacture or stockpile these products have access to them. It chronicles the toll of the H5N1 strain of avian flu currently circulating among poultry in many parts of Asia, which now accounts for the culling of millions of birds and the death of at least 50 persons. And it compares the costs of preparations with the costs of illness and death that could arise during an outbreak.

[The Robbers Cave Experiment](#) - Muzafer Sherif 2010-03-01

Originally issued in 1954 and updated in 1961 and 1987, this pioneering study of "small group" conflict and cooperation has long been out-of-print. It is now available, in cloth and paper, with a new introduction by Donald Campbell, and a new postscript by O.J. Harvey. In this famous experiment, one of the earliest in inter-group relationships, two dozen twelve-year-old boys in summer camp were formed into two groups, the Rattlers and the Eagles, and induced first to become militantly ethnocentric, then intensely cooperative. Friction and stereotyping were stimulated by a tug-of-war, by frustrations perceived to be caused by the "out" group, and by separation from the others. Harmony was stimulated by close contact between previously hostile groups and by the introduction of goals that neither group could meet alone. The experiment demonstrated that conflict and enmity between groups can be transformed into cooperation and vice versa and that circumstances, goals, and external manipulation can alter behavior. Some have seen the findings of the experiment as having implications for reduction of hostility among racial and ethnic groups and among nations, while recognizing the difficulty of control of larger groups.
