*The Third Rome, 1922-43* - Aristotle Kallis

2014-07-29

What kind of city was the Fascist 'third Rome'?  
Imagined and real, rooted in the past and  
announcing a new, 'revolutionary' future, Fascist  
Rome was imagined both as the ideal city and as

the sacred centre of a universal political religion. Kallis explores this through a journey across the sites, monuments, and buildings of the fascist capital.

**Modern Rome** - Italo Insolera 2019-01-23

After fifty years and fifteen editions and reprints in Italy, this classic, groundbreaking work in the field of historical urban studies is now published in English. A masterful, fluent narrative leads the reader through the last two centuries in the history of the Eternal City, capital of the Papal State, then of the united Italy, first under the monarchy and subsequently the republic.

Rome's chaotic growth and often ineffective urban planning, almost invariably overpowered by building speculation, can find an opportunity for future redemption in a vibrant multicultural society and the enhancement of an unequalled archaeological heritage with the ancient Appian Way as its spine. With respect to the last Italian edition of 2011, the volume is updated, enriched in text, indexes, maps and photographs.

Historians, urban planners, architects, decision makers, university students, and anyone who is interested in one of the world's most intriguing cities will enjoy this book.

*A Renaissance Architecture of Power* -

Mussolini's Rome - B. Painter 2016-01-13

In 1922 the Fascist 'March on Rome' brought Benito Mussolini to power. He promised Italians that his fascist revolution would unite them as never before and make Italy a strong and respected nation internationally. In the next two decades, Mussolini set about rebuilding the city of Rome as the site and symbol of the new fascist Italy. Through an ambitious program of demolition and construction he sought to make Rome a modern capital of a nation and an

empire worthy of Rome's imperial past. Building the new Rome put people to work, 'liberated' ancient monuments, cleared slums, produced new "cities" for education, sports, and cinema, produced wide new streets, and provided the regime with a setting to showcase fascism's dynamism, power, and greatness. Mussolini's Rome thus embodied the movement, the man and the myth that made up fascist Italy.

*The Vatican Necropolises* - Paolo Liverani 2010  
This is the first published summary of the entire complex of the great necropolises of Rome, which were situated on Vatican Hill. The work concerns one of the most extensive, richest, and least-known Roman archaeological phenomena and bears witness to the work of creating an underground museum that has been followed internationally as a model of conservation practice. From the submerged world of the necropolises emerges the funeral 'normality' of the Roman world, from poorer cremations in wooden urns, to sumptuous sarcophagi, to

sepulchres adorned with frescoes and mosaics. One can also observe Egyptian cults influencing the practice of epicurean philosophy. In addition, we can catch a glimpse of the first traces of Christianity, which include the presence of St. Peter the Apostle's tomb.

**Exiles in a Global City** - Clare Lois Carroll  
2017-11-06

*Exiles in a Global City* explores how early modern Irish migrants in Rome represented their cultural identities in relation to world-wide Spanish and Roman institutions and focuses on some sources not previously considered by Irish historians.

*Ss. Vincenzo E Anastasio at Tre Fontane Near Rome* - Joan Barclay Lloyd 2006

The long and fascinating history of the abbey of SS. Vincenzo e Anastasio at Tre Fontane Near Rome reached back into Roman antiquity. An ancient martyrdom marked the spot where the apostle Paul was believed to have been beheaded and three fountains said to have

sprung up as his head hit the ground were places of pilgrimage and monastic habitation. Around 1140 Pope Innocent II invited Bernard of Clairvaux to establish a Cistercian monastery on the site. Its first abbot later became pope as Eugene III, for whom Bernard wrote his Five Books on Consideration advising him how a pope much involved in business could, and must, maintain a contemplative life. Today, following nineteenth-century suppression and refoundation, it is once again a Cistercian abbey. Working with architectural, archaeological, epigraphic and documentary evidence Joan Barclay Lloyd traces the vicissitudes of this historic monastery. As she untangles pious tradition from historical fact she also decodes the architectural influences of Rome and Burgundy, and traces the alterations wrought over centuries of habitation.

*Incunabula* - Lotte Hellinga 1999

This stimulating collection of essays (all hitherto unpublished) is designed to honour the work of

Lotte Hellinga on her retirement from the British Library, where she was for many years Head of the Incunabula Section. Scholars from eight countries range widely over the field of fifteenth-century printed books, writing on such topics as the shape of early type, authorship, ownership, and the building up of collections of incunabula, the binding and decoration of books from the presses of England, the Low Countries, and Italy, the earliest trade in printed books and the vicissitudes of the Gutenberg Bible in the sales rooms. The book is extensively illustrated and contains an appreciation of Dr. Hellinga's career and a list of her publications.

## **CHRONICLE OF THE TWENTY-FOUR GENERALS OF THE ORDER OF FRIARS**

**MINOR** - ARNALD OF SARRANT 2013-09-26

The history of the Order of Friars Minor during the first one and a half centuries of its existence

is maybe the most studied period of the 800 years of Franciscan presence in the Church. The publication of the Sources for the lives of Saint Francis and Saint Clare of Assisi in all the main European languages has been of considerable help to spread the historical knowledge regarding Francis of Assisi and his movement and make it available to the average reader. Among these Sources, the *Chronica XXIV Ministrorum Generalium Ordinis fratrum Minorum* by Arnald of Sarrant merits particular attention. It tells the story of the Franciscan Order from the time of Saint Francis till the beginning of the Western Schism in 1378, and therefore contains valuable information regarding the initial period of Franciscan history. Unfortunately it is not easily available in translation because of its voluminous nature. In fact, it covers a total of 712 pages of the third volume of *Analecta Franciscana*, published by the Franciscan editors of Quaracchi in 1897. Our aim has been that of embarking on the arduous

task of translating this voluminous work of history into English from the original Latin. This translation is the fruit of three years of work, and we are now happy to present it to the general public. Because of its voluminous nature we intend to divide it into 5 sections, four of which cover the 575 pages of text and one the appendixes. The whole 575 page Chronicle is here available in 4 sections covering respectively the following historical periods: (1) Saint Francis and the early Franciscan fraternity; (2) The Generals from brother Elias as vicar (1227) to Saint Bonaventure (1274); (3) The Generals from Jerome of Ascoli (1274) to Michael of Cesena (1328); (4) The Generals from Gerard Eudes (1329) to Leonard of Giffoni (1378). A last section will be the translation of the appendixes. The translation is enriched by footnotes and explanations on the various historical events narrated and on the personages of the Chronicle. Our aim has been simply that of providing a readable translation, without

pretending to be scholars of mediaeval Latin. We hope that the service we are offering at such an enormous cost of time and personal effort will be of benefit both to students of Franciscan history as well as to those who are qualified to correct its inaccuracies, and who we gratefully thank for their eventual advice and corrections

*The Colosseum* - Keith Hopkins 2012-06-01

The history of the Colosseum is, in reality, much stranger than the legend. In this engaging book, we learn the details of how the arena was built and at what cost; we meet the emperors who sometimes fought in gladiatorial games; and we take measure of the audience who reveled in, or opposed, these games. The authors also trace the strange afterlife of the monument.

**The Architecture of Modern Italy** - Terry Kirk 2005-06-02

"Modern Italy" may sound like an oxymoron. For

Western civilization, Italian culture represents the classical past and the continuity of canonical tradition, while modernity is understood in contrary terms of rupture and rapid innovation. Charting the evolution of a culture renowned for its historical past into the 10 modern era challenges our understanding of both the resilience of tradition and the elasticity of modernity. We have a tendency when imagining Italy to look to a rather distant and definitely premodern setting. The ancient forum, medieval cloisters, baroque piazzas, and papal palaces constitute our ideal itinerary of Italian civilization. The Campo of Siena, Saint Peter's, all of Venice and San Gimignano satisfy us with their seemingly unbroken panoramas onto historical moments untouched by time; but elsewhere modern intrusions alter and obstruct the view to the landscapes of our expectations. As seasonal tourist or seasoned historian, we edit the encroachments time and change have wrought on our image of Italy. The learning of

history is always a complex task, one that in the Italian environment is complicated by the changes wrought everywhere over the past 250 years. Culture on the peninsula continues to evolve with characteristic vibrancy. Italy is not a museum. To think of it as such—as a disorganized yet phenomenally rich museum unchanging in its exhibits—is to misunderstand the nature of the Italian cultural condition and the writing of history itself.

*Europäische Musiker in Venedig, Rom und Neapel 1650-1750* - Anne-Madeleine Goulet  
2018-11-07

Der Abschlussband des deutsch-französischen ANR-DFG-Projekts MUSICI widmet sich der Musikermigration im Europa der Frühen Neuzeit mit einem kultur- und musikgeschichtlichen Blick auf Venedig, Rom und Neapel als Reiseziele und Wirkungsorte von Instrumentalisten, Sängern, Komponisten und Instrumentenbauern, die nicht von der italienischen Halbinsel stammten. Im Sinne

einer "histoire croisée" werden Netzwerke, Integrations- und Austauschprozesse aufgedeckt, mit denen fremde Musiker zwischen musikalischem Alltag und herausragenden Festlichkeiten konfrontiert waren. Auf dieser Grundlage wird eine systematische Betrachtung der frühneuzeitlichen Musikermigration sowie eine Untersuchung musikalischer Stile jenseits nationaler Forschungstraditionen möglich.

The Story of the Casino Farnese. Home to Artists in Rome. Ediz. Ampliata - Madeleine Wulffson 2021

**Palazzo dei Convertendi** - Paola Brunori  
2016-02-03T00:00:00+01:00

Il volume propone una selezione di voci che concorrono a tratteggiare la vicenda plurisecolare del palazzo dei Convertendi, dalla sua prima configurazione, plasmata inglobando l'edificio che fu la casa di Raffaello fino alla morte, ripercorrendo poi la demolizione e ricostruzione dell'edificio alla fine degli anni

Trenta del Novecento, fino al restauro attuale, condotto con scrupolo scientifico e attenzione filologica a cura dell'Amministrazione proprietaria. Grazie ai diversi punti di vista presentati si approfondiscono le mutazioni di un ambito urbano che riflettono i più ampi avvenimenti storico-politici che hanno visto la nascita dello Stato della Città del Vaticano e si ricostruiscono i profili delle istituzioni che, nei secoli, hanno dimorato nel palazzo. Il volume apre nuove prospettive di studio e ricerca offrendo, al contempo, spunti di riflessione sul valore dell'architettura come testimone di memorie storiche del nostro passato antico e recente.

*Brokers of Public Trust* - Laurie Nussdorfer  
2009-11-16

This magisterial new work brings fresh insight into the essential functions of early modern Roman society and the development of the modern state.

Forced Baptisms - Marina Caffiero 2012

This book makes use of newly available archival sources to reexamine the Roman Catholic Church's policy, from the sixteenth to nineteenth centuries, of coercing the Jews of Rome into converting to Christianity. Marina Caffiero, one of the first historians permitted access to important archives, sets individual stories of denunciation, betrayal, pleading, and conflict into historical context to highlight the Church's actions and the Jewish response. Caffiero documents the regularity with which Jews were abducted from the Roman ghetto and pressured to accept baptism. She analyzes why some Jewish men, interested in gaining a business advantage, were more inclined to accept conversion than the women. The book exposes the complexity of relations between the papacy and the Jews, revealing the Church not as a monolithic entity, but as a network of competing institutions, and affirming the Roman Jews as active agents of resistance.

**Studies in the Latin Literature and Epigraphy of Italian Fascism** - Han Lamers 2020-06-19

First collected volume dealing with the use of Latin under Fascism This book deals with the use of Latin as a literary and epigraphic language under Italian Fascism (1922-1943). The myth of Rome lay at the heart of Italian Fascist ideology, and the ancient language of Rome, too, played an important role in the regime's cultural politics. This collection deepens our understanding of 'Fascist Latinity', presents a range of previously little-known

material, and opens up a number of new avenues of research. The chapters explore the pivotal role of Latin in constructing a link between ancient Rome and Fascist Italy; the different social and cultural contexts in which Latin texts functioned in the ventennio fascista; and the way in which 'Fascist Latinity' relied on, and manipulated, the 'myth of Rome' of late nineteenth- and early twentieth-century Italy.

**Treasures of a Lost Art** - Pia Palladino 2003

"Treasures of a Lost Art presents 144 leaves, cuttings, and illuminated manuscript fragments from the collection of Robert Lehman (1891-1969), one of the largest and most impressive private holdings of Italian manuscripts assembled after the First World War. Discussed here - with many of them handsomely illustrated in full color - are important examples of the major schools of illumination in southern Italy, Umbria, Tuscany, Emilia, Lombardy, and the Veneto. Previously unpublished, and perhaps even unknown to scholars, are works by some of the foremost Italian painters of the Middle Ages and Renaissance, including a leaf here attributed for the first time to the Sieneese master Duccio di Buoninsegna and cuttings by Stefano da Verona and Cosimo Tura. Lesser-known artists, such as Neri da Rimini, Belbello da Pavia, and Girolamo

da Cremona, once renowned for their beautifully illuminated volumes, are also discussed in full."--  
BOOK JACKET.

**Leonardo, Architect** - Carlo Pedretti 1985

The monumental Mole Vanvitelliana in the harbor of the Adriatic City of Ancona is the spectacular setting for a most original Leonardo exhibition. For the first time Leonardo's presence at Urbino and Pesaro as an architect and general engineer in the service of Cesare Borgia in 1502 is presented in a historical and cultural context that includes every aspect of Leonardos art, science and technology, and also his philosophical outlook. The rarely seen materials, presented here in a fully illustrated catalogue, are also discussed in detail by seven scholars of international repute coordinated by the editor.

**Venice and the Renaissance** - Manfredo Tafuri  
1995-03-27

Pursuing the intersections of Venetian culture from the beginning of the sixteenth century

through the first decades of the seventeenth, Manfredo Tafuri develops a story crowded with characters and full of surprises. He engages the doges Andrea Gritti and Leonardo Dona; architects and artists Sansovino, Serlio, Palladio, and Scamozzi; and scientists Francesco Barozzi and Galileo. He records the battle that was fought for architecture as metaphor for absolute truth and good government, and contrasts these with the myths that inspired them.

1997

18 of the most stately retreats found in Rome and the surrounding countryside, from the Villa Medici to the splendid Villa Farnesina.

**Rome: Continuing Encounters between Past and Present** - Dorigen Caldwell 2016-12-05

Few other cities can compare with Rome's history of continuous habitation, nor with the survival of so many different epochs in its present. This volume explores how the city's past has shaped the way in which Rome has been

built, rebuilt, represented and imagined throughout its history. Bringing together scholars from the disciplines of architectural history, urban studies, art history, archaeology and film studies, this book comprises a series of studies on the evolution of the city of Rome and the ways in which it has represented and reconfigured itself from the medieval period to the present day. Moving from material appropriations such as spolia in the medieval period, through the cartographic representations of the city in the early modern period, to filmic representation in the twentieth century, we encounter very different ways of making sense of the past across Rome's historical spectrum. The broad chronological arrangement of the chapters, and the choice of themes and urban locations examined in each, allows the reader to draw comparisons between historical periods. An imaginative approach to the study of the urban and architectural make-up of Rome, this volume will be valuable not only

for historians of art and architecture, but also for students of cultural history and film studies. **Santa Susanna and San Bernardo Alle Terme** - Anna Maria Affanni 1993

Rome and Irish Catholicism in the Atlantic World, 1622-1908 - Matteo Binasco 2018-10-16

This book builds upon research on the role of Catholicism in creating and strengthening a global Irish identity, complementing existing scholarship by adding a 'Roman perspective'. It assesses the direct agency of the Holy See, its role in the Irish collective imagination, and the extent and limitations of Irish influence over the Holy See's policies and decisions. Revealing the centrality of the Holy See in the development of a series of missionary connections across the Atlantic world and Rome, the chapters in this collection consider the formation, causes and consequences of these networks both in Ireland and abroad. The book offers a long durée perspective, covering both the early modern and

modern periods, to show how Irish Catholicism expanded across continental Europe and over the Atlantic across three centuries. It also offers new insights into the history of Irish migration, exploring the position of the Irish Catholic clergy in Atlantic communities of Irish migrants.

VIA ALESSANDRINA E LA SPINA DEI BORGHI

Roma, Architettura del Concordato. Da scritti del 1979-2016. - Valter Vannelli 2017-01-30

Via Alessandrina e la Spina dei Borghi, da Gregorio XI (trasferimento della Santa Sede dal Laterano al Vaticano, 1377) a Innocenzo X; e da Alessandro VII e Gian Lorenzo Bernini a Pio XII e Marcello Piacentini. Letture, analisi, proposte operative. ... La via Alessandrina è la prima strada moderna di Roma, la stessa che dal Giubileo del 1500 avvia il processo di formazione della città sistina; un sistema che in un unico modello mentale abbraccia e connette da S. Pietro tutta la città e che, a conclusione di quel processo, per volontà di Sisto V, in una sintesi virtuale della via Papalis, dalla sommità

dell'obelisco Laterano con il rettilineo di S. Giovanni traguarda su unica retta il Colosseo, il Foro Romano, il Campidoglio e, oltre il quartiere Rinascimento - arcana combinazione di un sapere esoterico che sposa le tracce della città antica con il disegno di una rinnovata capitale - l'obelisco Vaticano.

The Pope's Men - Peter Partner 1990

This study of the Papal bureaucracy, at a time when the Pope was a powerful European ruler and his officials included many brilliant humanist scholars, examines the patronage network through which the system was manipulated and the struggle for control of it among the great Italian families.

A study of conversion and its implications during the English Reformation.

**Jewish Women in the Early Italian Women's Movement, 1861-1945** - Ruth Nattermann  
2022-06-30

This book is the first epoch-spanning study on Jewish participation in the Italian women's movement, focussing in a transnational perspective on the experience of Italian-Jewish protagonists in Liberal Italy, during the First World War and the Fascist dictatorship until 1945. Drawing on ego-documents, contemporary journals and Jewish community archives, as well as records by the police and public authorities, it examines the tensions within the emancipation process between participation and exclusion. The book argues that the racial laws from 1938 did not represent the sudden end of an idyllic integration, but rather the climax of a long-term development. Social marginalization, the persecution of Jewish rights, and the assault on Jewish lives during fascism are analysed distinctly from the perspective of Jewish women. In spite of their significant influence on the transnational orientation of the Italian women's movement, their emancipation as women and Jews remained incomplete.

**Raphael** - Hugo Chapman 2004

A catalog of the Italian Renaissance painter's work includes more than one hundred paintings and drawing, with textual entries for each, an account of the artist's life and work, and brief essays on his fresco painting in the Vatican and his work in Briti

*Venice's Hidden Enemies* - John Martin  
1993-07-27

How could early modern Venice, a city renowned for its political freedom and social harmony, also have become a center of religious dissent and inquisitorial repression? To answer this question, John Martin develops an innovative approach that deftly connects social and cultural history. The result is a profoundly important contribution to Renaissance and Reformation studies. Martin offers a vivid re-creation of the social and cultural worlds of the Venetian heretics—those men and women who articulated their hopes for religious and political reform and whose ideologies ranged from evangelical to

anabaptist and even millenarian positions. In exploring the connections between religious beliefs and social experience, he weaves a rich

tapestry of Renaissance urban life that is sure to intrigue all those involved in anthropological, religious, and historical studies—students and scholars alike.
