Outstanding Academic Title, Choice Honorable

Professional and Scholarly Publishing division of  
the Association of American Publishers Richard  
A. Goldthwaite, a leading economic historian of  
the Italian Renaissance, has spent his career  
studying the Florentine economy. In this  
magisterial work, Goldthwaite brings together a  
lifetime of research and insight on the subject,

clarifying and explaining the complex workings of Florence's commercial, banking, and artisan sectors. Florence was one of the most industrialized cities in medieval Europe, thanks to its thriving textile industries. The importation of raw materials and the exportation of finished cloth necessitated the creation of commercial and banking practices that extended far beyond Florence's boundaries. Part I situates Florence within this wider international context and describes the commercial and banking networks through which the city's merchant-bankers operated. Part II focuses on the urban economy of Florence itself, including various industries, merchants, artisans, and investors. It also evaluates the role of government in the economy, the relationship of the urban economy to the region, and the distribution of wealth throughout the society. While political, social, and cultural histories of Florence abound, none focuses solely on the economic history of the city. The Economy of Renaissance Florence

offers both a systematic description of the city's major economic activities and a comprehensive overview of its economic development from the late Middle Ages through the Renaissance to 1600.

**Dante in Context** - Zygmunt G. Barański  
2015-09-29

In the past seven centuries Dante has become world renowned, with his works translated into multiple languages and read by people of all ages and cultural backgrounds. This volume brings together interdisciplinary essays by leading, international scholars to provide a comprehensive account of the historical, cultural and intellectual context in which Dante lived and worked: from the economic, social and political scene to the feel of daily life; from education and religion to the administration of justice; from medicine to philosophy and science; from classical antiquity to popular culture; and from the dramatic transformation of urban spaces to the explosion of visual arts and music. This book,

while locating Dante in relation to each of these topics, offers readers a clear and reliable idea of what life was like for Dante as an outstanding poet and intellectual in the Italy of the late Middle Ages.

**Borges at Eighty: Conversations** - Jorge Luis Borges 2013-06-26

A collection of interviews now available from New Directions for the first time The words of a genius: Borges at Eighty transcends our expectations of ordinary conversation. In these interviews with Barnstone, Dick Cavett, and Alastair Reid, Borges touches on favorite writers (Whitman, Poe, Emerson) and familiar themes — labyrinths, mystic experiences, and death — and always with great, throw-away humor. For example, discussing nightmares, he concludes, “When I wake up, I wake to something worse. It’s the astonishment of being myself.”

**At Memory's Edge** - James Edward Young 2000-01-01

How should Germany commemorate the mass murder of Jews once committed in its name? In 1997, James E. Young was invited to join a German commission appointed to find an

appropriate design for a national memorial in Berlin to the European Jews killed in World War II. As the only foreigner and only Jew on the panel, Young gained a unique perspective on Germany's fraught efforts to memorialize the Holocaust. In this book, he tells for the first time the inside story of Germany's national Holocaust memorial and his own role in it. In exploring Germany's memorial crisis, Young also asks the more general question of how a generation of contemporary artists can remember an event like the Holocaust, which it never knew directly. Young examines the works of a number of vanguard artists in America and Europe--including Art Spiegelman, Shimon Attie, David Levinthal, and Rachel Whiteread--all born after the Holocaust but indelibly shaped by its memory as passed down through memoirs, film, photographs, and museums. In the context of the moral and aesthetic questions raised by these avant-garde projects, Young offers fascinating insights into the controversy surrounding

Berlin's newly opened Jewish museum, designed by Daniel Libeskind, as well as Germany's soon-to-be-built national Holocaust memorial, designed by Peter Eisenman. Illustrated with striking images in color and black-and-white, *At Memory's Edge* is the first book in any language to chronicle these projects and to show how we remember the Holocaust in the after-images of its history.

**Orestes and Other Plays** - Euripides

2006-02-23

Written during the long battles with Sparta that were to ultimately destroy ancient Athens, these six plays by Euripides brilliantly utilize traditional legends to illustrate the futility of war. *The Children of Heracles* holds a mirror up to contemporary Athens, while *Andromache* considers the position of women in Greek wartime society. In *The Suppliant Women*, the difference between just and unjust battle is explored, while *Phoenician Women* describes the brutal rivalry of the sons of King Oedipus, and

the compelling Orestes depicts guilt caused by vengeful murder. Finally, Iphigenia in Aulis, Euripides' last play, contemplates religious sacrifice and the insanity of war. Together, the plays offer a moral and political statement that is at once unique to the ancient world, and prophetically relevant to our own.

The Making of Textual Culture - Martin Irvine  
2006-11-02

This is the first major study of the cultural role of grammatica, the central discipline concerned with literacy, language, and literature in early medieval society. Martin Irvine draws together several aspects of medieval culture--literary theory, the nature of literacy, education, Biblical interpretation, linguistic thought--in order to reveal the more far-reaching social effects of grammatica in medieval culture. The book is based on new and previously neglected sources, many of which have been edited from medieval manuscripts for the first time.

*The Social History of Art* - Arnold Hauser 1999

ABC - Ivan Illich 1988

An intense examination of the effects of technology on literacy and language. The authors argue that there is a phenomenon transforming modern culture--language is becoming part of a technology of "information systems" with an emphasis on control, rather than human exchange. As a result, all language is becoming debased.

**Knaben** - Sigmund Freud 2018-04-05

Aus dem Buch: "Wir wollen zur Ehrenrettung unseres kleinen Hans ein Weiteres tun. Er benimmt sich eigentlich nicht schlechter als ein Philosoph der Wundtschen Schule. Für einen solchen ist das Bewußtsein der nie fehlende

Charakter des Seelischen, wie für Hans der Wiwimacher das unentbehrliche Kennzeichen alles Lebenden. Stößt der Philosoph nun auf seelische Vorgänge, die man erschließen muß, an denen aber wirklich nichts von Bewußtsein wahrzunehmen ist - man weiß nämlich nichts von ihnen und kann doch nicht umhin, sie zu erschließen -, so sagt er nicht etwa, dies seien unbewußte seelische Vorgänge, sondern er heißt sie dunkelbewußte." Sigmund Freud (1856-1939) war ein österreichischer Neurologe, Tiefenpsychologe, Kulturtheoretiker und Religionskritiker. Er war der Begründer der Psychoanalyse und gilt als einer der einflussreichsten Denker des 20. Jahrhunderts. Seine Theorien und Methoden werden bis heute diskutiert und angewendet.

The Book of Memory - Mary J. Carruthers  
1992-05-14

The Book of Memory is a magisterial and beautifully illustrated account of the workings and function of memory in medieval society. Memory was the psychological faculty valued above all others in the period stretching from late antiquity through the Renaissance. The prominence given to memory has profound implications for the contemporary understanding of all creative activity, and the social role of

literature and art. Drawing on a range of fascinating examples from Dante, Chaucer, and Aquinas to the symbolism of illuminated manuscripts, this unusually wide-ranging book offers new insights into the medieval world.

**From Literacy to Literature: England,**

**1300-1400** - Christopher Cannon 2016-10-06

The first lessons we learn in school can stay with us all our lives, but this was nowhere more true than in the last decades of the fourteenth century when grammar-school students were not only learning to read and write, but understanding, for the first time, that their mother tongue, English, was grammatical. The efflorescence of Ricardian poetry was not a direct result of this change, but it was everywhere shaped by it. This book

characterizes this close connection between literacy training and literature, as it is manifest in the fine and ambitious poetry by Gower, Langland and Chaucer, at this transitional moment. This is also a book about the way medieval training in grammar (or grammatica) shaped the poetic arts in the Middle Ages fully as much as rhetorical training. It answers the curious question of what language was used to teach Latin grammar to the illiterate. It reveals, for the first time, what the surviving schoolbooks from the period actually contain. It describes what form a 'grammar school' took in a period from which no school buildings or detailed descriptions survive. And it scrutinizes the processes of elementary learning with sufficient care to show that, for the grown medieval schoolboy, well-learned books functioned, not only as a touchstone for wisdom, but as a knowledge so personal and familiar that it was equivalent to what we would now call 'experience'.

*Renaissance Transactions* - Valeria Finucci 1999  
Edited collection discusses the first historically important debate on what constitutes modern literature, which focused on two 16th century works: ORLANDO FURIOSO and GERUSALEMME LIBERATA.

Dante and the Making of a Modern Author - Albert Russell Ascoli 2008-03-13

Leading scholar Albert Russell Ascoli traces the metamorphosis of Dante Alighieri - minor Florentine aristocrat, political activist and exile, amateur philosopher and theologian, and daring experimental poet - into Dante, author of the Divine Comedy and perhaps the most self-consciously 'authoritative' cultural figure in the Western canon. The text offers a comprehensive introduction to Dante's evolving, transformative relationship to medieval ideas of authorship and authority from the early Vita Nuova through the unfinished treatises, The Banquet and On Vernacular Eloquence, to the works of his maturity, Monarchy and the Divine Comedy.

Ascoli reveals how Dante anticipates modern notions of personalized, creative authorship and the phenomenon of 'Renaissance self-fashioning'. Unusually, the book examines Dante's career as a whole offering an important point of access not only to the Dantean oeuvre, but also to the history and theory of authorship in the larger Italian and European tradition.

*In the Vineyard of the Text* - Ivan Illich  
1996-06-15

In a work with profound implications for the  
electronic age, Ivan Illich explores how  
revolutions in technology affect the way we read  
and understand text. Examining the Didascalicon  
of Hugh of St. Victor, Illich celebrates the  
culture of the book from the twelfth century to  
the present. Hugh's work, at once an  
encyclopedia and guide to the art of reading,  
reveals a twelfth-century revolution as sweeping  
as that brought about by the invention of the

printing press and equal in magnitude only to  
the changes of the computer age—the transition  
from reading as a vocal activity done in the  
monastery to reading as a predominantly silent  
activity performed by and for individuals.

History - Elsa Morante 2015-02-24

History was written nearly thirty years after Elsa  
Morante and Alberto Moravia spent a year in  
hiding among remote farming villages in the  
mountains south of Rome. There she witnessed  
the full impact of the war and first formed the  
ambition to write an account of what history -  
the great political events driven by men of  
power, wealth, and ambition - does when it  
reaches the realm of ordinary people struggling  
for life and bread. The central character in this  
powerful and unforgiving novel is Ida Mancuso,  
a schoolteacher whose husband has died and  
whose feckless teenage son treats the war as his  
playground. A German soldier on his way to  
North Africa rapes her, falls in love with her, and  
leaves her pregnant with a boy whose survival

becomes Ida's passion. Around these two other characters come and go, each caught up by the war which is like a river in flood. We catch glimpses of bombing raids, street crimes, a cattle car from which human cries emerge, an Italian soldier succumbing to frostbite on the Russian front, the dumb endurance of peasants who have lived their whole lives with nothing and now must get by with less than nothing.

**A Moral Art** - Paul F. Gehl 2019-05-15

Focusing on one distinctive element of the early Renaissance reading public—boys who studied Latin grammar in Florence—Paul F. Gehl sheds new light on the history of schooling in the West. Far from advancing the cause of humanism, he shows, the elementary grammar masters of fourteenth-century Florence worked against it in

the name of morality.

**The Institute** - Stephen King 2019-09-10

From #1 New York Times bestselling author Stephen King whose “storytelling transcends genre” (Newsday) comes “another winner: creepy and touching and horrifyingly believable” (The Boston Globe) about a group of kids confronting evil. In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis’s parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there’s no window. And outside his door are other doors, behind which are other kids with special talents—telekinesis and telepathy—who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and ten-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, “like the roach motel,” Kalisha says. “You check in, but you don’t check out.” In this most sinister

of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from the Institute. As psychically terrifying as Firestarter, and with the spectacular kid power of It, The Institute is "first-rate entertainment that has something important to say. We all need to listen" (The Washington Post).

*Anna and Tranquillo* - Kenneth Stow 2016-10-25

A historical interpretation of the diary of an eighteenth-century Jewish woman who resisted the efforts of the papal authorities to force her religious conversion After being seized by the papal police in Rome in May 1749, Anna del

Monte, a Jew, kept a diary detailing her captors' efforts over the next thirteen days to force her conversion to Catholicism. Anna's powerful chronicle of her ordeal at the hands of authorities of the Roman Catholic Church, originally circulated by her brother Tranquillo in 1793, receives its first English-language translation along with an insightful interpretation by Kenneth Stow of the incident's legal and historical significance. Stow's analysis of Anna's dramatic story of prejudice, injustice, resistance, and survival during her two-week imprisonment in the Roman House of Converts—and her brother's later efforts to protest state-sanctioned, religion-based abuses—provides a detailed view of the separate forces on either side of the struggle between religious and civil law in the years just prior to the massive political and social upheavals in America and Europe.
