The blockchain is widely heralded as the new internet - another dimension in an ever-faster, ever-more-powerful interlocking of ideas, actions and values. Principally the blockchain is a ledger distributed across a large array of machines that enables digital ownership and exchange without a central administering body. Within the arts it has profound implications as both a means of organising and distributing material, and as a new subject and medium for artistic exploration. This landmark publication will bring together a diverse array of artists and researchers engaged with the blockchain, unpacking, critiquing and marking the arrival of it on the cultural landscape for a broad readership across the arts and humanities. ### **Pop Art Design** - Mateo Kries 2012

Pop Art is widely regarded as the most significant artistic movement since 1945. Reflecting on the cult of celebrity, commodity fetishism and media reproduction that permeated everyday life in the postwar era, Pop Art continues to shape our society's cultural self-understanding to this day. A central characteristic of Pop Art was the dialogue between design and art, which is now being explored in 'Pop Art Design' at the Vitra Design Museum as the first-ever comprehensive exhibition on the topic. Works by such artists as Andy Warhol, Claes

Oldenburg, Roy Lichtenstein or Judy Chicago are paired with design objects by Charles Eames, George Nelson, Achille Castiglioni and Ettore Sottsass. The exhibition is supplemented with a multitude of further exhibits, such as album covers, magazines, films and photos of contemporary interiors.0Exhibition: Vitra Design Museum, Weil am Rhein, Germany (13.10.2012-3.2.2013).

Rafael Schacter 2018-06  
For fifty years, graffiti and street art have been challenging conventions and stimulating debate around our perceptions of what constitutes art. As the genre enters its sixth decade, this groundbreaking book presents a new interpretation of where street art and graffiti are situated today. Introducing the concept of 'Intermural Art' - art in between the walls - Rafael Schacter presents a genre at a key moment of transition. While many street and graffiti artists are still challenging the orthodoxies of the public

sphere, an increasingly large group are reshaping the field by no longer furtively entering the institution, no longer slavishly reproducing exterior works inside, but instead attempting to merge out and in to create a form that articulates graffiti, street and contemporary-art influences. Through forty profiles of the leading proponents of this new approach from around the globe, Rafael Schacter presents a compelling analysis for 'Intermural Art' while also showcasing some of the boldest work being made currently. *Since You Were Born* - Evan Roth 2014-04  
*Since You Were Born* is a book composed of the chronological history of every website visited on the artist's computer over a three month period beginning with the birth of his daughter Octavia (July 19, 2013). It thus belongs to the genre that once someone called "autobotography" it shows a portion of the artist's life as it is preserved by bots - in this case, the "Chronology" function of the browser. A family album,

a record of personal memories, and a picture of the internet at a given time, Since You Were Born is also an attempt to turn visible the invisible practice of profiling, turning it into a form - both effective and ineffective - of portraiture. Evan Roth is an American artist based in Paris whose work explores the relationship between misuse and empowerment. Roth's work is informed by the misuse of seemingly rigid structures and the effect that philosophies from hacker communities can have when applied to non-digital systems. To find him online, just google ""bad ass mother fucker."

*Obey Giant* - Shepard Fairey  
2005-08-01

Andre the Giant Has a Posse is a street art campaign based on an original design by Frank Shepard Fairey created in 1989 while Fairey was a student at the Rhode Island School of Design (RISD). At the time Fairey declared the campaign to be "an experiment in

phenomenology." Over time the artwork has been reused in a number of ways and has become a world-wide pataphysical movement, following in the footsteps of Ivan Stang's Church of the SubGenius and populist WWII icon Kilroy Was Here. At the same time, Fairey's work has evolved stylistically and semantically into the OBEY Giant campaign. This book displays 10 years of graphic evolution - from the first photocopied "Andre the Giant" sticker that Shepard Fairey made at RISD to the giant billboard posters you see all around the world. A stunning full-colour documentation of Fairey's T`campaign' of postering and stencils It attempts to simultaneously bring the viewer to question propaganda absorption and to encourage a better use of public space.

**Shepard Fairey. 3 decades of dissent. Catalogo della mostra (Roma, 17 settembre-22 novembre 2020). Ediz. italiana e inglese** - 2021-02-23

New works from the famed street artist whose bold designs have defined a generation of political iconography. For the past 30 years, Shepard Fairey has been using art and graphic design as a means of social interrogation. Drawing from graffiti tradition, Fairey employs a distinctive combination of stylized imagery and impactful typography to address a wide range of social and political themes such as anti-violence, racial and gender equality, and environmental protection. Designed specifically for the Gallery of Modern Art in Rome, Italy, this collection presents 30 new works, also placing Fairey's body of work in conversation with the artist's own selections from the contemporary art collection at the Capitoline Superintendency. Through this careful curation, readers are able to appreciate Fairey's ability to hone in on imagery that is both topical and timeless, resulting in pieces that inform the public discourse as much as they are

inspired by it. Los Angeles-based artist Shepard Fairey (born 1970) is considered a protagonist of contemporary street art and street style alike. Many of his designs, such as his 1989 sticker campaign featuring an image of André the Giant and the text "OBEY" or his 2008 portrait of President Obama with the caption "HOPE," are instantly recognizable the world over.

ALTRUDA The year was 1956, and Jamaica's DJs-turned-producers Prince Buster, Clement Sir Coxsone Dodd, and Duke Reid took it upon themselves to develop a sincerely Jamaican style of music that captured the essence of R & B. They ditched the steel drums of calypso for electric guitars and horns. To them it was the new sound of the island, informally known as ska. 03 WEST SIDE STORY PHOTOS BY ELIZABETH PERRIN, STYLING BY PALOMA The pathos and

The Contingent Object of Contemporary Art - Martha Buskirk 2005-02-18

An exploration of transformations in the nature of the art object and artistic authorship in the last four decades. In this book, Martha Buskirk addresses the interesting fact that since the early 1960s, almost anything can and has been called art. Among other practices, contemporary artists have employed mass-produced elements, impermanent materials, and appropriated imagery, have incorporated performance and video, and have created works through instructions carried out by others. Furthermore, works of art that lack traditional signs of authenticity or permanence have been embraced by

institutions long devoted to the original and the permanent. Buskirk begins with questions of authorship raised by minimalists' use of industrial materials and methods, including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists' works. Examining recent examples of appropriation, she finds precedents in pop art and the early twentieth-century readymade and explores the intersection of contemporary artistic copying and the system of copyrights, trademarks, and brand names characteristic of other forms of commodity production. She also investigates the ways that connections between work and context have transformed art and institutional conventions, the impact of new materials on definitions of medium, the role of the document as both primary and secondary object, and the significance of conceptually oriented performance work for the intersection of photography

and the human body in contemporary art. Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s. She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself. She uses her discussion of the readymade and conceptual art to explore broader issues of authorship, reproduction, context, and temporality.
