Hoodoo Justice Magic - Miss Aida 2021-11-01

Hoodoo spellwork and rituals for self-protection and how to get "payback" when you're wronged. Features 129 spells, 32 recipes, and numerous rituals. Historically, Hoodoo was the magic of the disenfranchised, marginalized, and vulnerable. It was born of the need to obtain justice, power, and protection, as these were not typically naturally forthcoming. The ancestors and earliest practitioners of Hoodoo were enslaved

African Americans, followed by their descendants and neighbors. How does one obtain justice if the system is inherently skewed against you? Hoodoo has developed a vast arsenal of justice and payback spells—spells intended to create a balance of power, punish victimizers, and protect victims from further victimization. It also empowers the victimized, so that they are able to rise above their situations, restore self-esteem, and create better, happier lives for themselves. The spells vary from mild to aggressive, depending on the personal level of justification. Hoodoo Justice Magic contains a diverse collection of these spells, as well as an exploration of their ethics. (Are you really justified? And what happens if you're not?) Featuring 129 spells, 32 recipes, and numerous rituals, there are also 27 prayers for people who fear actually performing spellwork. The spells incorporate common household articles, such as salt and spices, as well as candles, tarot cards, and recitation of Psalms. Learn how to protect yourself and avoid trouble by recognizing the signs indicating predatory behavior. (Although several spells incorporate specific tarot cards, no previous knowledge or experience of them is required, as they are used as materials or objects that radiate magic power.)

How to Write Your Own Spells for Any Purpose and Make Them Work - Sophia DiGregorio
2013-07-13

Have you ever had trouble finding the right spell? Have you ever found a spell that suits your purpose, but couldn't carry it out because of impossible instructions or hard-to-find ingredients? Have you ever wanted to put more power behind the spells you cast? If you can say, "Yes," to any of these questions, then "How to Write Your Own Spells for Any Purpose and Make Them Work" is the book you've been looking for. Successful spell casting is an important aspect of witchcraft, a practical understanding of which leads to a very self-sufficient walk through life. This book approaches spell crafting as the practical application of the esoteric science behind witchcraft. Being able to write and successfully cast your own spells means you'll never have problems finding a spell that suits your needs, again. While spell books are helpful in many cases, the types of spells are usually limited to popular subjects like love, money and protection when you may have other needs. They often fail to provide a spell for your particular situation and its unique dynamics. Furthermore, many modern spell books try to impose the author's morality upon the reader and may not contain certain types of spells, at all. This book demonstrates the process of learning how to write your own spells and teaches you why certain components are employed in a spell and what their purpose is. It shows that there is far more to spell casting than just going through the motions or wishing for a result. All spells have a far greater chance of success when the spell caster has an complete understanding of what he or she is doing and why. Blindly following a procedure or formula without knowledge or going through the motions without understanding is less likely to lead to a positive result. "How to Write Your Own Spells for Any Purpose and Make Them Work" is both a manual and a workbook that provides lessons followed by questions and answers. The final chapter shows you how to put the information you've learned in the book together to design your own spells for any purpose.

Aboriginal Protection and Its Intermediaries in Britain's Antipodean Colonies - Samuel Furphy 2019-07-10

This collection brings together world-leading and emerging scholars to explore how the concept of "protection" was applied to Indigenous peoples of Britain's antipodean colonies. Tracing evolutions in protection from the 1830s until the end of the nineteenth century, the contributors map the changes and continuities that marked it as an inherently ambivalent mode of colonial practice. In doing so, they consider

the place of different historical actors who were involved in the implementation of protective policy, who served as its intermediaries on the ground, or who responded as its intended "beneficiaries." These included metropolitan and colonial administrators, Protectors or similar agents, government interpreters and church-affiliated missionaries, settlers with economic investments in the politics of conciliation, and the Indigenous peoples who were themselves subjected to colonial policies. Drawing out some of the interventions and encounters lived out in the name of protection, the book examines some of the critical roles it played in the making of colonial relations.

Approximately 1.9 million women are physically assaulted annually in the United States alone. In *Survive the Unthinkable*, Tim Larkin empowers women to understand that surviving a potential attack isn't about being physically bigger, faster, or stronger; it's about knowing how to self-protect, not self-defend. *Survive the Unthinkable* reveals the effective, proven principles behind Target Focus Training, the system Larkin has used to train Navy SEALs, celebrities, and soccer moms. It's a counter-intuitive mind / body approach women can use to protect themselves and their loved ones. Readers learn how to identify the difference between social aggression (which can be avoided) and asocial violence (which is unavoidable), recognize personal behaviors that may jeopardize safety, and target highly specific areas on an attacker's body for a strategic counterattack. Larkin discusses how predators think and teaches women how to spot them, outsmart them, and stop them in their tracks. With principles proven to work regardless of size, strength, or athleticism, Larkin's approach revolutionizes women's perspective on violence and self-protection. Armed with the tools to neutralize any threat, readers will blast through the victim mindset and live freer, safer, more peaceful lives.

You could be the target of a spell or curse and not even know it! All people, witches or not, are susceptible to these attacks. The difference: witches and magicians can do something about it. Now you can too. Protection & Reversal Magick is a complete how-to manual on preventing, defending, and reversing magickal attacks of any kind. You will learn to: Set up early-warning systems. Appease angry spirits through offerings. Perform daily banishings and make amulets that will prevent most attacks. Make magickal “decoys” to absorb attacks against you. Summon guardian spirits or gods for help. Bind, confuse, or expel a persistent enemy who will not leave you be. These techniques aren't just for witches, either, but for ceremonial magicians, rootdoctors, and anyone else who puts magick to a practical use. Like the cunning men and women of old, now you can defend yourself and your loved ones against even the strongest attacks! “This book is not only one of my favorite books on ‘defense against the dark arts’, but is actually one of my favorite books in my whole library.
