La Fillette Triste - Francesco Lupo 2010-11-03

Un nuovo, letale virus sta colpendo gli utenti del peer to peer, ma non si tratta di un virus informatico. Una sindrome misteriosa, legata a un'antica leggenda e a una maledizione, sta mietendo vittime in tutta Europa a causa di un video casalingo distribuito random sul web, nel quale viene filmato l'omicidio di un'adolescente: nottetempo, chiunque

abbia la sventura di osservare il filmato rimane orrendamente paralizzato, ma cosciente, fino al sopraggiungere di una morte lenta e angosciosa. Quando anche a Londra, Mae Ho e Nick Norwood vengono colpiti dal morbo misterioso, l'amico Lalo, con l'aiuto di un professore universitario e di un hacker informatico, si metterà sulle tracce della maledizione che accompagna il video. Una ricerca che lo condurrà lontano e che lo porterà a rischiare la vita pur di trovare la soluzione a questo inspiegabile rompicapo. *La Fillette Triste* è un thriller che unisce archeologia e informatica, azione e divertimento. La soluzione del mistero si dipanerà a poco a poco in un susseguirsi di colpi di scena che lasceranno il lettore con il fiato sospeso, in un intreccio che unisce realtà e fantasia, archeologia, mitologia, psicologia.

Face to Face/Faccia a Faccia - Maria Cristina Cignatta 2014-04-11
The short story writers featured in this brief anthology - all established figures on the Italian literary scene - have been specifically chosen as being representative of the various geographical regions in the Italian peninsula, ranging from Ginzburg, Pavese and Soldati (Piedmont), Colombi Guidotti and Guareschi (Emilia Romagna region), Tozzi (Tuscany), D'Annunzio (Abruzzi region) and Moravia (Lazio region) to Pirandello and Verga (Sicily) and Deledda (Sardinia). Twelve of these literary masters' very best novelle - richly diverse both thematically and stylistically - can be read in the original, unabridged Italian with parallel English translations, accompanied by a brief account of the life and literary achievements of each writer, as well as a few notes on the context in which the narrative was written and some relevant features of theme and content. The novelle themselves, originally published in Italy between 1880 (marking the publication of Verga's *La lupa*) and 1971 (the year of the publication of Soldati's *Una donna comprensiva*), span almost a whole century. Although presented in chronological order of publication - being self-contained racconti - they can be read in any order. All of them lend themselves to the leitmotif of the collection: that of a woman as the central character (D'Annunzio's *Candia*, the Princess in Deledda's fairy-tale, Pirandello's *Mommina*, gnà Pina in Verga's story, etc.). Two of the writers, Grazia Deledda and Natalia Ginzburg, are

themselves women writing about women. The anthology, on the one hand, offers readers the opportunity to savour a few delights of Italian literature and culture, and, on the other, promotes effective language learning through a wide spectrum of language and styles. While remaining faithful to the originals, the translations lay emphasis on readability and fluency, thus making their perusal a pleasurable experience in itself. In addition, the stories in this collection will certainly stimulate further interest in Italian literature.

Middle Eastern Themes - Jacob M. Landau 2015-07-24

This volume, first published in 1973, brings together a wide range of Professor Landau's work on recent Middle Eastern history and politics, reflecting the breadth of the author's concern and research. The first section deals with aspects of political organisation in the Middle East, largely Egypt, towards the end of the nineteenth century. A little-known plan of the Islamic reformer al-Afghani is discussed, showing him in a rather more political light than the religious haze which normally surrounds this pan-Islamic campaigner. The role of the influential secret societies in modern Egypt is outlined, and the politics behind the fluctuations in the degree of responsibility allowed to Egyptian ministers is examined. This section is concluded by a chapter on two proposals for the establishment of a Jewish homeland in the Sudan in the early days of Zionism, throwing interesting light on the differing aims of early Zionists and alternative historical paths that might have been taken. The second section of the book contains studies on the Jewish situation in nineteenth-century Egypt, focusing on their position within the larger Muslim society and on socio-economic factors, as well as on the career of James Sanua ('Abu Naddara'), an Egyptian Jew who played a prominent part in nationalist agitation. The two final parts of the book turn to recent and contemporary electoral politics in the Middle East, with special attention being paid to the political leadership and voting behaviour of the Arabs in Israel. Other studies deal with elections in Lebanon and Turkey, and the final chapter analyses the militant right-wing elements in the Turkish political spectrum.

L1 Acquisition and L2 Learning - Larisa Avram 2021-11-15

This volume includes fourteen papers on the acquisition of Romance languages, eleven of which were presented at the Romance Turn 9, held in Bucharest in September 2018. The studies offer new insights into central issues in the literature, such as syntactic complexity in both typical and impaired language settings, intervention effects, the acquisition of phenomena which involve both syntactic parameters and an external interface, as well as cross-linguistic interference effects. They present novel longitudinal and experimental data on the first language acquisition and second language learning of French, Italian, European and Brazilian Portuguese, Romanian and Spanish. A unique feature of this volume is the focus on the interaction of language specific properties and of factors which are not specific to the faculty of language in the narrow sense, such as data processing, the nature of the input, discourse structure, computational load, sociolinguistic properties, and the development of Theory of Mind.

Humour in Self-Translation - Margherita Dore 2022-10-15

This book explores an important aspect of human existence: humor in self-translation, a virtually unexplored area of research in Humour Studies and Translation Studies. Of the select group of international scholars contributing to this volume some examine literary texts from different perspectives (sociological, philosophical, or post-colonial) while others explore texts in more extraneous fields such as standup comedy or language learning. This book sheds light on how humour in self-translation induces thoughts on social issues, challenges stereotypes, contributes to recast individuals in novel forms of identity and facilitates reflections on our own sense of humour. This accessible and engaging volume is of interest to advanced students of Humour Studies and Translation Studies.

Typological Studies - Guglielmo Cinque 2014-02-04

In this book, Cinque takes a generative perspective on typological questions relating to word order and to the syntax of relative clauses. In particular, Cinque looks at: the position of the Head vis à vis the relative clause in relation to the position of the verb vis à vis his object; a general cross-linguistic analysis of correlatives; the need to distinguish a sentence-grammar, from a discourse-grammar, type of non-restrictives (with languages differing as to whether they possess both, one, the other, or neither); a selective type of extraction from relative clauses; and a tentative sketch of a more ample work in progress on a unified analysis of externally headed, internally headed, and headless relative clauses.

Agrammatic Aphasia - Lise Menn 1990

This major reference work fills a need long recognized in neurolinguistics: a source for analyzable speech transcripts from agrammatic aphasic patients that provides detailed grammatical descriptions and distributional analyses. This 3-volume set is unique in that it presents narrative speech from carefully selected clinically

comparable patients, speakers of 14 languages, and parallel narratives by normal speakers. For each of the 14 languages there is a case presentation chapter analyzing and discussing the language of agrammatic patients, followed by primary data, which are organized as follows: running text of speech by two patients; interlinear morphemic translations of those texts; running text of speech elicited from two normal control subjects (plus interlinear translations); tables and figures analyzing distributional properties of the patients' speech; results of comprehension tests of the patients; transcriptions of patients' oral reading and writing samples. Neurological information is included with the case presentations, and a short grammatical sketch of each language is added to make the work on all languages accessible even to those who only read English. Language findings are presented for English, Dutch, German, Icelandic, Swedish, French, Italian, Polish, Serbo-Croatian, Hindi, Finnish, Hebrew, Chinese and Japanese. The book is an indispensable reference work for all linguists, psycholinguists and neurolinguists who wish to test their theories against a massive body of data.

Pathologica - 1921

La mia dolce mamma - Angela Bruno

Barren States - Carrie B. Douglass 2020-05-25

The fertility rate has dramatically declined across Europe in recent years. Globally, over sixty-four countries have fallen below generation replacement levels and countries in eastern and southern Europe are registering the lowest birth rates in the history of humanity. Demographers emphasize that these developments could have serious repercussions for society and public policy - from a projected drastic loss of national population numbers to labor shortages and a swelling population of over-65s. Typically, analysts have approached the issue of low fertility quantitatively and from state levels. As a result, most research tends to elide any nuanced understanding of this significant trend. Filling a major gap, this timely book goes well beyond existing studies to investigate how people experience, understand and speak about what is called "low fertility." On the individual level, is there such a thing? How do people understand their choices and the perceived limitations on their lives? What is the meaning of motherhood for women today? How has the definition of "family" changed? What are the

particularities of fertility decline in each country? And, perhaps most importantly, what does this tendency toward fewer births mean to the women and men who ultimately become demographic statistics? Offering new readings and a much deeper understanding of Europe's decline in fertility, this exciting book adds the voices of everyday people to previous state-centered studies. Overturning a number of assumptions, case studies show that having fewer children is often understood positively in Europe as a means to freedom and self-empowerment. Anyone wishing to understand what low fertility means to the people who live it will find this book essential reading.

Fondamenti Di Psicologia Dello Sviluppo - George Butterworth
2012-12-06

Lo scopo della psicologia dello sviluppo è descrivere e spiegare i cambiamenti nel comportamento e nelle attività psicologiche dal periodo prenatale fino alla vecchiaia. Il volume affronta in modo approfondito i principali temi della psicologia dello sviluppo dal periodo prenatale fino alla vecchiaia, esaminandone sia gli aspetti biologici che quelli culturali. Nel testo sono presentate le più importanti teorie dello sviluppo in una prospettiva storica e, in particolare, quelle di Piaget, Vygotskij e Bowlby, che permettono di comprendere gli orientamenti della ricerca contemporanea e forniscono una sintesi moderna rispetto alle radicali posizioni innatiste e ambientaliste. Il testo presenta inoltre recenti ipotesi, sostenute da evidenze sperimentali, che hanno portato a parziali revisioni di queste teorie. Il volume fornisce in tal modo una visione complessiva e aggiornata delle questioni teoriche e metodologiche più rilevanti della psicologia dello sviluppo ed è consigliato per studenti universitari, insegnanti, operatori del settore, genitori e per tutti coloro che sono interessati a questa disciplina. Il curatore di questa edizione ha inoltre apportato integrazioni e adattamenti specifici per il pubblico italiano. A tal fine, sono state anche illustrate recenti ricerche italiane rilevanti per i temi trattati nel testo.

Translation as Criticism - Anna Gadd Colombi 2018-07-27

Themes, places, characters and voices of Elizabeth Jolley's Mr Scobie's Riddle are explored in detail in this monograph, which provides different narratological and translational analyses of the novel, as well as an academic translation into Italian. Considering the challenges and issues posited by a literary work's translation helps to shed light on the original work itself. In this manner, the translation is to be seen as a further analytical instrument to gain insight into the original novel. The purpose of this work is to obtain a deeper understanding of the complicated microcosm created by Jolley in the nursing home of "St Christopher and St Jude": the typically Australian themes of migration, isolation, place and displacement; the Australian culture-specific elements; the ensemble of curious characters and their entertaining voices. This book strives to preserve the above elements in translation as the expression of something Other, a different culture, and to take Italian readers on a

journey to the Australia depicted in Mr Scobie's Riddle so that Jolley's characters' voices can echo in the Italian language.

The Acquisition of Italian - Adriana Belletti 2015-07-15

A major contribution to the study of language acquisition and language development inspired by theoretical linguistics has been made by research on the acquisition of Italian syntax. This book offers an updated overview of results from theory-driven experimental and corpus-based research on the acquisition of Italian in different modes (monolingual, early and late L2, SLI, etc.), as well as exploring possible developments for future research. The book focuses on experimental studies which address research questions generated by linguistic theory, providing a detailed illustration of the fruitful interaction between linguistic theorizing and developmental studies. The authors are leading figures in theoretical linguistics and language acquisition; their own work is featured in the research presented here. Students and advanced researchers will benefit from the systematic review offered by this book and the critical assessment of the field that it provides.

From Madrid to Heaven - William Elihu Palmer 2012-08

This I can say to you, Dear Reader, is a story of love and marriage beyond the wonders that make of life a grand and incomprehensible mystery. Explain if you can, how a young, innocent Catholic girl in Madrid would become the wife of a naive, Protestant American traveler stopping-over in Madrid en route to Tehran, Iran. Explain if you can, how the Bishop of Madrid would condescend to grant a special dispensation for the first mixed Protestant-Catholic wedding to be held in a Catholic

Church in Franco's Spain in 1960. These matters can only be attributed to fate, chance, or the intervention of the Divine Hand. Nevertheless, those days and that adventure were as pure and fresh and exciting as only a youthful romantic can imagine. Those days I would like to hold on to. Those days I would like to tuck away in this book so that I can say: "Look at our days, Dear Reader, days so bright and beautiful that I have kept to show to you so that you can see that we too loved life and treasured the moments that made up our days."
