

Enciclopedia Hacker

Eventually, you will certainly discover a extra experience and carrying out by spending more cash. yet when? attain you take that you require to acquire those every needs like having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to understand even more re the globe, experience, some places, afterward history, amusement, and a lot more?

It is your completely own time to function reviewing habit. in the course of guides you could enjoy now is **Enciclopedia Hacker** below.

Encyclopedia of Cybercrime - Samuel C. McQuade 2009

There are today no more compelling sets of crime and security threats than those encompassed by cybercrime.

Hackers - Gianluigi Fioriglio 2011

Il presente volume è finalizzato al raggiungimento di diversi obiettivi: operare una ricostruzione critica e unitaria del fenomeno degli hackers; superare le concezioni sensazionalistiche e superficiali che lo hanno travisato; analizzarne gli aspetti involutivi ed evolutivi mettendo in luce i profili giuridicamente rilevanti; valutare il contributo degli hackers e della loro etica alla costruzione della società contemporanea; studiare il ruolo della disobbedienza civile e dell'hackivism alla luce della crisi delle moderne democrazie rappresentative e della società globalizzata; delineare alcune possibili prospettive del fenomeno. Una simile indagine, che abbraccia problematiche diverse, ha richiesto una considerazione unitaria ed interdisciplinare dell'hacking. Caratterizzato da un'etica dirompente, è espressione dell'agire di un uomo che vuole essere artefice del proprio destino e che può contribuire anche a migliorare quello altrui grazie alla condivisione delle proprie idee. In una società caratterizzata da molteplici elementi critici, soprattutto in ambito informatico-giuridico, ciò non è tuttavia facile. Gli effetti della rivoluzione tecnologica hanno infatti modificato la società contemporanea rendendo problematica l'attività di legislatori e magistrati, in un mondo in cui i confini tradizionali fra gli stati sono sempre più labili e quelli digitali quasi inesistenti; in esso sorgono

nuovi soggetti che pretendono di far sentire la propria voce e di esprimere consenso e dissenso non solo nel proprio stato e verso i propri rappresentanti ma anche nella società globale. Tuttavia, l'interazione, a diversi livelli, è spesso virtuale e posta in essere mediante strumenti informatici e reti telematiche, in comunità reali e virtuali (inclusi i siti di social network). Il sensazionalismo che caratterizza nuovi e vecchi media ha tuttavia portato a travisare la figura degli hackers, soggetti ben distinti dai criminali informatici ma ad essi normalmente parificati, nonostante la loro etica sia basata su principi che richiamano quelli democratici. Un recupero di tale etica può assumere una fondamentale importanza nella Società dell'informazione, ove molti fenomeni, sinora legati alla materialità della realtà fattuale, assumono valenze nuove in seguito allo sviluppo delle tecnologie informatiche: basti pensare alla disobbedienza civile elettronica, che può diventare una forma assai efficace di espressione del dissenso. In tale quadro, compiutamente analizzato nel presente volume, gli hackers, oggi più che in passato, possono fornire un prezioso apporto nello sviluppo di una società che cambia forse troppo in fretta e contribuire al rispetto di quei principi di democrazia e libertà troppo spesso proclamati e contestualmente violati.

Encyclopedia of Language & Linguistics - E. K. Brown 2006

The first edition of ELL (1993, Ron Asher, Editor) was hailed as "the field's standard reference work for a generation". Now the all-new second edition matches ELL's comprehensiveness and high quality, expanded for a new generation, while being the first

encyclopedia to really exploit the multimedia potential of linguistics. * The most authoritative, up-to-date, comprehensive, and international reference source in its field * An entirely new work, with new editors, new authors, new topics and newly commissioned articles with a handful of classic articles * The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition * Ground-breaking and International in scope and approach * Alphabetically arranged with extensive cross-referencing * Available in print and online, priced separately. The online version will include updates as subjects develop ELL2 includes: * c. 7,500,000 words * c. 11,000 pages * c. 3,000 articles * c. 1,500 figures: 130 halftones and 150 colour * Supplementary audio, video and text files online * c. 3,500 glossary definitions * c. 39,000 references * Extensive list of commonly used abbreviations * List of languages of the world (including information on no. of speakers, language family, etc.) * Approximately 700 biographical entries (now includes contemporary linguists) * 200 language maps in print and online Also available online via ScienceDirect - featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options and availability visit www.info.sciencedirect.com. The first Encyclopedia to exploit the multimedia potential of linguistics Ground-breaking in scope - wider than any predecessor An invaluable resource for researchers, academics, students and professionals in the fields of: linguistics, anthropology, education, psychology, language acquisition, language pathology, cognitive science, sociology, the law, the media, medicine & computer science. The most authoritative, up-to-date, comprehensive, and international reference source in its field

Violent Python - TJ O'Connor 2012-11-22
Violent Python shows you how to move from a theoretical understanding of offensive computing concepts to a practical implementation. Instead of relying on another attacker's tools, this book will teach you to forge your own weapons using the Python programming language. This book demonstrates

how to write Python scripts to automate large-scale network attacks, extract metadata, and investigate forensic artifacts. It also shows how to write code to intercept and analyze network traffic using Python, craft and spoof wireless frames to attack wireless and Bluetooth devices, and how to data-mine popular social media websites and evade modern anti-virus. Demonstrates how to write Python scripts to automate large-scale network attacks, extract metadata, and investigate forensic artifacts Write code to intercept and analyze network traffic using Python. Craft and spoof wireless frames to attack wireless and Bluetooth devices Data-mine popular social media websites and evade modern anti-virus

The Biographical Dictionary of Women in Science - Marilyn Ogilvie 2003-12-16
Edited by two of the most respected scholars in the field, this milestone reference combines "facts-fronted" fast access to biographical details with highly readable accounts and analyses of nearly 3000 scientists' lives, works, and accomplishments. For all academic and public libraries' science and women's studies collections.

Homeboyz - Alan Lawrence Sitomer 2018-12-04
When Teddy Anderson's little sister Tina is gunned down randomly in a drive-by shooting, the gangstas who rule the streets in the Anderson family's rapidly deteriorating neighborhood dismiss the incident as just another case of RP, RT???wrong place, wrong time. According to gangsta logic, Tina doesn't even count as a statistic. Teddy's family is devastated. Mrs. Anderson sinks into deep depression while Pops struggles to run both the household and his declining laundry business. The Andersons are shocked still further when Teddy is arrested and thrown in prison for attempted homicide after his elaborately laid plans for revenge against his sister's killer are foiled by the cops. Teddy soon finds himself out of prison on house arrest, and in the capable hands of Officer Mariana Diaz, the smart, tough probation officer assigned to oversee his endless hours of community service. As part of the innovative rehabilitation program Diaz runs, Teddy is assigned to tutor Micah, a twelve-year-old orphan and would-be gansta. As Teddy goes through the motions of complying with the terms

of his probation, Diaz has no idea that he is using his genius-level computer hacker skills to plot his final vengeance and to defraud the state education system of hundreds of thousands of dollars. But even though Teddy thinks he knows it all, he fails to see how Micah's desperate need for love and trust just might have the power not only to pierce all Teddy's defenses, but to save his family.

The Ultimate Cigar Book - Richard Carleton Hacker 2015-06-02

First published in 1993, The Ultimate Cigar Book has become a classic in its field, and is generally credited with having helped launch the current cigar smoking craze. It has been reprinted numerous times in the United States, and is now sold worldwide. No other book contains as much detailed and factual information on virtually every facet of cigar making and cigar smoking. And now this trendsetting book has been revised in this fourth edition for the aficionado of the future! Forget 1492. This book starts out in B. C. (Before Columbus) and transports the cigar enthusiast on a fun and fact-filled adventure into virtually every realm of today's popular and growing cigar smoking pastime. Written by one of the most knowledgeable and internationally-celebrated pipe and cigar authors of our time, Richard Carleton Hacker's well-known wit and wisdom will keep the reader enthralled with every turn of the page, as he takes you on an information-packed tour of cigars.

Starting off with a history of cigar smoking, the author then shows us how cigars are made today (handmade, handrolled, and machine made), divulges the secrets of finding the "perfect" cigar, and discusses the ritual of smoking and how to properly care for and store our cigars. From there the book lists a number of innovative cigar accessories, suggests which beers, wines, whiskeys, brandies, and cognacs go with what cigars, enlightens us with a chapter on cigar smoking celebrities, and concludes with the world's first International Compendium of virtually every cigar brand known today, complete with histories and observations on taste, according to the author's HPH (Highly Prejudiced Hacker-Scale) ratings. If that was not enough, there is even a dictionary of CigarSpeak! The Ultimate Cigar Book is the

most comprehensive, factual, and up-to-date book for the cigar smoker or for those who just want to learn more about the fascinating and popular world of cigar smoking.

Enciclopédia de Yoga Da Pensamento - Georg Feuerstein 2005

Hacker Cracker - Ejovi Nuwere 2002-10

Presents the startling, personal story of a young ghetto kid from Brooklyn who became one of the world's foremost computer hackers and then, a security specialist for one of the world's top financial firms. 50,000 first printing.

The Kids Book of Canadian History - Carlotta Hacker 2002

Il libro(game) contro gli altri media.

Un'interpretazione simbolica della saga di Lupo Solitario di Joe Dever - Mario Garzia 2022-01-28

Questo libro, alla sua seconda edizione, è lo spin-off del saggio *Back to the 80s*. L'immaginario degli anni Ottanta nell'era digitale. Tuttavia, è assolutamente possibile leggerlo senza aver letto prima l'altro. Se è nell'immaginario che prendono forma le aspirazioni, i desideri, le speranze, le paure, le fobie, gli incubi degli individui e delle società a cui appartengono - ma anche le loro possibili esorcizzazioni, se non le soluzioni -, allora cosa esprime l'immaginario rappresentato in *Lupo Solitario* negli anni Ottanta? Questo libro tenta principalmente di dare una risposta a questa domanda applicando una chiave di lettura basata sulla competizione del libro con gli altri media.

Growth Hacker Marketing. El futuro del Social Media y la Publicidad - Ryan Holiday 2014-11-20

La forma de trabajar de las start-ups ha conseguido que nos replanteemos, desde cero, cómo hacer marketing. Tienen un secreto, una estrategia llamada Growth Hacking que ha dado lugar a una nueva generación de marcas multimillonarias construidas sin tener que gastar un euro en "marketing tradicional" como Dropbox, Mailbox, Twitter, Facebook, Evernote, Instagram, Mint, AppSumo y StumbleUpon. En esta obra descubriremos la mentalidad del Growth Hacker: "conseguir más con menos". Mezcla de experto en marketing y de programador, sus herramientas son el correo electrónico, los anuncios de pago por clic, y las

API de las plataformas, y solo trabaja con aquello que se puede probar, seguir y escalar. Persiguen poco a poco al usuario y consiguen crecer. Y logran que esos usuarios agreguen a más gente, generando un crecimiento rápido y masivo de tráfico y usuarios, para empezar a dar resultados positivos y beneficios.

Normal Instructor and Teachers World - 1908

Dynamics of Morphological Productivity -

Francesco Gardani 2013-05-30

In Dynamics of Morphological Productivity, Francesco Gardani explores the evolution of the productivity of the noun inflectional classes of Latin and Old Italian, providing a wealth of cleverly organized empirical facts, accompanied by brilliant and groundbreaking analyses.

Enciclopédia 2020 Brasília e o seu 3º

Milênio. - José Adirson de Vasconcelos 2021-05-06

Apesar de ser a Capital mais nova do Mundo, Brasília tem um passado de mais de dois séculos de história para contar. É o que você vai descobrir lendo os livros de Adirson Vasconcelos. É uma História do Distrito Federal e suas satélites contada em detalhes pelo Historiador de Brasília. O ideal de Tiradentes em 1789, a escolha do local da Capital em 1893, a inauguração em 1960 e todos os acontecimentos até os dias de hoje e as perspectivas para o futuro. Uma completa fonte de pesquisa de valor literário para os estudos, trabalhos ou apenas para conhecer melhor, e com riqueza de detalhes, as histórias que deram asas à História de Brasília.

The Encyclopedia of High-tech Crime and Crime-fighting - Michael Newton 2003

The history of crime in American has proven that criminals are often the first to seize upon opportunities presented by new technologies and use them for nefarious purposes. It has also demonstrated that law enforcement groups are quick to respond and use high-tech tools to defend the public safety. This is more true than ever

Enciclopedia Salvat de Ciencias Me(dicas) - 1959

Enciclopédia de Musculação e Força de Stoppani

- Jim Stoppani

Enciclopédia de Musculação e Força de

Stoppani, fonte definitiva para auxiliá-lo a estabelecer e conquistar os resultados que deseja, chega a sua segunda edição. Ao mesmo tempo obra de referência e guia de treinamento abrangente, este livro cobre todas as facetas da otimização do desenvolvimento muscular e de força.

The Wikipedia Revolution - Andrew Lih 2009-03-17

"Imagine a world in which every single person on the planet is given free access to the sum of all human knowledge. That's what we're doing." --Jimmy Wales With more than 2,000,000 individual articles on everything from Aa! (a Japanese pop group) to Zzyzx, California, written by an army of volunteer contributors, Wikipedia is the #8 site on the World Wide Web. Created (and corrected) by anyone with access to a computer, this impressive assemblage of knowledge is growing at an astonishing rate of more than 30,000,000 words a month. Now for the first time, a Wikipedia insider tells the story of how it all happened--from the first glimmer of an idea to the global phenomenon it's become. Andrew Lih has been an administrator (a trusted user who is granted access to technical features) at Wikipedia for more than four years, as well as a regular host of the weekly Wikipedia podcast. In *The Wikipedia Revolution*, he details the site's inception in 2001, its evolution, and its remarkable growth, while also explaining its larger cultural repercussions. Wikipedia is not just a website; it's a global community of contributors who have banded together out of a shared passion for making knowledge free. Featuring a Foreword by Wikipedia founder Jimmy Wales and an Afterword that is itself a Wikipedia creation.

La semplicità dell'Hacking a portata di click - Pierguido Iezzi 2020-04-23

Quante volte durante una normale giornata usiamo Google? Uno strumento semplice, uno strumento che è diventata la nostra quotidianità. Uno strumento che "risponde" a tutte le nostre domande. La cosa interessante è che lo stesso processo può essere usato anche dai Criminal Hacker e dagli Ethical Hacker. Stiamo parlando di Google Hacking, a volte indicato come Google Dork Querying. "La semplicità dell'hacking a portata di click", a firma di Pierguido Iezzi e Paolo Maria Innocenzi, ci racconta queste

tecniche dalla A alla Z: dal come iniziare sino al come difendersi

The Hacker Ethic, and the Spirit of the Information Age - Pekka Himanen 2001

Examines the ethos of the information age as represented by the values of the original computer hackers--enthusiastic programmers who share their work with others in a spirit of openness and cooperation.

Problemática Del Comportamiento Humano En Las Organizaciones: Empresas e Instituciones - Hugo Valdez 2022-05-05

Con frecuencia los trabajadores, y de manera particular los directivos se preguntan ¿por qué no podemos alcanzar las metas? ¿Por qué, se ha hecho costumbre los reclamos de nuestros clientes? ¿Por qué mi jefe nos trata mal? Son preguntas para las que, ellos tienen respuestas muy variadas, pero que nunca aciertan acerca de las verdaderas causas. Estas están vinculadas con la problemática humana en la que están involucrados todos los que trabajan en una empresa privada o institución pública. Las referidas organizaciones exigen que el personal trabaje de manera muy racional, como si fueran máquinas a las que se les programa las funciones y los procesos de trabajo para que logren un servicio o producto. Sin embargo, la actuación del personal está enmarcada dentro de lo ocurrido en su experiencia de vida temprana, la misma que in uye en su conducta actual. Como no conocen mucho sobre el particular no aplican las soluciones más acertadas. Es el mundo inconsciente el que in uye en la actuación y los vínculos que se dan en el trabajo, y que, de una forma u otra, afecta el normal funcionamiento de la organización a la cual pertenecen. Este libro quiere ser una guía para todos los profesionales, de manera que puedan conocer y entender lo que acontece con el personal dentro del ámbito laboral respecto a la problemática humana en la que puedan estar involucrados.

Web 101 - Wendy G. Lehnert 2007

Web 101 continues to include all the tools students need to acquire a foundational understanding of the online resources available today and how to take full advantage of the Web's power. Ideal for an Internet literacy course, Lehnert and Kopec cover the fundamentals of the Internet's most popular

features--communication tools, e-mail, searching, personal safety, and software--with new material on social networking and Web construction and design. Web 101 gives students all the background information and tools they need to become proficient users and savvy content-providers of the Internet.

Enciclopédia da nuvem - Luiz Antunes 2012-03-26

Muito se fala em cloud computing, ou computação em Nuvem, um termo que reúne diversos aplicativos cujos dados e processamento não ficam em um computador específico, mas numa rede de servidores que combinam recursos e disponibilizam informações atualizadas para máquinas remotas de vários tipos, tamanhos e sistemas operacionais; Este livro apresenta ideias, ferramentas e serviços digitais para aumentar a eficiência de empresários, estudantes e gestores de equipes e de informação para os desafios nesse mercado digital e conectado; Curadoria e apresentação de mais de 500 ferramentas e serviços online nas novas tecnologias chamadas de Web 2;0, envolvendo as principais inovações da área (como blogs, twitter, redes sociais, fóruns, wikis, mobilidade, computação em nuvem, games, design, storytelling e privacidade) para atender às principais demandas empresariais (como desenvolvimento profissional, empreendedorismo e carreira, educação continuada, gestão de projetos, administração de tarefas, inteligência competitiva, proposição de valor, inovação, CRM e branding); Com um texto brilhante, Luli Radfahrer oferece aos leitores um material de referência abrangente e amplo, cobrindo diversas áreas e exemplos práticos de atuação, com 100 cases e 500 ferramentas e serviços digitais de eficiência comprovada; É o guia definitivo para maximizar os negócios "em nuvem";

Writer's Internet Sourcebook - Michael Graubart Levin 1997

Features reviews of over five hundred Internet sites for writers, and offers hints on online research, finding freelance work online, marketing strategies, and legal implications

Windows Server Hacks - Mitch Tulloch 2004-03-24

One of the secrets to the ever-increasing

popularity of Windows Server can be found in the simplicity its administration. The easy-to-use GUI, consistent set of tools, and wizards that walk you through complex tasks allow you to install, configure and maintain Windows servers without any knowledge of programming or scripting languages or learning complicated command-line syntax. It's possible, in fact, to accomplish about 90% of all Windows administration without ever opening a command prompt or running a script! But what about the other ten percent of the time? While it's true that most common, day-to-day tasks of Windows administration can be performed from the GUI, it's not always the best way, especially with complex or repetitive tasks. Scripts and command-line tools often provide a faster, more flexible approach. Windows Server Hacks reveals techniques that go well beyond basic management tasks found in most handbooks to help busy system administrators master the more powerful features of Windows Server. Windows Server Hacks focuses on scripts and other tools that will make your life as an administrator much easier. These tools, or hacks--quick and dirty solutions to problems, or clever ways of doing things--were created by other professionals who've also had to struggle to find solutions to administering Windows environments. You'll save valuable time using their scripts, tools, tips, and advice. Plus, you can easily learn to customize the scripts to create even more powerful tools for your own, specific needs. The book includes secrets of the masters in such areas as Active Directory, User Management, Group Policy, DNS and DHCP, File and Print, IIS, performance and security. The hundred, industrial strength hacks in the book range from those that deal with general administration to more esoteric hacks in the areas of network deployment, patch management, and backup and recovery. No matter which Windows server you use--NT, IIS, 2000, or 2003--this book will put the knowledge and expertise of veteran system administrators and hackers to work for you. Windows Server Hacks will make your life easier while expanding your understanding of the capabilities of Windows Server.

Enciclopedia comercial - 1922

Greene's Biographical Encyclopedia of Composers - David Mason Greene 1985

Provides brief descriptions of the lives and careers of more than 2,000 composers ranging from ancient Greece to the twentieth century
Net art 1994-1998. La vicenda di Ada'web - Domenico Quaranta 2004

2008 NOMINEE The Council on Botanical and Horticultural Libraries Annual Award for a Significant Work in Botanical or Horticultural Literature now we have easier and better access to grass data than ever before in human history. That is a marked step forward. Congratulazioni Professor Quattrocchi!-Daniel F. Austin, writing in Economic Botany &

Tras los pasos de un... Hacker - Néstor Marroquín 2010-07-02

Es una obra pedagógica, que combina dos géneros literarios en una simbiosis que hacen de la narrativa la herramienta perfecta para motivar a que los lectores deseen aprender algo de las fascinantes ciencias de la computación. En cada capítulo se desarrolla un tema académico que pretende enseñar desde el punto de vista del autor las bases de la programación de computadoras en el Lenguaje True BASIC. Esta narración de las vivencias del autor, donde sus necesidades hicieron que investigue de forma autodidacta varios temas relacionados con las computadoras y su interés innato de investigador, hicieron que profundice estos conocimientos convirtiéndolo en uno de los más prestigiados técnicos en el sector de las Tecnologías de la Información y Comunicaciones (TIC's) en América Latina y el mundo. Por razones que su destino ha trazado, tuvo la oportunidad de conocer y relacionarse con el fascinante mundo de los Hackers, aquellos técnicos hoy por hoy temidos y estigmatizados como delincuentes o piratas informáticos, mismos que por su nivel de conocimientos, como menciona el mismo autor en el texto, están por encima del bien y del mal. El texto, relata su motivación personal por alcanzar el nivel que tienen estos técnicos y fruto de sus más de 25

años de investigar y aprender el arte de la programación, plasma en un lenguaje fácil de entender y con la didáctica propia de un maestro, explica algunas de las técnicas para desarrollar programas de computadora. Enseña en una forma académica algunos otros temas que aparentemente no tienen nada que ver con las técnicas de programación, pero que en la práctica, el entender perfectamente estos conceptos, afianzan el pensamiento del programador, así como su particular lógica para instrumentar correctamente los algoritmos a fin de resolver una situación particular.

Antiquarian Bookman - 1965

The Biographical Dictionary of Women in Science: L-Z - Marilyn Bailey Ogilvie 2000
Volume 2 of 2.

Teknik Rahasia Keyword Google Pemula -

Internet Security - Kenneth Einar Himma 2007

This collection of papers, articles, and monographs details the ethical landscape as it exists for the distinct areas of Internet and network security, including moral justification of hacker attacks, the ethics behind the freedom of information which contributes to hacking, and the role of the law in policing cyberspace.

The SNES Encyclopedia - Chris Scullion
2020-10-19

Following on from the previously released NES Encyclopedia, The SNES Encyclopedia is the ultimate resource for fans of Nintendo's second home video game console, the Super Nintendo Entertainment System. Containing detailed information on all 780 games released for the SNES in the west, this enormous book is full of screenshots, trivia and charmingly bad jokes. It also includes a bonus section covering the entire 22-game library of the Virtual Boy, Nintendo's ill-fated 3D system which was released at the end of the SNES's life.

Enciclopedia Judaica Castellana - 1948

The Sega Mega Drive & Genesis Encyclopedia -
Chris Scullion 2021-12-08

The third book in Chris Scullion's series of video game encyclopaedias, the Sega Mega Drive and Genesis Encyclopedia is dedicated to Sega's legendary 16-bit video game console. The book contains detailed information on every single game released for the Sega Mega Drive and Genesis in the west, as well as similarly thorough bonus sections covering every game released for its add-ons, the Mega CD and 32X. With nearly a thousand screenshots, generous helpings of bonus trivia and charmingly bad jokes, the Sega Mega Drive and Genesis Encyclopedia is the definitive guide to a legendary gaming system.

Manual de periodismo y verificación de noticias en la era de las fake news - TEIRA SERRANO
David 2021-09-01

El bulo siempre ha existido, pero la difusión global, masiva e instantánea gracias a los entornos digitales es algo novedoso. Contagia a toda la sociedad. Nos coloca ante una pandemia de desinformación que nos reclama prevención y vacuna. Con esa idea -----vacunar contra la información falsa----- nace este manual. A los autores -----profesores de la universidad pública e investigadores de las fake news desde distintas perspectivas----- nos llegaban peticiones de sectores como periodistas o profesores de universidad y de Secundaria que anhelaban un manual con lenguaje claro, con ejercicios didácticos y con ejemplos cercanos que ayudaran a entender el fenómeno, y que pudiera usarse indistintamente en redacciones, facultades e institutos. Y con ese propósito hemos trabajado: abordamos desde qué es una fake news hasta cómo se verifica una noticia; desde cómo el cerebro crea sesgos cognitivos que favorecen la desinformación hasta cómo Wikipedia o Facebook dominan el marco ideológico. Estudiamos la producción, la distribución y la recepción de textos, imágenes y sonidos, porque no sólo se miente con palabras. Y exploramos cómo repercute la desinformación en ámbitos diversos como el auge de los populismos o la salud, sobre todo tras la pandemia del Covid-19.
