Fundamentals of Mathematical Statistics - S.C. Gupta 2020-09-10

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities. Knowledge updating is a never-ending process and so should be the revision of an effective textbook. IFRS 1 First-time Adoption of International Financial Reporting Standards - International Accounting Standards Committee Foundation 2003

Financial Accounting for BBA - S.N. Maheshwari &

Financial Accounting for BBA has been written to meet the requirements of undergraduate students, particularly at the BBA level. This book covers the syllabi of major universities across the country, providing basic knowledge of accounting principles and practices in a systematic manner. The topics have been dealt with in a lucid manner to enable better understanding, especially for those students who do not have an accounting background. The text is examination-oriented and is supplemented with relevant solved illustrations for all the topics.

Corporate Accounting - R.L. Gupta 2021-07-19

The 14th Revised Edition of the book "Corporate Accounting" includes the provision of the Companies Act, 2013, SEBI rules and regulations and Accounting Standards, wherever applicable. The whole book has been updated and corrections made wherever required. Theory and accounting treatment has been revised as per Accounting Standards - 4 (Revised) and Companies (Amendment) Act, 2019. Each aspect of a chapter has been discussed in detail in order to meet the requirements of the syllabus prescribed by different universities and professional institutes. Salient Features of the Book The following features are worth nothing in the present text: • The illustrations and assignment material has been made to conform to the requirements of Schedule III of the Companies Act, 2013. The relevant problems/ solutions has also been revised. • The revised revision of Paragraph 14 of Accounting Standards — 4 concerning Financial Statements regarding Proposed final dividend has been incorporated at relevant pages and the illustrations amended accordingly. • The relevant provisions of Ind AS — 7: Statements of Cash Flows dealing with Bank Overdraft and Proposed Dividend have also been taken care of in this book. • In the chapter of Redemption of Debentures, the treatment of interest on Debenture Redemption Funds Investments or Profit (or Loss) on the sale of DRFI have been also summerised in the chapter. • All chapters have been revised and udapted. Problem of each chapter have been suitably graded and edited to include questions of topical interest. We are confident that the book in its revised form will be more useful for B.Com (Pass and Hons.), M.Com, M.B.A., C.A., I.P.C.E, C.A.(Final), I.C.M.A. (Stage II) and Company Secretaries (Executive Programme) Examinations.

Accounting for Investments, Equities, Futures and Options - R. Venkata Subramani 2011-11-03

The 2008 financial crisis highlighted the need for responsible corporate governance within financial institutions. The key to ensuring that adequate standards are maintained lies with effective accounting and auditing standards. Accounting for Investments: Equities, Futures and Options offers a comprehensive overview of these key financial instruments and their treatment in the accounting sector, with special reference to their regulatory requirements. The book uses the US GAAP requirements as the standard model and the IFRS variants of the same are also given. Accounting for Investments starts from the basics of each financial product and: defines the product analyses the structure of the product evaluates its advantages and disadvantages describes the different events in the trade cycle elaborates on the accounting entries related to these events. The author also explains how the entries are reflected in the general ledger accounts, thus providing a macro level picture for the reader to understand the impact of such accounting. Lucidly written and informative, Accounting for Investments is a comprehensive guide for any professional dealing with these complex products. It also provides an accessible text for technology experts who develop software and support systems for the finance industry.

Leadership, Authority and Representation in British Muslim Communities - Sophie Gilliat-Ray 2021-01-26

The contributions explore Muslim religious leadership in multiple forms and settings. While traditional authority is usually correlated with theology and piety, as in the case of classically trained ulema, the public advocacy of Muslim community concerns is often headed by those with professionalized skillsets and civic experience. In an increasingly digital world, both women and men exercise leadership in novel ways, and sites of authority are refracted from traditional loci, such as mosques and seminaries, to new and unexpected places. This collection provides systematic focus on a topic that has hitherto been given rather diffuse consideration. It complements historical work on community leadership as well as more contemporary discussion on the training and role of Islamic religious authorities. It will be of interest to scholars in Religious Studies, Sociology, Political Science, History, and Islamic Studies.

Financial Accounting - Paul D. Kimmel 2009-08-17

Current Indian Periodicals in English - N. N. Gidwani 1978

Accounting - Robert Newton Anthony 2010

Accounting: Text & Cases, by Anthony, Hawkins, and Merchant covers both financial and managerial accounting as well as broader managerial issues. Chapters 1 -14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that make up most of the end of chapter material are a combination of classic Harvard style cases and extended problems, with 10 completely new cases added to the 13th edition. Accounting: Text and Cases is a product of lifelong dedication to the discipline of accounting, and users of the book benefit from a breadth of experience that is sure to enrich your course and your students.

ACCOUNTING FOR MANAGERS - JELSY JOSEPH KUPPAPALLY 2008-08-08

Decision-making is a pivotal function of any manager. A knowledge of Accounting, insofar as it affects decision-making, is very important for a manager. And very often, students find Accounting as one of the 'tough' subjects to handle. This book strives to make Accounting intelligible and easily comprehensible to students. The text gives a comprehensive coverage of the three branches of Accounting - Financial Accounting, Management Accounting, and Cost Accounting. It focuses on the various methods and techniques followed in the Management Reporting System. The text deals, in detail, with various accounting transaction procedures, methods of costing, ratio analysis, budgeting, forecasting, accounting

errors, funds flow and cash flow statements, trial balance and balance sheet, and so on. It equips the students with the knowledge in the preparation, analysis, evaluation, and interpretation of financial statements, which will enrich their managerial competence and decision-making skills. KEY FEATURES □ Emphasises the various accounting and decision-making techniques. □ Provides a number of problems and their solutions, besides giving notes, working notes, and exercises, to help the students understand the concepts better. This book is intended as a text for the postgraduate students of Management (MBA/MIB), financial courses (MFC), and undergraduate and postgraduate students of Commerce and those pursuing MCA. In addition, the book will be very useful to practising managers who wish to develop effective and result-oriented decision-making skills.

Data Structures and Algorithms in Java - Michael T. Goodrich 2014-01-28

The design and analysis of efficient data structures has long been recognized as a key component of the Computer Science curriculum. Goodrich, Tomassia and Goldwasser's approach to this classic topic is based on the object-oriented paradigm as the framework of choice for the design of data structures. For each ADT presented in the text, the authors provide an associated Java interface. Concrete data structures realizing the ADTs are provided as Java classes implementing the interfaces. The Java code implementing fundamental data structures in this book is organized in a single Java package, net.datastructures. This package forms a coherent library of data structures and algorithms in Java specifically designed for educational purposes in a way that is complimentary with the Java Collections Framework.

Advanced Cost Accounting - K. Senthilkumar, K. Maruthamuthu & Desti Kannaiah

Advanced Cost Accounting presents the subject matter in simple and easy-to-understand language. It includes latest solved questions papers of university examinations. The book will serve the B.Com, B.Com.(CA), M.Com., M.Com.(CA), BBA, BCA And MBA students of Periyar, Thiruvalluvar, Bharathiar,

Principles of Accounting Volume 1 - Financial Accounting - Mitchell Franklin 2019-04-11

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
