The Mom Test - Rob Fitzpatrick 2013-10-09

The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little . As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's

worth doing right . Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

purpose unclear. If her life was no longer dominated by the day-to-day demands of being "Mom," then who exactly was she? And how would she ever move forward? From Mom to Me Again is the story of one woman's reinvention. Shultz's struggle with the empty nest and the transformation of her marriage, friendships, career, and ultimately herself, is part memoir and part self-help guide. Funny, poignant, and practical, this book tells Shultz's personal story and provides valuable advice for readers preparing to send their children off into the world. She shows women that while they'll always be mothers, it's time for them to take center stage in their own lives once again.

Positive Parenting - Jennifer N. Smith 2016-10-18

More and more parents are dealing with children that are out of control, children that are angry and parents do not know how to handle. What studies have found is that this anger that these children are experiencing can be caused from the type of parenting technique that is being used. Most parents begin by using negative discipline which involves spankings or time out, but when they do not see the results that they expect, they are left confused and not understanding what they should do. The answer is positive parenting. Positive parenting is parenting done right. It is a technique that is based on preparing your child for the future and looking for teachable moments in a child's life. This book is going to teach you everything that you need to know about positive parenting so you can start using it today!

Emma Watson's Our Shared Shelf Book Club Pick! The story of Maya Angelou's extraordinary life has been chronicled in her multiple bestselling autobiographies. But now, at last, the legendary author shares the deepest personal story of her life: her relationship with her mother. For the first time, Angelou reveals the triumphs and struggles of being the daughter of Vivian Baxter, an indomitable spirit whose petite size belied her larger-than-life presence—a presence absent

during much of Angelou's early life. When her marriage began to crumble, Vivian famously sent three-year-old Maya and her older brother away from their California home to live with their grandmother in Stamps, Arkansas. The subsequent feelings of abandonment stayed with Angelou for years, but their reunion, a decade later, began a story that has never before been told. In *Mom & Me & Mom*, Angelou dramatizes her years reconciling with the mother she preferred to simply call "Lady," revealing the profound moments that shifted the balance of love and respect between them. Delving into one of her life's most rich, rewarding, and fraught relationships, *Mom & Me & Mom* explores the healing and love that evolved between the two women over the course of their lives, the love that fostered Maya Angelou's rise from immeasurable depths to reach impossible heights.
