William Shakespeare - Terry Eagleton 1991-01-08

This is a bold and original reinterpretation of almost all of Shakespeare's major plays, in the light of the Marxist, feminist and semiotic ideas of our own time. Through a set of tenaciously detailed readings, the book illuminates a number of persistent problems or conflicts in Shakespearean drama - in particular a contradiction between words and things, body and language, which is also explored in terms of law, sexuality and Nature. Language and desire, Terry Eagleton argues, are seen by Shakespeare as a kind of 'surplus' over and above the body, stable and social roles and a fixed human nature. But the attitude of the plays to such a 'surplus' is profoundly ambivalent; if they admire it as the very source of human creativity, they also fear its anarchic, transgressive force. Underlying such ambiguities, the book convincingly shows, is a deeper ideological struggle, between feudal traditionalism on the one hand, and the emergence of new forms of bourgeois individualism on the other. This book reveals how, in the light of our own contemporary

theories of language, sexuality and society, we can understand the issues present in Shakespeare's drama which previously have remained obscure.

In their first edition of Mentor Texts, authors Lynne Dorfman and Rose Cappelli helped teachers across the country make the most of high-quality children's literature in their writing instruction. In Mentor Texts: Teaching Writing Through Children's Literature, K-6, 2nd Edition the authors continue to show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Dorfman and Cappelli offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing--focus, content, organization, style, and conventions. The authors write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

Beyond instilling wonder, Fike's contemporary, place-based approach to landscape photography emphasizes our relationship to the natural world, reveals food sources, and encourages environmental stewardship.
