Ugly Love - Colleen Hoover 2014-08-05

From Colleen Hoover, the #1 New York Times bestselling author of *It Ends With Us*, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

French Ages 5-7 - Collins Easy Learning 2015-12-17

Packed full of activities for children learning French for the first time. Colorful, fun activities will keep them engaged, while help is at hand if French isn't your strong point: there's plenty of support and guidance for parents and teachers. A wealth of information and ideas for using French in context means that you can enjoy using simple French from the very start! Children are encouraged to develop good learning habits for life, and the colorful, motivating activities make learning fun. Useful information and tips are included to help support the child's learning, with additional resources available to access online."

The Ballad of Songbirds and Snakes (A Hunger Games Novel) - Suzanne Collins 2020-05-19

Ambition will fuel him. Competition will drive him. But power has its price. It is the morning of the reaping that will kick off the tenth annual Hunger Games. In the Capitol, eighteen-year-old Coriolanus Snow is preparing for his one shot at glory as a mentor in the Games. The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.

Angus and Sadie - Cynthia Voigt 2012-07-03
Newbery Medalist Cynthia Voigt presents this charming middle grade novel about two border collie puppies growing up on a farm—a brother and sister who couldn't be more different from each other...or so they think. "Voigt's touch with dogs is as deft as it is with humans," raved The Horn Book. Angus and Sadie are siblings, but that doesn't mean they're the same. Angus is black-and-white and bigger. He is a good, brave, and clever dog—and he likes that. Sadie, on the other hand, is red-and-white and small. She isn't as quick to learn—or to obey. Angus thinks she's scared of everything, but Sadie knows that's not true. She's just different. This heartwarming story of two wonderful border collie siblings growing up on a farm in Maine is perfect for young readers who enjoyed Ann M. Martin's *A Dog's Life* and John Grogan's *Marley* books, animal lovers of all ages, and anyone who's ever had—or wondered what it would be like to have—a brother or sister just like themselves, but very, very different.

Development During Middle Childhood - Division of Behavioral and Social Sciences and Education

1984-01-01

For the first time, a report focuses specifically on middle childhood—a discrete, pivotal period of development. In this review of research, experts examine the physical health and cognitive development of 6- to 12-year-old children as well as their surroundings: school and home environment, ecocultural setting, and family and peer relationships.

The Binding - Bridget Collins 2019-04-09

NATIONAL BESTSELLER A NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE Proclaimed as "truly spellbinding," a "great fable" that "functions as transporting romance" by the Guardian, the runaway #1 international bestseller "A rich, gothic entertainment that explores what books have trapped inside them and reminds us of the power of storytelling. Spellbinding." — TRACY CHEVALIER Imagine you could erase grief. Imagine you could remove pain. Imagine you could hide the darkest, most horrifying secret. Forever. Young Emmett Farmer is working in the fields when a strange letter arrives summoning him away from his family. He is to begin an apprenticeship as a Bookbinder—a vocation that arouses fear, superstition, and prejudice amongst their small community, but one neither he nor his parents can afford to refuse. For as long as he can recall, Emmett has been drawn to books, even though they are strictly forbidden. Bookbinding is a sacred calling, Seredith informs her new apprentice, and he is a binder born. Under the

old woman's watchful eye, Emmett learns to hand-craft the elegant leather-bound volumes. Within each one they will capture something unique and extraordinary: a memory. If there's something you want to forget, a binder can help. If there's something you need to erase, they can assist. Within the pages of the books they create, secrets are concealed and the past is locked away. In a vault under his mentor's workshop rows upon rows of books are meticulously stored. But while Seredith is an artisan, there are others of their kind, avaricious and amoral tradesman who use their talents for dark ends—and just as Emmett begins to settle into his new circumstances, he makes an astonishing discovery: one of the books has his name on it. Soon, everything he thought he understood about his life will be dramatically rewritten. An unforgettable novel of enchantment, mystery, memory, and forbidden love, *The Binding* is a beautiful homage to the allure and life-changing power of books—and a reminder to us all that knowledge can be its own kind of magic.

Good to Great - Jim Collins 2011-07-19

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew

discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

Phonics - Louisa Somerville 2008

Coraline - Neil Gaiman 2009-11-02

When a young girl ventures through a hidden door, she finds another life with shocking similarities to her own. Coraline has moved to a new house with her parents and she is fascinated by the fact that their 'house' is in fact only half a house! Divided into flats years before, there is a brick wall behind a door where once there was a corridor. One day it is a corridor again and the intrepid Coraline wanders down it. And so a nightmare-ish mystery begins that takes Coraline into the arms of counterfeit parents and a life that isn't quite right. Can Coraline get out? Can she find her real parents? Will life ever be the same again?
