**Fifty Places to Sail Before You Die** - Chris Santella 2012-11-16

Landlubbers joke that sailors are always wanting to head off to the ends of the earth, but Chris Santella takes that life-changing desire very seriously. In this, the third installment in his immensely successful "Fifty Places" series, Santella assembles a crew of the world's greatest championship racers and professional adventurers and persuades them to disclose their favorite destinations around the globe. Interviewees include some of the best-known men and women in the sport: Tom Whidden and Gary Jobson (members of the winning 1987 America's Cup crew), Jeff Johnstone (of J-Boats), award-winning sailing writer Lin Pardy, and many others. The amazingly diverse places they've selected range from clubby East Coast ports (Marblehead, Annapolis), to idyllic tropical refuges (Ilha Grande, Brazil; the Polynesian atoll of Mopelia), to some of the most hair-raisingly treacherous waters on earth (Cape Horn). Coastlines around the world—even Antarctica and the Arctic—are represented, and the chosen spots include some spectacular inland waters, such as the Bras d'Or Lakes and the North Channel of Lake Huron. For each of the 50 places, the sailor recommending the venue spins an entertaining yarn about his or her experience there, and each description is accompanied by a make you want to go there now photograph.

**Journey to the Ragged Islands** - Paul Trammell 2018-12-12

The Bahamas is a nation with about one thousand islands and cays, many of which are remote and uninhabited. The unique geography of The Bahamas includes shallow banks and coral reefs as well as water over 4000 feet deep. Scattered about the banks are blue holes, vertical caves that often lead down to underwater cave systems. Blue holes are incredible places to freedive. Barrier reefs between the deep ocean and the islands often produce excellent surfing waves. The water is full of wildlife, including hundreds of species of tropical fish, sharks, rays, eels, turtles, and whales. I set out from Jacksonville, Florida, to explore some of the most remote islands in March and April of 2018 sailing alone in Sobrius, my 30' sailboat, a Dufour Arpege. I dove on coral reefs almost every day, as well as five or six blue holes. I surfed three point breaks, and I found much more adventure than I ever expected. I documented the journey in this, my third book, Journey to the Ragged Islands. I also am documenting the journey on my YouTube channel, Paul Trammell, in a series of videos. In addition to dramatic and immersive prose describing the joys and difficulties of the journey, I also include a lot of singlehanded-sailing technique, as well as descriptions of the islands I visited and GPS coordinates of all the places I dropped anchor. Islands I visited include Eleuthera, Cat Island, Long Island, the Jumentos Cays, the Ragged Islands, Rum Cay, Conception Island, and the Exuma Cays. I hope you enjoy the book as much as I enjoyed writing it!

For a period that is commonly presented as a long, drawn out battle between sail and steam, this volume shows how this was not the case and that shipowners, far from seeing the two types as irreconcilable rivals, invested in one or the other according to the usual commercial evaluation of potential risks and rewards.

Shakedown Cruise - Nigel Calder 2018-05-01

Long before he was one of America's leading yachting writers, Nigel Calder was a novice cruiser with ambitions grander than his experience. Nigel and his partner Terrie were young and foolish, with a home-built boat that was new and untested, one child already and another on the way - but they were determined to complete an adventurous 18-month voyage from New Orleans to Venezuela and back. It was the voyage that made Calder the yachtsman he is today, a marvellous romp through the West Indies, seeing an unspoiled Caribbean, while learning hard-won lessons from direct experience - troubleshooting engines, kedging off shoals and reefs, and most importantly navigating *Nada*, a yacht that quickly became very much part of the burgeoning Calder family too. An adventure story and a colourful travelogue in one, *Shakedown Cruise* is a must-read for all who are curious about what it takes to become a cruising sailor or create an adventurous life, as well as those who are just looking to sail along with Nigel and his family.

*The Summer Sail* - Wendy Francis 2018-05-01

"A great summer read for fans of Jennifer Weiner and Emily Giffin." (Library Journal) A trio of college friends who reunite aboard a cruise ship experience an unforgettable vacation in this compelling novel from the author of *The Summer of Good Intentions*, which was hailed as "everything a summer read should be" by Elin Hilderbrand. Three college roommates are celebrating a twentieth wedding anniversary by taking a cruise to Bermuda. As the ship pulls away from the pier, everyone is looking forward to lounging by the pool, sipping sunset cocktails, and reminiscing. Abby, the mother hen of the group, will be celebrating her wedding anniversary in style, even as she and her husband keep a secret from the group. Ambitious career woman Caroline happily anticipates several stress-free days away from her magazine job with her boyfriend, Javier, who may or may not be finally inspired to propose. And single mom Lee (annoyingly gorgeous and irresistibly popular in college) hopes she'll win back the affections of her formerly sweet daughter Lacey, who after her first year in college, has inexplicably become a little bit of a monster. As the balmy pink shores of Bermuda come into view, tensions simmer, and old jealousies flare, sending the temperature from soothing to scorching in this engrossing tale of three best friends on a vacation they won't soon forget—but not for the reasons they expect.

**Graphic Design** - Stephen J. Eskilson 2019-05-21

A classic and indispensable account of graphic design history from the Industrial Revolution to the present. Now in its third edition, this acclaimed survey explores the evolution of graphic design from the 19th century to the present day. Following an exploration of design's prehistory in ancient civilizations through the Industrial Revolution, author Stephen J. Eskilson argues that modern design as we know it grew out of the influence of Victorian-age reformers. He traces the emergence of modernist design styles in the early 20th century, examining the wartime politicization of regional styles. Richly contextualized chapters chronicle the history of the Bauhaus and the rise of the International Style in the 1950s and '60s, and the postmodern movement of the 1970s and '80s. Contemporary considerations bring the third edition up to date, with discussions of app design, social media, emojis, big data visualization, and the use of animated graphics in film and television. The contemporary phenomenon of the citizen designer, professionals who address societal issues either through or in addition to their commercial work, is also addressed, highlighting protagonists like Bruce Mau and the Center for Urban Pedagogy. This edition also features 45 additional images, an expanded introduction and epilogue, and revised text throughout. A newly redesigned interior reinforces the fresh contents of this now-classic volume.
