

Mcq For Haematology With Answer

If you ally obsession such a referred **Mcq For Haematology With Answer** books that will offer you worth, acquire the no question best seller from us currently from several preferred authors. If you desire to droll books, lots of novels, tale, jokes, and more fictions collections are also launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every books collections Mcq For Haematology With Answer that we will utterly offer. It is not going on for the costs. Its not quite what you craving currently. This Mcq For Haematology With Answer , as one of the most operational sellers here will very be along with the best options to review.

Best of Five MCQs for the Acute Medicine SCE - Nigel Lane 2016-03-17

Best of Five MCQs for the Acute Medicine SCE is a new revision resource designed specifically for this high-stakes exam. Containing over 350 Best of Five multiple choice questions, this dedicated guide will help candidates to prepare

successfully. The content mirrors the SCE in Acute Medicine Blueprint to ensure candidates are fully prepared for all the topics that may appear in the exam. Topics range from how to manage acute problems in cardiology or neurology to managing acute conditions such as poisoning. All answers have full explanations

and further reading to ensure high quality self-assessment and quick recognition of areas that require further study.

QBase Anaesthesia: Volume 1, MCQs for the Anaesthesia Primary - Mark Blunt 1997

A book giving five sets of examination papers, in groups of ninety questions, mirroring the format of the Primary Examination.

500 Single Best Answers in Medicine -

Sukhpreet Singh Dubb 2011-08-26

Single Best Answer (SBA) examinations are an increasingly popular means of testing medical students and those undertaking postgraduate qualifications in a number of subject areas.

Written by a final year medical student, junior doctors and experienced clinicians, 500 Single Best Answers in Medicine provides invaluable guidance from authors who unde

MCQs in General Pathology and Haematology - Geetha 2007

This book contains over 1400 questions covering topics in general pathology and haematology,

providing stimulating material to the readers.

MCQs for the MRCP Part 1 - David W. Galvani 1999

There are plenty of MCQ books around but most combine mainstream subjects such as gastroenterology and renal medicine, which most Senior House Officers find relatively straightforward. Few MCQ books, however, focus on the subjects that many candidates find difficult those in which they are least likely to have had good clinical experience. Infectious disease, haematology and clinical chemistry are three such subjects. Candidates feel uneasy about tackling MCQs in these areas, and these questions often become the deciders leading to success or failure. This new book from Galvani et al contains 150 five-part MCQs with full answers and explanations, for these three difficult areas.

Haematology at a Glance - Atul B. Mehta 2013-11-20

Following the familiar, easy-to-use at a Glance

format, Haematology at a Glance, Fourth Edition is a broad and accessible introduction to the study of blood. Fully revised and updated to reflect advances in the field and in clinical practice, this new edition covers essential knowledge, from basic haematological physiology to blood disorders and their diagnosis and treatment. This new edition of Haematology at a Glance:

- Features expanded sections on the underlying mechanisms, diagnostic techniques and management of the malignant haematological diseases. Also incorporates recent advances in knowledge of thrombosis and the newer oral anticoagulants
- Contains the very latest clinical treatments
- Includes updated illustrations and clinical photographs to illustrate concepts and aid understanding
- Features extensive online self-assessment at www.ataglanceseries.com/haematology

This book is an invaluable resource for medical students and health professionals wanting to

consolidate and expand their knowledge of haematology.

Get Through MCEM Part A: MCQs - Diana Hulbert 2009-08-31

Designed for candidates preparing for the MCEM Part A exam, Get Through MCEM Part A: MCQs provides invaluable revision for this new exam, success in which is obligatory for entry into higher specialist training in Emergency Medicine. Over 400 practice questions are presented reflecting the format and content used in the actual exam. Useful revision tips and practical advice on the format of the exam, plus techniques for answering questions are provided to develop candidates' exam skills and build up confidence in readiness for the exam day. Three complete mock exams provide the ultimate last minute revision tool. All the answers are supported with detailed explanations to allow the candidate to assess and supplement their own level of knowledge, and target areas of weakness. Get Through MCEM Part A: MCQs is

comprehensive and authoritative: all authors are practising emergency physicians. Featuring questions that specifically address all areas of the College of Emergency Medicine's curriculum, this is the essential revision book for all candidates preparing for the Part A exam. It also provides valuable revision for trainees sitting the FCEM exam and for medical students revising for clinical exams.

Brigham Intensive Review of Internal Medicine - Ajay K. Singh 2014-07-25

Based upon the popular review course from Harvard Medical School, The Brigham Intensive Review of Internal Medicine is a comprehensive study guide for the American Board of Internal Medicine certification or maintenance of certification examination as well as for general practice review by physicians and residents. This authoritative, thorough resource provides in-depth coverage on all specialties of internal medicine, as well as palliative care, occupational medicine, psychiatry, and geriatric medicine.

Editors Ajay K. Singh and Joseph Loscalzo recruited leading authorities from Harvard as well as former chief residents at Brigham and Women's Hospital to contribute to this book. Featuring over 600 board review questions, with numerous tables and figures, chapters offer detailed discussions with emphasis on essential learning points. Over 100 chapters are organized into 10 broad sections, with one additional section dedicated to board simulation. As the required content for the American Board of Internal Medicine continues to evolve, studying can prove challenging. The Brigham Intensive Review of Internal Medicine is the ideal study guide for anyone preparing for certification or recertification.

Haematology - Mike Leach 2021-09-27
Haematology Diagnostic haematology requires the assessment of clinical and laboratory data together with a careful morphological assessment of cells in blood, bone marrow and tissue fluids. Subsequent investigations

including flow cytometry, immunohistochemistry, cytogenetics and molecular studies are guided by the original morphological findings. These targeted investigations help generate a prompt unifying diagnosis. *Haematology: From the Image to the Diagnosis* presents a series of cases illustrating how skills in morphology can guide the investigative process. In this book, the authors capture a series of images to illustrate key features to recognize when undertaking a morphological review and show how they can be integrated with supplementary information to reach a final diagnosis. Using a novel format of visual case studies, this text mimics 'real life' for the practising diagnostic haematologist - using brief clinical details and initial microscopic morphological triage to formulate a differential diagnosis and a plan for efficient and economical confirmatory investigation to deduce the correct final diagnosis. The carefully selected, high-quality photomicrographs and the clear, succinct

descriptions of key features, investigations and results will help haematologists, clinical scientists, haematology trainees and haematopathologists to make accurate diagnoses in their day-to-day work. Covering a wide range of topics, and including paediatric as well as adult cases, *Haematology: From the Image to the Diagnosis* is a succinct visual guide which will be welcomed by consultants, trainees and scientists alike.

Hematology - Peter Curt Ungaro 1982

Best of Five MCQs for the Gastroenterology

SCE - Charlotte Rutter 2013-02-28

Best of Five MCQs for the Gastroenterology SCE is the first revision guide designed specifically for this new high-stakes exam. It contains 210 best of five questions with explanatory answers, each accurately reflecting the layout of questions in the exam. The book is divided into seven subject areas, covering all the main themes of the exam, and providing a thorough

assessment of the candidate's gastroenterological knowledge. Where relevant, questions are illustrated with full colour photographs including endoscopic, radiological and histology images. Uniquely, the explanatory answers include references to guidelines and other sources to enable candidates' further reading and study.

Basic Sciences for Core Medical Training and the MRCP - Neil Herring 2015-10-29

Providing a clear explanation of the relevant medical science behind the individual medical specialties, Basic Science for Core Medical Training and the MRCP, is an indispensable part of a candidate's MRCP preparation. Directly linked to the Royal College exam, the book follows the same systems-based approach as the syllabus for accurate and effective revision. With full coverage of basic science for the medical specialities, the book features material on genetics, cellular, molecular and membrane biology, and biochemistry. Content is presented

in an illustrated and easy-to-read format, ensuring that the basic science for each medical specialty is more approachable and accessible. A focus on how the basic sciences aid understanding of clinical practice is reinforced through key tables of differential diagnoses and pharmacology. Ten multiple choice questions at the end of each chapter consolidate learning and enable candidates to test their knowledge. The book also covers common examination errors and areas of misunderstanding to aid learning and help candidates avoid common pitfalls.

Best of Five MCQS for the European Specialty Examination in Gastroenterology and Hepatology - Thomas Marjot 2021-02-05

The new edition of The Best of Five MCQS for the European Specialty Examination in Gastroenterology and Hepatology is a question book designed to assist in preparations for the ESEGH. The book has been fully updated to reflect the structure and content of the new examination introduced in 2018 and the most

recent guidelines.

Oxford Textbook of Neuroscience and Anaesthesiology - George A. Mashour
2019-01-10

The perioperative care of individuals with neurologic compromise is critically important, yet it is only one dimension of the rich relationship between anaesthesiology and the neurosciences. The mechanism of everyday therapeutic interventions such as anaesthesia and analgesia is exciting neuroscience in its own right. At the new frontier of outcomes studies lies the question of how the perioperative period might impact the brain. For example, questions related to anaesthetic neurotoxicity, delirium, and cognitive dysfunction pose critical challenges for the field. The Oxford Textbook in Neuroscience and Anaesthesiology addresses the exciting field of neuroanaesthesiology in a new and stimulating way. In twenty eight chapters, the neuroscientific basis of anaesthesiology, the full spectrum of clinical

neuroanaesthesia, and the care of neurologic patients undergoing non-neurologic surgery are explored in one comprehensive textbook for the first time. The first section considers the neural mechanisms of general anaesthetics, cerebral physiology, the neurobiology of pain, and more. The second section explores the care of patients with neurologic disease in the operating room or intensive care unit. These clinical chapters systematically treat the perioperative considerations of both brain and spine surgery, and provide introductions to neurocritical care and pediatric neuroanaesthesia. The final section outlines the care of neurologic patients undergoing non-neurologic surgery. It examines key connections of neurology and anaesthesiology, examining how conditions such as dementia, stroke, or epilepsy interface with the perioperative period. Each chapter has been carefully crafted to be concise yet highly informative, reflecting the cutting edge of neuroscience and neuroanaesthesiology. This

international textbook gathers the best available expertise of authors and leaders worldwide.

Includes access to online-only content, including more than 20 cases and more than 90 questions that can be used in presentations and teaching sessions. By activating your unique access code, you can access and use the material.

Postgraduate Review: MCQs in Hematology - Sanjeev Kumar Sharma 2021-11-30

Postgraduate Review Series: MCQs in Hematology - Sanjeev Kumar Sharma
2020-03-16

MCQs for ENT - Stuart Winter 2019-08-29
MCQs for ENT: Specialist Revision Guide for the FRCS is a key resource for candidates preparing to sit the FRCS (ORL-HNS). It contains over 300 single best answer questions and over 70 extended matching questions to help candidates prepare for all aspects of ENT they may face in this challenging exam. Written by expert

consultants who have succeeded in the exam, this resource provides comprehensive coverage of theory and practice, including new questions on challenging topics such as electroneurography and voice clinic procedures, and questions on rare topics such as oropharyngeal cancers. All answers have full explanations, providing candidates with high-quality self-assessment in order to maximize exam success. Providing a thorough assessment of the reader's ENT knowledge, this is an essential revision book for any candidate facing the FRCS ORL-HNS exam.

MCQs in Applied Basic Sciences - K. Mokbel
2012-12-06

Here is the ideal book for preparing for the new Part One of the FRCS exam. To conform to the recently introduced syllabus the questions used are now much more surgically relevant. Answers, many with explanations, are provided to make the use of the MCQs a more useful learning exercise. The book follows the format of

the examination and is split into the following sections: Anatomy (including histology, embryology and medical imaging); Physiology and Biochemistry; Clinical Pharmacology; General and Systemic Pathology; Microbiology; Clinical Immunology; Haematology.

Multiple Choice Questions for Haematology and Core Medical Trainees - Barbara J. Bain

2016-04-04

Written to help haematology and general medical trainees evaluate their own knowledge, and particularly useful for those preparing for the Part 1 examination of the Royal College of Pathologists. This exam-centered book will also be of use to core medical trainees preparing for the examinations of the Royal College of Physicians and the Royal Australasian College of Physicians and to haematology and general medicine trainees in other countries where methods of examination are similar. The 150 questions are presented in two formats, Single Best Answer and Extended Matching Question,

and comes complete with detailed feedback and, when appropriate, relevant references are given for each question so that those who select the wrong answer will understand why another answer is better. Quick reference question book, ideal for examination preparation Includes 50 SBA questions, ideal for the Part 1 and Part 2 MRCP examinations, which although having a general medical slant, are also appropriate for haematology specialist trainees Includes 70 SBA multiple choice questions appropriate for haematology specialist trainees but also useful to core medical trainees Includes 30 EMQs suitable for those taking Part 1 of the FRCPATH examination Questions come complete with fully referenced answers and discussion points This book provides an educational tool for training as well as an ideal way to prepare for examinations and is also of value to those who examine in haematology and haematopathology.

Medicine at a Glance: Core Cases - Patrick Davey 2010-11-08

Designed to support the best-selling third edition of *Medicine at a Glance* (9781405186162), *Medicine at a Glance: Core Cases* contains over 200 cases with self-assessment exercises and answers to aid understanding and test student knowledge. Following the structure of the main textbook, each chapter presents a number of clinical cases based on the textbook chapter's content. This clinical knowledge is tested by a number of multiple choice self-assessment exercises which can then be applied to practical situations on the ward. Ideal for medical students and junior doctors, *Medicine at a Glance: Core Cases* features over 200 case studies and self-assessment exercises based on the best-selling *Medicine at a Glance* (9781405186162). Follows the structure of the main textbook - each chapter presents a number of clinical cases based on the textbook chapter's content. Includes free access to the online, interactive version featuring feedback and scoring at www.ataglanceseries.com/medicine

This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from Google Play or the MedHand Store. For more information on the complete range of *at a Glance* titles, please visit: www.ataglanceseries.com
Multiple Choice Questions in Haematology - Geoffrey David Pegrum 1981

Best of Five MCQs for the Acute Medicine SCE - Nigel Lane 2016-01-28

Best of Five MCQs for the Acute Medicine SCE is a new revision resource designed specifically for this high-stakes exam. It contains over 350 Best of Five questions with explanatory answers, each accurately reflecting the layout of questions in the exam.

Acute and Critical Care Echocardiography - Claire Colebourn 2017-10-26

'Acute and Critical Care Echocardiography' is the first practical guide dedicated to helping doctors use transthoracic echocardiography to manage acutely and critically ill patients. The

text provides readers with a grounding in theoretical evidence-based aspects of critical care echocardiography. The work is mapped to the new accreditation syllabus in Advanced Critical Care Echocardiography set by the British Society of Echocardiography, ensuring that it is relevant to professional standards and teaches doctors exactly what they need to know. Self-assessment questions help readers retain what they have learned and revise for exams

Haematology - Barbara Jane Bain 2010

This textbook is written by a renowned haematologist with more than 30 years of experience in teaching haematology to medical students and whose pedagogical and writing skills are widely admired within the field.

Following closely the current curriculum of Imperial College London, medical students, trainee nurses and biomedical science students from other institutions will find the textbook equally suitable, since it includes the core student haematology curriculum as

recommended by the Royal College of Pathologists and the British Society of Haematology expert group. This text will be equally suitable for students outside the UK. The textbook takes a useful, practical approach, incorporating self-evaluation questions and learning objectives that give students not only the information needed to understand the topic but also clear indications on the core knowledge that students are required to know in order to progress within the field of haematology.

Mayo Clinic Internal Medicine Board Review Questions and Answers - Robert D.

Ficalora 2013-08-15

Companion volume to: Mayo Clinic internal medicine board review. 10th ed. c2013.

Preparing to Pass the FRCA - Caroline Whymark 2016

Preparing to Pass the FRCA: Strategies for Exam Success equips you with the skills of effective revision and time management to maximise your success. The book takes each element of the

FRCA exam and provides tips and techniques on how to approach the different types of questions, and includes worked examples with answers, so that you can undertake your revision accordingly. It will help you to target your revision so you can cover the breadth of topics in the FRCA syllabus and ensure that you structure your revision in an efficient way, as well as helping you to approach the exam and convey your knowledge through writing or speech correctly. Taking many common problems candidates face when preparing for this exam, the book covers motivation, effective studying, managing nerves, and scheduling time to study amongst other commitments.

Best of Five MCQs for the MRCP Part 1 Volume 1 - Iqbal Khan 2017-10-05

Best of Five MCQs for the MRCP Part 1 volumes 1-3 offers a comprehensive and trustworthy solution to anybody wishing to sit, pass, and excel at the Membership of the Royal College of Physicians Part 1 examination. Presented as a

unique three-volume set, each volume features 375 high-quality practice questions on each of the medical systems and specialties in alphabetical order. Volume 1 features 375 Best of Five questions on clinical sciences, clinical haematology and oncology, cardiology, and clinical pharmacology, therapeutics and toxicology. All 375 questions contain questions written and reviewed by successful candidates and previous examiners, and are accompanied by detailed explanations and further reading, ensuring complete and successful revision for this challenging exam. Matched to the latest Royal College curricula in coverage and format, this dedicated resource provides readers with an accurate, authoritative and evidence-based companion to the MRCP Part 1.

Haematology at a Glance - Atul B. Mehta
2009-04-27

This new edition continues to provide a concise and accessible introduction to haematology. It follows the easy-to-use 'at a glance' format of

double-page spreads comprising clear, memorable diagrams illustrating the key facts and essential textual information.

MRCP - Shibley Rahman 2018-12-20

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as candidates for the MRCP, this book will also be of interest to medical students and students of related health

sciences.

Hematology - S. Z. a. Zaidi 2013-09

"HEMATOLOGY - An updated review through Extended Matching Questions" is the first of its kind in the field of hematology. It offers the reader a chance to review the subject through extended matching questions and interesting supplementary information is provided along with each answer. Few selected references as suggested readings are also listed. A wide range of topics are covered in multiple sections including: General and Laboratory Hematology Themes, Hematological Oncology Themes, Hemostasis and Thrombosis Themes, Transfusion Medicine Themes, Therapeutics Themes, Management Themes, Research, Ethics and Statistical Themes. This publication was the first one to bridge the gap in the markets as EMQ books in Hematology were lacking. It has attracted wide readership across the globe from those who are interested in refreshing their knowledge in Hematology and Transfusion

Medicine, or those who are planning to appear in examinations. In this revised edition, feedback from readers and reviewers has been incorporated to enhance readers' satisfaction. New questions have been added on paraneoplastic syndromes, Rh antigen system nomenclature and related antibodies, monoclonal antibodies based targeted therapies, and supplementary information has also been updated for several chapters. This book has something for every reader! Few words about the author... Dr. Zaidi is a consultant hematologist with more than 20 years of experience in the field of Hematology (both clinical & laboratory), transfusion medicine, hematopoietic stem cell transplantation and medical teaching at undergraduate & postgraduate levels. He has moved around the world gathering this outstanding experience. He has also mentored many young physicians making their career path in Hematology. He has several presentations & peer reviewed

publications on his credit, some of which brought up novel ideas to the medical literature! Medical-Surgical Nursing at a Glance - Ian Peate 2016-01-19

Medical-Surgical Nursing at a Glance is the perfect companion for study and revision for nursing and healthcare students from the publishers of the market-leading at a Glance series. This easy-to-read, accessible guide brings together all the key principles of caring for patients with medical and surgical needs. Highly visual, each topic is covered in one two-page spread, making it easy to quickly read up on key information and grasp the essentials of the key aspects of caring for the adult patient. A clear and accessible foundation of the need to know aspects of medicine and surgery for nurses Takes a systems approach exploring nursing care of key medical and surgical conditions and disorders Covers assessment, nutrition, pain, infection control Supported by a companion website with over 300 interactive multiple

choice questions Provides need-to-know information in a quick-reference format Written from a UK perspective, with application to clinical practice A companion website is available at www.ataglanceseries.com/nursing/medsurg featuring interactive multiple choice questions Medical-Surgical Nursing at a Glance is ideal for nursing students looking for a clear and visual summary of care of the adult patient. *Essential Haematology* - Allan Victor Hoffbrand 1983

Williams Hematology, 10th Edition - Kenneth Kaushansky 2021-01-14
The landmark text that has guided generations of hematologists and related practitioners—updated with the latest research findings and improved format and presentation Long revered for its comprehensiveness and extraordinary depth of detail, *Williams Hematology* provides essential coverage of the

origins, pathophysiological mechanisms, and management of benign and malignant disorders of blood and marrow cells and coagulation proteins. The text contains a wealth of basic science and translational pathophysiology for optimal, lifelong learning. Experts in research and clinical hematology, the editors are known worldwide for their contributions to the field. This new edition contains everything that has made *Williams Hematology* the go-to resource for decades and has been updated with new chapters and critical new research into the molecular mechanisms responsible for hematological disorders and the impact on diagnosis and treatment. And the new format enables you to access each chapter via content modules covering key topics, with summaries, infographics, and cases—all linked to review questions for self-assessment. The full-color presentation integrates images of blood and tissue findings where they are cited in the text. NEW TO THIS EDITION: Updated and revised

content reflecting the latest research and developments Convenient format that streamlines the learning process and improves retention Additional chapters added on: Immune Checkpoint Inhibitors Immune Cell Therapy: Chimeric Antigen Receptor T Cell Therapy Immune Cell Therapy Dendritic Cell and Natural Killer Cell Therapy The processes of cell death and survival Application of Big Data and Deep Learning in Hematology Williams Hematology Cases with multiple-choice questions including detailed explanations—perfect preparation for the boards Continuously updated online content with comprehensive drug therapy database and other resources

MCQs in Travel Medicine - Dom Colbert
2012-12-20

MCQs in Travel Medicine contains over 600 multiple choice questions with detailed explanations which both teach and challenge the reader. In an easy-to-read format this book is ideal for practitioners in busy day-to-day

practices and those preparing for examinations in travel medicine.

Hematology - Dr Janice Higham 2019-08-23

This book provides 300 hematology MCQs divided into three practice papers. Correct answers follow, accompanied by short referenced notes drawing from recent important journal articles, major critical care textbooks and selected internet resources.

Mayo Clinic Internal Medicine Board Review Questions and Answers - Robert D. Ficalora
2013-07-08

This question-and-answer companion to Mayo Clinic Internal Medicine Board Review, 10th Edition, tests physicians and physicians-in-training on all relevant material related to the goals set forth by ABIM to ensure the success of internal medicine clinicians. By dividing each chapter according to a major subspecialty and with every question structured as a mock clinical interview, Mayo Clinic Internal Medicine Board Review: Questions and Answers is the perfect

study tool for physicians-in-training and practicing clinicians preparing themselves for board examinations in internal medicine.

Single Best Answer MCQs in Anaesthesia - Cyprian Mendonca, 2010-09-01

The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation

and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

Reasoning 500+ MCQS WITH 100% SOLUTIONS - Smart Choice

Paediatrics at a Glance - Lawrence Miall
2016-04-29

Paediatrics at a Glance provides an introduction to paediatrics and the problems encountered in child health as they present in primary, community and secondary care, from birth through to adolescence. Thoroughly updated to reflect changes in understanding of childhood illness over the last 5 years, the 4th edition of this best-selling textbook diagrammatically summarises the main differential diagnoses for each presenting symptom, while accompanying text covers important disorders and conditions

as well as management information. Paediatrics at a Glance: • Is an accessible, user-friendly guide to the entire paediatric curriculum • Features expanded coverage of psychological issues and ethics in child health • Includes more on advances in genetics, screening and therapy of childhood illness • Contains new videos of procedures and concepts on the companion website • Includes a brand new chapter on Palliative Care - an emerging area in the specialty • Features full colour artwork throughout • Includes a companion website at www.ataglanceseries.com/paediatrics featuring interactive self-assessment case studies, MCQs, videos of the procedures and concepts covered

in the book, and links to online resources Paediatrics at a Glance is the ideal companion for anyone about to start a paediatric attachment or module and will appeal to medical students, junior doctors and GP trainees as well as nursing students and other health professionals.

Examination Emergency Medicine - Garry Wilkes 2009

Covers general aspects about preparing for the Fellowship Examination, followed by information about the individual written and clinical components. Includes example questions and template answers for the written examination. Australian authors.
